## Chapter - 1

## ACCOUNTING - CONCEPTS

## Objectives :

After reading this unit we should be able to :

- Understand the definition, Objectives, functions and branches of Accounting.
- Know the users of accounting information and the accounting information system.
- Have an understanding on the advantages and limitations of accounting in addition to the principles of accounting and accounting standards.

## Structure :

### 1.1 Introduction

1.2 History of Accounting
1.3 Book Keeping and Accounting
1.4 Functions of Accounting

### 1.5 Users of Accounting Information

### 1.6 Advantages of Accounting

1.7 Limitations of Accounting
1.8 Accounting Principles

### 1.9 Accounting Standards

1.10 Questions
1.11 Suggested Readings

### 1.1 INTRODUCTION

All individuals and institutions depend on one another to satisfy their needs. To serve this purpose, they engage in exchange, which materializes into financial transactions (i.e., transactions carried out in terms of money). Business entities buy and sell goods, borrow and invest money, pay salaries to employees and incur expenses on rent and electricity, purchase land and buildings, etc. To be able to mange finances efficiently, it becomes necessary to keep track of these cash inflows and outflows.

In the past, when transactions were limited and businesses were small, everybody relied on their memory. As businesses grew in size, the entrepreneurs had to rely on something more than their memory to keep track of their business transacted during the year. They had to keep a proper and systematic
Financial Accounting 1.2 Accounting Concepts
account of the amount invested, the amount gained or lost in a year, how much they owed and how much others owed to them. Thus, accounting came into being as an aid to the entrepreneur.

### 1.1.2. Definition:

The American Institute of Certified Public Accountants defines accountancy as follows:
Accounting is the are of recording, classifying and summarizing in a significant manner and in terms of money, transactions and events which are in part at least of a financial character and interpreting the results thereof.

The above definition contains five essential characteristics of accounting. They are:
(a) Identification of financial events
(b) Recording of transactions
(c) Classification of information
(d) Summarizing the information
(e) Communication of information.

### 1.2 HISTORY OF ACOUNTING

The art of Book - keeping existed even in ancient days before the dawn of the Double Entry Book keeping method.

Financial and numerical records are found in nearly even civilization with a commercial background. Records of commercial contracts were found in the realm of Babylon. Accounts for both farms and estates were kept in Greece and Rome.

The Greeks and Romans had well - developed record keeping systems, especially for government affairs. The Emperor Augusts is said to have instituted a Government budget in A. D. 5. Some what later, inspectors from the Central Government in Rome were sent out to examine the accounts of provincial Governors. During the Middle Ages, Accounting and most other elements of learning and trade languished. With the emergence of a Barter Economy, the financial transaction that are the life blood of accounting tended to disappear. Only the church and strong monarchs maintained the earlier systems of record keeping and control. The revival of Italian Commerce in the $13^{\text {th }}$ and $14^{\text {th }}$ centuries created a need for Book - keeping. The first Double Entry systems of Book - keeping evolved during this period. There are extant sets of Double Entry records prepared in Genoa in 1340. The earliest systematic description of the Double Entry procedure was provided by Luca De Barge Piccolo in 1494. This method is known as the Italian method. It was translated into English and published in London in 1543.

Avail's treatise dealt with all the attributes of a Double Entry. It still serves as the basis for the far more complex accounting system of today. A further improvement in Book - keeping can be attributed to the industrial revolution.

#### Abstract

C.D.E. 1.3 Acharya Nagarjuna University

### 1.3 BOOK - KEEPING AND ACCOUNTING

Book - keeping is the subject which is to be studies by the students of Commerce and by book keepers and accountants. A study of this subject requires more practice and less of reading. A student of Accountancy should know the theoretical as well as the practical aspects of the subject.

First: Book - Keeping involves the chronological recording of financial transactions stage is called Book - Keeping and the second stage is Accounting.

1. Book - keeping in a set of books in a systematic manner.
2. Accounting: Accounting is concerned with the maintenance of accounts giving stress to the design of the system of records, the preparation reports based on the recorded data and the interpretation of the reports.
1.3.1 Distinction between Book - Keeping and Accounting

| Point of difference | Book - Keeping | Accounting |
| :--- | :--- | :--- |
| 1. Meaning | Book - keeping is the art of <br> recording business transactions <br> in the book of original entry and <br> posting them into ledger. | Accounting is the recording, <br> classifying and summarising, the <br> business transactions which are <br> in terms of money and interpreting <br> the results thereof. |
| 2. Responsible of a <br> person | The person who does the task <br> of Book - keeping is known as <br> "Book - keeper". | The person who summarises and <br> interprets the account is known as <br> "Accountant". |
| 3. Nature of work | Much of the work of a book - <br> keepers is of a routine and <br> clerical work. | The work of an accountant is <br> comprehensive, analytical and <br> skilful. |
| 4. Scope | The scope of Book - keeping is <br> limited to the entries of original <br> records. | It scope is wide as it includes the <br> work of Book - keeping. |
| 5. Dependence | Its work is independent. | Its work depends on the work of <br> Book - keeping |
| 7. Working | Book - keeping comes first and <br> accounting comes next. | Accountant's work starts where <br> Book - keeping. |
| 8. Special knowledge <br> posting into ledger, totaling, and <br> baland ability | In it the work of checking the <br> accuracy of the accounts. |  |
| It does not accounts are done. <br> any technical special <br> knowledge. | It requires to have a special <br> knowledge of accounting and <br> experience. |  |
| 9. Time of recording <br> transactions | In it transactions are recorded <br> on the same day when they <br> take place. | The work of accounting is done at <br> the end of the trading period. |

### 1.3.2 Meaning of Accounting:

Book - keeping is an art of keeping accounts in regular and systematic fashion. It is also termed as accountancy or accounting. Now-a-days the sphere of business has become very vast. Every trader wants to sell his commodities at a price higher than their cost and thus wants to earn profit. In business, all transactions are not necessarily made in cash but through credit also. So, it is said that 'Credit is the soul of
Financial Accounting 1.4 Accounting Concepts
business'. Every businessman has limited memory and as such he cannot remember all the transactions. To know the correct financial position of the enterprise, it becomes imperative for the businessman to record all the transactions in the book is called 'Book - keeping' or 'Accounting'.

### 1.3.3 Definition of Accounting:

Accounting may be defined as the science as well as the art of recording financial transactions under appropriate accounts.

According to Smith and Ashburne, "Accounting is a science of recording and classifying the business transactions and events, primarily of a financial character and the art of making significant summaries, analysis and interpretations of these transactions and events and communicating the results to persons who must make decisions or from judgements."

According to the American Institute of Certified Public Accountants, "Accounting is the art of recording, classifying and summarising in a significant manner and in terms of money transactions and evens which in part, at least of a financial character, and interpreting the result thereof.

Accounting can, therefore, be defined as:
Accounting is the art of recording, classifying and summarising in a significant manner and in terms of money, transactions and events which are, in part at least, of a financial character and interpreting the results thereof.

### 1.3.4 Objectives of Accounting:

The objects of accounting are manifold. These are enumerated below:
(i) To keep systematic record: The main object of accounting is to keep the record of day to day transactions in a systematic manner. At first the transactions are recorded in the journal in chronological order and then from the journal transactions are posted to the Ledger and from the Ledger. Trial balance and final Accounts are prepared.
(ii) To find out the true profit / loss: Profit is the main provocation to keep the businessman and around the business. Hence, he is always interested to find out the true profit or loss during a given period.
(iii) To know the financial position on a particular date: One can know at a glance the financial position or soundness of a business on a particular date if accounts are maintained properly.
(iv) To communicate the information to the interested parties: The object of accounting is to provide information to the interested parties i.e., owner, manager, creditors, Government etc. at regular intervals through Financial statements.
(v) To help in planning and controlling various business activities: Accounting supplies information to the manager at right time which helps him to plan the further course of action and to control the business resources by comparing the actual results with that of the pre determined standards.
C.D.E. 1.5 Acharya Nagarjuna University
(vi) To meet Legal requirement: Law compels the businessman to submit various statements such as sales tax return, income tax return, stock position etc. A business will be able to supply all those statements only if there is a proper accounting system.

### 1.3.5 Branches of Accounting:

To fulfil the various objectives, various branches of accounting have developed. The chief amongst these are the following:
(i) Financial Accounting: It is one of the branch of accounting, the object of which is to ascertain the profit or loss made during a period and to state the financial position (Balance Sheet) of the business at the end of the period.
(ii) Cost Accounting: It is one of the branch of accounting, the object of which is to ascertain the cost incurred for, carrying out the various activities and to enable management to exercise cost control.
(iii) Management Accounting: It is also one of the branch of accounting, the object of which is to supply necessary information at appropriate time to the management to enable it to take decisions and effect control.

### 1.4. FUNCTIONS OF ACCOUNTING

The main functions of accounting can be given as follows:
(i) It keeps a systematic and permanent record of all financial transactions of the business.
(ii) It keeps a record of income and expenses in such a manner so that net results of the business can be quickly known for any period.
(iii) It keeps a record of assets and liabilities in such a way that financial position of the business can be readily had at any point of time.
(iv) It protects the property of the business by designing such a system of accounting which may be helpful to achieve this purpose.
(v) It keeps a tract of all changes in the value of assets and liabilities.
(vi) It keeps a control on expenses in order to minimise the same.
(vii) It communicate the results of the business to the various categories of persons as owners, investors, creditors, employees, management, Government etc.
(viii) It provides information for meeting various legal requirement as income - tax returns, returns for sales tax etc.
(ix) It helps in making decisions concerning the acquisition use and preservation of scarce resources.
(x) It helps in devising remedial measures for the deviation of the actual performance from the planned performance.

## Financial Accounting 1.6 Accounting Concepts

### 1.5 USERS OF ACCOUNTING INFORMATION

Accounting provides information to groups of people who are directly or indirectly interested in the performance and the financial position of a business enterprise. The accounting information helps them to understand the present position of the enterprise to compare its present and past performance as well as its performance with similar enterprises. The main sources of information for external users are annual, half - yearly and quarterly reports.

The various users of accounting information are internal and external users. External users comprise of creditors, investors, government and consumers while the internal users consist of the employees and management. The purpose for which they need accounting information is discussed below.

1. Creditors: Creditors may be short - term or long - term lenders. They have to be paid at some agreed date in the future for providing goods and services on credit to the enterprise. The creditors are interested in the financial stability of a business before granting loans. This is because they have to assess whether the enterprise would be able to pay them back, and also the probability of a delay in payment.
2. Investors: Investors of an enterprise include the existing as well as future shareholders (owners). Since the shareholders are concerned with the dividends (income) that they would receive from their share in the enterprise, they are interested in knowing how well the company would perform in the future. The profit and loss account as well as the balance sheet contain all the accounting information that the investors need.
3. Government: The government's task of levying taxes and regulation of industries is facilitated if accounting information is presented in a uniform manner. The different departments of the government collect information on business activities such as levels of sales activity, profits, investment, dividend policy, and so on. This information is needed for framing various policies by the government.
4. Consumers: Consumers and the public at large are interested in the accounting information in order to appraise the efficiency of the enterprise. The public might also be interested in the social role that the enterprise plays in different sectors of the economy. For example, they may want to know the level of industrial pollution from a particular type of activity carried on by the business enterprise.
5. Management: Accounting keeps the management informed of the various activities of an enterprise. It helps the managers to plan, control and evaluate the operations of the business. They also need such information for making various decisions. However, the type of accounting information needed by managers may vary with the size of the enterprise. For example, a manufacturing unit producing a number of products in small quantities may need accounting information about the profitability of each product. On the other hand, a large company operating through a number of branches would need information about the profitability of each of its branches.
C.D.E. 1.7 Acharya Nagarjuna University
6. Employees: Employees of a business enterprise are interested in better salaries, bonus and other benefits, which in turn depend on the earnings of an enterprise. Hence, they need accounting information to know how safe their interests are in that organization. For example, the employees of an enterprise would be interested in knowing whether the enterprise is likely to survive and also if it is capable of paying increased salaries and benefits.

### 1.5.1 Types of Accounting information:

Accounting is the primary source of generating information about the day - to - day working and future planning of an organization. Most of the recording functions performed in recent times are computerized. This has been made possible due to the advancement in the field of information technology. Accounting performs the main function of communicating financial information to various groups of users to enable them to make economic decisions. Accounting reduces the mass of data into reports and statements. To simplify this process, accounting is divided into financial, cost and management accounting.

1. Financial Accounting: Financial Accounting deals with recording and analysis of business transactions that take place during an accounting period. This is required to prepare financial statements, which are crucial for achieving organizational success and financial soundness. This form of accounting relates to the past period.
2. Cost Accounting: Cost Accounting is concerned with the ascertainment of the cost of various products and services as well as cost control. This includes collecting, processing and presenting financial and quantitative data to ascertain the cost.

However, for decision - making purposes, management accounting is more useful. It provides the necessary information (qualitative and quantitative) to the management for discharging their functions. This information is required to assist the management in taking decision about the operations of a business. Management accounting draws all information from financial accounting. It also develops information that is futuristic in character and relevant for decision making.

### 1.5.2 Accounting as an information system:

In the earlier times, the accounting work was totally manual and the accounting department used to take a long time in processing transactions and producing accounting reports. The modern system of computers has eliminated the redundancy and reduced the number of people involved in the processing of accounting information. There is automatic processing of transactions from electronic vouchers to the ledger. The accounting information system is divided into the following sub - systems:
a. Cash system: This system is concerned with the actual receipt and payment of cash as well as electronic fund transfer. Electronic fund transfer is made possible by using credit cards or ebanking.
Financial Accounting 1.8 Accounting Concepts
b. Sales and accounts receivable system: This system deals with maintaining the 'Sales' ledger for credit sales and the 'receivables' ledger. This generates reports about collections made from debtors and the amount due from them.
c. Accounts payable system: This system deals with the 'credit purchase' any 'payments' ledger. It generates reports about the performance of suppliers and payments due to creditors.
d. Inventory system: This system is concerned with the recording of various items purchased and issued specifying the details of price, quantity and date. It provides the inventory position of the organization.
e. Payroll accounting system: This system deals with payment of wages and salaries to employees. It provides information about basic pay, dearness allowance and deductions made from salary and wages on account of provident funds, loans, taxes, etc. It also provides information on wage bills, overtime payment and payment on account of leave encashment, etc.
f. Fixed assets accounting system: This system includes information about purchase and sale of fixed assets. It is generated in the form of reports about the cost of depreciation and book value of different assets.
g. Costing system: this system is concerned with the ascertainment of cost of goods manufactured. The necessary information for the ascertainment of cost of raw material, labour, etc. is obtained from other systems.
h. Budget system: This system is concerned with the preparation of budget for the financial year and comparison of the current budget with the actual performance.

### 1.6. ADVANTAGES OF ACCOUNTING

Following are the advantages of accounting:

1. Facilitates preparation of final accounts: Accounting helps in maintaining systematic records. This helps to establish the net result of a transaction during a period and state the financial position of a business at a particular date. All this enables the accountant to prepare the trading and profit and loss account for a particular accounting period.
2. Used as evidence in courts: There are certain claims that are made against the firm and for the firm, in relation to outsiders. These claims can be confirmed by producing the systematic records as evidence in courts.
3. Facilitates comparison: Accounting enables the comparison of a business during a particular year with those of earlier years, and with similar other businesses. It also helps in taking corrective measures to improve the performance of a business.
4. Replaces memory: It is not possible to remember all the transactions that take place during a period. They are, therefore, recorded promptly in the books so that information is available when required.
C.D.E. 1.9 Acharya Nagarjuna University
5. Helpful to management: Accounting provides information to the management, which can be useful for making rational decisions such as being able to identify reasons for the profits earned or losses suffered. This helps in taking necessary steps to increase profits further or to prevent losses. The recording of various assets enables the management to exercise proper control over them in terms of the position of bank balance, inventories, money owed by customers, etc.
6. Helpful in tax settlement: Properly maintained accounts provide necessary information to the tax authorities, which levy customs duty, excise duty, sales and income taxes on the business. The tax authorities could be convinced about the taxable income or actual sales, as the case may be, with the help of written records. Hence, it helps in settling the tax liability of the business since the accounts reveal the profits earned or losses suffered.

### 1.7 LIMITATIONS OF ACCOUNTING

In spite of various advantages, accounting has the following limitations:

1. Ignores qualitative aspect: In accounting, only those transactions and events are recorded that are financial in nature or expressed in terms of a monetary unit. Non - monetary items that may be significant are not recorded. Hence, accounting does not give information on qualitative matters such as usefulness or efficiency of a particular transaction.
2. Ignores price level changes: Accounting information is expressed in monetary terms and its is assumed that the value of money remains stable over time. However, this does not happen. The change in prices, in many cases, is not accounted for and hence the accounting information does not show the true financial results. For example, assets like land and building remain undervalued in such cases.
3. Personal judgement: Financial statements are influenced by the personal judgement of the accountant. The financial statements may no longer be objective due to this reason.
4. Inexact information: Financial statements may not reflect the realistic position of an enterprise as some of the information is based on estimates, which may not be accurate at all times. For instance, a company may value its stocks at a higher price than the actual market price.

### 1.8. ACCOUNTING PRINCIPLES

The dictionary meaning of the term 'Principle' is a "fundamental truth implying uniformity of a acceptance everywhere." However, when applied to accounting, it gives different meanings in different contexts. It is rarely used a fundamental accounting truth. Accounting principle is a guiding influence or an accepted rule of action or conduct. In other words accounting principles are those rules of action or conduct which are adopted by the accountants universally in recording accounting transactions. Different professional bodies like Australian Society of Accountants, The Institute of Chartered Accountants in
Financial Accounting 1.10 Accounting Concepts

Australia, The Institute of Chartered Accountants in England and Wales, The American Institute of Certified Public Accountants etc. have made recommendations on accounting principles in the recent years.

Accounting principles have been developed over the years from experience, reason, usage and necessity. They are judged on their general acceptability rather than universal acceptability to the users of financial statements. Hence, they are called as generally accepted accounting principles. Accounting principles can be broadly classified into two categories:
A. Accounting Concepts
B. Accounting Conventions.

### 1.8.1 Accounting Concepts:

Concepts refer to the assumptions upon which accounting is based. The widely accepted and used concepts are discussed below:
(i) Money measurement concept: According to this concept, accounting records only those facts and events which can be expressed in monetary terms. Accounting does not record the facts which can not be expressed in terms of money so non - monetary business transactions like efficiency of the worker, bad working conditions for the workers, lack of canteen facilities etc., are not recorded in the books of accounts.
(ii) Business entity concept: According to this concept the accountant should assume that business is a person and its owner is another person. He should consider the business separate from its owner. If such distinction is not maintained the private affairs of the owner will be mixed with the affairs of the business and true profit or loss of the business can not be determined. Though in the eyes of law sole - trading and partnership business has no legal entity and only the company type of business has legal entity, the accountant should assume all types of business separate from its owner while doing accounting work.
(iii) Cost concept: This concept says that the value of assets should be recorded at the price at which they are acquired. The market value of the assets is not taken into consideration. The market price of assets may fluctuate from time to time. This is not considered while assets are recorded in the financial statements. However, in the Balance Sheet assets are recorded at cost price less usual depreciation. This concept is not applicable to record the value of closing stock in the Balance Sheet. The cost price or market price of closing stock whichever is less is taken into consideration.
(iv) Going concern concept: This concept is connected with the cost concept. Unless the going concern concept is taken into mind the cost concept bears little meaning. According to this concept the accountant should assume that the business will continue for ever and there is no end to it. Keeping this assumption in mind he will record the transactions in the books of account. The central idea of going concern concept is that as the business will not be liquidated in near future the account should not bother to know the sale - value of assets. The real worth
C.D.E. 1.11 Acharya Nagarjuna University
of the assets can be known only when the business will be sold. For this reason all the assets except closing stock are recorded at their cost price and not at the market price. As closing stock of a year is to be sold in the next year its market price in taken into consideration.
(v) Dual aspect concept: A business collects funds from the proprietor and also know outside parties. It invest those funds by purchasing various assets such as land, building, machinery etc. Thus, the fund it collects must be equal to its investment.
This can be put in the form of a formula:
Owned fund + Borrowed fund $=$ Total investment
Or
Capital + Liabilities = Assets
This concept says that at anytime capital plus liabilities must be equal to the total assets of the firm.
(vi) Accrual concept or matching concept: According to this concept the profit or loss of a business is found out lay matching the expenses and losses of the business during a period with the incomes and gains earned in that period. Here expenses means expenses incurred and paid in cash + expenses incurred but due. Similarly income means incomes earned and received + incomes earned but accrued.
(vii) Accounting period concept: The period at the end of which the profitability of business is determined, called 'Accounting Period'. Generally twelve months is taken to measure the profit or loss of a business. This twelve months may be a calendar years, or a financial year or any year like Ramnabmi to Ramnabami, Kalipuja to kalipuja etc.
Twelve months is taken to measure the profitability of a business as any twelve months cover all the seasons of a year. Further, for income tax purposes it is necessary to know the annual business income of the assessee.
(viii) Verifiable objective concept: This concept says that only those transactions are recorded in the books of account which have documentary evidences. Without documentary proof a transaction cannot be placed in the books of account. The examples of such documentary evidences are, invoices, salary register, wage bill, mustard roll, vouchers etc. On the basis of these documents the books of accounts is audited by auditors.

### 1.8.2 Accounting Conventions:

Conventions mean customs or traditions which are useful as a guide to the preparation and presentation of accounts. This include:
(a) Convention of conservatism.
(b) Convention of materiality.
(c) Convention of consistency.
(d) Convention of disclosure.
Financial Accounting $1.12 \quad$ Accounting Concepts
(a) Convention of conservatism: This is the policy of playing safe. It takes into consideration all prospective losses but leaves all prospective profits. Valuation of stock is done at market price or cost price whichever is less. Making the provision for doubtful debts and discount on or debtors in anticipation of actual bad debts and discount is an example of this conversion. The main aim of published accounts is to convey and to conceal the information.
(b) Convention of materiality: This convention says that while recording transactions, a distinction should be made between material and immaterial matters. Insignificant and minor items may be merged with some other items, For example there is no point in having separate accounts for all expenses (e.g., various items of stationery) of a business, small expenses of like nature may be combined under one general heading.
(c) Convention of consistency: The usefulness of accounting data increases manifold when it is comparable - within the business over a number of years, and outside the business with other organisations carrying on a similar business. This requires that accounting practices and methods should remain consistent over time.
(d) Convention of disclosure: Accounting records are meant for use. They must be prepared honestly, and scrupulously and no material which should be disclosed, most be withheld, otherwise, they will be incomplete and unreliable and there will be a creditability gap, full disclosure of all material facts has become particularly important in case of joint stock company in which there is separation between management and ownership. The companies Act, 1956 has taken sufficient precautions in this regard. This is in keeping with the latest trend of treating financial statements as a means of conveying and not canceling information.

### 1.9. ACCOUNTING STANDARDS

Accountancy is considered to be the language of business. There are certain norms in accounting that have to be observed by the accountants. These norms become accounting standards when a professional body makes them mandatory for recording and reporting purposes.

According to Kohler, accounting standards can be defined as: 'Accounting standards are codes of conduct imposed by customs, law or professional bodies for the benefit of public accountants and accountants generally'.

Accounting standards provide a structured framework for the preparation of financial statements. They help in standardizing the diverse accounting practices followed for many aspects of accounting.

In view of the growth of international trade and multinational corporations, the need for standardization at the international level was felt. With a view to harmonizing varying accounting policies and practices, an International Accounting Standards Committee (IASC) was formed and entrusted with the responsibility of formulating international standards. Since 1973, IASC has issued twenty - seven international accounting standards to date. Another professional body, the International Federation of Accountants of India' (a
C.D.E. 1.13 Acharya Nagarjuna University
professional accountancy body of India) established an Accounting Standards Board (ASB). Its main function was to formulate accounting standards to be issued under the authority or council of the institute. ASB gives adequate representation to all interested parties, and consists of the members of council and representatives of Banks, Company Law Board, Central Board of Direct Taxes and Controller and Auditor General of India. The main function of ASB is to formulate accounting standards. It gives due consideration to the international accounting standards issued by IASC, and tries to integrate the conditions and practices in India. It also reviews the accounting standards at periodic intervals.

### 19.1 Objectives:

Accounting standards play an important role in the field of accounting. Accounting reports prepared in accordance with the accounting standards are more reliable, uniform and consistent. The objectives of accounting standards are listed as follows.

1. To provide direction: Accounting standards are required to enable correct decision making for maintaining accounting records. In addition, standards provide guidance for action.
2. To provide uniformity: Another objective of accounting standards is to provide universality to accounting procedures.
3. To improve comparability and understandability: Accounting standards increase comparability, creditability and understandability of financial statements.

### 1.9.2 International Accounting Standards (IAS) :

Keeping in view the importance of uniform accounting standards, policies and procedures 16 accounting bodies from nine nations formed the International Accounting Standard Committee (IASC) on June 29, 1973 with its headquarters at London. Since 1983, IASC ‘s members have included all the professional accounting bodies that are members of the International Federation of Accountant (IFAC). As of January, 1996 there where 118 member bodies in 85 countries. Both the Institute of chartered Accountants of India (ICAI) and the Institute of Cost and Works Accountants of India (ICWAI) are the members of IASC.

The responsibility of IASC is to improve the quality and soundness of financial reporting in member countries all over the world. Its other responsibility is to keep the member bodies informed of the latest developments and standards by issuing exposure drafts from time to time. Looking to the objectives and aims of IASC, accountancy bodies from different countries have joined IASC to enable them to have up to date information on international accounting matters and to take guidance from these in laying down their own standards.

## Objectives of IASC :

(a) Formulate and publish accounting standards to be observed in the presentation of financial statements and to promote their world wide acceptance and observance; and
Financial Accounting 1.14 Accounting Concepts
(b) Work for the improvement and harmonisation of regulations accounting standards and procedures relating to the presentation of financial statements.

## Standards framed by Committee so far :

The committee has so far laid down standards regarding the following matters.

| IAS - 1 | Disclosure of accounting policies |
| :---: | :---: |
| IAS - 2 | Valuation and presentation of inventories |
| IAS - 3 | consolidated financial statements |
| IAS-4 | Depreciation Accounting |
| IAS - 5 | Information to be disclosed in financial statements |
| IAS - 6 | Accounting responses to changing prices |
| IAS - 7 | Statement of changes in financial position |
| IAS - 8 | Unusual and prior period items and changes in accounting policies. |
| IAS-9 | Accounting for research and developmental activities |
| IAS -10 | Contingencies and events occurring after balance sheet date |
| IAS - 11 | Accounting for construction contracts |
| IAS - 12 | Accounting for taxes on income |
| IAS - 13 | Presentation of current assets and current liabilities |
| IAS - 14 | Reporting of financial information by segments |
| IAS - 15 | Information reflecting the effects of changing prices |
| IAS - 16 | Accounting for property, plant and equipment |
| IAS - 17 | Accounting for lease |

### 1.9.3 Accounting Standards Board :

Accounting Standards Board (ASB) has been set up in India by the Council of the Institute of Chartered Accountants of India with a view to form Indian Accounting Standards. The Council was set up in April, 1977. While formulating the standards, the board attempts to harmonise the diverse accounting policies and practices in India and also takes into account the applicable laws, customs, usages and business environment in the country. While formulating the Accounting standards, ASB will give due consideration to Standards issued by IASC (International Accounting Standard Committee) and try to integrate them to the extent possible in the light of the conditions and practices prevailing in India.

To issue accounting standards authority lies with the Council, ASB has also been entrusted with the responsibility of propagating the Accounting Standards and of persuading the concerned parties to adopt them in the preparation and presentation of financial statements. ASB will issue guidance notes on Accounting Standards and give classification on issue arising therefrom ASB will also review the Accounting Standards at periodical intervals.

So far, the Accounting Standards Board (ASB) has issued the following 18 accounting standards.

| No. | Title | Applicability on or after |

## DOUBLE ENTRY SYSTEM

## Objectives :

After studying this unit we should be able to :

- Understand the meaning of Double Entry system of book keeping
- Know the advantages of double entry system
- Distinguish between Double Entry System and Single Entry System
- Understand accounting equation and Classification of Accounts

## Structure :

### 2.1 Introduction

### 2.2 Principles of Double Entry System

### 2.3 Advantages of Double Entry System

### 2.4 Single Entry System

### 2.5 Key words in Book keeping

### 2.6 Accounting Equation

### 2.7 Classification of Accounts

### 2.8 Accounting Process

### 2.9 Questions

### 2.10 Suggested Readings

### 2.1. INTRODUCTION

The double entry system of book - keeping is the only scientific system of recording business transactions. A business transactions involves exchange of value for value, or interchange of money or money's worth. When A sells goods worth Rs. 500 to $B$, he exchanges goods for money. A gets money and parts with goods. Similarly when Ram employs a typist and pays him Rs. 200 at the end of a month, this transaction involves, from his point of view, exchange of money for the services of the typist; he gives Rs. 200 and receives services. It will

| Financial Accounting | 2.2 | Double Entry System |
| :--- | :--- | :--- |

thus be seen that every business transaction involves receiving something having value and giving of something which has value. The double entry system records both the aspects of a transaction - the giving aspect and the receiving aspect. In technical language, it can be said that every transaction affects two account and, therefore, its record must be made in both the accounts. This is the principle of double entry system of book - keeping.

### 2.2. PRINCIPLES OF DOUBLE ENTRY SYSTEM

Double Entry System is the system under which each transaction is regarded to have two fold aspects and both the aspects are recorded to obtain complete record of dealings. Double entry system of book - keeping adheres to the rule, without any exception, that for each transactions the debit amount (S) must equal the credit amount (S). Every business transaction affects two accounts at one and the same time. As such we debit one account and credit another account with the same amount which represents the benefit given by one account and the same benefit is received by another account. Thus, "For every debit, there is an equivalent credit and for every credit there is an equivalent debit". So, "Every business transaction has a double aspect".

### 2.3. ADVANTAGES OF DOUBLE ENTRY SYSTEM

Double Entry System of Book - keeping has the following advantages:
(i) As both aspects - debit and credit of a transactions are recorded, it enables to keep a complete record of all business transactions.
(ii) The transactions are recorded in the most scientific and systematic manner so that the books provide the most reliable information. This enables the trader to control the business most efficiently and effectively.
(iii) Since each debit has a corresponding credit, total debit must be equal to total credit, so arithmetical accuracy can be checked by preparing a statement called "Trial Balance" as debits must equal credit.
(iv) It enables the trader to compare the figures of sales, purchases, opening and closing stocks and other expenses of one period with the similar items of the preceding period or periods and thus see how the business stands today in comparison to what it was yesterday, last month or year. The causes of fluctuations in profit or loss may also be traced.

| C.D.E. | 2.3 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

(v) There is a complete record of Nominal accounts and this enables the trader to prepare Trading and Profit \& Loss Account to find out Gross Profit or Loss and Net Profit or Loss.
(vi) With the help of Real and Personal accounts, the financial position of the business can be ascertained with accuracy, on any particular day. This is done by preparing a statement called "Balance Sheet".
(vii) Chances of frauds and errors are minimised because of its duality and equality principles.
(viii) It is easily accepted by Tax authorities, Shareholders, Partners, Public, Financiers, etc.

### 2.4. SINGLE ENTRY SYSTEM

Single Entry System may be defined as any system which is not exactly the Double Entry System. In other words, Single Entry System consists of (I) Double entry in resect of certain transactions such as cash received from debtors, cash paid to creditors, etc., (ii) Single entry in respect of certain transactions such as cash purchases, cash sales, expenses made, fixed assets purchased, etc., (iii) No entry in respect of certain transactions such as depreciation, bad debts, etc. Thus, a business is said to use the single entry system if it does not follow the principles of double entry system of book - keeping. Kohler defines single entry system as, "A system of book - keeping in which as a rule, only records of cash and of personal accounts are maintained, only records of cash and of personal accounts are maintained, it is always incomplete double entry varying with the circumstances."

### 2.4.1 Features:

The salient features of the Single Entry System can be put as follows:
(i) Maintenance of Personal Accounts: Usually, personal accounts are maintained under this system while real and nominal accounts are avoided. On account of this reason, some accountants define it as a system where only personal accounts are maintained.
(ii) Maintenance of Cash book: A cash book which usually mixes up both personal transactions and business transactions is maintained.
(iii) Dependence on original vouchers: In order to collect the necessary information, one has to depend on original vouchers. For example, the figure of credit purchases may not be readily available. It may have to be found out on the basis of original

## Financial Accounting <br> 2.4 <br> Double Entry System

invoices received from the suppliers. Similarly, the total figure of sales at the end of a particular period may have to be found out on the basis of the invoices which have been issued by the business from time to time.
(iv) No uniformity: The system may differ from firm to firm as per their individual requirements and conveniences.
(v) Suitability: The system is suitable in the case of small, proprietary or partnership concerns. Limited companies cannot adopt this system on account of legal requirements.

### 2.5. KEY WORDS IN BOOK - KEEPING

1. Account: An account denotes a summarised record of transactions pertaining to one person, one kind of asset, or one class of income or loss.
2. Assets: Properties of every description owned by a person will be called 'assets'. For example, Land and Building, Plant and Machinery, Cash Balance, Bank Balance etc.
3. Bad debts: Debts which are irrecoverable and written off from Debtors a/c as a loss are termed as "Bad Debts".
4. Casting: Casting means the totaling of the books of accounts. Casting has to be done of the ledger accounts and also of a Journal.
5. Creditor: A creditor is a person to whom we owe some - thing. He is the person to whom we have to pay.
Trade Creditor: He is a person to whom the business owes money for goods purchased on credit.
6. Capital: The dictionary meaning of the term 'Capital' is Wealth. Capital is the total amount invested in business. The Capital of a business is the claim of the owner to the business / professions.
In the accounting sense, Capital is the excess of assets over liabilities.
The equation will be : Capital = Assets - Liabilities.
7. Credit: It means an entry on the credit side of an account.

On account:
It means purchase or sale of goods or asset on credit and receipt or payment of money in part settlement of an account.
C.D.E. $\quad 2.5 \quad$ Acharya Nagarjuna University
8. Carried forward: Its abbreviation 'c/f indicates that the total amount at the foot of that page has been carried forward to the next page.
9. Debtor: Debtors is a person who owes something. He is the person who has to pay to the other person.
10. Drawings: Drawing is the total amount withdrawn by a trader from his business for meeting personal expenses. Trader becomes a debtor of business by the amount withdrawn by him from business for private purpose. The drawing may be in cash or in kind.
11. Discount: It is an allowance or a concession allowed by the receiver of benefit to the giver of benefit. It is normally allowed to the customers, debtors, retailers etc. the discount may be classified as:
(i) Cash Discount: It is an allowance made by the receiver of cash to the giver of cash who pays it. It is usually allowed by the creditor to his debtor for immediate or a prompt payment of amount due. Cash discount may be allowed in addition to Trade Discount.
(ii) Trade Discount: It is an allowance or deduction made by a manufacturer of wholesaler to a retailer or purchaser off the catalogue price or invoice price. Such allowance is usually made to the traders engaged in the same Class of trade who have to resell the goods. The main intention of allowing the discount is to allow some margin of profit to the retailer when the goods are resold by him at a price mentioned in the catalogue. The trade discount enable him to have a margin of profit after meeting all necessary expenses.
12. Debit: It means an entry on the debit side of an account.
13. Debt: The amount due from a debtor to the business is called a debt.
14. Doubtful debt: A debt whose recovery is doubtful.
15. Entry: The term entry refers to the recording of a transaction in the books of accounts. It is the prime record of a transaction in the books called journal or any other subsidiary journal. Though the term refers to entering of a transaction first time, i.e., in the journal or subsidiary journal, it is also made applicable to posting of journal entry to the ledger and is called as Ledger posting. A journal entry may be entered in the form of a combined entry.
16. Expenses: The efforts made by business to obtain revenues are termed as expenses. It is the amount spent on manufacturing and selling of goods and services.
17. Folio: It means the page number of the book of original entry or of the ledger. By writing folio i.e., page number, one can easily find out on what page the original entry is made and on what page the entry is made in the main book.

## $\begin{array}{lll}\text { Financial Accounting } 2.6 & \text { Double Entry System }\end{array}$

18. Fictitious assets: These are the value less assets. They are intangible. They cannot be sold.
19. Fixed Assets: These are the assets which are purchased to equip business.
20. Goods: Commodities in which a trader deals are called 'goods'.
21. Insolvent: A person is said to be insolvent when his liabilities are more than his assets.
22. Insolvency: When the liabilities of a firm are greater than its assets, it is referred to as insolvency indicating the inability of a business to meet all its liabilities. Such a business firm is said to be insolvent.
23. Intangible Assets: These are the assets which have no physical existence. They may have money value.
24. Journal: Journal is a book of accounts in which business transactions are first recorded. It is a book of prime entry or first entry.
25. Liabilities: Debts owed by a person are called liabilities. Liabilities represent the total amount payable to creditors. Debts arise because, goods may be purchased out but payment may not be made at the time of purchasing the goods. Therefore, the total amount payable to creditors will be the liabilities. Taxes payable to the Government are also liabilities. Similarly, expenses unpaid are also liabilities.
26. Narration: It is a brief explanation or description on to a journal entry. It is a given on the line just below the journal entry within the brackets.
27. Posting: Transactions entered in the original books of entry are also to be recorded in the ledger. An act of recording the transactions in the ledger on the basis of the entry made in the original book is called 'Posting'.
28. Purchases: The goods bought for resale or manufacture and resale are called purchases. Purchases may be classified as:
(i) Cash Purchases: When goods are purchased and payment is made immediately or on the spot, the purchases are said to be 'Cash Purchases'.
(ii) Credit Purchases: When goods are purchased and payment is postponed to some future agreed data, the purchases are said to be 'Credit Purchases'.
29. Revenue: Revenue represents the accomplishment of the enterprise. Until the company has been successful in selling its products, no revenue is realised. Revenue is the amount that adds to the capital.
30. Sales: The goods sold by a business for cash or on credit are called sales. The sales may be classified as:
C.D.E. $2.7 \quad$ Acharya Nagarjuna University
i) Cash Sales: When the goods are sold and payment is received immediately or on the spot, the sales are said to be 'Cash Sales'.
ii) Credit Sales: When goods are sold and it is agreed to receive the payment on some other future date, the sales are said to be 'Credit Sales'.
31. Solvent: A person is said to be solvent when his assets are equal to or more than his liabilities.
32. Stock: Goods unsold lying with a business on any given date are called stock. Stock at the beginning of any given period is called opening stock. Unsold goods at the end of any given period are called closing stock.
33. Transaction: A transaction is an exchange of money or money's worth between two parties. It is a dealing between two or more persons. It involves transfer of goods and services for money and money's worth between two or more person and parties. e.g. Purchases and sales of goods, for cash or on credit, cash payments, purchase and sale of assets, payment of salaries and wages etc.
34. Tangible assets: These are the assets which have physical existence and which can be sold.
35. Trade Debtor: He is a person who owes money to the business for goods supplied to him on credit.

### 2.6. ACCOUNTING EQUATION

The whole of financial accounting (i.e., recording of transactions) is based on the 'Accounting Equation'. This can be stated to be that for a business to run it needs resources. These resources have to be supplied to the business by someone. The resources possessed by the business are known as 'Assets'. To begin with, these resources are supplied by the owner of the business. The total amount supplied by the owner of the business is known as 'Capital or Owner's equity'. If the proprietor is the only one who supplies resources, i.e., assets, the following equation would hold true:

## CAPITAL = ASSETS

Normally however some of the assets of the business are provided by someone other than owner. The indebtedness of the business for these resource is known as 'Liabilities'. Thus because of legal distinction between the claims of creditors (outside liabilities) and those of
Financial Accounting $2.8 \quad$ Double Entry System
owners (ownership liabilities or owner's equity or capital), the equation can now be expressed as:

## CAPITAL + LIABILITIES = ASSETS

The two sides of the equation are always equal. On right - hand side are the resources is known as 'Liabilities'. On Left - hand side are the sources from which these resources were obtained. This equation is also known as 'Basic Accounting Equation' or 'Balance Sheet Equation'.

Loss affects both the side of the accounting equation. It reduces the capital in one side of the accounting equation. In the other side of the equation it reduces the asset i.e., cash.

The two sides of the equation are always equal. On the right - hand side are the resources possessed by the business. On the left - hand side are the sources from which these resources were obtained. So, the two sides will always be equal, no matter how many transactions are entered into. The actual assets, capital and liabilities may change, but the equality of assets (Property and rights in property) with that of liabilities (amounts owing to outsiders) and capital (amount owning to the proprietor) will always hold true under all circumstances.

### 2.6.1 Advantages of Accounting Equation:

The advantages of Accounting Equation are:
(i) Accounting equation shows the sources of funds and its application. Sources are two fold - own fund (comes from the owner), and borrowed funds (borrowing from banks and other financial institution, creditors). The funds so collected are invested on various assets such as land, building, Plant etc.
(ii) It shows owner's equity, Liabilities, and Assets. So, if two things are given the other can be found out by applying the equation.
(iii) Accounting equation reveals the success or failure of a business. If owner's equity decreases it implies failure. In the reverse case there is success.
(iv) It shows the impact of each transaction on owner's equity, Liability and Asset.
(v) Accounting equation, if presented in detail - item wise, helps to calculate various ratios such as Capital to total assets, owner's equity to total assets, Liabilities to total assets, current assets to fixed assets etc. These ratios help a lot in taking important decisions affecting a business.
The Accounting equation deals with increases and decreases in assets, liabilities, and capital. The increases and decreases in capital take place through:

1. Income and benefits which result in capital, and

| C.D.E. 2.9 | Acharya Nagarjuna University |
| :--- | :--- |

2. Expenses and losses which result in decrease in capital.

To show the effect of incomes and benefits, and expenses and losses on capital, the Accounting Equation may be expanded as follows:
Assets = Liabilities + (Capital + Income - Expenses)

This above equation is called an 'Expanded Accounting Equation' or 'Financial or Operating Equation'.

### 2.6.2 Accounting Transactions:

An account, as we understand it, is a ledger account opened in the ledger on separate pages. An account may be defined as a systematic and summarised record of transactions pertaining to one person, one property or one head of expense/ loss or gain. An account is given a suitable heading which may be of the person, property or an expense or a gain. An account is always divided into two sides. The left hand side is known as the Debit side and the right hand side is known as the Credit Side.

As stated earlier, every Account is dividend into two parts. These parts are shown by drawing a vertical line in the middle of the Account. The left - hand side is called the Debit side and the right - hand is called the credit side. To debit an account means to enter the transaction on the debit side and to credit an account means to enter the transaction on the credit side of a ledger account.

## Mr. Kashinathan 's a/c

Dr. (Left Hand side) (Right Hand side) Cr.

Every business requires the following three conditions to be fulfilled:

1. A businessman has to deal with a large number of persons.
2. He carries on business activities with the help of goods, furniture, building and various other assets.

| Financial Accounting | 2.10 | Double Entry System |
| :--- | :--- | :--- |

3. He has to incur certain expenses while carrying on his business e.g. rent, salaries, postage, travelling expenses, rates and taxes etc. He receives has income from certain sources such as interest, commission, discount etc.

Hence, in order to keep a complete record of his business transactions he has to keep the accounts of persons or firms with whom he deals. He has to keep a record of his assets and properties and the expenses, income, losses and gains.

### 2.7. CLASSIFICATION OF ACCOUNTS

The ledger accounts may be classified as under:

1. Personal Accounts
2. Impersonal Accounts.
a) Real or Property Accounts
b) Nominal or Fictitious Accounts

Thus, Accounts may be of three kinds:
i) Personal Accounts
ii) Real Accounts
iii) Nominal Accounts.

1. Personal Accounts: These are the accounts of individuals, firms, limited companies, local authorities, associations with whom the businessman deals. A separate account is maintained for every person or firm or company. These accounts may be of creditors, debtors, bankers etc. For recording transactions, these accounts are treated as "Personal Accounts".
2. Impersonal Accounts: These are the accounts which relate to other than persons. These are again divided into further two types, viz.:
a) Real Accounts: These are the accounts of properties, assets or possessions of the businessman. These accounts represent the belongings of the businessman. A separate account is maintained for each class of property or asset. Real accounts may assume the following two forms:
(i) Tangible real accounts: These accounts consists of assets and properties which can be seen, touched, felt, measured, purchased and sold.
(ii) Intangible real accounts: These accounts consists of assets and properties which cannot be seen, touched, felt but they are capable of measurement in terms of money.
C.D.E. $2.11 \quad$ Acharya Nagarjuna University
b) Nominal Accounts: These are the accounts of expenses or losses and gains or incomes. These accounts are called fictitious accounts as they do not represent any tangible asset. They exist only in name and cannot be sent or touched. A separate account is maintained for each head of expense or loss or gain or income. For example, interest account, commission account, discount account, postage and telegrams account, rent account, salaries account etc. These accounts cannot be seen, touched and hence they are unreal.

### 2.7.1 Rules of Debit and Credit:

Under Double Entry System of accounting, both the aspects of the transaction are recorded. The two aspects involve, receiving of values and giving of values of each transaction. The two aspects are distinguished in terms of Debit and Credit. 'Dr.' stands for debit and 'Cr.' Stands for credit. Every account is capable of receiving and giving values. It is debited when it receives benefit and it is credited when it gives benefit. Hence, the rule is:
"Debit the Account that receives the benefit and Credit the Account that gives the benefit".
Every transaction affects at least two accounts. When one account receives the benefit of certain value, another account gives the benefit of the same value. Hence the rule is:
"Every debit must have a corresponding credit and every credit must have corresponding debit".

While recording business transactions, the accounts are either to be debited or credited. Therefore, a book - keeper must be fully aware of the rules of debiting and crediting different types of accounts.

## 1. Personal Accounts: <br> "DEBIT THE RECEIVER AND CREDIT THE GIVER"

## For Example:

a) If cash is paid in Bank, debit the Bank Account as the bank is the receiver of the benefit.
b) If cash is received from Bombay Port Trust, credit the Bombay Port Trust Account as it is the giver of the benefit.

## 2. Real Accounts:

## ‘"DEBIT WHAT COMES IN AND CREDIT WHAT GOES OUT"

For Example:
a) When machinery is purchased, debit the Machinery Account as it comes in the business.
b) When goods are sold out, credit the Goods Account as the goods are going out.

## 3. Nominal Accounts:

## "DEBIT EXPENSES AND LOSSES AND CREDIT GAINS OR INCOMES"

For Example:
a) If rent is paid, debit Rent Accounts as it is an expense.
b) If a Bad Debt occurs, debit the Bad Debt Account as it is a loss.
c) If commission is received, credit the Commission Account as it is a gain.

### 2.7.8. ACCOUNTING PROCESS

In order to accomplish its main objective of communicating information to the users, accounting performs the following functions.
(a) Recording: It is concerned with the recording of financial transactions in an orderly manner, soon after their occurrence in the proper books of account.
(b) Classifying: It is concerned with the systematic analysis of the recorded data so as to accumulate the transactions of similar type at one place. This function is performed by maintaining the ledger in which different accounts are opened to which related transactions are posted.
(c) Summarising: It is concerned with the preparation and presentation of the classified data in a manner useful to the users. This function involves the preparation of financial statements such as Income Statement, Balance Sheet, Statement of Changes in Financial Position. Statement of Cash Flow, Statement of Value Added.
(d) Interpreting: Now a days, the aforesaid three functions are performed by electronic data processing devices and the accountant has to concentrate mainly on the interpretation aspects of accounting. The accountants should interpret the statements in a manner useful to the users, so as to enable the users to make reasoned decisions out of alternative courses of action. The accountant should explain not only what has
C.D.E. $2.13 \quad$ Acharya Nagarjuna University
happened but also (a) Why it happened, and (b) what is likely to happen under specified conditions.

### 2.7.9. Accounting Cycle:

An accounting cycle is a complete sequence beginning with the recording of the transactions and ending with the preparation of the final accounts.

1. Journal: Record the transactions and events in the Journal.
2. Ledger Posting: Transfer the transactions (recorded in the journal), in the respective accounts opened in the Ledger.
3. Balancing the accounts: Ascertain the difference between the total of debit amount column and the total of credit amount column of a ledger account.
4. Trial Balance: Prepare a list showing the balances of each and every account to verify whether the sum of the debit balances is equal to the sum of the credit balances.
5. Trading, Profit and Loss Account: Prepare Trading and profit \& Loss Account to ascertain the profit or loss for the accounting period.
6. Balance Sheet: Prepare the Balance Sheet to ascertain the financial position as the end of a accounting period.

### 2.8 QUESTIONS

## A. Short Answer Questions

1. What is Double Entry of System of Accounting?
2. What is Single Entry System?
3. What is Accounting Equation?
4. What are personal accounts?
5. What are real accounts?
6. What are nominal accounts?
7. What is Accounting cycle?

## B. Eassay Questions

1. What is Double Entry system? Distinguish between Double Entry and Single Entry System.
2. How do you classify accounts? Explain the rules of debit and credit.
3. Define Double Entry System of book-keeping? What are its advantages?
Financial Accounting 2.14 Double Entry System
4. Mention the rules for recording business transactions under accounting equation approach
5. Give an example of business transactions affecting only : (a) Assets (b) Liabilities (c) Capital
6. "Accounting equation holds goods under all circumstances." Elaborate giving at least five examples.
7. What is the effect of revenue earned and expenses incurred on the accounting equation?
8. Explain the accounting process.

3.7 Exercises

### 3.8 Suggested Readings

### 3.1 INTRODUCTION

The Double Entry system of Book - keeping provides a basic framework for analysis of business transactions. If the accounting process is to generate valuable information, the transactions which have taken place during the accounting period must be recorded in a systematic manner. The business transactions are recorded in financial books or books of accounts.

### 3.1.1 Accounting Cycle and Books of Accounts:

The process of accounting cycle consists of the following steps:
(i) Analysis of transactions from source documents
(ii) Journalising the transactions.
(iii) Ledger Posting

## Financial Accounting

(iv) Balancing of each ledger account.
(v) Preparation of a Trial Balance.
(vi) Recording of adjustment entries.
(vii) Posting of adjustment entries.
(viii) Recording of closing entries.
(ix) Preparation of financial statements.

### 3.2 JOURNAL

'Journal' is derived from the French work, "Jour" which means a day. Journal therefore, means a 'daily record'.

According to a Dictionary For Accountant written by Eric L. Kohler "A 'Journal' is the book of original entry in which are recorded transactions not provided for in specialised journals".

A Journal is a book of "Original entry" or "Primary entry". It is a book of daily record. First of all the business transactions are recorded in the "Journal" and subsequently they are posted in the ledger. In modern times, a journal is divided into various books known as "Subsidiary Books". To study "Book - Keeping" one must learn first how to journalise the transactions. To journalise the transactions means to record the two - fold effects of a transaction in terms of debit and credit. This has to be done by observing the rules of debit and credit.

### 3.2.1 Features of a Journal:

1. It is a book of prime, original or first entry.
2. It records transactions in a systematic manner.
3. It analyses the transactions into their debits and credits.
4. It is a gateway to the ledger.

### 3.2.2 Utility of Journal:

A Journal is needed for the following reasons:

1. It contains a record of various transactions that take place every day.
2. It provides a complete record of transactions as both the aspects of transactions are recorded at one place.
3. Since narration of a transaction is written in the journal, there is no need to give an explanation in the ledger.
4. It facilities cross checking of transactions.
C.D.E. $3.3 \quad$ Acharya Nagarjuna University
5. Since transactions are recorded in the Journal, there is no need to post the transactions to the ledger immediately.
6. From the legal point of view also a Journal becomes necessary. Courts recognise the journal as an evidence in approving or disapproving claims.
7. It helps to locate and prevent errors.

### 3.2.3 Ruling of Journal:

1. Date Column: In this column, the date of the transaction is written. The year is also written in the beginning of the page. Therefore, it is not necessary to write the year for each transaction as it is common for all the transactions. Generally, this column is divided into two parts namely for writing the month and the date of the transaction.
2. Particulars of Column: The 'Particulars Column' is the most important column. Before the details are written in this column, the book-keeper decides as to what accounts are affected and which account is to be debited and which account is to be credited. The account to be debited is written on the first line just near the date column. On the same line, the word "Dr" is written against the account to be debited. After that, on the second line the account to be credited is written. The name of this account should be preceded by the word "To" and while writing on the second line a little space should be left from the date column. It must be noted that the work "Cr" need not be written against the account to be credited as it is clear that if the account on the first line is shown debited the corresponding account on the next line stands credited.
3. On the third line, a brief description of the transaction is written which is known as "narration".
4. Voucher Number: In this column, serial number of the source document is written.
5. Ledger Folio: While recording the transactions nothing has to be written in this column. The journal entries are required to be posted to the debit and credit of accounts in the ledger. At that time, the page number of the ledger on which the two accounts appear are entered in this column. Usually, these page numbers are written in red ink in order to distinguish them from the amounts entered in amount columns.
6. Debit Amount Column: In this column, the amount of transaction is written against the work "Dr" in particulars column on that line.
7. Credit Amount Column: In this column, the amount of transaction is written against the name of the account credited on that line.

| Financial Accounting | 3.4 | ournal - Ledger |
| :--- | :--- | :--- |

8. In the particulars column an explanation or narration is to be given below the credit item. Such a narration should be written in between the date line and the folio line. It should not cross these two lines on either side.
9. A thin line should be drawn between each transaction across the page from the date column to the folio column immediately below the journal entry. Some space should be left after each such line so as to distinguish one entry from another.
10. At the end of each page of a journal the debit and credit amount columns are totaled up and the total of the debit and credit amount columns must be equal, as the amount debited and amount credited are equal for every transaction. These totals are carried forward to the next page.

## Notes:

In case the journal runs over several pages, the first page is totaled and the totals are carried over to the next page at the top as "Totals brought forward". This is repeated for subsequent pages. The amount of debit column must agree with the amount of credit column. Totals of amount column are never posted in the ledger.

### 3.2.4 Points to be remembered while passing Journal entries:

1. While writing the name of a person or real account or nominal account, the word "Account" should be added after the name of the account.
2. After journalising the transaction, the two columns should be totaled. The total of the debit column should be equal to the total of the credit column. The purpose is to check arithmetical accuracy.
3. When two or more transactions of the same nature occur, a combined entry may be passed.
4. The term, 'Purchase Account' should be used when goods are purchased. The term 'Sales Account' should be used when goods are sold out. Goods returned to suppliers are called Returns outwards or Purchase Returns. Goods returned by customers are called returns Inward or Sales Returns.
5. When it is not clearly stated in the problem whether the transaction is on a cash basis, it should be considered on a cash basis when the name of the party is not given. When the name of the party is given, and there is no mention of cash paid / received, it should be considered as a credit transaction.
C.D.E. 3.5 Acharya Nagarjuna University
6. Whenever expenses are paid in cash, the Expense Account concerned should be debited and the Cash Account credited, the Person's Account should not be debited.
7. Whenever income is received in cash, the Income Account concerned should be credited and a Cash Account debited. The Person's Account should not be credited.
8. When goods are purchased for cash from a party, the accounts affected will be:
(i) Purchase Account,
(ii) Cash Account.
9. When goods are sold for cash to a party, the accounts affected will be:
(i) Cash Account and
(ii) Sales Account.
10. When goods are purchased on credit, the accounts affected will be:
(i) Purchase Account and
(ii) Party's Account.
11. When goods are sold on credit, the accounts affected will be:
(i) Sales Account and
(ii) Party's Account.
12. When assets are purchased from a party on credit, the Asset Account should be debited. The Purchase Account should not be debited.
13. When assets are sold to a party, the Sales Account is not affected. The Asset Account concerned is affected.
14. Whenever any amount is paid for repairing any asset, the Asset Account is not affected. The account affected will be the Repairs Account and the Cash Account.
15. For the purpose of recording transactions it should be assumed that a proprietor is different from the business. A proprietor has a separate status. Therefore, if anything is given by the proprietor to the business, the proprietor becomes a creditor of the business, and if anything is taken by the proprietor from the business, the proprietor becomes a debtor of the business.
16. The payment of any personal expenses of the proprietor, such as an insurance premium, a medical bill, income tax, a club bill, amounts to drawings. The entry is made in the Drawings Account.
17. Any expenses incurred on the purchase of an asset affect the Asset Account and Cash Account.

Illu. 1 : Journalise the following transactions:
2006
Jan 1 Commenced business with a capital of Rs.4,50,000
4 Opened current account with SBI Rs.1,50,000
7 Purchased furniture for Rs.50,000 through cheque.
10 Cash purchases Rs. 15,000
12 Goods distributed by way of Free Samples Rs.5,000
15 Goods purchased from X Rs.20,000
20 Paid to $X$ in full settlement Rs. 19,000
24 Commission received Rs.2,500

## Solution :

## Journal Entries

| Date | Particulars |  | L.F. | Debit <br> Rs. | Credit <br> Rs. |

## Composite Entries:

Sometimes two or more transactions of the same nature may take place on the same date. Instead of making a separate entry for each such transaction it is proper to combine them and give a combined entry. Such entry of recording a number of transactions is them and give a combined entry. Such entry of recording a number of transactions is termed as Compound Journal Entry. In case of compound entry the total of all debits should be equal to the total of all credits. The compound entry may be recorded in any of the following three ways.
i. One account may be debited, while several other accounts may be credited.
ii. One account may be credited, while several other accounts may be debited.
iii. Several accounts may be debited and several accounts may also be credited.

Illu .7: Journalise the following transactions.
a. Rao starts business with Rs.10,000 cash and a building worth Rs.50,000
b. Purchased goods worth Rs. 20,000 out of which goods worth Rs.12,000 was on credit from Shyam.
c. Sold goods on credit worth Rs.16,000 to Ram.
d. Received Rs. 15,600 from Ram in full settlement of his account.
e. Paid Rs.11,800 to Shyam in full settlement of Rs.12,000 due to him.
f. Paid wages Rs. 500 and salaries Rs.2,000

## Solution :

Journal Entries

### 3.3LEDGER

### 3.3.1 Meaning fa Ledger:

C.D.E. $3.15 \quad$ Acharya Nagarjuna University

A Ledger is the principal book of accounts. A Journal is meant for passing the entries of business transactions. It facilitates posting of transactions to respective ledger accounts. All the entries made in the journal must be posted into the Ledger. The Ledger is a book containing many ledger accounts. The term 'Ledger' is derived from the Dutch work 'Legger' which means to lie. Ledger therefore, means a book where the various accounts lie. The definition of 'ledger' as given in the Encyclo - paedia is as under:
"A group of accounts is known as a Ledger. The general Ledger is the main book of accounts; it contains an account for each asset, liability, proprietorship, revenue and expense account. The Ledger contains the same information as the journal. However, in the journal each transaction is completely recorded as a unit. The entire effect of a transaction is completely recorded in one place in the Journal. Periodically the same information is posted to the Ledger where it is accumulated according to individual items. The Ledger where it is accumulated includes all the basic accounts needed for the preparation of the financial statements". The number of ledger accounts depends upon the number of transactions.

A businessman cannot get information about the business transactions from the Journal. For example, the amount receivable from debtors, the amount payable to creditors, total payments on any head of expenditure etc. In order to get information about the above, a ledger has to be maintained. While transferring the transactions from the Journal to the Ledger, the transactions are classified. For each person, head of income, head of expenditure, asset, etc. separate accounts are opened in the Ledger book.

In conclusion, the ledger helps to achieve the following results:
a) All personal accounts would show how much money is payable to creditors and receivable from debtors.
b) The real accounts would show the value of assets and properties.
c) The nominal accounts would show the sources of income and the amount spent on various heads of expenses.

## Features of a Ledger.

1. It is a derived or secondary record
2. It is a book of final entry
3. It is a king of books of accounts.
Financial Accounting $3.16 \quad$ ournal - Ledger

## Nature of a Ledger:

A Ledger is a bound book. It contains many pages which are called folios. These pages are consecutively numbered. For each account a separate page is kept. Every ledger has an index. It is generally an alphabetic index. One page is allotted for each alphabet. All the accounts commencing with that particular alphabet are indicated on that particular page only. The page number on which that particular account appears is shown against the account in the Index. This facilitates immediate reference.

### 3.3.2 Standard Form of Ledger Account:

Each ledger account is divided into two sides, having columns of varying sizes. The left had side is known as "Dr" side and the right hand side is known as "Cr" side of a Ledger account. The columns "Date", "Particulars", "J. F", "Amount" appear on both the sides of a ledger account. A specimen "T" form of a ledger account is as follows:

| Date | Particulars | J. F. | Amt. <br> Rs. | Date | Particulars | J. F. | Amt. <br> Rs. |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Year <br> Month | To Name of Account <br> credited |  |  | Year <br> Month | By Name of Account <br> Debited |  |  |

## Running Balance form of Ledger Account:

An alternative form of a ledger which is generally adopted by commercial banks and some other business houses, is the running balance form. The entire ledger is divided into six columns viz.

1. Date;
2. Dr. Amount;
3. Particulars;
4. Cr. Amount; and
5. Folio;
6. Balance.

The specimen form is as under:

## Name of Account

Dr.

| Date | Particulars | Folio | Dr. Amount <br> Rs. | Cr. Amount <br> Rs. | Balance <br> Rs. |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |

## C.D.E. 3.17 Acharya Nagarjuna University

## Explanation:

1. Date column is used to show the date of the transaction.
2. Particulars column is used to write the names of the accounts debited or credited.
3. Folio column is used to show the page number of the journal on which the transaction is recorded.
4. Dr. Amount column shows the amount of the account debited.
5. Cr. Amount shows the amount of the account credited.
6. Balance column shows the new balance each time.

### 3.4 LEDGER POSTING

After the transaction has been analysed into its debit and credit elements in a journal, each such debit or credit element must be transferred to the respective ledger accounts. The process of transfer of entries from Journal to Ledger account is called "Posting" or "Ledger Posting".

Posting may be made immediately after the entry has been passed or any convenient time.

## 3,.4.1. Importance of Posting:

Posting is very important as it furnishes the results of all the transactions relating to a particular person or service. After posting one can understand the position of an account at a glance.

## The Posting Process:

1. Date Column: Write date of the transaction as recorded in the journal.
2. Particulars Column:

On Debit Side : Write Name of the Credited Account in the Journal entry after the Word "To".

On Credit Side : Write name of the 'Debited Account in the Journal entry after the Word "By".
3. J. F. Column: Write page number of the journal from where the entry is posted.
4. Amount Column: Write the amount in the debit column of the journal on the debit side and the amount in the credit column of the journal, on the credit side.

## 3,4.2 Points to be noted while preparing ledger accounts:

Financial Accounting $3.18 \quad$ ournal - Ledger

1. A separate account is opened in the ledger for every account entered in the journal.
2. All the transactions relating to a particular account should be recorded in the account already opened. No new account of the same name should be opened in the ledger.
3. The name of the account should be recorded in bold letters at the centre of each account.
4. The word "Dr" should be written at the left hand top corner of each account. The work "Cr" should be written at the right hand to corner of each account.
5. Journal entries should be posted to the ledger in order of dates.
6. Every entry on the debit side of an account should begin with the word, "To". Every entry on the credit side of an account should begin with the word "by".
7. The account which is debited in the Journal should be posted on the debit side of the respective account. The account which is credited in the journal should be posted to the credit side of the respective account.
8. While posting on the debit side of a ledger account, the account credited in the journal should be written on the debit side in the particulars column and while posting on the credit side of a ledger account, the account debited in the Journal should be written on the credit side of a ledger account in the particulars column.
9. The page number of the Journal from where posting is made should be entered in the J. F. column against the entry.
10. Every ledger account should be balanced periodically as required by the business concern.

### 3.4.3 Balancing an Account:

At the end of a certain period, the accounts are balanced. The following steps should be taken in balancing an account:

1. Make a total of both the sides of a ledger account. This may be done on a rough sheet.
2. Compute the difference between the totals of both the sides.
3. Put the difference on the lighter side of an account, by writing against it in "Particular" column as "By Balance c/d" or "To Balance c/d" as the case may be. If the debit side is heavier the difference will appear on the credit side as "By Balance c/d" and if the credit side is heavier, the difference will appear on the debit side of an account as, "To Balance c/d".
4. Make the total of both sides. The total of the debit side will now agree with the total of the credit side of an account. While making the totals, it should be remembered that totals of both the sides should appear against each other on the same line.
5. Draw a single line before making the totals.
6. Draw a double line across the amount column after the totals are made.
C.D.E. $3.19 \quad$ Acharya Nagarjuna University
7. Bring down the balance on the opposite side of the account. That means, "To Balance $\mathrm{c} / \mathrm{d}$ " is brought down on the credit side below the totals in the particular columns as "By Balance $\mathrm{b} / \mathrm{d}$ " and "By Balance $\mathrm{c} / \mathrm{d}$ ", is brought down on the debit side of the account in the "particulars" column below the total as, "To Balance b/d".

### 3.4.4 Process of Balancing Ledger Accounts:

After balancing, some of the ledger accounts show debit balances and some of them show credit balances. If the total of the debit side of an account is heavier than the total of the credit side of that account, it is said to have a debit balance. And if the total of the debit side of that account is less than the total of the credit side, such an account is said to have a credit balance. A debit balance of a personal account means a debtor. A debit balance of a real account means an asset or property and a debit balance of a nominal account means an asset or property and a debit balance of a nominal account means expense or loss. A credit balance of a personal account or real account means a liability. A credit balance of a nominal account represents income or gain.

Nominal accounts are balanced at the end of the year. Their balances are not carried down to next year / next period. They are directly transferred to the Profit and Loss Account.

### 3.4.5 Balancing of Goods Account:

If all the goods purchased are sold out, that means no stock remained unsold, the balance of the Goods Account will show either a profit or loss. A debit balance on Goods Account means a loss and credit balance on Goods Account means a profit.

If all the goods purchased are not sold out fully, that means there is a stock of goods remaining unsold at the end of the year, the amount of such stock should be placed on the credit side of a Goods Account and it should then be balanced. A credit balance on a Goods Account represents a profit.

### 3.4.6 Why Balancing of Ledger Accounts?

The purpose of balancing ledger accounts vary according to the types of accounts.

1. Personal Accounts: These accounts are balanced for finding out whether a person is a debtor or a creditor. A debit balance on a personal account indicates that the person is our
Financial Accounting $3.20 \quad$ ournal - Ledger
debtor. A credit balance on a personal account indicates that the person is our creditor. A zero balance on personal account indicates that the account has been closed. It means the person is neither debtor nor creditor of the firm. At the end of the year the total debtors and total creditors are ascertained by balancing personal accounts.

## 2. Real Accounts:

a) Cash Account: The purpose is to find out cash at hand. Cash Account will always have a debit balance or no balance. It can never have a credit balance. But Bank Account may have a credit balance.
b) Goods Account: The purpose is to be find out total sales, total purchases, total returns etc. In the case of Goods Account like Sales Account, Purchase Returns Account, there is a credit balance. Purchase Account and Sales Returns Account will have a debit balance.
c) Other Real Accounts: The purpose is to find out the value of each property on a particular date.

Real Accounts will generally have a debit balance. The debit balance shows the value of property in possession, a credit balance shows profit on disposal of property.
3. Nominal Accounts: The purpose is to find out the total amount spent on each type of expenditure, and the total amount of income earned from various sources.

A debit balance in a Nominal Account signifies a loss or an expense. A credit balance in a Nominal Account signifies an income or a gain. A zero balance in the account shows that income or gain is equal to expense or loss.

### 3.4.7 Distinction between Books of Journal and Ledger:

Books of Journal and Ledger can be distinguished as follows:

| Basis of Distinction | Books of Journal | Ledger |
| :--- | :--- | :--- |
| 1. State of Recording | Recording of entries in these <br> books is the first stage. | Recording of entries in the <br> ledger is the second stage. |
| 2. Net effect of various | These books do not help to | A ledger helps to know the |

| C.D.E. | 3.21 Acharya Nagarjuna University |  |
| :---: | :---: | :---: |
| transactions | know the net effect of the various transactions affecting a particular account. | net effect of the various transactions affecting a particular account. |
| 3. Format | In the journal, there is one column for particulars and two columns for amounts one for debit and an other for credit. Special journals (except Cash Book) have only one column of amount. | In the ledger, there are two equally divided sides having identical columns. The left side is known as debit and the right side is known as credit. |
| 4. Balancing | In the books of Journal (except Cash Book) balancing is not done. | In the ledger, all the accounts (except nominal accounts) are balanced. |
| 5. Next stage of accounting process | From the books of Journal, entries are transferred to the ledger. | From the ledger, first the trial balance is drawn and then financial statements are prepared. |
| 6. Name of the process of recording entries | The process of recording entries in these books is called "Journalising". | The process of recording entries in the ledger is called 'posting'. |

Illu 8: Enter the following transactions of Krishna's a/c and bring down the balance.

|  |  | Rs. |
| :--- | :--- | :--- |
| 2005 |  |  |
| Jan 1 | Sold goods to Krishna | 1,000 |
| 3 | Purchased goods from Krishna | 1,400 |
| 10 | Paid cash to Krishna | 1,200 |
| 15 | Sold goods to Krishna | 400 |
| 25 | Received cash from Krishna | 2,400 |

## Solution :

## Krishna 's A/c

Dr.
Cr.

| Date | Particulars | L.F | Amount <br> Rs. | Date | Particulars | L. <br> F | Amount <br> Rs. |

| :---: | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| 10 | To Cash |  | 1,200 | 25 | By Cash |  | 2,400 |
| 15 | To Sales |  | 400 |  |  |  |  |
| 31 | To Balance c/d |  | 1,200 |  |  |  |  |
|  |  |  | $\mathbf{3 , 8 0 0}$ |  |  | $\mathbf{3 , 8 0 0}$ |  |
|  |  |  |  | Feb 1 | By Balance b/d | 1,200 |  |

### 3.5 TRIAL BALANCE

After posting the transactions to respective ledger accounts they are balanced and then a Trial Balance is drawn. A Trial Balance is a statement which shows the list of accounts showing debit balances and list of accounts showing credit balances. If double entry principles are strictly followed the total of all the debit balances must agree with the total of all the credit balance. The Trial Balance is prepared as under:

## Trial Balance as on.......

| Debit balance | Amount <br> Rs. | Credit balance | Amount <br> Rs. |
| :--- | :--- | :--- | :--- |
| All real accounts | XX | All accounts of incomes \& gains | XX |
|  <br> losses | XX | All personal accounts showing <br> credit balances | XX |
| All personal accounts showing <br> debit balances | XX |  | XX |
| Total Rs. | XX | Total Rs. |  |

Illu. 9 : Journalise the following transactions in a journal, post them to the ledger accounts and prepare trail balance.

### 3.6 QUESTIONS

## A. Short Answer Questions :

1. What is Journal
2. What is a compound entry?
3. What is a Ledger?
4. What is a Trial Balance?
5. Give a format of a journal and briefly explain its contents
6. Enumerate any five utilities of ledger
B. Eassy Type Questions :
7. Explain the procedure of posting
8. Explain the procedure for balancing a ledger account
9. Explain the methods of preparing a trial balance.
10. Distinguish between Journal and Ledger.

### 3.7 EXERCISES

1. Journalise the following transactions.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| :--- | :--- | :--- |
| August 1 | Shri Rajan invested to business | 20,000 |
| 2 | Opened an account with the bank of India by depositing cash | 10,000 |
| 3 | Purchased goods for cash | 500 |
| 4 | Purchased machinery for cash | 800 |
| 5 | Cash purchases of goods | 300 |
| 6 | Cash sales | 900 |
| 15 | Withdraw cash for personal use | 200 |

| C.D.E. | 3.29 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

| 16 | Purchased goods from Preetam \& Sons on credit | 600 |
| :--- | :--- | :--- |
| 25 | Received cash on account from Ramanand | 350 |
| 26 | Paid cash to Minakshi Bros | 250 |
| 29 | Paid rent | 125 |
| 30 | Received Commission | 175 |
| 30 | M/s Ram \& Sons returned goods | 100 |

2. Journalise the following transactions in the books of Sudhir Kumar

| $\mathbf{2 0 0 6}$ |  | Rs. |
| :--- | :--- | :--- |
| Jan. $\mathbf{1}$ | Sudhir commenced business with cash | 40,000 |
| 3 | Purchased goods for cash | 500 |
| 5 | Sold goods for cash | 300 |
| 6 | Purchased one motor car for cash | 15,000 |
| 9 | Sold machinery for cash | 9,000 |
| 11 | Purchased a building on credit from Narendra | 20,000 |
| 15 | Sold furniture on credit to Randhir Kapoor | 9,500 |
| 17 | Paid Cartage | 110 |
| 22 | Received Commission | 50 |
| 27 | Cash Sales | 1,200 |
| 29 | Cash Purchases | 600 |
| 30 | Received on account from Ahmed | 350 |
| 31 | Paid cash to Sunit kumar on account | 190 |

3. Pass Journal entries of the following transactions in the books of Rajesh.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| :--- | :--- | :--- |
| July $\mathbf{1}$ | Rajesh commenced business with cash | 16,000 |
| 3 | He bought goods as his capital in beginning | 4,000 |
| 7 | Sold goods to Dinesh on credit | 6,500 |
| 8 | Purchased a horse for cash | 3,100 |
| $\mathbf{1 7}$ | Ramesh's a/c which is over due is closed as the amount is not <br> recoverable | 700 |

| 20 | Goods burnt by fire | 390 |
| :--- | :--- | :--- |
| 21 | Received cash on account from Dinesh | 3,300 |
| 25 | Goods distributed as free samples | 325 |

4. Journalise the following transactions in the books of Ram. Post them in the ledger and balance the various accounts opened in the ledger.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| :--- | :--- | :--- |
| April 2 | Ram started his business with cash | 70,000 |
| 3 | Deposited into bank | 50,000 |
| 4 | Purchased goods for cash from Mr. X | 5,000 |
| 5 | Bought goods on credit from Mr. Y | 6,000 |
| 6 | Returned goods to Y | 1,000 |
| 10 | Sold goods for cash for to Mr .A. | 6,000 |
| 15 | Sold goods to Mr. B | 6,000 |
| 16 | Mr. B Returned goods | 1,000 |
| 17 | Drew from bank for personal use | 5,000 |
| 25 | Paid to Mr. Y in full settlement by cheque | 4,800 |
| 26 | Received a cheque from Mr. B in full settlement | 4,900 |
| 27 | Drew cash from bank for office use | 10,000 |
| 30 | Drew cash for personal purposes | 5,000 |
| 30 | Paid salaries to staff | 5,000 |
| 30 | Issued a cheque for Rs.3,000 in favour of Sri Devi a landlady <br> towards rent for April |  |
| 30 | Withdrew goods for private use | 1,000 |

5. Journalise the following transactions in the books of Mr. X Post them in the ledger and balance the various accounts opened in the ledger also prepare Trial balance.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| :--- | :--- | :--- |
| April $\mathbf{1}$ | Mr. X Commenced business with cash | 80,000 |
| 4 | Purchased furniture | 22,000 |
| 5 | Bought goods for cash from Mr. Y | 24,000 |
| 8 | Purchased goods from Mr. Z | 40,000 |

C.D.E. $3.31 \quad$ Acharya Nagarjuna University

| 12 | Sold goods on credit to Mr.A | 10,400 |
| :--- | :--- | :--- |
| 16 | Received from Mr.A on account | 4,800 |
| 20 | Sold goods for cash to Mr. B | 5,200 |
| 21 | Paid to Mr. Z on account | 12,000 |
| 27 | Withdrew cash for personal use | 500 |
| 28 | Brought in further capital | 10,000 |
| 29 | Paid to Mr. Z on account | 16,000 |

## Chapter-4

## SUBSIDIAY BOOKS

## Objectives :

After going to this unit we should be able to

- Know about various types of subsidiary books
- Prepare various types of subsidiary books

## Structure :

### 4.1 Introduction

4.2 Advantages of Subsidiary Books
4.3 Purchases Book

### 4.4 Sales Book

4.5 Journal Proper

### 4.6 Questions

### 4.7 Exercises

### 4.8 Suggested Readings

### 4.1. INTRODUCTION

In earlier times, businessmen used only one Journal for recording all the business transactions. Since the volume of business was small, and the number of transactions very few, "Journal" as a book of accounts was convenient. But with the growth of business, the number of transactions increased manifold and the need was felt to have a better method of recording business transactions. If all these business transactions were recorded in one and the same Journal, the journal would be bulky and cumbersome. It would be very difficult to make a ready reference to such a Journal. Moreover, it is impossible for many clerks to work on the same Journal at one and the same time. Under such circumstances, it becomes necessary to divide the whole Journal into several subsidiary Journals so that work can be assigned to many at one and the same time. In each separate journal, one particular class of business transactions is recorded. That means the purchase Journal may be maintained to record credit purchases of

| Financial Accounting | 4.2 | Subsidiary Books |
| :--- | :--- | :--- |

goods and a Cash Book for recording cash transactions. Instead of recording all the transactions in one and the same journal, they are recorded in separate journals meant for the purpose.

Therefore, in order to meet the requirements of modern business, the original journal is divided into the following:

1. Purchase Book
2. Sales Book
3. Purchase Return Book (Return Outward Book)
4. Sales Return Book (Return Inward Book)
5. Cash Book
6. Bills Receivable Book
7. Bills Payable Book
8. Journal Proper

The chart given below indicates the different types of subsidiary books or journals and the category of business transactions recorded in them:

## Subsidiary Books (Sub- Division of Journal)

|  | Subsidiary Book / <br> Subsidiary Journal | Category of Business Transactions <br> Recorded |
| :--- | :--- | :--- |
| 1. | Purchase Book | Credit Purchases of goods only. |
| 2. | Sales Book | Credit Sales of goods only. |
| 3. | Purchase Return Book (Return <br> Outward Book) | All return of goods purchased by us from <br> suppliers i.e. Return Outwards. |
| 4. | Sales Return Book (Return Inward <br> Book) | All return of goods sold by us to customers <br> i.e. Return Inwards. |
| 5. | Cash Book | All cash and Bank transactions. |
| 6. | Bills Receivable Book | All Bills received by us. |
| 7. | Bills Payable Books | All bills accepted by us. |
| 8. | Journal Proper | All such transactions which cannot be <br> entered in the above seven books. <br> (Recorded in the form of journal entries) |

### 4.2 ADVANTAGES OF SUBSIDIARY BOOKS

The advantages of using Special Journals are as under:
(a) Facilitates division of work: The accounting work can be divided among many persons.
(b) Permits the installation of internal check system: The accounting work can be divided in such a manner that the work of one person is automatically checked by another person. With the use of internal check, the possibility of occurrence of error/fraud may be avoided.
(c) Permits the use of specialised skill: The accounting work requiring specialised skill may be assigned to a person possessing the required skill. With the use of a specialised skill, prompt, economical and more accurate supply of accounting information may be obtained.
(d) Time and labour saving in journalising and posting: For instance, when Sales Book is kept, the name of Sales Account will not be required to be written down in the journal as many times as the sales transactions and at the same time, Sales Account will not be required to be posted again and again since only a periodic total of Sales Book is posted to the Sales Account.

### 4.3 PURCHASE BOOK

This book is maintained mainly to record purchase in business. But here care must be exercised before entering the purchase transactions in this book. Only credit purchases are to be recorded in this book. Credit purchases means the purchase of goods without making payment on the spot. Such purchases are known as credit purchases. Purchases of goods on credit in which the trader deals is recorded in this journal. For example, if a Cloth Merchant has purchased cloth on a credit basis, that will be recorded in the Purchase Book. But if he has purchased furniture on credit, it will not appear in the Purchase Book since it is a purchase of an asset.

The entries in the purchases book are made on the basis of invoices received from the suppliers with the amounts net of trade discount / quantity discount. Trade discount is a reduction granted by a supplier from the list price of goods or services on business considerations (such as quantity bought, trade practice, etc.) other than for prompt payment.

| Financial Accounting | 4.4 | Subsidiary Books |
| :--- | :--- | :--- |

Formate of Purchase Book:

| Date | Particulars | L.F. | Inward <br> Invoice No, | Details | Amount <br> Rs. | Amount <br> Rs. |
| :--- | :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |  |

### 4.3.1 Explanation of Columns:

1. Date: Date of purchases is written in this column.
2. Particulars: In this column, the names of the suppliers are entered. There is no need to write the address of the supplier since it appears, on the Invoice itself.
3. L. F.: Page number of the "Ledger", on which the account of the supplier appears, is entered in this column.
4. Inward Invoice No: All inward invoices are filed properly, and the consecutive number of the Invoice is shown in this column.
5. Details: The value of goods purchased and amount of trade discount are written.
6. Amount: The net amount of purchases is entered in this column. Only the amount after deducting trade discount is recorded here.

### 4.3.2 INVOICE:

## Specimen of an Inward Invoice

## INVOICE

No. 786 / 90

## C.D.E.

4.5

Acharya Nagarjuna University
The invoice is the basis of writing a Purchase Book. Transactions are recorded in the Purchase Book from the Invoices received from the suppliers. Hence it is necessary to know about Invoices.

An invoice is a statement sent by the Seller to the buyer giving a full description of the goods supplied.

All the invoices received are property arranged and consecutively numbered. They are filed in a proper file and then the purchase transactions are recorded in the Purchase Book.

When the trader receives such an invoice, he has to verify whether the goods are received as per the details given in the invoice in regard to quantity, quality etc. He also checks whether the calculations are made correctly. If the invoice is found to be correct in all respects it is given a serial number and after an entry is made in the purchase book, it is filed. All such invoices received are called Inward invoices.

### 4.3.3 Trade Discount:

Trade Discount is a reduction made in the catalogue price of an article to enable the retailer to earn a profit. Generally, it is recorded in the Purchase Book and Sales Book but it does not enter in the ledger accounts. In the ledger, only net amount of purchase and sale are entered.

## Illu 1: Enter the following in the Purchase Book also post them into ledger.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| :---: | :--- | ---: |
| Aug 10 | Bought goods from Murali Mohan | 5,000 |
| Aug 15 | Bought goods from Ranga Rao | 4,000 |
| Aug 20 | Purchased goods from Gopal | 8,000 |
| Aug 25 | Purchased goods from Harikrishna for cash | 10,000 |
| Aug 31 | Purchased goods from Kavitha | 6,000 |

## Solution :

## Purchases Book

| Date | Particulars | Invoice No. | L. F. | Amount Rs. |
| :---: | :--- | :--- | :--- | ---: |
| 2006 |  |  |  |  |
| Aug 10 | Murali Mohan |  |  | 5,000 |
| 15 | Rama Rao |  |  | 4,000 |
| 20 | Gopal |  |  | 8,000 |

| Financial Accounting | 4.6 | Subsidiary Books |  |
| :---: | :--- | :--- | :--- | ---: |
| 31 Kavitha    <br> Aug 31 Purchases a/c Dr.  6,000 |  |  |  |

## Note:

1. Purchases Book deals only with credit purchases. As such purchase of goods from Hari Krishna for cash is not entered in this book.

### 4.4 SALES BOOK

A separate book is maintained to record all credit sales. The manner of recording sales in this Book is the same as in the case of the Purchase Book. The book is also known as the Sales Day Book or Sales Journal. The rulings of this book and other principles are almost identical with those of the Purchase Book.

Before entering the transactions in the Sales Book, it should be seen that the transaction satisfies the below mentioned two conditions:

1. It is a sale of articles on credit basis.
2. It is a sale of articles in which a businessman deals.

Sales of goods on a cash basis or the sale of an asset on a Cash / Credit basis cannot be entered in the Sales Book. Supposing a merchant dealing in radios, sells radios on credit, that will be entered in the sales book. But if he sells a Typewriter that being the sale of an asset on credit, will not be entered in the Sales Book:

### 4.4.1 Procedure for Writing - up the Sales Day Book

When goods are sold on credit, an outward invoice is prepared for every credit sale and are checked as to quality, quantity and price of the goods before thy are dispatched to the customers. The duplicate copy of the invoice remains with the firm and the original copy is sent to the customer. Sales Day Book is written - up on the basis of duplicate outward invoice.

## INVOICE

No. P. 29
Date: $9^{\text {th }}$ June 1991
Jeenath Co. Ltd.
31, Jawaharlal Nehru Road
Hyderabad.
Customer' Name Allwin Co. Ltd.
Hyderabad

| Qty. | Description | Rate | Amount | Total <br> (Rs) | Remarks |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  |  |  |  |  |  |

E \& O. E.

The invoice contains the following details:
(i) The names and addresses of both the parties to the contract.
(ii) An exact description of the goods, including the quantity, rate and total value of the goods sold.
(iii) The terms and conditions of sales (on the overleaf).

E \& O. E. means Errors and Omissions Excepted. The market reserves the right to correct any error in the invoice.
The ruling of the Sales Day Book is given below:

Sales Day Book

| Date | Particulars | Outward <br> Invoice No. | L. F. | Debit Rs. | Credit Rs. |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |

(i) In the "Date" column, the date on which invoice is prepared is entered.
(ii) In the "Particulars" column, the names of the customers are recorded. A brief description of each of article sold are also written in this column.

| Financial Accounting | 4.8 | Subsidiary Books |
| :--- | :--- | :--- |

(iii) In the "Outward Invoice No." column, the serial no. of Outward Invoice is written.
(iv) In the "L. F." column, the page no. of the Debtors' account in the Debtors' Ledger is written.
(v) In the "Details" column, the value of the goods sold and amount of trade discount is written.
(vi) In the "Total" column the actual amount receivable from debtors is written.

Illu. 2 : Enter the following transactions in Sales Books of Narayana 2006 February

|  |  | Rs. |
| ---: | :--- | ---: |
| 2. | Credit sales to Sravan | 8,000 |
| 7. | Goods sold to Hari on credit | 9,000 |
| 12. | Sold goods to Rajesh | 6,000 |
| 16. | Goods returned by Rajesh | 800 |
| 20. | Credit sales to Kishore | 7,000 |
| 24. | Credit Sales to Siva | 12,000 |
| 27. | Sold goods to Sankar | 13,000 |

## Solution :

Sales Book

| Date | Customer Name | L.F. | Invoice No. | Amount |
| :---: | :--- | :--- | :--- | ---: |
| Feb 2 | Sravan |  |  | 8,000 |
| 7 | Hari |  |  | 9,000 |
| 12 | Rajesh |  |  | 6,000 |
| 20 | Kishore |  |  | 7,000 |
| 24 | Siva |  | 12,000 |  |
| 27 | Sankar |  | 13,000 |  |
| Sales Book Total |  |  | $\mathbf{5 5 , 0 0 0}$ |  |

### 4.4.2 Sales book with Sales Tax Column:

It is the duty of the seller to realise sales tax from customers and deposit it to the Government. Sales tax is calculated at a fixed percentage on the net price of the goods, i.e., after trade discount. Generally a separate column is provided in the Sales Day Book for Sales tax. Periodically, the total of sales tax column is credited to Sales Tax Account. When actual payment is made to the Government, the Sales Tax Account is debited and Cash / Bank
C.D.E. 4.9 Acharya Nagarjuna University

Account is credited and any Balance of Sales Tax Account at the end of the year is shown in the Balance Sheet as a liability.

## 4,4.3 Purchases Returns Book:

It may be necessary to return some goods that the firm has bought on credit for a variety of reasons such as defective or excess quantity of goods supplied, etc. All return of goods are recorded primarily in the Purchases Returns Book.

When a firm returns some goods to its supplier, it prepares a "Debit Note" and sends it along with the goods returned. The supplier, in turn, will prepare a "Credit Note". The original copy of the credit note will be sent tot the firm. Entries in the Purchases Returns Book are made on the basis of original "Credit Note" received from the supplier. On receipt, all credit notes should be numbered consecutively and should be filed properly for future reference.

The specimen of the Purchase Returns Book is given below:

Purchases Returns Book

| Date | Particulars | Credit Note <br> No. | L. F. | Rs. | Remarks |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |

Illu. 3 : M/s Naval Handicrafts Emporium, Madras returned the following goods to different parties. Prepare purchase returns book.

| 2006 |  |
| :---: | :--- |
| June 10 | Kalanjali, Hyderabad (Debit Note No. 6) 30 Wooden Toy <br> Elephants at Rs.15 per toy Trade discount 20\% |
| 22 | Bharathi Arts works, Madhurai (Debit Note No. 7) 40 toys each <br> toy at Rs.12, Trade discount 10\% |
| 29 | Modern Cultural Palace, Tanjavoor (Debit Note No. 8) 10 <br> Tanjavoor plates at Rs.80. Trade discount 20\%. |

| Financial Accounting | 4.10 | Subsidiary Books |

| Nov 22 | Bharati Arts Works, Madhurai |  |  | 7 | 432 |
| Nov 29 | Modern cultural Palace, <br> Tanjavur |  |  | 8 | 640 |
| Nov 30 | Total |  |  |  | $\mathbf{1 , 4 3 2}$ |

### 4.4.4 Sales Returns Book:

Goods may be returned by the customers for a variety of reasons such as wrong quantity and/ or quality. All goods returned by the customers are primarily recorded in this book.

When goods are returned by the customer, a "Credit Note" is made out in his name. A Credit Note is prepared in duplicate. The original being sent to the customer for his information and record. The duplicate is preserved in the file for future reference. Duplicate credit Note provides information for recording in the Sales Returns Book.

The specimen ruling of the Sales Returns Book is given below:

## Sales Returns Book

| Date | Particulars | Credit Note <br> No. | L. F. | Rs. | Remarks |
| :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |

Illu. 4 :: M/s Utility Garments Corporation, Tirupathi received the returns goods from various customers. Prepare sales returns account.

| 2006 |  |
| :---: | :--- |
| Feb 10 | Return of goods from Nityanandam \& Sons 25 Tea shirts at Rs. <br> 100 per each shirt. Trade discount 10\%, Credit Note No. 8 |

### 4.4.5 Bills Receivable Book:

For large organisations, where numerous bills of exchanges are drawn on debtors, it is advantageous to enter them primarily in the Bills Receivable Book.

## Bills Receivable Book

| Bill No. | Date <br> Recd. | From whom <br> Recd. | Drawer | Acceptor | Date of <br> Bill | Term | Due <br> Date | L. F. | Rs. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $(1)$ | $(2)$ | $(3)$ | $(4)$ | $(5)$ | $(6)$ | $(7)$ | $(8)$ | $(9)$ | $(10)$ |

(1) Bill No. - In this column, the serial number of the bill is entered.
(2) Date Received - This column is used for entering actual date on which the bill is received.
(3) From Whom Received - This column records the name of the debtor from whom the bill is received.
(4) Drawer - This column records the name of the drawer of the bill.
(5) Acceptor - This column records the name of the acceptor.
(6) Date of the bill - This column records the actual date of drawing of the bill.
(7) Term - This column is used for entering the period of the bill, e.g., 60 days, 3 months, etc.
(8) Due Date - This column records the date on which the bill is payable.
(9) L. F. - The page no. of Debtors' Ledger is entered here.
(10) Amount - This records the value of the bill.
C.D.E. $4.13 \quad$ Acharya Nagarjuna University

### 4.4.6 Bills Payable Book:

Where numerous bills payable are accepted, drawn by the creditors, it is advantageous to enter then primarily in the Bills Payable Book.

## Bills Payable Book

| Bill <br> No. | Date <br> Accepted | To whom <br> given | Drawer | Date of Bill | Term | Due Date | L. F. | Rs. |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| $(1)$ | $(2)$ | $(3)$ | $(4)$ | $(5)$ | $(6)$ | $(7)$ | $(8)$ | $(9)$ |

(1) Bill No. - This column, records the serial no. of bills accepted.
(2) Date Accepted - This column records the actual date of acceptance of the bill.
(3) To Whom given - This column records the name of the person to whom the bill is given.
(4) Drawer - This column records the name of the drawer of the bill.
(5) Date of Bill - This column records the actual date of drawing of the bill.
(6) Term - This column is used for entering the period of the bill, e.g., 60 days, 3 months, etc.
(7) Due Date - This column records the date on which the bill is payable
(8) L. F. - Page no. of Creditors' Ledger is entered here.
(9) Amount - This records the value of the bills payable.

### 4.5JOURNAL PROPER

Journal Proper is used for making the original record of those transactions which do not find a place in any of the aforesaid books of original entry.

Entries recorded in the Journal Proper may be classified as follows:
(1) Opening entries; (2) Closing entries; (3) Transfer entries; (4) rectification of Errors entries; (5) Adjustment entries; (6) Credit Purchase of assets; (7) Credit sale of worn - out or obsolete assets, (8) Credit purchase of Stationery etc. The specimen ruling of the Journal Proper is given below:

| Financial Accounting | 4.14 | Subsidiary Books |
| :--- | :--- | :--- |

Journal Proper

| Date | Particulars | L. F. | Rs. | Rs. |
| :---: | :---: | :---: | :---: | :---: |
| $(1)$ | $(2)$ | $(3)$ | $(4)$ | $(5)$ |

(1) Date - This column records the date of transaction.
(2) Particulars - This column records the name of the accounts debited or credited. The account debited is written first, adjacent to the line of date and the account credited is written below with the prefix "To". In this column, the narration is also recorded.
(3) L. F. - This column records the page no. of ledger in which this account has been posted.
(4) Dr. Column - It records the debit amount.
(5) Cr. Column - it records the Credit amount.

## (1) Opening Entries:

Opening entries are used at the beginning of the financial year to open the books by recording the assets, liabilities and capital, appearing in the Balance Sheet of the previous year. The rule to be applied is:
Assets Account Dr.
To Liabilities Account
To Capital Account.

## (2) Closing Entries:

Closing entries are used at the end of accounting year for closing off accounts relating to expenses and revenues. These accounts are closed of by transferring their balances to the Trading and Profit and loss Accounts. Since records must not be made in the ledger without journal entries, closing entries are passed in the Journal Proper first and then posted to the ledger.

## (3) Transfer Entries:

Transfer entries are passed in the Journal Proper for transferring an item, entered in one account, to another account.
(4) Rectification of Errors:
C.D.E. 4.15 Acharya Nagarjuna University

Mistake which has been made in passing an entry should be corrected by passing another entry in the Journal Proper and the practice of erasures should not be tolerated.

## (5) Adjustment Entries:

Before preparation of Final Accounts, certain adjustment is required in respect of outstanding expenses, prepaid expenses, provision for doubtful debts, etc. Entries made for such adjustment is called Adjustment Entries and is done in the Journal Proper.

## Illu. 6 : Pass adjustment entries for the following:

i) Wages outstanding Rs.500.
ii) Interest on Capital Rs. 720.
iii) Goods destroyed by fire accident Rs.7,000 out of which insurance company admits the claim for Rs.5,200.

## Solution :

Journal Entries

| Date | Particulars |  | L.F | Debit | Credit |
| :--- | :--- | :--- | :--- | ---: | ---: |
| 1 | Wages a/c <br> To Outstanding Wages a/c <br> (Being the adjustment of outstanding <br> wages) | Dr. |  | 500 | 500 |
| 2. | Interest on Capital a/c <br> To Capital a/c <br> (Being the interest on capital calculated) | Dr. |  | 720 | 720 |
| 3. | Insurance claim a/c <br> Profit and Loss a/c | Dr. |  | 5,200 |  |
| To Abnormal loss a/c <br> (Being the insurance claim admitted and <br> the balance transfer to P \& L account) |  | 800 | 7,000 |  |  |

### 4.6. QUESTIONS

## A. Short Answer Questions

1. What are the advantages of subsidiary books of accounts?
2. What is a purchase book? What conditions are to be satisfied before a transaction is recorded in the book?
3. Explain the nature and use of a sales book.
4. What is Invoice?

| Financial Accounting | 4.16 | Subsidiary Books |
| :--- | :--- | :--- |

5. What is a Debit note? What is the use of a Debit Note?
6. What is a Credit Note? What is the use of a Credit Note?
7. Differences between debit note and credit note.
8. What is journal proper?
9. What kind of entries are passed in a journal proper?

## B. Essay Questions

1. Explain various types of subsidiary books.
2. What is a subsidiary book? Why are they to be maintained?
3. Prepare purchases book and sales book with hypothetical figures.
4. Explain sales returns book and purchase returns book with proforma

### 4.6EXERCISES

1. Record the following transactions in the purchases book and post them in the ledger.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| ---: | :--- | ---: |
| July 1 | Bought goods from Arvind \& Co. for | 500 |
| 3 | Sunder \& Co. invoiced goods to us | 700 |
| 4 | Purchased one typewriter for office use from Godrej Ltd. | 1,100 |
| 6 | Dinanath sold goods to us (Rs.500 less 5\% trade discount) | 475 |
| 7 | Cash purchases | 300 |

[Ans.: Purchases Book Total Rs.1,675]
2. Enter the following transactions in the sales book and post them to ledger accounts.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| ---: | :--- | ---: |
| July 1 | Sold two sarees to Hemamalini @ Rs.150 <br> Less 5/\% Trade Discount |  |
| 2 | Supplied one saree to Sharmila | 175 |
| 3 | Babita purchased one saree from us | 200 |

C.D.E. $4.17 \quad$ Acharya Nagarjuna University

| 4 | Cash sales | 100 |
| ---: | :--- | ---: |
| 8 | Invoiced 4 Sarees to Jayasree | 500 |
| 9 | Sold old Typewriter | 375 |
| 10 | Sold blouse pieces to Pramila | 125 |

[Ans.: Sales Book Total Rs.1,285.00]
3. Enter the following transactions in proper subsidiary books.

| 2006 |  |
| ---: | :--- |
| April 1 | Purchased goods from Anand for Rs. 800 less 20\% Trade Discount |
| 2 | Purchased goods from Baskar for Rs. 700 less 20\% Trade Discount |
| 4 | Returned Anand goods worth Rs.100 |
| 5 | Returned Baskar goods worth Rs.80 |
| 8 | Sold godos to Chandar for Rs.500 less 10\% Trade Discount |
| 11 | Chandar returned us goods worth Rs.100 |
| 16 | Sold goods to David for Rs.300 less 10\% Trade Discount |
| 19 | David returned us goods worth Rs.50 |
| 21 | Bought goods from Easwar for Rs.300 |
| 22 | Sold goods to Farook for Rs.150 |
| 25 | Bought goods from Gopal for Rs.150 less 20\% Trade Discount |
| 28 | Returned goods worth Rs.50 to Gopal |

[Ans.: Purchases Book Total Rs.1,620; Sales Book total Rs.870; Purchases returns Book Rs.184.00 Sales Returns Book Rs.135.50]
4. Enter the following transactions in the Sales day book and post them into the ledger.

| 2006 |  |
| ---: | :--- |
| March 1 | Sold to Zankar Stores 5 T.V. sets @ Rs.8,000 each, less 10\% Trade <br> discount |
| 10 | Sold to S.K. Electronics 2 T.V. sets @ Rs.900 each, less 10\% Trade <br> Discount |
| 23 | Sold to Ameeta Kelkar and Co. 1 colour T.V. set for Rs.15,000 less 10\% |

| Financial Accounting | 4.18 | Subsidiary Books |
| :--- | :--- | :--- |

|  | Trade Discount |
| :--- | :--- |
|  | All sales are subject to $10 \%$ sales tax. |

[Ans.: Sales Day Book Total Rs.72,270]
5. Record the following transactions in Journal Proper.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| ---: | :--- | ---: |
| Jan.1 |  <br> Company | 6,500 |
| Jan.8 | Sale of building to Kumar \& Sons on credit | $2,75,000$ |
| Jan.12 | Bad debts due from Suresh who became insolvent | 300 |
| Jan.19 | Purchase of furniture on credit from Gangadhar for <br> personal use | 2,500 |
| Jan.28 | Purchase of goods from Achari for cash for household <br> purpose | 300 |
| Jan.30 | Receipt of cash Rs.1,000 from Ramesh was posted to the <br> account of Suresh |  |

## Chapter-5

## CASH BOOK

## Objectives :

After studying this unit we should be able to

- Features of cash book and the advantages in the preparation of cash book
- Know the types of cash book
- Prepare different types of cash books
- Understand the meaning and need for petty cash book and how to prepare it.

## Structure :

### 5.1 Introduction

### 5.2 Types of Cash book

### 5.3 Simple Cash book

### 5.4 Two Column Cash Book

5.5 Three column cash book

### 5.6 Petty Cash book

5.7 Questions

### 5.8 Exercises

### 5.9 Suggested Readings

### 5.1 INTRODUCTION

The Cash Book is a sub - division of the book of original entry recording transactions involving receipts or payments of Cash.

All Cash transactions are first entered in the Cash Book and then posted from Cash Book into the ledger. Cash Book is maintained in the form of a ledger with narration. Practically, the Cash Book is a substitute for Cash Account in the ledger.

| Financial Accounting | 5.2 | Cash Book |
| :--- | :--- | :--- |

Cash Book is not only a book of original entry but also a ledger account for cash transactions. Therefore, cash account is not maintained in ledger book and for preparing trial balance (which records balances of ledger accounts) balance of cash account is recorded from cash book. Therefore, it is said that cash book is a subsidiary as well as a principal book. Cash book represents in effect cash account in ledger books; therefore, rules discussed in last chapter for preparing cash account shall be applicable. To recapitulate, cash account records all cash receipts on debit side and all cash payments on credit side of the account.

### 5.1.1 Features:

1. Only Cash transactions are recorded in the Cash Book.
2. It performs the functions of both journal and the ledger at the same time.
3. All cash receipts are recorded in the debit side and all cash payments are recorded in the credit side.
4. It records only one aspect of a transaction, i.e., Cash.
5. All cash transactions are recorded chronologically in the Cash Book.
6. The Cash Book, recording only cash transactions, can never show a credit balance.

### 5.1.2 Necessity of Maintaining Cash Book:

The necessity of maintaining cash book are discussed below:
(i) If every cash transactions are recorded in the journal, a tremendous amount of work will be involved in debiting or crediting cash account every time cash received or paid. If the cash book is maintained, the botheration of posting every item or receipt or payment of cash individually to cash account in the Ledger is avoided.
(ii) Cash Book is maintained because it gives the balance of cash - in - hand.

### 5.2. TYPES OF CASH BOOK

The various types of Cash Book from the point of view of uses may be as follows:
Cash Book can be of several kinds:
(i) Single Column Cash Book - For recording cash transactions only.
(ii) Cash Book with Cash and Bank Columns - For recording cash and bank transactions.
(iii) Cash Book with Cash, Bank and Discount Columns - For recording cash and bank transactions involving loss or gain on account of discount.

| C.D.E. | 5.3 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

### 5.3 SINGLE COLUMN CASH BOOK

Single column Cash Book or Simple Cash Book is a such a Cash Book appears like an ordinary account, with one amounts column on each side. The left - hand side records receipts of cash and the right - hand side the payments. The difference between the left hand side or debit side and right hand side or credit side represents the balance i.e., amount of cash in hand and the balance must be a debit one. This cash book records only cash transactions and for bank transactions, a separate Bank Account is opened in the ledger where all transactions relating to "Cheques" are recorded.

## Specimen of Single Column Cash Book

| Dr. |  |  |  | Cr |  |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |
| Receipts |  |  |  | Payments |  |  |  |
| Date | Particulars | L. F. | Amount Rs. | Date | Particulars | L. F. | Amount Rs. |
|  |  |  |  |  |  |  |  |

1. Date: The date column in the Cash Book enables a chronological record of each transaction. In this column year, month and actual date of transaction is recorded.
2. Particulars: The column for particulars is left for writing the heads of account to be credited and debited and also for providing the appropriate narration or explanation of the transaction recorded.
3. Voucher No.: The document in support of a transaction is called voucher. There are two types of Vouchers: (1) Receipts Voucher, and (2) Payments Voucher. Generally, voucher has a serial number and this number is written in this column.
4. Ledger folio (L. F.) : The column for ledger folio is for indexing. A folio is a page mark. The folio in which the accounts, named in the Cash Book, are maintained in the ledger are marked in this column. This enables to locate the respective page or pages in the ledger easily.
5. Amount: The money value of the transaction is written in this column.

| Financial Accounting | 5.4 | Cash Book |
| :--- | :---: | :---: |

### 5.3.1 Balancing of the Single - Column Cash Book:

The cash book is balanced just like any other ledger account. As mentioned earlier, the cash book always shows debit balance since the cash payments can never exceed the amount of cash receipts. After closing the cash book, the balance is shown on the debit side. The difference is written on the credit side as 'By Balance c/d', and, then, on the debit side the balance is written as 'To balance b/d'. This becomes the opening balance for the next period.

Illu. 1 : Prepare a cash book from the following information.

| 2006 |  | Rs. |
| :--- | :--- | ---: |
| Jan. 1 | Balance of cash | 7,000 |
| Jan.10 | Bought goods for cash | 2,500 |
| Jan.11 | Bought goods on credit from Z | 3,000 |
| Jan.15 | Sold goods for cash | 4,700 |
| Jan.17 | Paid salary | 1,000 |
| Jan. 18 | Withdrew for personal use | 500 |

## Solution :

## Cash book for the month of January

| Date | Particulars | L.F | Rs. | Date | Particulars | L.F. | Rs. |
| :--- | :--- | ---: | ---: | :--- | :--- | ---: | ---: |
| 2006 <br> Jan.1 | To Balance b/d |  | 7,000 | 2006 <br> Jan.10 | By Purchases |  | 2,500 |
| Jan.15 | To Sales |  | 4,700 | Jan.17 | By Salary |  | 1,000 |
|  |  |  |  | Ja.18 | By Drawings |  | 500 |
|  |  |  |  | Jan.31 | By balance c/d |  | 7,700 |
|  |  |  | $\mathbf{1 1 , 7 0 0}$ |  |  |  | $\mathbf{1 1 , 7 0 0}$ |
| Feb.1 | To Balance b/d |  | 7,700 |  |  |  |  |

### 5.4 DOUBLE COLUMN CASH BOOK

If along with columns for amounts to record cash receipt and cash payment another column for discount is added on cash side, it is called a Double Column "Cash Book".

Cash receipts are entered in Debit side and cash payments in credit side like the single Column Cash Book.
C.D.E. $\quad 5.5 \quad$ Acharya Nagarjuna University

The Double Column Cash Book has two columns on both the sides of the cash book. This cash book can have two columns on both the sides as under:
(a) Cash and Discount Columns,
(b) Cash and Bank Columns,
(c) Bank and Discount columns.

However, of the three types of Double Column Cash Book, the most common cash book used is with cash and discount columns.

When a firm makes payment at an earlier date it avails cash discount. So discount received is accompanied with the payment of cash. Discount received (nominal $\mathrm{a} / \mathrm{c}$ ) is a gain to the firm. So whenever cash discount is received it is to be recorded on the credit side of the Cash Book under discount column. Similarly, when a customer pays at an earlier date the firm allows Cash discount. So cash discount allowed is accompanied with the receipt of Cash. Discount allowed (nominal $\mathrm{a} / \mathrm{c}$ ) being a loss is to be recorded on the debit side of the cash book under discount column.

Specimen of Double Column Cash Book
Dr.

| Receipts |  |  |  |  | Payments |  |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
| Date | Particulars | L. F. | Discount <br> (Rs.) | Cash <br> (Rs.) | Date | Particulars | L. F. | Discount <br> (Rs.) | Cash <br> (Rs.) |
|  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |

### 5.4.1 Cash Book with Cash and Discount Column:

In order to record cash discount allowed or received, one additional column for "discount" is provided on both the sides of the Cash Book.

1. Cash Discount : It is a discount allowed to customers as an inducement to make the payment immediately. Cash discount is closely related to cash receipt and cash payment. When cash is received, discount is allowed and when it is paid discount is received. Cash discount allowed is a loss to a businessman while cash discount received is a gain to him.
2. Trade Discount : It is an allowance made by a wholesaler to a retailer in order to enable the retailer to sell the articles at list prices and earn a reasonable margin of profit. The

| Financial Accounting | 5.6 | Cash Book |
| :--- | :--- | :--- |

amount of trade discount is deducted from the invoice, therefore, it has no connection as to the receipt and payment of cash. Hence, trade discount does not appear in the books of accounts.

### 5.4.2 Difference between Cash Discount and Trade Discount:

1. A trade discount is offered by the trader to a buyer as a reduction in the catalogue or invoice price of the goods sold. However, a cash discount is a reduction in the amount due from a debtor.
2. While a trade discount is offered by the manufacturer or wholesaler to a retailer, a Cash discount is offered by a creditor to a debtor.
3. The purpose of offering the trade discount by the manufacturer or a wholesaler to a retailer is to enable him to sell the goods at the invoice price and to have a margin of profit. The purpose of offering a cash discount is to induce the debtor to make an early payment.
4. A Trade discount is offered unconditionally whereas a cash discount is offered only on payment of the amount.
5. A Trade discount does not figure in the books of both the parties whereas a cash discount is accounted for either as a gain or as a loss.
6. The rate at which a trade discount is offered varies from trade to trade and one commodity to another. However, a cash discount is offered almost at the same rate in all kinds of trade, but the cash discount rate may vary depending on the period of credit.
7. A trade discount is usually predetermined whereas a cash discount is not predetermined.

Illu. 2 : Prepare two column cash book of Sri Raj for the following transactions.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| :---: | :--- | ---: |
| Mar 1 | Cash in hand | 3,000 |
| Mar 6 | Cash purchases | 2,000 |
| 10 | Wages paid | 40 |
| 11 | Cash sales | 6,000 |
| 12 | Cash received from Suresh | 1,980 |

## C.D.E.

|  | Discount allowed | 20 |
| :---: | :--- | ---: |
| 19 | Cash paid to Munna | 2,470 |
|  | Discount received | 30 |
| 27 | Cash paid to Radha | 400 |
| 28 | Bought goods for cash | 2,070 |

## Solution:

| Date | Particulars | LF <br> nt | Discou <br> nt Rs. | Amou | Date | Particulars | LF <br> nt | Discou <br> nt Rs. |  |
| :---: | :--- | :--- | ---: | :---: | :---: | :--- | :--- | ---: | ---: |

### 5.5 THREE COLUMN CASH BOOK

A three - column cash book is prepared when there are a large number of cash and bank transactions. It has three columns on each side, namely, a cash column for cash received and cash paid, a bank column for money discount received and discount allowed.

Specimen of Three Column Cash Book

| Date | Receipts | LF | Discount <br> Rs. | Cash <br> Rs. | Bank <br> Rs. | Date | Payments | LF | Discount <br> Rs. | Cash <br> Rs. | Bank <br> Rs. |
| :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- | :--- |
|  |  |  |  |  |  |  |  |  |  |  |  |
|  |  |  |  |  |  |  |  |  |  |  |  |

### 5.5.1 Balancing the Three - column Cash Book :

The cash and bank columns are balanced separately like other columns. Cash account always shows a debit balance. The bank account may show a debit or a credit balance. A credit

| C.D.E. | 5.9 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

balance shows a bank overdraft i.e., an excess amount drawn from the bank. The discount columns are not totaled in this cash book.

### 5.5.2 Special Points of a Three - column Cash book :

Following are some of the special points to be kept in mind while preparing a three - column cash book.

1. Opening Balance: The cash column of a cash book always shows a debit balance. It is written as 'balance brought down' on the debit side. But the opening balance of a bank column may be a debit or credit. If it is a debit balance, it will be shown on the debit side of the bank account while if a credit balance is given, it implies an overdraft and is shown on the credit side as 'By Balance b/d'.
2. Contra Entries: Contra entries means such entries that are made on both the sides of the cash book. When cash or a cheque is paid into the bank, the cash balance in the office will be reduced and the bank balance will be increased. In such a case, the Bank account is to be debited and the cash account is to be credited. Since in three column cash book, both cash and Bank accounts are included the amount will be written in a bank column on the receipt side and also in the cash column on the payment side of the cash book.

The transactions affecting the Cash Account and Bank Account (either Cash Account or Bank Account debited or credited) are recorded on both the sides of the Cash Book. As the Triple Column Cash Book consists of Cash Account and Bank Account. Ledger posting of such transactions is completed by recording them on both the sides of the Cash Book. Entries passed to record such transactions in the Triple Column Cash Book are regarded as contra entries. Letter "C" is written in the "L. F." column of the Cash Book in order to identify such entries.
3. Treatment of cheques received: Cheques received may be treated in the following two ways.
(i) A cheque received by a business may be sent to the bank on the same day for collection. In such a case it will be shown on the debit side of the bank column as soon as it is received.
(ii) A cheque received by the business may be sent to the bank at a later date. In such a case, it is shown on the debit side of the cash account when it is received.

| Financial Accounting | $\mathbf{5 . 1 0}$ | Cash Book |
| :--- | :--- | :--- |

When the cehque is sent for collection to the bank, it is shown on both sides of the cash book.
4. Endorsement of cehques received: A cheque received by a business may not be sent for collection to the bank but may be endorsed and transferred in favour of a creditor of the business. The cheque received will be taken as a receipt of cash. The cheque endorsed will be taken as payment of cash.
5. Dishonour of cheques : The term 'dishonour of a cheque' refers to non - payment of a cheque while being presented for collection. The party from whom the cheque received is debited while the account of the bank is credited.
6. Bank Charges : A bank usually charges some amount for the services provided to its customers. Such a charge will be recorded on the credit side of the cash book under the bank column.
7. Interest allowed bank : Interest allowed by the bank increases the bank balance. The amount is recorded on the debit side of the cash book in the bank column.
8. Amount withdrawn for person use : Amount withdrawn from the bank for personal use is shown on the credit side of bank column in the cash book.

### 5.5.3 Posting from Cash Book:

The posting of the debit and credit sides of cash books is done as follows:

1. Posting of debit side of cash book : All the receipts appearing on the debit side are posted to the credit side of the respective ledger accounts. All entries relating to discounts are posted to the credit side of the respective personal accounts in the ledger. The total of discounts allowed on the debit side is posted to the debit of the discount allowed account in the ledger.
2. Posting of credit side of cash book : All the payments appearing on the credit side are posted to the debit side of the respective ledger accounts. All entries relating to the discount received column are posted to the debit side of the respective personal accounts. The total of discount received is posted to the credit of the discount
3. received account in the ledger.

### 5.6 PETTY CASH BOOK

Petty cash is the amount of cash an organization keeps in notes or coins on its premises to pay small items of expenses. In every business there are a number of small payments in cash such as conveyance, cartage, entertainment of the customers, etc. These are generally repetitive in nature. If all these petty expenses are recorded in the cash book along with other payments, the cashier will be over burdened and the cash book overloaded. To avoid this, a separate book called a 'petty cash book' is maintained to record all such payments. A person called the 'petty cashier' is appointed to record all such small payments. The sum of money given to the petty cashier for making small payments is called 'Petty cash'. It is usually kept in an imprest account.

### 5.6.1 Types of Petty Cash Books:

Following are the two types of petty cash books:
a) Simple Petty Cash Book,
b) Columnar Petty Cash Book.
a) Simple Petty Cash Book: A Simple Petty Cash Book is identical with a Cash Book. It has two sides viz., a receipt side and a payment side like a Cash Book. This type of Petty Cash Book is less useful. Therefore, many traders do not use this type of Petty Cash Book.

A simple Petty Cash Book is written on the lines of a Cash Book. There is only one amount column for recording all petty cash payments. There is no separate column for recording all classes of petty cash payments.

1. The "Amount Received" column is used for recording the amount received from the Cashier by the petty cashier.
2. The "Cash Book Folio" column is used for recording the page number of the cash book where the payment of the petty cashier is made by the cashier.
3. The "Date" column which is common to both the "Receipt" and "payment" side is used for writing the date of the receipt of an amount by the petty cashier on the "receipt" side and the date of payment on the "Payment" side.
4. Similarly, the "Particulars" column which is common to both the sides is used for recording the particulars of Receipts and Payments.
5. The "Voucher Number" column is used for recording the Number of the Voucher obtained by the petty cashier while making the payment.
6. The "Ledger Folio" column is used for writing the page number of the ledger on which the particular ledger account is maintained.
7. The "Amount Paid" column is used for recording the amount paid for a particular class of expenditure.
b) The Columnar petty Cash Book (Analytical Petty Cash Book) : This type of Cash Book has two sides. The left hand side is used for recording receipts of Cash or Cheque from the Chief Cashier. This part is very small as compared to the right hand side of the petty cash book. The right hand side is meant for recording payment. The payment side is ruled in suitable columns. A separate column is provided for recording a particular item of expenditure, i.e., Postage, Stationery, Travelling, Advertisement etc. In addition to it, a separate column for ledger is also provided for recording payment made on account of personal accounts or impersonal accounts. Payment made on a personal or impersonal account is entered in the Ledger Column and posted item wise in the respective ledger account.

When the amount is received from Chief Cashier, it is entered on the receipt side of the Petty Cash Book and when payments are made, they are first entered in the total column of the Petty Cash Book and then transferred in the respective column of expenditure. At the end of a certain period, the expenditure columns are totaled. The Petty cashier prepares a statement stating the summary of expenses paid and submits it to the Chief Cashier for incorporation in the main Cash Book.

### 5.6.2 Maintenance of Petty Cash Book :

The money which is received by the Petty cashier from the chief cashier is recorded on the left hand side under the column "Receipts". Payments are recorded on the right hand side. For each type of expenses separate column is opened. Each cash payment is recorded under the appropriate head of expenses. As payments are analysed and recorded under appropriate columns, Petty Cash Book with separate heads for each expense is known as "Analytical Petty Cash Book".

### 5.6.3 Important Advantages of Petty Cash Book:

The important advantages of a petty cash book are given below:
(i) It relieves the main cash book of numerous transactions involving petty sums.
(ii) Posting involves lesser labour and time.
(iii) Reduces work load of chief cashier.
(iv) Effective control can be exercised over small payments because each payment has to be supported by vouchers.

### 5.6.4 Imprest System of Petty Cash Book :

The most popular system of Petty Cash Book is the Imprest System. Under this system, the chief cashier advances a certain amount to the Petty Cashier at the beginning of a fixed period e.g. a month or a fortnight or a week. This advance given to the petty cashier for meeting small expenses is called "Float". The amount of float is fixed in such a way that the amount is enough to meet the petty expenses for a certain period. At the end of a certain period, the petty cashier submits the account to the Chief Cashier. On receiving the account from the petty cashier, the chief cashier scrutinises it, and sends an amount equal to the actual amount spent for meeting petty expenses of the next period. As such the petty cashier begins the next period with the fixed amount of float.

### 5.6.5 Advantages of the Imprest System :

The Imprest System has got many advantages over the other system. The Advantages are given below:

1. The record of Petty Cash is checked periodically. Therefore, mistakes, if any, in recording the transactions can be rectified immediately.
2. The Petty Cashier is not allowed to have idle cash in hand. If it is found that the float is more than adequate, it will be immediately reduced.
3. Chances of cash being misused by the petty cashier are reduced.
4. The regular check of the petty cash book creates a sense of responsibility in the petty cashier.
5. The main cashier is relieved from the botheration of petty disbursements.

Owning to the above three advantages, the Imprest System has become very popular in modern business houses.

Illu. 9 : Enter the following transactions in Analytical petty cash book and balance the same:

| 2006 |  | Rs. |
| :---: | :---: | :---: |
| June 1 | Received for petty cash payments | 1,000 |
| 2 | Paid for postage | 80 |
| 5 | Paid for stationery | 50 |

| 8 | Paid for advertisement | 100 |
| ---: | :--- | ---: |
| 12 | Paid for wages | 40 |

### 5.7 QUESTIONS

## I. Short Answer Questions

1. What is cash book?
2. What are the types of cash book?
3. What is contra entry?
4. What is a petty cash book? Explain its nature.

## II. Eassy type Questions

1. Define Cash Book. Is it a subsidiary book or principal book of accounts? Give reasons
2. What is Three column cash book? How do you prepare it?
3. What purpose does an analytical petty cash book serve?
4. Explain the `Imprest System of Petty Cash Book?

### 5.8 EXERCISES

1. Enter the following transactions in a simple cash book.

| $\mathbf{2 0 0 6}$ |  | Rs. |
| ---: | :--- | ---: |
| Jan.1 | Cash in hand | 5,000 |
| 3 | Received from Teji | 500 |
| 6 | Received from Nandu | 370 |
| 8 | Paid to Mahesh on account | 750 |
| 10 | Made cash purchases | 1,500 |
| 17 | Sold goods to Sathe for cash | 350 |
| 20 | Paid into Bank | 1,000 |
| 22 | Purchased furniture for office use | 300 |
| 25 | Received for interest on debentures | 75 |
| 27 | Paid electricity charges | 25 |
| 29 | Paid rent | 150 |
| 31 | Paid salaries to staff | 570 |

[Ans.: Cash balance Rs.2,000]
2. Prepare two column cash book (with cash and discount column) of Bharvanji

| $\mathbf{2 0 0 6}$ |  | Rs. |
| ---: | :--- | ---: |
| Feb.1 | Opening cash balance | 2,700 |
| 2 | Received Rs.980 from Raghav and cash discount <br> allowed to him | 20 |
| 3 | Paid Rs.880 to Ambedkar in settlement of his <br> account for Rs.900 | 1,700 |
| 4 | Cash sales | 2,250 |
| 5 | Cash purchases |  |

| 6 | Paid Rs.675 to Raj and discount allowed by him <br> Rs.25 |  |
| ---: | :--- | :--- |
| 10 | Deposited Rs.400 in Janatha Bank |  |
| 14 | Received Rs.1,560 through cheque from Samant <br> after allowing him cash discount of Rs.40. The <br> cheque was deposited in Bank on the same day |  |
| 18 | Issued a cheque of Rs.135 towards <br> advertisement expenses |  |
| 22 | Received Rs.1,150 through cheque from Ramesh <br> after allowing him discount of Rs.50. The cheque <br> was immediately deposited in the bank. |  |
| 25 | Bhavanji withdrew Rs.1,000 for personal <br> expenses through cheque |  |
| 29 | Cash sales Rs.1,800 |  |
| 29 | Deposited cash in Bank in excess of Rs.500 |  |

## [Ans.: Cash Balance Rs.500; Discount (Dr.) Rs.110; (Cr.) Rs.45]

3. Enter the following transactions of the Premier Trading Company's cash book with three columns discount, cash and bank and balance the accounts as on $31^{\text {st }}$ December, 2005.

| Dec. <br> 2005 |  |
| :---: | :--- |
| 1 | Cash in hand Rs.4, 000. |
| 1 | Bank Rs.1, 000 (Cr.) |
| 3 | Receives a cheque from A Rs.290 and allowed him discount of <br> Rs.40. |
| 7 | A's cheque deposited in to bank. |
| 10 | Withdrew from bank for office use Rs.800. |
| 12 | Paid B/p by cheque Rs.600. |
| 15 | B/R from Ram Rs.2, 500; discounted it, crediting with bank Rs.2, 400. |
| 20 | Issued a cheque for petty cash Rs.100. |
| 25 | Paid to Gupta by Cheque Rs.920; discount received Rs.30. |
| 28 | Made cash sales Rs.900 |

[Ans.: Cash Balance Rs.5,700; Bank Balance Rs.730; Discount (Dr.) Rs.140;
(Cr.) Rs. 30
4. Prepare a three column cash book for the month of March 2006 from the following transactions:

March 2006
1 Cash in hand Rs.55,000 and cash at bank Rs.35,000
2 Bought goods by cheque Rs.10,000
3 Paid trade expenses Rs.1,000
4 Received a cheque from Naresh for Rs.30,000 and deposited into bank on the same day.

5 Paid Rs.2,000 to kumar by cheque in full settlement of Rs.2,100
6 Sold goods to Vijay Rs.5,000
10 Naresh 's cheque dishonoured.
12 Received cheque from Vijay for Rs.5,000.
14 Withdrew from bank for personal use Rs.5,000
20 Withdrew from bank for office use Rs.6,000
24 Cash sales Rs.10,000
25 Paid into bank Rs.15,000
26 Received a cheque from Rakesh for Rs.5,900 in full settlement of an amount of Rs.6,000.
31 An insolvent debtors pays $50 \%$ of Rs. 8,000 due from him.
[Ans.: Cash Balance Rs.59,000; Bank Balance Rs.37,900; Discount (Dr.) Rs.100; (Cr.) Rs.100]
5. Write out an analytical petty cash book maintained on imprest system from the following transactions:

2004
January 1 Issued a Cheque of Rs. 200 to the Petty Cashier
2 Paid electricity expenses $\quad 6.50$
3 Paid Trunk call charges 5.00
4 Paid for refreshments 10.00
6 Paid for Cartage 2.50
8 Paid for Printing 7.50
10 Purchased typing papers and ribbon 9.00
14 Paid for stationery 12.00
17 Paid railway freight 11.00
19 Postal charges 6.00
24 Paid for Auto charges ..... 24.00
26 Paid taxi hire to the Sales Manager ..... 40.00
28 Tea and Tip to peon ..... 3.00
31
Paid krishna against his account ..... 30.00
[Ans.: Cash Balance Rs.33.50]
6. Enter the following transactions in petty cash book.

| 2006 |  | Rs. Ps. |
| :--- | :--- | ---: |
| March 1 | Amount received from Cashier | 100.00 |
| 2 | Purchased typing paper | 4.00 |
| 8 | Office cleaning | 3.00 |
| 10 | Postage | 10.00 |
| 14 | Cartage | 12.00 |
| 18 | Postage | 8.00 |
| 22 | Stationery | 9.00 |
| 25 | Ink | 4.00 |
| 31 | Telegram | 10.00 |

[Ans.: Cash balance Rs.40]

## Chapter-6

## BANK RECONCILIATION STATEMENT

## Objectives :

After studying this unit we may be able to :

- Know the meaning of Bank Reconciliation Statement
- Understand the need for preparing Bank Reconciliation Statement
- Analyse the reasons for differences between the cash book balance and pass book balance.
- Prepare the bank reconciliation statement in different circumstances.

## Structure :

### 6.1 Introduction

### 6.2 Need of Bank Reconciliation Statement

### 6.3 Reasons for Disagreement

### 6.4 Procedure of Preparation of BRS

### 6.5 Questions

### 6.6 Exercises

### 6.7 Suggested Readings

### 6.1. INTRODUCTION

This is a statement prepared so as to agree the bank balance as shown by the Pass Book with the Bank balance as shown by the Bank Column of the Cash Book. This statement is usually copied into the Cash Book at the end of a certain period. Generally, this statement is prepared monthly in order to verify the accuracy of the banking transactions made by a trader with his Bank. These transactions are recorded by the bank in the Pass Book. Bank opens a separate account of each depositor in its ledger. All the banking transactions are recorded in the respective ledger account in the books of the Bank. Similarly the banking transactions are recorded by a trader in the bank column of the Cash Book or in a separate Bank Account in the

## Financial Accounting 6.2 Bank Reconciliation Statement

Ledger. That means every transaction with a bank is recorded in the Cash book, as well as in the Pass Book. For example, if a trader has deposited Rs.5,000 in the Bank, it will be recorded by the trader in the bank column appearing on the receipt side of the Cash Book or a Bank Account opened in the ledger will be debited. In the books of the Bank, credit will be given to customer's account i.e., a credit entry will be made in the Pass Book. That means a Bank Account in the books of a trader is debited, and a customer's account in the Pass Book will be credited with the same amount. As such, theoretically, both the balances must agree. But in practice, this does not happen. Bank balance as shown by Bank column of the Cash Book does not tally with the balance as shown by Pass Book on a particular date. Therefore, it is necessary to find out the causes of difference between the two balances. Hence, the statement explaining the causes of disagreement between the two balances is drawn up.

### 6.2NEED OF BANK RECONCILIATION STATEMENT

The following are the necessary for preparing Bank Reconciliation Statement.

1. It helps to understand the actual bank balance position.
2. It facilitates detection of any mistakes in the Cash Book and in the Pass Book.
3. It helps to prevent frauds in recording the banking transactions.
4. It explains any delay in collection of cheques.

### 6.3 REASONS OF DISAGREEMENT BETWEEN CASH BOOK AND PASS BOOK

The following are the reasons of disagreement between the Cash Book Bank balance and the Pass Book Bank Balance :

1. Cheques issued but not presented for payment : A business man issues cheques to his creditors in settlement of their accounts. The cheques issued are recorded in the bank column appearing on the payment side of the Cash Book immediately on the date of issue, but the Bank does not make a debit entry in the Pass Book. Entry in the Pass Book is made on presentation of the cheques by the creditors for payment. If creditors have not presented the cheques for payment, the Bank will not make an entry in the Pass Book. Therefore, if we compare the Cash Book with the

| C.D.E. | 6.3 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

Pass Book, we will find that entry for issue of cheques appears in the Cash Book, and therefore, there will be a difference between the two balances.
2. Cheques deposited in the Bank but not Collected : Cheques are received from customers from time to time in settlement of the account. The cheques received are sent to the bank for collection and the entry is made in the bank column on the receipt side of the Cash Book. But its corresponding entry does not appear in the Pass Book, as the Bank does not give credit immediately. Credit is given only after collecting the amount of the cheques. Therefore, the bank balance as shown by the Cash Book does not agree with the balance as shown by the Pass Book.
3. Cheques received and entered in the Cash Book, but not deposited into bank for collection: Cheques received from customers may be entered in the Bank column of the cash Bank but the proprietor may forget to deposit the same into bank for collection. No entry is made by the bank in the Pass Book. In such a case the two balances will not agree.
4. Cheques deposited into bank for collection but not entered in the Cash book : Some times the customer might have received a cheque from the party and deposited the same into his bank for collection. But he might have failed to enter the cheque in the Cash Book. The cheque might have been entered by the bank in the Pass Book and customer's ledger as it has been collected. In this case, the two balances will not tally.
5. Direct Payment into the Customer's Bank $\mathbf{a} / \mathbf{c}$ by other parties but not recorded in the Cash Book: Sometimes a third party may deposit money in the Bank a/c of the customer directly but the intimation of the same may not be received by the customer. As a result corresponding entry of the same may not be made in the Cash Book. As such these two balances will not agree.
6. Interest allowed and credited by the Bank : The Bank allows interest on a customer's deposit account and gives credit in the Pass Book. The entry in the Cash Book is made after receiving intimation from the bank. If a reconciliation statement is prepared before the receipt of such an intimation, there will be no corresponding entry in the Cash Book on its receipt side. Hence, a difference will arise between the two balances.
Financial Accounting $\quad 6.4 \quad$ Bank Reconciliation Statement
7. Collection of dividend by the Bank: A businessman earns income. He may instruct the Bank to collect the amount of dividend on his shares. The Bank makes a credit entry in the Pass Book immediately after collection. But it may not be entered in the Cash book immediately unless an intimation to that effect is received from the Bank. Therefore, there will be disagreement between the two balances.
8. Interest charged or Bank charges or commission debited in the Pass Book : May not appear in the Cash Book due to lack of intimation from the Bank. Therefore, the balance as shown by the Pass Book will not agree with the balance as shown by the Cash Book.
9. Standing Instructions: A businessman may give standing instructions to the Bank for payment of insurance premium, short rent, electricity charges etc. On making payment, the Bank passes a debit entry in the Pass book, thereby reducing the customer 's balance. The intimation of the same may not be received by the businessman. Therefore, it may not be recorded in the Cash Book. This will result in disagreement between the said balances.
10. Dishonour of Cheques: When the cheques deposited in the Bank are dishonoured, the Bank a debit entry in the Pass Book. The corresponding entry is passed in the Cash Book on receiving advise from the Bank. If a Bank Reconciliation Statement is prepared during this period, a difference will arise between the said two balances.
11. Errors : The balance as shown by the Cash Book will not agree with the balance as shown by the Pass Book, if certain errors are committed either by the accountant of a businessman or by the Bank clerk in recording the transactions.

### 6.4. PROCEDURE OF PREPARATION OF BANK RECONCILIATION STATEMENT

The following procedure is to be followed in the preparation of bank reconciliation statement.

1. Selection of a date: Select the date on which the Bank Reconciliation Statement is to be prepared. Preferably select the last date of the month on which the balances as per Cash Book and Pass Book are known easily.

## C.D.E.

2. Comparison of entries: Compare the Cash Book debit column entries with the credit side of the Pass Book, and credit column entries with the respective entries in the Pass Book on debit side. Majority of the items will tally.
3. Classification of unticked items : Examine the unticked items and list them. Classify them according to their characteristics and headings. The unticked items are the discrepancies.
4. Selection of the base : Select any balance as a base i.e. the starting point. The base may be either Cash Book balance or Pass Book balance whichever is given.
5. Apply the rule of addition and subtraction.
6. Draw the bank reconciliation statement.
A. When the Balance as per Cash Book is given :

Add : 1. Cheques issued but not presented for payment.
5. Interest and dividend collected by the Bank but not recorded in the Cash Book.
6. Direct deposit made by a customer in the Bank account.
7. Interest on a deposit allowed by the Bank but not recorded in the Cash Book.

Less 1. Cheques deposited in the Bank but not realised.
2. Commission charged by the bank, the entry of which does not appear in the Cash Book.
3. Bank charges debited in the Pass Book but not entered in the Cash Book.
4. Insurance premium paid by the Bank but not entered in the Cash book owing to lack of intimation.
5. Dishonour of cheques or dishonour of Bills Recivable discounted debited in the Pass Book but not entered in the Cash Book.
B. When the Balance as per pass book is given :

Add : 1. Cheques deposited in the Bank but not collected.

| Financial Accounting | $\mathbf{6 . 6}$ | Bank Reconciliation Statement |
| :--- | :---: | :--- |

2. Bank Charges, commission, interest charged, debited in the pass book but not entered in the Cash Book.
3. Insurance Premium paid by the bank and debited in the Pass Book but which does not appear in the cash book.
4. Dishonour of cheques or dishonour of Bills Receivable discounted debited in the Pass book but not recorded in the Cash Book.

Less : 1. Cheques issued but not presented for payment.
2. Interest and dividedn collected by the Bank but not recorded in the Cash Book.
3. Direct deposit by a customer in the Bank account, not recorded in the Cash Book.
4. Interest on a Bank deposit allowed by the Bank but not recorded in the Cash Book.

### 6.4.1 Some points to be considered in the preparation of Bank Reconciliation <br> Statement:

1. Cash Book refers to the Bank column of the Cash book.
2. Pass Book refers to the Customer 's $\mathrm{a} / \mathrm{c}$ in the books of the Bank.
3. The phrases "Balance in Bank". "Some Balance" in "Cash Book". "Favourable Balance", mean debit balance in the Cash Book and Credit balance in the Pass Book.
4. The Phrases, "Bank Overdraft", "Unfavourable Balance" means the Credit balance in the Cash Book and the Debit balance in the Pass Book.

### 6.4.2 Specimen Form :

The following form is usually used for preparation of a Bank Reconciliation Statement :
Bank Reconciliation Statement as on -------

|  | Rs. | Rs. |
| :---: | :---: | :---: |
| Bank Balance as per Cash Book |  | ----- |
| Add: i) .................. | $\ldots$ |  |
| ii) <br> iii) | $\ldots$ |  |

|  | Bank charges | 200 |  |
|  | Dishonoured cheques | 2,000 | 10,200 |
|  | Credit balance as per pass book |  | 21,450 |

Illu. 4 : Prepare Bank Reconciliation Statement from the following
(a) Bank balance as per pass book Rs.10,000
(b) Interest on Investments collected by bank Rs. 500
(c) Bank has paid Rs. 300 towards insurance premium and was not entered in cash book.
(d) Cheque received, entered in cash book but not sent to Bank for collection Rs. 500
(e) A wrong debit of Rs. 400 is appearing in pass book.

## Solution :

## Bank Reconciliation Statement

|  | Particulars | Rs. | Rs. |
| :--- | :--- | ---: | ---: |
|  | Balance as per Pass Book |  | 10,000 |
| Add : | Insurance premium debited in the pass book only | 300 |  |
|  | Cheque received was not sent to bank for collection | 500 |  |
|  | Wrong debit entered in the pass book | 400 | 1,200 |
|  |  |  | 11,200 |
| Less : | Interest on Investments credited in the pass book |  | 500 |
|  |  |  | 10,700 |

Illu. 5 : From the following particulars, ascertain the bank balance as per cash book of Swami as at $31^{\text {st }}$ March 2006.
a. Credit balance as per passbook as on 31-3-06 Rs.2,500.
b. Bank charges of Rs. 60 had not been entered in the cash book.
c. Out of the cheques Rs.3, 500 paid into the bank, a cheque of Rs.1, 000 was not yet credited by the banker.
d. Out of the cheques issued for Rs.4, 500, cheques of Rs.3, 800 only were presented for payment.
Financial Accounting $6.10 \quad$ Bank Reconciliation Statement
e. A dividend of Rs. 400 was collected by the banker directly but not entered in the cash book.
f. A cheque of Rs. 600 had been dishonored prior 31-3-03 but no entry was made in the cash book.
Solution :
Bank Reconciliation Statement of Mr. Swamy as on 31-3-2006

| Particulars | Amount <br> Rs. | Amount <br> Rs. |
| :--- | ---: | ---: |
| Credit balance as per Passbook |  | 2,500 |
| Add: Bank charges has not been entered in the cash book | 60 |  |
| Cheques paid into bank but not credited by the banker | 1,000 |  |
| Dishonored cheque not entered in cash book | 600 | 1,660 |
|  |  | 4,160 |
| Less: Cheques issued but not presented for payment | 700 |  |
| Dividends collected by bank not entered in cash bquook | 400 | 1,100 |
| Balance as per Cash Book |  | $\mathbf{3 , 0 6 0}$ |

Illu. 6 : On 31 ${ }^{\text {st }}$ March, 2006 Pass Book of Kiran showed a credit balance of Rs. 37,400 in Account No. 1 which did not agree with his cash book. On scrutiny, the following discrepancies were located:
(i) Three cheques totaling Rs.15,200 were deposited into his account, of which only those for Rs.9,800 were credited before $31^{\text {st }}$ March .
(ii) Kiran has issued two cheques of Rs.1,200 and Rs.1,400. Only the first cheque was presented for payment before $31^{\text {st }}$ March.
(iii) The banker paid electricity bill of Rs.750; telephone bill of Rs. 900 as per the standing instructions of Kiran.
(iv) Pass book shows entries of Rs. 50 towards charges and Rs. 75 towards interest.
(v) A cheque issued for Rs. 300 against a/c No. 1 has wrongly entered in A/c 2 by the banker.
(vi) The pass book has no entry for the cheque of Ram prasad for Rs. 270 as it has been dishonoured.
(vii) Payments side bank column has been under cost by Rs.20.

Prepare a Bank Reconciliation Statement as on 31 ${ }^{\text {st }}$ March 2006.

Illu. 9 : On $1^{\text {st }}$ July 2006, the Pass Book of Anvesh showed an overdraft of
Rs.7,540. On scrutiny with cash book, the following discrepancies were found:
i) Rs.3,200 worth cheques deposited are not credited by the banker.
ii) Pass book shows an interest of Rs. 57 on overdraft.
iii) Rs.1,500 worth of cheques issued are still not presented for payment.

Prepare Bank Reconciliation statement.

## Solution :

Bank Reconciliation Statement of Anvesh as on $1^{\text {st }}$ July, 2006

|  | Particulars | Rs | Rs. |
| :--- | :--- | :--- | ---: |
|  | Overdraft as per pass Book |  | 7,540 |
| Add : | Cheques issued but not presented for payment |  | 1,500 |
|  |  |  | 9,040 |
| Less : | Cheques deposited but not credited by the bank | 3,200 |  |
|  | Interest on overdraft debited in the pass book | 57 | 3,257 |
|  | Overdraft as per cash book |  | 5,783 |

Illu. 10 : On 31-12-2006 the pass books of Prabhu showed a debit balance of Rs.41,000. Prepare a bank reconciliation statement with the following information:
a) Cheques amounting to Rs.15,600 were drawn on 27-1-2006 out of which cheques for Rs.11,000 were cashed up to 31-1-2006.
b) A wrong debit of Rs. 800 has been given by the Bank in pass book.
c) A cheque for Rs. 200 was credited only in the pass book.
d) Cheques accounting to Rs.21,000 were deposited for collection. But cheques for Rs.7,400 has been credited in the pass book on 5-2-2002.
e) A cheque for Rs.1,000 returned dishonoured and were debited in pass book only.
f) Interest and bank charges Rs. 100 were not recorded in cash book.
g) A cheque of Rs. 500 debited in the cash book omitted to be banked.
h) A wrong credit has been given by the banker for Rs. 500 in the pass book.

## Solution :

Bank Reconciliation statement of Prabhu as on 31-12-2006

| Particulars | Rs. | Rs. |
| :---: | :---: | :---: |
| Overdraft balance as per Pass Book |  | 41,000 |
| Add: Cheques issued but not presented for payment |  |  |

Financial Accounting 6.14 Bank Reconciliation Statement

| (Rs.15,600-11,000) | 4,600 |  |
| :---: | :---: | :---: |
| Cheque credited only in pass book | 200 |  |
| Wrong credit given only in pass book | 500 | 5,300 |
|  |  | 46,300 |
| Less: Wrong debit given in pass book | 800 |  |
| Cheques deposited but not yet collected | 7,400 |  |
| Cheque returned dishonoured debited in pass book only | 1,000 |  |
| Interest and bank charges entered in pass book only | 100 |  |
| Cheque debited in cash book but omitted to be sent to bank | 500 | 9,800 |
| Overdraft balance as per Cash Book |  | 36,500 |

Illu. 11 : From the following particulars, prepare a Bank reconciliation statement of
Mr. Sastry.
a) Overdraft as per pass book on Marc 31, 2004 was Rs.12,900.
b) Cheque issued before that date but presented for payment after that date amounted to Rs.1,200
c) Cheques paid into the bank but not cleared and credited before 31-3-2004 amounted to Rs.3,200.
d) Interest on overdraft amounting to Rs. 175 debited only in the pass book.
e) Interest on investments Rs. 700 was collected by the bank and credited in the pass book but not entered in the cash book.
f) Rs. 950 in respect of a dishonoured cheque entered in the pass book but not in the cash book.

## Solution :

Bank Reconciliation statement as on 31-3-2004

| Particulars | Rs. | Rs. |
| :--- | ---: | ---: |
| Overdraft balance as per Pass Book |  | 12,900 |
| Add: 1) Cheques issued but not presented for payment | 1,200 |  |
| 2) Interest on Investment | 700 | 1,900 |
|  |  | 14,800 |

### 6.5 QUESTIONS

## A. Short Answer Questions

1. Why is a Bank Reconciliation Statement?
2. Why is a Bank Reconciliation Statement Prepared?
3. What is pass book?
B. Essay Questions
4. What is a Bank Reconciliation Statement How is it prepared?
5. Give reasons for the difference between the Balance as per Cash Book and that as per Pass Book on a Particular day.

## C.D.E.

3. What are the usual reasons for disagreement between the Cash Book Balance and the Pass Book balance?
4. Explain the procedure in the preparation of Bank Reconciliation Statement.

### 6.6 EXERCISES

1. From the following particulars ascertain the balance that would appear in the pass book of Mr. Rajalingam as on $31^{\text {st }}$ December, 2000.
i. The cash book showed a credit balance of rs.18,500
ii. Out of the cheques worth Rs.30,000 issued prior to this data, it was found that the bank had paid only cheque worth Rs.14,500.
iii. There was also a credit in passbook for an amount by our customer direct into the Bank Rs.11,610.
iv. The bank had also collected the bill for Rs.8,200 which fell due on 31-12-2000.
v. Rs. 950 in respect of a cheque paid in but dishonoured appear in the pass book only.
vi. Cheques paid in before 31-12-2000 amounted to Rs.23,000 but the bank had collected and credit cheque worth Rs.9,000.
vii. Interest on investment collected by Bank and credited in the pass book amounts to Rs.95.
viii. There was an entry on the debit side in the pass book for bank charges Rs.25.
[Ans.: Bank Balance as per Pass Book Rs.1,930]
2. The bank balance of Venkatachalam as per his Bank Pass Book on $30^{\text {th }}$ September, 2003 was Rs.6,300 (credit balance). On comparing the Pass Book with the Cash Book, the following details were made known.
a. Cheques received from Joseph Rs. 420 and Chander for Rs 310 were entered in Pass Book on $3^{\text {rd }}$ October, 2003, though deposited by venkatachalam on $30^{\text {th }}$ September, 2003.
b. Cheques issued on $28^{\text {th }}$ September, 2003 by Venkatachalam to Raj, Reddy and Rao for Rs.430, Rs.350, Rs. 570 respectively were entered in the Pass Book on $3^{\text {rd }}, 4^{\text {th }}$ and $6^{\text {th }}$ October, 2003 respectively.

## Financial Accounting 6.18 Bank Reconciliation Statement

c. The Pass Book showed a credit for Rs. 1,000 representing a direct payment made by a customer of Venkatachalam, which was not recorded in Cash Book up to $30^{\text {th }}$ September, 2003.
d. A Bill payable for Rs. 500 was duly paid off by the Bank on $30^{\text {th }}$ September, 2003 according to the standing instructions of Venkatachalam but this was not entered in Cash Book.
e. Bank Charges of Rs. 150 were debited in Pass Book.
f. An amount of Rs. 300 interest on investments was collected by the Bank and credited in Pass Book only.
Prepare Bank Reconciliation Statement as on $30^{\text {th }}$ September, 2003 and show the Bank balance as per Cash Book.

## [Ans: Bank Balance as per Cash Book Rs.5,030]

3. From the following particulars, ascertain the bank balance of Mr.Ramesh as per the bank pass book on 31-12-2002.
a. Bank overdraft as per cash book on 31-12-2002 was Rs.6,000.
b. Interest on overdraft for six months ending 31-12-02 Rs. 200 is debited in the pass book.
c. Cheques issued but not cashed before 31-12-02 amounted to Rs.1,500.
d. Cheques deposited into bank but not cleared and credited before 31-12-02 amounted to Rs.2,500.
e. Interest on Investments collected by bank and posted in the pass book amounted to Rs.1,800.
f. Bills receivable which was discounted with the bank in November, 02 was dishonoured on 31-12-02 and bank had debited Rs.1,050 including Rs. 50 for bank charges.
g. The bank column of cash book receipts side was overcast by Rs.1,000 in December, 2002.
h. Bank had wrongly debited Mr. Ramnath for Rs. 500 on 10-12-02 on account of dishonour of cheque pertaining to Mr. Ramgopal but rectified the said mistake on 30-12-02.
[Ans.: Overdraft balance as per pass book Rs.7,450]
4. Prepare the bank reconciliation statement as on 30-6-03 from the following particulars.
(i) Debit balance as per pass book on 30-6-03 Rs.15,000
C.D.E. $6.19 \quad$ Acharya Nagarjuna University
(ii) A cheque for Rs. 200 was deposited on 25-6-03 but was not recorded in cash book.
(iii) Cheques of Rs.17,000 were issued but, of these Rs.10,000 worth were presented before 30-6-03.
(iv) Cheques received on 20-6-03 Rs.2,000 were not sent to bank but noted in cash book.
(v) Cheques worth Rs.10,000 were sent to bank for collection. Of these Rs.2,000 were credited on 8-7-03 and Rs.1,000 credited on 10-7-03. Remaining cheques were credit before 30-6-03.
(vi) Bank paid Rs. 300 on behalf of customer to Trade Association. This was not recorded in cash book.
(vii) Interest on overdraft Rs. 800 was not entered in cash book.
(viii) Bank expenses Rs. 40 were recorded twice in cash book and another bank charge for Rs. 35 was not recorded in the cash book.
(ix) Cash book credit side bank column was undercost by Rs.1,000.

## [Ans.: Overdraft balance as per Cash Book Rs.15,105]

5. From the following particulars prepare Bank Reconciliation Statement as on 31-3-2002.
(i) Credit balance as per Cash book Rs.1,500
(ii) Interest charged by the bank Rs.50.
(iii) Out of cheques paid into the bank Rs.2,500, only cheques for Rs. 1,875 were cleared and credited by bank.
(iv) Two cheques of Rs. 750 and Rs. 1,500 were issued but out of them only one cheque of Rs. 750 was presented for payment up to $31^{\text {st }}$ March.
(v) Dividend of Rs. 450 were collected by bank but were not appearing in cash book.
[Ans.: Overdraft balance as per Pass Book Rs.225]
6. The Cash Book (Bank Columns) and the Pass Book of Umasankar are given below. Prepare Bank Reconciliation Statement as on 31 ${ }^{\text {st }}$ December, 2005.

## Chapter-7

## BILLS OF EXCHANGE

## Objectives :

After going through this unit, we should be able to

- Define bills of exchange
- Understand the features of bill and advantages of a bills of exchange
- Differentiate the bills of exchange with a promissory note
- Understand the accounting procedure followed in bills of exchange
- Have an idea about the discounting of a bill, endorsement and dishonour of a bill.
- In addition to the procedure followed in case of insolvency of the acceptor
- Know the meaning of accommodation bills and the procedure followed in accommodation bills.

## Structure :

### 7.1 Introduction

### 7.2 Important terms used in Bills of Exchange

### 7.3 Promissory Note

### 7.4 Bill Transactions

### 7.5 Drawing, Acceptance and Payment of Bills of Exchange

### 7.6 Endorsement of a Bill

### 7.7 Retiring of a Bill Under Rebate

### 7.8 Dishonour of a Bill

### 7.9 Renewal of a Bill

### 7.10 Insolvency of the Acceptor

7.11 Accommodation Bills
7.12 Questions
7.13 Exercises
7.14 Suggested Readings

| Financial Accounting $7.2 \quad$ Bills of Exchange |
| :---: | :---: | :---: |

### 7.1 INTRODUCTION

In modern times a large proportion of sales takes place on credit. A buyer of goods agrees to pay for the purchases after a fixed period of time from the date of the transaction. The interval of time between the completion of sale and the purchase of goods have to be filled up with some formal arrangement between the buyer and seller. This is done by means of a 'bill of exchange'. It is a piece of paper that entitles a person to a sum of money and is freely transferable.

A bill of exchange is a written acknowledgement of debit given by the buyer to the seller. It states the sum due at time of payment as well as the date and place of payment.

### 7.1.1 Definition:

According to Section 5 of the Negotiable Instruments Act, a bill of exchange is defined as follows: 'An instrument in writing, containing an unconditional order signed by the maker, directing a certain person to pay a certain sum of money only to or to the order of a central person or to the bearer of the instrument.'

This definition implies that a bill of exchange is a written order directing a person to pay a certain sum of money to the bearer of the instrument or to a specified person on his / her order. It is drawn by the seller who directs the buyer to pay the money to the person specified in the instrument.

### 7.1.2 Features of Bills of Exchange:

The features of a bill of exchange are as follows:
(a) It must be in writing.
(b) It must contain an express order to pay.
(c) The express order must be to $p$
(d) ay a definite amount of money.
(e) It must be signed by a drawer (Seller).
(f) The amount mentioned in the bill must be payable either on demand or at a determined time in the future.

## C.D.E. 7.3 Acharya Nagarjuna University

### 7.2 IMPORTANT TERMS TO BE USED IN BILLS OF EXCHANGE

There are certain relevant terms used in a bill transaction. They are discussed below.

### 7.2 1. Parties to a bill of Exchange:

There are initially two parties involved in a bill of exchange, namely, a drawer and a drawee. Subsequently, a payee gets added in a majority of cases.
(a) Drawer: A seller of goods or the creditor is known as the drawer. The drawer makes a draws a bill on the buyer.
(b) Drawee or acceptor: A buyer or debtors who owes money to the seller is known as the drawee. The bill is drawn on the drawee.
(c) Payee: A person to whom the payment is to be made. Payment may be received either by the drawer itself or a third party.

### 7.2.2 Bills receivable and bills payable:

Bills are divided into two categories. They are as follows:
(a) Bills Receivable: The amounts owed to a business by its debtors are referred to as bills receivable. A bill of exchange is regarded as 'bills payable' for a person who is entitled to receive payment on it.
(b) Bills payable: The amounts owed by a business to creditors are referred to as bills payable. A bill of exchange is regarded as 'bills payable' for a person who is liable to pay on it.

The same bill is a bill receivable to one party and a bill payable to the other.

### 7.2.3 Due date and days of grace:

The date on which the payment of the bill is due is called the due date. While calculating the due date of the bill, three additional days are allowed, which get added from the date of maturity to the original date of maturity of the bill. These additional days are called the days of grace. However, if the day after adding the days of grace is a public holiday, the payment is made on the next day.

### 7.2.4 Term of a Bill:

This refers to the duration for which the bill is held by the Drawer. The term of a bill is a minimum of three months.

### 7.2.5 Bill at sight:

When the bill of exchange is payable at a given time after it is presented to the drawee for his / her knowledge, it is referred to as a bill at sight. The presentation of a bill for acceptance is necessary in order to fix the date of maturity.

### 7.2.6 Bill after date:

This refers to a bill of exchange being payable after a fixed number of days such as 30 days after date.

### 7.2.7 ADVANTAGES:

The following are the advantages of a bill of exchange.

1. Facilitates purchase and sale of goods on credit: A bill of exchange serves as a written proof of the purchase and sale of goods.
2. Helps in transfer of money: Money can be transferred easily from one place to another without any risk as a bill of exchange is a negotiable instrument.
3. Serves as a source of finance: The creditors need not wait till the due date of the payment of bill. The bill can be discounted from a bank and payment can be received immediately.
4. Serves as evidence: A bill of exchange is a legal evidence of indebtedness. It is a written proof of payment to the seller of goods.
5. Helps in planning : A bill of exchange contains in writing the terms and conditions such as the amount required to be paid, date of payment, interest to be paid (if any), place of payment, etc. Therefore, the creditor knows the time when he / she would receive the money, while the debtor is aware of the date by which he /she has to pay the money.

### 7.3. PROMISSORY NOTE

A bill of exchange resembles another negotiable instrument, namely, a promissory note. However, there is a distinction between the two. Sometimes, the buyer gives to the seller a promise in writing to pay him / her a certain sum of money either on demand or at a fixed future date. Such a promise is signed by the buyer and handed over to the seller. It is called a promissory note. According to Section 4 of the Negotiable Instruments Act, a promissory note is defined as:

#### Abstract

C.D.E. 7.5 Acharya Nagarjuna University

### 7.3.1 FEATURES:

The definition of a promissory note reveals the following features:

1. Writing: A promissory note should be in writing. However, there is no particular from of words (as shown in the specimen) necessary for the validity of a promissory note, provided the requirements of law are complied with.
2. Promise to pay: A mere acknowledgement of debt is not considered the only feature of a promissory note. Similarly, a mere receipt for money is also not considered a promissory note. There must be an express undertaking to pay the amount.
3. Promise to pay to be unconditional: The promise to pay must not depend upon the occurrence of some uncertain event. If an instrument contains a conditional promise to pay, it is not considered a promissory note.
4. Sum payable to be certain: The sum of money promised to be payable must be certain and definite.
5. Signed by the maker: The signature may be on any part of the instrument and need not necessarily be at the bottom.

### 7.3.2 Differences between a Bill of Exchange and Promissory Note:

| Basis | Bill of Exchange | Promissory Note |
| :--- | :--- | :--- |
| 1. Promise and order | This is an order for making <br> the payment. | This is a promise to make <br> the payment. |
| 2. Number of parties | There are three parties <br> involved; the drawer, the <br> drawee and the payee. | There are two parties <br> involved; the drawer and <br> the drawee. |
| 3. Acceptance | It must be accepted by the <br> person who is liable to pay. | It required no acceptance <br> as it signed by the person <br> who is liable to pay. |
| 4. Nature of liability | The liability of the drawer of <br> a bill of exchange is <br> secondary and conditional. <br> This implies that the liability <br> of a drawer arises only when <br> the acceptor fails to pay. | The liability of the maker is <br> primary and absolute. |
| 5. Notice of dishonour | In case of dishonour of a bill <br> of exchange, notice of <br> dishonour must be given by <br> the holder to all parties. | In case of dishonour of a <br> promissory note, no notice <br> is necessary to be given to <br> the maker. |

## Financial Accounting <br> 7.6 <br> Bills of Exchange

### 7.4. BILL TRANSACTIONS

With the help of the basic terms used for a bill of exchange, the different major aspects of bill transactions and their accounting treatments are discussed below. The different aspects include the following transactions:
(a) Drawing, acceptance and payment of a bill. Under this, there are three options available:
(i) Retaining the bill till the date of maturity
(ii) Getting the bill discounted from the bank
(iii) Endorsing/ transferring of the bill to the creditor
(b) Retiring of a bill under rebate
(c) Dishonour of a bill
(d) Renewal of a bill

### 7.5. DRAWING, ACCEPTANCE AND PAYMENT OF BILLS OF EXCHANGE

The accounting entries are the same for a bill of exchange and a promissory note. When a bill is written, it is referred to as 'drawing' of a bill. The person who draws the bill is the creditor and the person to whom it is given is the debtor. The creditor is known as the drawer and the debtor in writing, he /she becomes the acceptor of the bill. The bill is called a 'bills receivable' for the creditor and a 'bills payable' for the debtor. The person to whom the payment is to be made is called the payee. The bill is said to have been discharged when the acceptor of the bill makes the actual payment due on the bill on the maturity date. The journal entries for recording the transactions of credit sale, credit purchase of goods as well as the drawing, acceptance and payment of bills are discussed. The entries are made in the books of the drawer and the drawee.

### 7.5.1 Books of the Drawer:

The following entries are made in the books of the drawee.

1. Credit sale of goods : In case of goods sold on credit the entries would be as follows:

Credit Sale of Goods

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Debtor's Account <br> To Sales Account <br> (Goods sold on credit) |  |  |  |

## C.D.E.

2. Drawing of bill : No entry is required when a bill is drawn since the drawer simply writes the bill and does not send it to the drawee.
3. Receipt of the bill duly accepted: In case the bill is duly accepted, the entries are as follows:

Receipt of the Bill Duly Accepted

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Bill Receivable Account <br> To Debtors Account <br> (Receipt of the bill duly accepted) |  |  |  |

4. Deposit of the bill with the bank for collection: In such a case, the sender of a bill opens a new account called 'Bills Sent for Collection Account'. This account is debited when the bill is sent for collection and credited when the intimation of actual collection is received from the bank. The purchaser authorizes the bank to collect the payment of the bill on the due date without delay. However, it is different from discounting of a bill. When a bill is discounted, the account of the customer is credited immediately whereas in case of a bill sent for collection, the account of the customer is credited when the amount is actually collected by the bank. In case the bill is sent to the bank for collection instead of retaining it for payment, the entries would be as follows:

Bill Sent for Collection

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Bill Sent for collection <br> To Bills Receivable Account <br> (Bill sent to the bank for <br> collection) |  |  |  |

5. Receipt of payment on maturity: In case the bill is retained by the drawer till the date of maturity, the entries would be as follows:

Receipt of payment of maturity

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :---: | :---: |
|  | Cash Account <br> To Bills Receivable Account <br> (Payment received on the bill) |  |  |  |

#### Abstract

Financial Accounting 7.8

Bills of Exchange

In case the bill is sent to the bank for collection, the amount realized on it through the bank is recorded as follows:

## Bill Collected by Bank

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Bank Account <br> To Bill sent for Collection <br> (Bill collected by the bank) |  |  |  |

### 7.5.2 Books of the Drawee:

The following entries are made in the books of the drawee.

1. Credit Purchase of goods: In case the goods are purchased by the buyer, the drawees account would show the following journal entries:

## Credit Purchase of Goods

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Purchases Account <br> To Creditor's Account <br> (Goods purchased on credit) |  |  |  |

2. Acceptance of the bill: In case the bill is accepted, the journal entries in the books of the acceptor would be as follows:

Acceptance of the Bill

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Creditors 's Account <br> To Bills Payable Account <br> (Acceptance given on the bill) |  |  |  |

3. Payment of the bill on maturity: When the bill is paid on the date of maturity, it is the bills payable account that will be debited and not the account of the creditor. This is because there is no creditors account in the books of the acceptor after he /she has given acceptance. Further, the bill might have been endorsed to some other person and not necessarily to the drawer.

Payment of the Bill on Maturity

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Bills payable Account <br> To Cash Account |  |  |  |

## C.D.E.

As mentioned earlier, the drawer of the bill of exchange has the following options:
a. To retain the bill till the date of maturity.
b. To get the bill discounted from the bank.
c. To endorse / transfer the bill to his / her creditor.
4. Retaining the bill till the date of maturtity: In this case the following entries are recorded:

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Debtor 's Account <br> To Sales Account <br> (Sales of goods on credit) |  |  |  |
|  | Bills Receivable Account <br> To Debtor 's Account <br> (Receipt of the bill duly accepted) |  |  |  |
|  | Bank Account <br> To Bills Receivable Account <br> (Receipt of payment on maturity) |  |  |  |

5. Getting the bill discounted from the bank or discounting of a bill: If the holder of a bill of exchange (holding a bill of a longer duration) wishes to obtain cash before maturity, he /she sells it to the bank. The purchaser (in this case the bank) deducts a certain amount as discount from the face value of the bill and pays the balance to the holder. This is known as 'discounting of a bill'. The discount that is deducted is a loss to the person who sells the bill and a gain to the person who purchases it. This is because the purchaser of the bill, after discounting the same, has to wait for realizing the money till the bill becomes due. Hence, the discount, which is the difference between the face value of the bill that the purchaser recovers and the value that he /she has paid to the seller, is a gain. The entries for discounting of a bill are as follows:
(a) Books of the drawer: Cash is received or treated as deposited in the bank account while the bills receivable is given up and represents a loss. Also, the amount of the bank discount is debited as an expense.

| Financial Accounting | 7.10 | Bills of Exchange |
| :--- | :--- | :--- |

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Cash Account <br> Discount Account <br> To Bills receivable Account |  |  |  |

(b) Books of the drawee: The acceptor is not affected by the discounting of a bill and hence, so there is no treatment in the books. The drawee 's liability remains the same at the time of maturity.

Illu. 1 : On $1^{\text {st }}$ June 2006 Ramesh sold goods to Mahesh for Rs.5,000 and drew a bill on Mahesh for 3 months. Mahesh accepted the bill and returned it to Ramesh who discounted it with his bank at $10 \%$ p.a. Mahesh met his acceptance on the due date. Pass the journal entries in the books of Ramesh.

## Solution :

Journal Entries in the books of Ramesh

| Date | Particulars |  | L.F. | Debit | Credit |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 2006 |  |  |  | Rs. | Rs. |
| June 1 | Mahesh a/c To Sales a/c (Being goods sold to Mahesh) | Dr. |  | 5,000 | 5,000 |
|  | Bills receivable a/c To Mahesh a/c (Being bill received for 3 months) | Dr. |  | 5,000 | 5,000 |
|  | Cash a/c Discount a/c <br> To Bills receivable a/c (Being bill discounted in the bank) | $\begin{aligned} & \hline \text { Dr. } \\ & \text { Dr. } \end{aligned}$ |  | $\begin{array}{r} 4,875 \\ 125 \end{array}$ | 5,000 |

### 7.6 ENDORSEMENT OF A BILL

There are times when the drawer of a bill does not keep the bill with himself/ herself until the date of maturity. Instead, the drawer transfers the bill to another person to whom he/ she owes a similar amount. This is referred to as negotiability of the bill. It implies that the holder can transfer the title in the bill. This is done by making one's own signature at the back of the bill along with the party to whom it is being transferred. This is referred to as the endorsement of a bill. Hence, endorsement refers to writing on an instrument the name of a person other than the maker on the face or back of a negotiable instrument or on a slip of paper. This implies that the
C.D.E. $\quad 7.11 \quad$ Acharya Nagarjuna University
title of the document can be transferred from one person to another through endorsement and delivery. Hence, a bill of exchange is a negotiable instrument. The person who endorses the bill is known as the 'endorser' and the person to whom the bill is endorsed is known as the 'endorsee'. After endorsement, the bill is payable to the endorsee instead of the original holder.

The Journal entries made in the books of the drawer, acceptor and the endorsee are as follows:
(a) Books of the Drawer: Once the drawer has received the bill duly accepted from the acceptor, the bill may be endorsed in favour of a creditor. In this case, the creditor's account will be debited while the bills receivable account will be credited.

Books of the Drawer

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Endorsee/ Creditor's Account <br> To Bills receivable Account <br> (Being the bills receivable <br> endorsed) |  |  |  |

(b) Books of the acceptor: The endorsement of a bill by the drawer does not change the position of the acceptor and, therefore, does not require any accounting treatment in the books. The acceptor is liable to pay the bill on maturity to anyone who presents the bill.
(c) Books of the endorsee: The endorsee is the creditor or drawer of the bill, who receives a qualified discharge of his/ her debt bill from the debtor. The journal entries recorded in the books of the endorsee are as follows:

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Bills Receivable Account <br> To Endorser / Debtors a/c <br> (Bills received on endorsement) |  |  |  |

### 7.6.1 Effects of Endorsement:

After a bill has been endorsed and delivered to the endorsee it becomes payable to him / her instead of the original holder. The endorsee may again endorse it in favour of another person. This process may continue till the date of maturity. Endorsement provides a mechanism for settling business payments.
Financial Accounting $7.12 \quad$ Bills of Exchange

### 7.7 RETIRING OF A BILL UNDER REBATE

When the drawee makes payment of the bill before its due date, it is referred to us retiring of the bill. The person holding the bill usually allows some discount, which is called a rebate. The rebate is calculated for the period for which the payment is being made before maturity. The rebate is a gain to the party making the payment and an expense to the party receiving the payment. It is calculated at a certain rate per annum on the unexpired period of the bill.

The journal entries for retiring of a bill are as follows:
Books of the Drawer

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Cash Account <br> Rebate Account <br> To Bills Receivable Account <br> (Bills retired and rebate given <br> brought into account) |  |  |  |

Books of the Drawee

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Bills Payable Account <br> To Cash Account <br> To Rebate Account <br> (Bills retired before the due date <br> and rebate received) |  |  |  |

### 7.8 DISHONOUR OF A BILL

In Case a bill of exchange is not paid on the date of its maturity, it is said to have been dishonoured. It includes the failure to accept a bill of exchange (dishonour by non - acceptance) or to fail to pay a bill of exchange (dishonour by non - payment). The holder of the bill has to serve a notice to all other parties whose name appears on the bill. When the holder fails to serve the notice on the parties, he /she losses the right to sue them for the amount thereof.

A bill becomes valueless upon dishonour and the parties stand in a position where they were before the bill was drawn. The holder may sue either the endorser or any previous parties. The expenses incurred by the holder can be recovered from the acceptor. In this context, noting of a bill assumes significance.

## C.D.E. 7.13 Acharya Nagarjuna University

### 7.8.1 Noting of a Bill:

When a bill of exchange is dishonoured, it is necessary to get the 'fact' of dishonour noted. If the acceptor can prove that the bill was not properly presented for payment, he /she may escape liability. The bill is given to a public official appointed by the court to deal with dishonur of bills known as 'notary public'. For this service, the notary public charges fees called notary charges from the holder of the bill. These charges may be recovered from the party responsible for the dishonour. The advantage of noting is that the evidence of dishonour is noted.

In case of a dishonour, the party that gave the bill has to be debited since it becomes liable to pay the amount. If the bill is held by the drawer till the date of maturity, the bills receivable account is credited. If the bill was discounted from the bank or endorsed to a creditor, the bank or the creditor's account will be credited accordingly. The journal entries for the above cases are discussed below.

### 7.8.2 Non - payment of the bill held till maturity:

In case the bill is held by the drawer till the date of maturity, the journal entries are as follows:

Books of the Drawer

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :--- |
|  | Drawee 's Account <br> To Bills Receivable Account <br> (For bill dishonoured) |  |  |  |
|  | Drawee 's Account <br> To Cash Account <br> (For noting charges paid on <br> drawee 's behalf) |  |  |  |

Books of the Drawee

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :--- | :--- | :--- | :--- | :--- |
|  | Bills Payable Account <br> To Drawer ‘s Account <br> (For bill dishonoured) |  |  |  |
|  | Noting Charges Account <br> To Drawer 's Account <br> (For noting charges payable to the <br> drawer) |  |  |  |

### 7.8.3 Non - payment of a bill discounted from the bank :

## Financial Accounting <br> 7.14 <br> Bills of Exchange

When the bill is discounted from the bank and is dishonured, the bank will recover the amount of the bill from the person who got the bill discounted. In case the noting charges are also paid by the bank, the bank, will also recover the same.

## Books of the Drawer

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Drawee 's Account <br> To Bank Account <br> (With the original amount of the <br> bill and noting charges paid by the <br> bank) |  |  |  |

Books of the Drawee

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Bills Payable Account <br> Noting Charges Account <br> To Drawer's Account <br> (With the original amount of the <br> bill and noting charges payable) |  |  |  |

### 7.8.4 Non - payment of Endorsed bill :

The relationship between the endorser and endorsee is similar to that between the drawee the drawer. Therefore, the endorsed bill that is dishonoured brings back the parties into their original relationship as one between the acceptor and the drawer. This is done by revising the accounting entries passed at the time of endorsement. The journal entries for the drawer, drawee and the endorsee are as follows:

## In the books of the Drawer

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :---: | :---: | :---: |
|  | Drawee 's Account <br> To Endorsee 's Account <br> (Bills receivable dishonured) |  |  |  |

The following entries are passed with the original amount of the bill plus noting charges paid by the endorsee.

In the Books of the Drawee

| Date | Particulars | L. F. | Debit <br> Amount Rs. | Credit <br> Amount Rs. |
| :---: | :--- | :--- | :--- | :---: |

### 7.9 RENEWAL OF A BILL

There are times when the acceptor of a bill faces financial difficulties and is not in a position to meet the commitment to repay the bill on the due date. In this case, the acceptor approaches the drawer of the bill with a request to cancel the original bill and draw on him/ her a fresh bill. The acceptor, then, agrees to pay interest for the new period. If the interest is paid in cash, then the new bill is for the original amount otherwise the interest is also included in the new bill. The journal entries for renewal of a bill are as follows:
(a) Entry on the Calculation of the Bill :

## Books of the Drawer

Financial Accounting $7.20 \quad$ Bills of Exchange

### 7.10 INSOLVENCY OF THE ACCEPTER

Insolvency refers to an acceptor 's inability to pay. Sometimes, the bill of exchange is dishonoured because of bankruptcy of the drawee or the acceptor. This implies that he /she will not be in a position to meet the liability. Generally, some partial payment is received from the estate of the insolvent person, which is in the form of a number of paisas in the rupee of the amount remaining unpaid. The amount remaining unpaid by the acceptor is debited to the 'bad debts' account is the books of the drawer. In the books of the drawee, it is credited to the deficiency account.

Illu6. : Vikas draws a 3 months bill on Vishal for Rs.4, 000 on 1-4-03. Vishal accepts the bill and sends it to Vikas, who discounted it with the bank for Rs.3, 940. Vikas sends $1 / 4$ of the amount i.e. Rs. 985 to Vishal. On the due date, vikas could not send his amount to vishal and accepts a bill for Rs.4, 500 for 3 months, which is discounted by Vishal for Rs.4, 440. Vishal sends Rs. 330 to Vikas. Before the due date of the second bill, Vikas becomes insolvent and 25paise in a rupee were received from his estate.

Give Journal entries in the books of both the parties.

### 7.11 ACCOMMODATION BILLS

There are two types of bills. They are : (1) Trade Bills (2) Accommodation Bills.

### 7.14.1 Trade Bills :

Trade Bills originate from genuine trade transactions. These bills are used for the consideration. The buyer gives acceptance to the bills in lieu of the goods purchased by him. So, in the bills the words "Value received" are embodied meaning thereby that the acceptor of the bill had actually received the goods equal to the value of the bill. As such, trade bills are accepted for certain consideration.

### 7.14.2 Accommodation Bills :

Sometimes, a bill is drawn and accepted without any consideration having passed form the drawer to the acceptor. Such type of bill is drawn just to oblige a friend for lending one's name so as to enable another to type of bill is termed as `Accommodation Bill.' For example, Ram approaches Shyam to borrow Rs.2,000 from him. At present, Shyam does not have sufficient funds to help Ram. However, Shyam agrees to help Ram in another way. This help is rendered by accepting a bill drawn on him by Ram. Ram gets the bill discounted with a bank. On date of maturity Ram returns the money to Shyam who meets the bill. Accommodation bill, therefore, means a bill which is drawn, accepted or endorsed without receiving value in exchange for it, but simply to oblige a party and assist him in obtaining money by negotiating it.

Thus, the accommodation bills are those which are drawn to enable one or both the parties to temporarily raise funds by getting the bills discounted at a bank.

### 7.11.3 Types of Accommodation Bills :

The accommodation bills are of three types. They are given below.

1. It is drawn for the accommodation of drawer only
2. It is drawn for the accommodation of drawer and drawee both.
3. Both parties draw on each other for their own accommodation.
4. When it is drawn for the accommodation of drawer only : When one person needs money and for this purpose he asks his friend money to lend former but wishes to help him, he can allow the persons, in need of funds to draw a bill on him. The friend, thus approached accordingly, gives his acceptance to the bill drawn on

## Financial Accounting <br> 7.24 <br> Bills of Exchange

him. The person needing money gets the bill discounted from his bank and uses the money of the bill for the period of the bill. On the date of maturity of the bill, the drawer makes remittance of the amount of the bill ot drawer who makes payment to the bank accordingly.
2. When it is drawn for the accommodation of both parties i.e., drawer and drawee : Sometimes, both the parties i.e., the drawer and drawee need money. In such cases, the drew on each other for some amounts. Both et the bills discounted from their banker and on the date of maturity each meets his own bill. Need not add that discounting charges in respect of a bill are brone by the aprty concerned.
3. When both the drawer and the drawee share of the amount of each other's bill : A bill is usually drawn by the party, without any consideration, and the other party accepts it. The drawer gets the bill discounted, the money so received is shared by both the drawer and the drawee in proportion agreed upon by them. On due date, the drawer sends his share of money to the drawee who meets the bill. Here, we should also keep in mind that they also share the discounting charges of the bill in the same proportion in which they share the proceeds of bill.

### 7.11.4 Distinction between Trade Bills and Accommodation Bills

| Basis of Distinction | Trade Bills | Accommodation Bills |
| :--- | :--- | :--- |
| 1. Purpose | This bill is drawn for trade <br> purpose | This bill is drawn for mutual <br> help for a temporary period |
| 2. Consideration | This is drawn for a <br> consideration | This is drawn without <br> consideration |
| 3. Proof of debt | This is a proof of debt | This is not a proof of debt but <br> this is drawn for each others <br> financial help |
| 4. Discounting | If it is discounted with the <br> bank the proceeds remain <br> with the bank. | The proceeds of this bill are <br> shared between the drawer <br> and drawee in an agreed |
| ratio. |  |  |

| C.D.E. | 7.25 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

### 7.11.5 Accounting Treatment :

Record of the accommodation bills in books of account does not present any special problem. Entries area made in the usual manner. The only point to remember is that a party bears the discount in the proportion in which it shares the proceeds. If both parties share the proceeds equally, each will have to bear the discount equally, If one party gets two thirds of the proceeds, it will have to bear two-thirds of the discount.

Illu. 8 : Prasad draws a bill for Rs.10,000 on Ransa for mutual accommodation. He discounts the same for Rs. 9,900 and remits $1 / 2$ share to Ranga. Before due date Ranga draws a bill on Prasad for Rs. 20,000 and discount the same for Rs. 19,800. He honours the first bill and remits Rs. 4,900 to Prasad. Before due date of second bill Prasad becomes insolvent and Ranga receives a final dividend of 50 paise in the rupee.. Prepare necessary Ledger accounts in the Books of both the parties.

## Solution :

## Ledger in the Books of Prasad

## A. Short Answer Questions

1. What is Bills of Exchange?
2. What is a Promissory Note?
3. What are days of grace?
4. What is discounting of a bill?
5. What is dishonour of a Bill?
6. What are noting charges?
7. What is endorsement?
8. What is meant by retiring bill under rebate?
9. What is renewal of a bill?
10. What are accommodation bills?
B. Eassay Question
11. What is a bill of exchange? What are its advantages?
12. Distinguish between the following.
(a) Bill of Exchange and Promissory Note
(b) Trade Bill and Accommodation Bill
13. What entries are made in the books of the parties when the acceptor of a bill becomes insolvent?
14. What is an Accommodation Bill? How does it differ from the Trade Bill?
15. Give Journal Entries.
(a) When a Bill is drawn and accepted
(b) When a Bill is endorsed
(c) When a Bill is encashed
(d) When a Bill is discounted
(e) When a Bill is dishonoured

## Financial Accounting <br> 7.34 <br> Bills of Exchange

### 7.13 EXERCISES

1. On January $1^{\text {st }}, 2005$ Ram Prasad sold goods for Rs 200 to Krishna Prasad and drawn the bill with three months. Krishna Prasad accepted the bill. The bill was honoured on the due date. Pass Journal entries in the books of Ram Prasad and Krishna Prasad.
2. Venkat draws a bill for Rs.5,000 on Vivek on $1^{\text {st }}$ January, 2005 for four months. On maturity Vivek failed to honour the bill. Pass the necessary entries in the books of Venkat, if he had retained the bill till maturity.
3. Mohan sold goods to Sundar for Rs. 300 on January $1^{\text {st }}, 2001$ and drawn the bill for four months. Mohan discounted the bill in the Bank at $6 \%$ on March $1^{\text {st }}$ since he requires money. The bill was honoured on the due date. Pass journal entries in the books of Mohan and Sundar.
4. On $1^{\text {st }}$ January, 2005 Ravi sold goods to Suri for Rs. 1,500 and drawn the bill for two months. The bill was accepted. Ravi purchased goods for Rs.1,500 from Chandra and endorsed the bill to Chandra towards the debt due to him. The bill was dishonoured on the due date. Write Journal Entries in the books of Ravi, Suri and Chandra. Assume that the drawer paid the bill on behalf of the acceptor.
5. On 1-1-2005 Murthy sold goods to Raju for Rs. 1,000 on credit. He has drawn the bill for 3 months and Raju accepted the bill. On 1-3-2005 Raju could not pay the amount on the bill and requested for renewal.
How do you write Journal entries in the books of Murthy and Raju in the following circumstances of Renewal of the bill.
a. Raju paid Rs. 500 and requested for renewing the bill for 2 months along with the interest at $6 \%$.
b. Raju could not pay any amount and asked renewal of the bill for two months along with the interest $6 \%$.
c. Raju accepted to pay Rs. 90 towards interest and requested to draw the bill with 2 months on principal amount.
d. Accepted to pay Rs. 590 immediately (Rs. 90 towards interest) and for the remaining balance the bill is to be drawn with 2 months.
C.D.E. $\quad 7.35 \quad$ Acharya Nagarjuna University
e. Agreed to pay Rs. 250 in cash immediately and agreed to endorse a bill receivable for Rs. 250 and accept a bill for remaining amount at $6 \%$ interest with 2 months due date.
6. Ram draws a bill on Rahim for Rs.2,000 payable after two months on 1-9-2004 and got the latters acceptance. The bill is discounted with the bank at $6 \%$. On the due date the bill is dishonured. Noting charges Rs.10. Rahim accepted a new bill for Rs.2,025 payable after one month. Rahim became bankrupt on the due date. Prepare journal entries in the books of Ram.
7. Latika for the mutual accommodation draws a bill for Rs.3,000 on Sumitha. Latika discounted the bill for Rs.2,925 and remits Rs. 975 to Sumitha. On the due date, Latika is unable to remit her dues to Sumitha to meet the bill. She however, accepts a bill for Rs. 3,750 which Sumitha discounts for Rs.3,525. Sumitha sends Rs. 175 to Latika. Latika becomes insolvent and a dividend of 80 paise in the rupee is received from her estate. Pass Journal Entries and show the account of Sumitha in the books of Latika.
8. X , for mutual accommodation of himself and Y , drawn upon the latter a bill of exchange for three months on $1^{\text {st }}$ January, 2006 for Rs. $1,800 \mathrm{Y}$ accepts the bill and sends it to X . X discounts the bill at the rate of $6 \%$ p.a. and hands over half the proceeds to Y . Y draws a bill on the same date for three months for Rs. 900 on X. X accepts the bill. Y discounts the bill at $6 \%$ p.a., and hand over half the proceeds to X. Y becomes insolvent on $31^{\text {st }}$ March, 2006 and fails to meet his acceptance on maturity. On $30^{\text {th }}$ June, 2006, a first and final dividend of 25 Paise per rupee paid in settlement.

Write the Journal entries in X's books and draw up Y's account in X's books.

8.12: Exercises
8.13: Suggested Readings

## Financial Accounting 8.2 Methods of Depreciation

### 8.1 INTRODUCTION :

Depreciation is an important item in financial accounting that appears on debit side of profit and loss account and on assets side (after deducting from respective assets) of the balance sheet. There are specific objectives and causes for providing depreciation. We cannot imagine financial statements without depreciation. However, there are different methods of charging depreciation. In this lesson, we discuss these methods of depreciation along with their accounting treatment.

### 8.2 DEPRECIATION - DEFINITION AND MEANING :

The following are the important definitions of depreciation.
"Depreciation is the permanent and continuing diminution in the quality, quantity or value of an asset."

- PICKLES
"Depreciation is the measure of the exhaustion of the effective life of an asset from any cause during a given period."
- SPICER AND PLEGLER
"Depreciation is that part of the cost of a fixed asset to its owner which is not recoverable when the asset is finally put out of use by him. Provision against this loss of capital is an integral cost of conducting business during the effective commercial life of the asset and is not dependent upon the amount of profit earned."

The Institute of Chartered Accountants of England and Wales
From the above definitions, it can be said that depreciation is a part of the cost of fixed asset, which has expired due to its usage or lapse of time or both. In other words, depreciation is a reduction in the book value of fixed assets. However, it does not apply to land as its value generally increases y passage of time.

### 8.3 DEPRECIATION AND OTHER RELATED CONCEPTS :

Depreciation is used synonymously with depletion, obsolescence, amortization and dilapidation. But these are different terms with slight variations.
8.3.1 Depreciation and depletion: Depletion implies removal of an available or irreplaceable natural resource such as extracting coal from a coal mine or out of an oil well. But,
C.D.E $8.3 \quad$ Acharya Nagar.juna University
depreciation refers to a reduction in the value of fixed assets arising from their wear and tear.
8.3.2 Depreciation and obsolescence: Obsolescence is a decrease in usefulness of an asset due to outdated technology or fashion. This is also one of the causes of depreciation.
8.3.3 Depreciation and amortization: Writing down of certain value on intangible assets such as goodwill, copyright, patents etc., is called amortization. But depreciation is charged on fixed assets.
8.3.4 Depreciation and dilapidation: Dilapidation refers to damage done to a building or other property during tenancy. When a property is given for lease, the lessor can ask the lessee to handover the property after the agreed period in as good condition as it was at the time of leased out. The cost of putting the asset in good condition is dilapidation cost. After adding this, the asset will be charged for depreciation.

### 8.4 CAUSES OF DEPRECIATION :

The main causes of depreciation are as follows:
8.4.1 Wear and tear: Assets gets worn or torn out on account of constant use. This wear and tear is an important cause of depreciation in the case of tangible fixed assets such as plant and machinery, furniture, and fixtures etc.
8.4.2 Efflux of time: Assets like lease hold properties, patents or copyrights have definite life period. On the expiry of life they cease to exist. In case of other assets they have no definite life, their life is to be estimated.
8.4.3 Obsolescence: Some assets are discarded before they are worn out because of changed conditions or technology. For example, an old machine, which is still working, may have to be replaced by a new machine because of the later being more advanced, efficient and economical. Such a loss on account of new inventions or changed fashions is known as loss on account of obsolescence.

## Financial Accounting 8.4 Methods of Depreciation

### 8.4.4 Accidents: An asset may meet an accident and that accidental loss may be permanent but is not continuing and gradual.

Of the above causes, the first two factors are considered as relevant to depreciation. The next two factors are considered only when they occur and they do not happen to all assets.

### 8.5 FEATURES OF DEPRECIATION :

Depreciation has the following basic features.
8.5.1 Charge on fixed assets: Depreciation is charged only on fixed assets. The term is not used in the case of wasting and fictitious assets such as depletion of natural resources and amortization of goodwill etc. Similarly, loss in value of current assets is taken care by valuing them for balance sheet purposes at cost or market price whichever is less.
8.5.2 Charge on profits: Depreciation is a charge against profits. It means that true profit of the business cannot be ascertained without charging depreciation.
8.5.3 Reduction in book value: By charging depreciation, the book value of fixed assets continues to reduce. In case of land, the market value usually goes up as time passes.
8.5.4 Permanent, gradual and continuous: The depreciation in the form of reduction in the book value of as asset is permanent, gradual and continuous until it reaches to its scrap value. When once the book value is reduced, it is not possible to restore it to its original cost.
8.5.5 Different from maintenance: Depreciation is different from maintenance. Maintenance expenses are incurred to keep the asset in good condition. However, a good conditioned asset should also reach a state of scrap. Of course, good maintenance delays the scrap stage but cannot prevent it.
8.5.6 Not visible: Like other expenses, depreciation is not visible.

### 8.6 OBJECTIVES OF PROVIDING DEPRECIATION :

Depreciation is provided keeping in view the following objectives.
8.6.1 Ascertainment of true profits: To ascertain true profits, depreciation on assets has to be charged undoubtedly. The amount paid for an asset is like payment in advance for expenses. For example, if a building is purchased for Rs. 50 lakhs for business purposes, the effect of such a purchase will be saving in the cost of rent in the future. After certain period, the building may become useless. The cost of the building is, therefore, nothing but paying rent in advance for certain period. If the rent had been paid, it would have been charged as an expense for determination of the true profits.
8.6.2 Presentation of true financial position: Another objective of providing depreciation is to show the fixed assets in the balance sheet at their proper value. Because of various reasons, as explained above, fixed assets lose their value. Therefore, they must be shown in the balance sheet after deducting depreciation. Otherwise, the balance sheet fails to show the true financial position.
8.6.3 Replacement of assets: Depreciation is also provided to retain funds from profits for replacement of assets. The amounts debited in the profit and loss account are retained in the business and used for replacement of assets after their life term.

### 8.7 FACTORS AFFECTING THE AMOUNT OF DEPREICAITON :

The following three factors affect the amount of depreciation to be charged and transferred to profit and loss account.
8.7.1 Original cost of the asset: The cost of the asset mainly includes the invoice price of the asset. Any trade discount given by the seller should be deducted. Further, all costs incurred (erection charges) to bring the asset to a usable condition. However, financial charges such as the interest on money borrowed for the purchase of the asset should not be included.
8.7.2 Estimated scrap or residual value: Scrap or residual value is the estimated value of the asset at the end of its life period. In determining the scrap val8ue, the cost to be

## Financial Accounting 8.6 Methods of Depreciation

incurred in the disposal or removing of the asset should be deducted out of the total realizable value.
8.7.3 Estimated effective or commercial life: When an asset is not capable of producing goods at a reasonable cost, it is the end of its life. The life of the asset may be calculated in terms of years, months, hours, and units of output or other operating measures such as kilometers in case of motor vehicle.

Depreciation on asset is provided every year on the book value of the asset up to its scrap value i.e. through out its useful life period.

### 8.8 METHODS OF DEPRECIATION :

There are various methods of charging depreciation depending on the nature of the asset, policy of the company, different methods are followed. Let us discuss about them in detail.
8.8.1 Straight-line method: This is also known as fixed installment method. According to this method, depreciation is charged evenly every year through out the effective life of the asset. The amount of depreciation is calculated as follows:

Depreciation $=$ Original cost of the asset - Estimated scrap value/ Number of years of expected life.

Depreciation may also be expressed as a percentage. For example, if an asset has been purchased for Rs. 1,00,000 and it will have a scrap value of Rs.10,000 at the end of its useful life of 10 years, the amount of depreciation to be charged every year over the effective life of the asset will be computed as follows:

Depreciation $=1,00,000-10,000 / 10=9,000$ or $9 \%$
The entry for depreciation is as follows:
Depreciation A/c
Dr
To Asset A/c

Alternatively, provision for depreciation can be created, then the entry will be as follows:
Depreciation A/c Dr
To Provision for depreciation A/c

| C.D.E | $8.7 \quad$ Acharya Nagarjuna University |
| :--- | :--- | :--- |

In this case, the asset account will continue to appear at the original cost and the total amount of depreciation provided so far will be apparent from the provision for depreciation account. In the balance sheet the amount of the provision for depreciation will be deducted from the cost of the asset and only the balance is shown in the outer column.

## Merits of straight-line method:

This method has the following merits.

1. It is very simple to understand and easy to calculate.
2. Asset can be depreciated up to the estimated scrap value or zero value.
3. Amount of depreciation can be known easily.
4. Same amount of depreciation is debited to profit and loss account every year, so there is same effect on profit and loss account every year.

## Demerits:

1. This method does not take into account the effective utilization of the asset. The same amount of depreciation is charged every year irrespective of the use of the asset. BY passage of time, work efficiency of the asset decreases and repair expenses increase. Therefore, charging depreciation equally through out the life period of the asset is not reasonable.
2. It would not take into account the interest on capital invested on the asset.
3. In some cases, assets are used in the business even after their book values become zero.

Illu.1: Show machinery account under straight-line method for three years from the following information given to you.
i) Machinery cost

Rs. 2,00,000
ii) Estimated value of life

3 years
iii) Rate of depreciation

331/3\%
iv) Scrap value

Rs. 20,000

8.8.2 Diminishing balance method: Under this method, depreciation is charged at a fixed rate on the book value of the asset or the reducing balance every year. The amount of depreciation goes on decreasing every year. It is also called as written down value method. For example, if the cost of an asset is Rs. 1,00,000, and the rate of depreciation is $10 \%$, the amount of depreciation to be charged in the first year will be Rs. 10,000, second year Rs.9, 000 (1,00,000-10,000@10\%), third year Rs. 8,100 (90,000-9000 @10\%) and so on.

| Financial Accounting | 8.10 | Methods of Depreciation |
| :--- | ---: | :--- |

Merits: This method has the following merits.

1. Like straight-line method, calculation of depreciation under this method is also easy.
2. Under this method, the depreciation in the initial years is high and goes on decreasing in the subsequent years. As the repair charges increase while the usage of asset goes on, the depreciation charges come down and compensates.
3. The Income-tax Act accepts this method.

## Demerits:

1. Under this method, the value of asset can never be zero.
2. Ascertainment of proper rate of depreciation is a difficult task.
3. Like straight-line method, this method also does not have provision for interest on capital invested on the asset.

Illu. 3: On 1st July 2000, X \& Co. Purchased a machinery for Rs.70, 000. It spent Rs. 8,000 on its installation. Prepare the machinery account for the first four years under diminishing balance method. Depreciation is written off at $10 \%$ per annum.

| :---: | :---: | :---: |

8.8.3 Annuity Method: The above-discussed two methods have not taken into consideration the interest on asset investment. This method considers interest aspect. Under this method, the depreciation is charged taking not only the cost of the asset but also interest thereon at an accepted rate. The amount of interest is calculated on the book value of the asset, in the beginning of each year. The amount of depreciation is uniform and is determined on the basis of annuity table. Every year, depreciation is debited to profit and loss account as usual and interest is credited to profit and loss account.

Illu. 5: A lease is purchased on $1^{\text {st }}$ January 2000 for 5 years at a cost of Rs.1, 00,000 . It is proposed to depreciate the lease by annuity method charging 5 per cent interest. Show the Lease Account for five years and also the relevant entries in the Profit and Loss Account. The annuity table shows that the annual amount necessary to write off Re. 1 at 5\% per annum is Re.0.230975.

## Solution:

To write off Rs. $1,00,000$ it requires to write of Rs. $23,097.50$ ps i.e. $(0.230975 \times 1,00,000)$ every year.

8.8.4 Sinking fund method: This method is also called as depreciation fund method. In the above three methods, the amount of depreciation charged from the profit and loss account continues to remain in the business. But under this method, this amount is invested in some securities carrying a particular rate of interest. The amount received on account of interest from these securities is also invested from time to time together

#### Abstract

C.D.E 8.15 Acharya Nagar.juna University

with the annual amount charged by way of depreciation. At the end of the useful life of the asset, when replacement is required, the securities are sold and the new asset is purchased. The method has the advantage of providing a separate sum for replacement of the asset. But, charging of same amount of depreciation every year is a burden on profit and loss.

Illu. 6: On $1^{\text {st }}$ January 2001 a trader purchased a three-year lease of premises for Rs.30, 000 and it was decided to make provision for replacement of the lease by means of a depreciation fund. The expected rate of interest on the investment was $5 \%$ per annum. The sinking fund table shows that 0.3172 ps. at $5 \%$ per annum will in three years accumulate Re.1. Show the Depreciation Fund Account.

## Solution:

| Each year investment to make Re. 1 after 3 years | 0.3172 ps |
| :--- | :--- |
| Each year investment to make Rs. 30,000 after 3 years | $30,000 \times 0.3172=9,516$ |

Illu. 7: A company purchased a four years' Lease on January 1, 2001 for Rs.20, 150. It is decided to provide for the replacement of the lease at the end of four years by setting up a Depreciation Fund. It is expected that investments will fetch interest at 4\%. Sinking Fund table shows to provide the requisite sum at $4 \%$ at the end of four years, an investment of Rs.4, 745.02 is required. Investments are made to the nearest rupee.

On December31 2004, the investments are sold for Rs.14, 830. On $1^{\text {st }}$ January 2005, the same lease is renewed for a further period of 4 years by payment of Rs.22, 000. Show the important ledger accounts to record the above.

8.8.5 Insurance Policy method: This method is almost similar to that of the sinking fund method. In the sinking fund method investments are purchased, but in insurance policy method, an insurance policy for the required sum is taken out. Every year premium is paid. The premium will be the annual depreciation and will be debited every year to the Profit and Loss Account and credited to depreciation reserve account. At the end of the given period, the insurance company will pay the agreed amount with which new asset can be purchased.

Illu. 8: A company purchased a lease for 3 years for Rs.30, 000 on $1^{\text {st }}$ January 2002 and decided to provide for its replacement by means of an insurance policy for Rs.30,
C.D.E 8.19 Acharya Nagarjuna University
000. The annual premium is Rs.9, 500. On $1^{\text {st }}$ January 2005 the lease is renewed for a further period of 3 years for Rs.30, 000. Show the necessary ledger accounts.

### 8.9 SUMMARY:

Depreciation is a fall in the quality or value of an asset due to wear and tear and other reasons. The concept depreciation is different from depletion, obsolescence, amortization and dilapidation. Depreciation is a charge on fixed assets and on profits. It reduces the book value
C.D.E 8.21 Acharya Nagar.iuna University
of assets gradually and continuously. The main objective of providing depreciation is ascertainment of true profits. Further, to present true financial position and to replace the expired or life completed assets are also other objectives of depreciation. The amount of depreciation is affected by original cost of the asset, its scrap value and its estimated effective life. There are various methods of depreciation. Among these, straight-line method and diminishing balance method are prominent. Both these methods have certain merits and demerits. A similarity of these two methods is that they have ignored interest concept. Annuity method of depreciation takes interest into consideration. Sinking fund method converts the depreciation amount into investments and makes the asset replacement easy. Similar to sinking fund method an insurance policy is taken under insurance policy method.

### 8.10TECHNICAL TERMS :

Depreciation-------- It is the permanent and continuing diminution in the quality, quantity or value of an asset.

Depletion----------- It implies removal of an available natural resource.
Obsolescence------ It is a decrease in usefulness of an asset due to outdated technology or fashion.

Amortization-------- It is writing down of certain value on intangible assets.
Dilapidation-------- It is a damage done to a building or other property during tenancy.

### 8.11 QUESTIONS :

## A. Very short questions:

1. Define depreciation.
2. Distinguish between depreciation and obsolescence.
3. Distinguish between depreciation and amortization.
4. What are the causes of depreciation?

## B. Short questions:

1. What is depreciation? What are its basic features?
2. What are the objectives in providing depreciation?
3. What factors affect the amount of depreciation

## Financial Accounting 8.22 Methods of Depreciation

## C. Essay question:

1. What is the importance of depreciation in financial accounting? Explain various methods of depreciation.

### 8.12 EXERCISES :

1. On $1^{\text {st }}$ January 2000 Kiran Kumar purchased a machinery costing Rs. 40,000 and spent Rs.5, 000 on its erection. The estimated effective life of the machinery is 10 years with scrap value of Rs. 5,000. Calculate depreciation on the straight-line method and show Machinery Account for the first three years.
(Ans: Balance of Machinery Account Rs.33, 000)
2. On $1^{\text {st }}$ April 2001, ABC Ltd. Purchased a machinery for Rs.3, 00,000 and incurred Rs. 21,000 towards freight and insurance, Rs. 3,000 towards carriage inward and Rs.6, 000 towards installation charges. It has been estimated that the machinery will have a scrap value of Rs. 30,000 at the end of the useful life, which is four years.

Show the Machinery Account for the first four financial years ending $31^{\text {st }}$ March each year according to the straight-line method
(Ans: Depreciation per year Rs.75, 000)
3. On $1^{\text {st }}$ January 2002 a company purchased a machine costing Rs. 1,00,000. Its working life is 10 years. It has been decided to depreciate it at the rate of $121 / 2 \%$ on the diminishing balance method. Show the Machinery Account for first four years.
(Ans: Balance of Machine Account on $1^{\text {st }}$ January2006 Rs.66, 992.19).
4. A boiler was purchased from abroad for Rs.10, 000. Shipping and forwarding charges were Rs.2, 000. Import duty Rs.7, 000 and expenses of installation amounted to Rs.1, 000. Calculate depreciation for the first three years at $10 \%$ on diminishing balance method.
(Ans.: Boiler Account after 3 years Rs.14, 580)
5. An educational institution purchased a lease of land for Rs.10, 00,000 that was to run for five years. It was decided to raise a sinking fund to accumulate this amount at the end of the lease. The rate of interest is $5 \%$.

## C.D.E 8.23 Acharya Nagarjuna University

A reference to depreciation fund table shows that the annual amount of Re.0.180975 amount to Re. 1 after 5 years. Write up the necessary accounts for all the years.

## Chapter - 9

## RECTIFICATION OF ERRORS

## Objectives :

After studying this unit, we should be able to

- Understand the need for rectification of errors in accounts
- Classify the errors
- Find out location of errors which do not effect the agreement of the trial balance and errors which effect the agreement of trail balance.
- Understand the meaning and need for opening a suspense account.

## Structure :

### 9.1 Introduction

### 9.2 Classification of Errors

### 9.3 Location of Errors

### 9.4 Suspense Account

9.5 Questions

### 9.6 Exercises

9.7 Suggested Readings

### 9.1 INTRODUCTION

Trial Balance is prepared to check the arithmetical accuracy or correctness of recording in journal, posting to ledger and balancing of ledger accounts. In case trial balance agrees, it is assumed that recording, posting and balancing has been done correctly or accurately. However, if it does not tally, efforts are made to locate errors in

## Financial Accounting <br> 9.2 <br> Rectification of Errors

accounting records. Moreover, trial balance is not conclusive proof of accuracy of records. Even when the trial balance agrees, some errors may remain in accounting records. For example, non-recording of credit sale transaction in Sales Book will not affect the agreement of trial balance because both (i.e., debit as well as credit) aspects of the sale transaction are not recorded in this case. Errors, whether affecting trial balance or not affecting trial balance, are to be corrected. Procedure followed to remedy the errors committed and set right accounting records is called rectification of errors.

### 9.2CLASSIFICATION OF ERRORS :

Keeping in view the nature of errors, all the errors can be classified into the following four categories.

1. Error of Omission
2. Error of Commission
3. Error of Principle
4. Compensating Errors

### 9.2.1 Error of Omission :

This error arises wen a transaction is completely or partially omitted to be recorded in the books of accounts. Error of Omission may be classified as under.
(a) Error of Complete Omission : This Error arises when any transaction is not recorded in the books of original entry at all. This error does not affect the trial balance. For example, (1) Goods purchased on credit from Ram not recorded in the purchases book. (2) Goods sold on credit to Shyam not recorded in the Sales Book
(b) Errors of Partial Omission : An error of omission other than an error of complete omission is called an error of partial omission. This error affects the trial balance. The examples of errors of partial omission include the following. (1) Transaction correctly recorded in the books of original entry (other than Journal Proper) but not posed in the ledger at all. (2) Omission in carrying forward the total from one page to the other. (3) Omission to balance an account.
C.D.E.

### 9.2.2 . Error of Commission :

This error arises due to wrong recording, wrong casting, wrong carrying forward wrong posting etc. Error of commission may be classified as follows.

1. Errors of Recording : This error arises when any transaction is incorrectly recorded in the books of original entry. This error does not affect the trial balance. For example : (1) Goods of Rs. 500 purchased on credit from Ram are recorded in the purchases book for Rs.5,500. (2) Goods of Rs.5,000 purchased on credit from Ram are recorded in the Sales Book.
2. Error of Casting : This error arises when a mistake is committed in totaling. This error affects the trial balance. For example : (1) Purchases book is totalled as Rs.1,000 instead of Rs.100. (2) Sales book is totalled as Rs. 500 instead of Rs.5,000.
3. Error in carrying forward : This error arises when a mistake is committed in carrying forward a total of one page on the next page. This error effects the trial balance. For example, (1) Total of purchases book is carried forward as Rs.1,000 instead of Rs. 100 (2) Total of Sales book is carried forward as Rs. 100 instead of Rs.1,000.
4. Errors of Posting : This error arises when information recorded in the books of original entry are incorrectly entered in the ledger. This error may or may not affect the trial balance.

### 9.2.3. Errors of Principle :

This error arises when the transaction is recorded ignoring the distinction between the capital item and revenue item. In other words, the error involves an incorrect the allocation of expenditure or receipt between Capital and Revenue. The correct allocation between capital and revenue is of paramount importance because any incorrect allocation would disturb the final results as disclosed by the Financial Statements. The error does not effect the Trial balance.

### 9.2.4. Compensating Errors :

These errors arise when two or more errors are committed in such a way that net effect of these errors on the debits and credits of accounts involved is nulifiled. These errors do not affect the agreement of the trial balance but may or may not affects the figure of net profit.

## Financial Accounting

### 9.3LOCATION OF ERRORS

Location of errors of principle, errors of compensating nature and errors of omission is slightly difficult because of the fact that such errors do not affect the agreement of the Trial balance and, therefore, their location may be considerably delayed. However, location of errors of commission is comparatively easier because they affect the agreement of the Trial Balance. Thus, the errors can be classified into two categories from point of view of locating them.

1. Errors which do not affect the agreement of the trial balance. These are also called two side errors.
2. Errors which affect the agreement of the trial balance. These are also called one sided errors.

### 9.3.1 Errors which do not effect the agreement of the Trial Balance :

Although, the totals of the Trial balance are equal, some mistakes may remain undetected. The agreement of a Trial balance is not affected in spite of the following errors.

1. Complete Omission of a Transaction : If any particular transaction is not recorded at all, it would not affect the agreement of a trial balance. For example Rs. 200 are paid to P. If this transaction is not entered in the Cash Book, it will not be posted to P's Account in the ledger and therefore, there will be no difference in the Trial balance. Such types of errors are not disclosed by a Trial Balance.
2. Recording of wrong amounts on both sides: If wrong amounts of the transaction are entered on both the sides of ledger accounts, it would not be disclosed by the Trial balance. For example, goods worth Rs. 570 are purchased from Ajay Trading Company, but in the purchase book as well as in the Ledger Accounts of Ajay Trading Company, the amount was written as Rs. 750 instead of Rs.570. In this case the trial balance will tally.
3. Posting to wrong heads of accounts : If Posting from the journal to the ledger is made to the wrong account, this error will not be disclosed by the Trial balance. Such errors make no difference so far as the agreement of the Trial balance is concerned. For example, furniture is purchased for Rs.1,200. By mistake if it is posted to the debit side of the Machinery Account, instead of Furniture account, the trial balance will not be affected because of one account (i.e., the Machinery Account) is debited and another account (i.e., the Cash account) is credited by the same amount. Therefore, the total of the credit side will agree with the total of the debit side.
C.D.E.
9.5

Acharya Nagarjuna University
4. Compensating Errors : When one mistake nulifies the wrong effect of another, it is called a compensating error,. They are two or more in number and they balance each other. The trial balance fails to disclose them. These errors are generally arithmetical errors. For example, the debit side of the Siva's account is overcast by Rs. 100 at the same time, the credit side of Rahim's account is also overcast by Rs.100. Similarly, if the debit side of the Postage Account is under cast by Rs. 25 and the credit side of the interest account is also under cast by Rs. 25 both the errors will compensate each other and there will be no effect on the agreement of the Trial balance.
5. A wrong entry in the Original record : Such an error occurs when a transaction has been wrongly entered in a subsidiary book. For example credit sale of Rs. 145 to Ramesh and Co. has been entered in the Sales Book as Rs. 154 will be posted to the Sales Account as well as to Ramesh and Co. Account will not affect the Trial balance.

### 11.3.2. Errors which effect the agreement of the Trial Balance :

The agreement of the Trial balance may be affected by one or more of the following types of mistakes.

1. Partial Omission of a Transaction : If the transaction is recorded in the journal but by mistake is not posted in the ledger, the Trial balance will not agree. For example, cash is received from Sohan Rs.200. This is entered properly in the Cash Book, but it is not posted to the credit side of Sohan's account in the ledger. As a result the credit column of the Trial balance will fall short by Rs. 200 .
2. Posting of the wrong amount : If the posting is made of a wrong amount from journal to ledger, the trial balance will disagree. For example, goods are purchased from X worth Rs.180. This transaction was entered correctly in the purchases book, but while posting the amount written on the credit side of X's account was Rs. 118 instead of Rs.180. The total of the credit column of a trial balance will be less than the total of the debit column on the Trial balance by Rs. 62 .
3. Posting on the wrong side of an account : When the transaction is posted to the wrong side of an account in the ledger, it causes disagreement in the Trial Balance. Suppose, cash of Rs. 150 is received as interest. This was entered in the cash book correctly but it was debited to the interest account instead of crediting that account. The result will be that the credit column of the Trial balance will be added short by Rs. 300.
Financial Accounting
9.6
Rectification of Errors
4. Wrong totalling or balancing : If any account in the ledger is wrongly totalled up or wrongly balanced, the Trial balance will not tally. Suppose, the total of the debit side of Mohan's account is Rs.1,500 and that of the credit side is Rs.1,700. Mohan's account should show a credit balance of Rs.200. But fi it is wrongly written as Rs. 300 in the credit column of the Trial balance, the credit side will be heavier by Rs. 100 .

### 9.4. SUSPENSE ACCOUNT

A suspense account is an account in which the amount of difference in the trail balance is put till such time that errors are located and rectified The difference in the trial balance is transferred on the credit side of the Suspense Account (if the debit side of the trial balance exceeds the credit side) or on the debit side of the suspense account (if the credit side of the trial balance exceeds the debit side)

### 9.4.1 Effect on Profit :

Errors committed in a year may affect the profit of that year. This happens when the error relates to such accounts which are taken into account while computing gross or net profit of the business. In other words, if the errors relate to such accounts which find their place in the Trading account or the profit and loss account, the error will effect the profit of the business. For example errors involving Purchases Account, Sales Account, Expense Account, Income Account will all affect the profit of the business. In case on account of errors such accounts are either not debited or unnecessarily credited, this will result in increase in profit of the business.

Illu. 1 :The following errors were detected in the books of Rama and Co. pass necessary entries to rectify them:
a. Sale of old furniture Rs. 150 treated as sale of goods.
b. Rs. $\mathbf{5 0 0}$ received from Mohan was credited to Sohan.
c. Goods purchased from Mohan remained unrecorded Rs. 1,000.
d. A return of Rs. 100 from Mukesh was debited to his account.
e. A return of Rs. 90 to Shyam posted as Rs. 9 to his account.
f. Rent of proprietor's residence Rs. 600 was debited to rent account.
g. A payment of Rs. 215 to Gopal was posted to his credit as Rs. 125.
h. Total of bills receivable Rs. 1,500 left unposted.

## SOLUTION :

## Rectification Journal Entries

| Date | Particulars |  | L.F. | Debit Rs. | Credit Rs. |

| 3. | Suspense a/c <br> To Syam a/c <br> (Being the entry to rectify the wrong <br> debit instead of credit) | 8,000 | 8,000 |  |  |

Illu. 6 : Rectify the following errors discovered before preparation of Trial Balance.
(a) Rs. 750 discount allowed by Creditor has been debited to discount account
(b) The total sales of book has been over casted by Rs.1,000
(c) Rs.1,000 spent for repairs of Building has been posted to Buildings Account.
C.D.E

## Solution :

Journal Entries

| Date | Particulars |  | L.F. | Debit | Credit |
| :--- | :--- | :--- | :--- | :--- | :--- |
| 1. | Suspense a/c <br> To Discount a/c <br> (Being the entry to rectify the wrong <br> debit instead of credit) | Dr. |  | 1,500 | Rs. |
| 2. | Sales a/c <br> To Suspense a/c <br> (Being the entry to rectify the excess <br> credit) | Dr. |  | 1,000 | 1,500 |
| 3. | Repairs a/c <br> To Buildings a/c <br> (Being the entry to rectify wrong debit <br> given to buildings a/c) | Dr. |  | 1,000 | 1,000 |

Illu. 7 : Following errors were detected after preparation of Trial Balance and taken the difference to a Suspense Account. Give the journal entries to rectify them.
(i) A sum of Rs. 350 received from Arun, a debtor was debited to his account,
(ii) Goods purchased for personal use of proprietor were debited to purchases account Rs.1,000
(iii) Discount allowed Rs. 75 was credited to discount receivable.
(iv) A Credit sale of Rs. 450 to Chitra was debited to Mitra.
(v) A purchase of goods for Rs. 750 from Aravind was debited to his account.
(vi) An Office Almirah purchased for Rs. 750 was debited to repairs account.
(vii) Sales book overcast by Rs. 100

## Solution :

Journal Entries

| Date | Particulars |  | L.F. | Debit | Credit |
| :--- | :--- | :--- | :--- | :--- | :--- |
| (i) | Suspense a/c <br> To Arun a/c <br> (Being the entry to rectify wrong debit <br> instead of Credit) | Dr. |  | 700 | Rs. |

### 9.5 QUESTIONS

1. How do you classify errors?
2. What is error of commission?
3. What is error of omission?
4. What is error of principle?
5. What are compensating errors?
6. Explain various types of errors of omission and commission.
7. Give two examples for errors of principle.
8. What is suspense account?
9. What are the effects of errors on the profit of an organisation?

### 9.6 EXERCISES

1. Rectify the following errors
a. Purchase book is overcast by Rs. 700
b. Sales book has been undercast by Rs. 300
c. Purchase returns book has been overcast by Rs. 400
d. Sales returns book has been undercast by Rs. 200
2. Rectify the following errors without opening a suspense account.
a. A sale to Baba for Rs. 261 has been entered in Sales Book as Rs.216.
b. The total of the Discount column on the debit side of the Cash book is short added by Rs. 50
c. A typewriter purchased for Rs.3,000 has been entered in the purchase book
d. An old machine sold for Rs. 800 was entered in the sales book
e. Goods worth Rs. 1,500 sold to Ramlal has been entered in the purchase book'
3. Show how you will rectify the following errors.
a. A Credit sale of Rs. 450 to Banker was debited to Bundel
b. A purchase of goods for Rs. 750 from Sen was debited to his account.
c. An office Almirah purchased for Rs. 750 was debited to Repairs Account.
d. A sum of Rs. 350 received from a debtor was debited to his account.
e. Purchases of goods for the consumption of the proprietor were debited to Purchases account Rs.1,000
f. Discount allowed Rs. 75 was credited to Discount receivable account.
4. The Trial balance of Mr. Chandra did not agree and the difference was temporarily put to Suspense account. Later on the following errors were located. Pass the entries to rectify them.
5. The total of debit side of an Expense Account has been cast in excess by Rs. 50
6. The sales account has been totalled short by Rs. 100
7. One item of purchase of Rs. 25 has been posted from the Day Book to ledger as Rs. 250
8. The Sale return of Rs. 100 from a party has not been posted to that account, though the party's account has been credited.
9. A cheque of Rs. 500 issued to the Suppliers account (shown under Sundry Creditors) towards his dues has been wrongly debited to the Purchase book.
10. A credit sale of Rs. 50 has been credited to the Sales and also credited to Sundry Debtors account.
11. A book keeper having failed to agree the Trial balance, opened a Suspense account and transferred the difference Rs.1,709 to the credit of Suspense Account. The following errors were later discovered. Give journal entries and show the suspense account.
12. Sales book was undercast by Rs. 2,000
13. Purchase of Machinery for Rs.3,000 was passed through the Purchases book
14. Goods sold to Raj for Rs. 45 was posted to his account as Rs. 54
15. Purchase returns book was overcast by Rs. 200
16. The Total of the sales book page 10 was carried forward as Rs.1,222 instead of Rs.1,122.

## [Suspense Account total Rs.2,009]

6. The following errors were discovered in the books of a Slack on $31^{\text {st }}$ December, 2006. The difference in the Trial balance had been entered in a Suspense account and on correction of the errors the Suspense Account was eliminated.
7. The total of the purchase Day book had been under cast by Rs. 100
8. The discount column on the debit side of the cash book had been posted to the credit of Discount received account Rs. 20
9. Rs. 76 for repairs to Motor Van had been taken to the Motor Van a/c
10. A cheque received from Quick Rs. 39 had been debited in the Cash Book, but the double entry had not been completed.
11. The returns outward book had been overcast by Rs. 50
[Ans.: Suspense Account Total Rs.190; Net Profit Rs.4,320]

## C.D.E.

### 10.1 Acharya Nagarjuna University

## Chapter - 10

## Trial Balance

## Objectives :

After thorough study of this chapter, we should be able to

- Meaning and objectives of trial balance
- Understand the methods in the preparation of trial balance.

## Structure :

### 10.1 Introduction

### 10.2. Preparation of Trial balance

### 10.3. Methods are used the Preparation of Trial balance

10.4. Questions

### 10.5 Exercises

### 10.6 Suggested Readings

### 10.1 INTRODUCTION

An important aspect of the double entry accounting system is that for each transaction there is an equal amount of debit and credit in two or more accounts. Therefore, the total of all the entries on the debit side of the account must be equal to the total of all the entries on the credit side of the accounts. For this purpose, a statement known as a trial balance showing the balances of various accounts is prepared. The trial balance is usually prepared just before the preparation of final accounts (profit and loss account and balance sheet) in order to check the arithmetical accuracy of the transaction recorded into the ledger accounts.

According to J.R. Batliboi "Trial balance is a statement prepared with the debit and credit balances of accounts to test the arithmetical accuracy of books."

## Financial Accounting 10.2 Trial Balance

### 10.1.1 Objectives

The following are the objectives of preparing a trial balance.

1. To ascertain the arithmetical accuracy of ledger accounts: Trial balance helps in ascertaining the arithmetical accuracy of the accounting entries. It indicates that equal debit and credit amounts have been recorded in the ledger accounts and the balances have been calculated correctly.
2. To help in locating errors : When the total of trial balance does not tally, it indicates that some errors have been committed. On the basis steps can be taken to locate the errors committed in the preparation of trial balance.
3. To help in the preparation of final accounts: Trial balance contains the list of all the ledger accounts. This helps in the preparation of final accounts. All revenue and expenses accounts appear in the trial balance, which are transferred to the trading and profit and loss accounts. All assets, liabilities, and capital accounts are transferred to the balance sheet. Together, they constitute the final accounts.

### 10.2 PREPARATION OF TRIAL BALANCE

The final accounts are prepared with the help of trial balance, which shows all the ledger balances at the end of accounting period. Generally, the trial balance is given and there is no difficulty in identifying the items of income expenses, assets and liabilities. However, sometimes the trial balance is not correctly given. In such a case, it has to be prepared. T can be easily ascertained whether a particular account has a debit balance or a credit balance. The problem arises when a list of balances is given but it is not indicated whether the account has a debit or a credit balance. Under these circumstances, the nature of each balance has to be ascertained before the preparation of trial balance. The rules of debit and credit help in the preparation of trial balance. A few guidelines, which help in the preparation of trial balance are as follows.
(i) All accounts of expenses and losses have debit balance.
(ii) All accounts of income and gains have a credit balance.
(iii) All accounts of liabilities have a credit balance
(iv) The capital account usually has a credit balance.

The format of a trial balance is as shown.

The first column is the serial number, the second column is the title or the name of the account and the third and fourth columns are the debit and credit columns respectively, representing the balance of each account.

### 10.3 METHODS ARE USED IN THE PREPARATION OF TRIAL BALANCE :

The following two methods are used in the preparation of trial balance.

1. Balance Method
2. Total Amounts Method

### 10.3.1 Balance Method :

Under this method, all the accounts showing debit balances in the ledger accounts are put on the debit side of the trial balance and the accounts showing credit balances are put on the credit side of the trial balance. After this, the debit and credit columns of the trial balance are totalled. The total of two the sides must be equal.

### 10.3.2 Total amounts method :

Under this method, the total of debits and credits, instead of the balances of each account, are shown in the trial balance. A trial balance by this method, can be prepared immediately after the completion of posting from the books of original entry to the ledger.

Illu. 1 : Prepare the Trial Balance from the following:

|  | Rs. |
| :--- | ---: |
| Purchases | 82,800 |
| Buildings | 30,000 |
| Wages | 68,000 |

| Fuel | 2,000 |
| :--- | ---: |
| Creditors | 18,000 |
| Bills payable | $\mathbf{7 0 0}$ |
| Discount received | 100 |
| Sales | $1,93,000$ |
| Insurance | 1,300 |
| Income Tax | 3,700 |
| Opening stock | $\mathbf{1 8 , 0 0 0}$ |
| Commission paid | $\mathbf{3 0 0}$ |
| Debtors | $\mathbf{1 9 , 0 0 0}$ |
| Bad debts | $\mathbf{8 0 0}$ |
| Salaries | $\mathbf{2 5 , 0 0 0}$ |
| Printing and stationary | $\mathbf{7 , 6 0 0}$ |
| Postage and Telegrams | $\mathbf{3 , 9 0 0}$ |
| Bills receivable | $\mathbf{1 3 , 0 0 0}$ |
| Cash at bank | $\mathbf{7 0 , 0 0 0}$ |
| Capital |  |

## Solution :

Trial Balance

| Debit Balances | Rs. | Credit Balances | Rs. |
| :--- | ---: | :--- | ---: |
| Purchases | 82,800 | Creditors | 18,000 |
| Buildings | 30,000 | Bills payable | 700 |
| Wages | 68,000 | Discount received | 100 |
| Fuel | 2,000 | Sales | $1,93,000$ |
| Insurance | 1,300 | Capital | 70,000 |
| Income tax | 3,700 |  |  |
| Opening stock | 18,000 |  |  |
| Commission paid | 300 |  |  |
| Debtors | 19,000 |  |  |
| Bad debts | 800 |  |  |
| Salaries | 25,000 |  |  |
| Printing and Stationery | 7,600 |  |  |
| Postage and Telegrams | 3,400 |  | $\mathbf{2 , 8 1 , 8 0 0}$ |
| Bills Receivable | 6,900 |  |  |
| Cash at Bank | 13,000 |  |  |
|  | $\mathbf{2 , 8 1 , 8 0 0}$ |  |  |

## C.D.E.

Illu. 2 : From the following particulars prepare Trial Balance:

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| Capital | 60,000 | Repairs | 500 |
| Drawings | 6,000 | Bad debts | $\mathbf{1 , 0 0 0}$ |
| Purchases | 25,000 | Discount allowed | 1,000 |
| Debtors | 4,000 | Commission received | 4,000 |
| Creditors | 3,000 | Insurance | 1,000 |
| Bills payable | 2,000 | General expenses | 2,000 |
| Sales | 50,000 | Depreciation | 3,000 |
| Carriage inwards | 1,000 | Furniture | 10,000 |
| Carriage outwards | 2,000 | Land and buildings | $\mathbf{3 2 , 0 0 0}$ |
| Wages | 5,000 | Bills receivable | $\mathbf{3 , 0 0 0}$ |
| Salaries | 10,000 | Fixed deposit with SBI | 6,000 |
| Advertisement | 1,000 | Opening stock | 4,000 |
| Power | 1,000 |  |  |
| Postage | 500 |  |  |

## Solution :

Trial Balance as on....

| Particulars | Rs. | Rs. |
| :--- | ---: | ---: |
| Capital |  | 60,000 |
| Drawings | 6,000 |  |
| Purchases | 25,000 |  |
| Debtors | 4,000 |  |
| Creditors |  | 3,000 |
| Bills payable |  | 2,000 |
| Sales |  | 50,000 |
| Carriage inwards | 1,000 |  |
| Carriage outwards | 2,000 |  |
| Wages | 5,000 |  |
| Salaries | 10,000 |  |
| Advertisement | 1,000 |  |
| Power | 1,000 |  |
| Postage | 500 |  |
| Repairs | 500 |  |
| Bad debtors | 1,000 |  |
| Discount allowed | 1,000 |  |

| Financial Accounting | 10.6 | Trial Balance |
| :--- | :--- | :--- |

| Commission received |  | 4,000 |
| :--- | ---: | ---: |
| Insurance | 1,000 |  |
| General expenses | 2,000 |  |
| Depreciation | 3,000 |  |
| Furniture | 10,000 |  |
| Land and buildings | 32,000 |  |
| Bills Receivable | 3,000 |  |
| Fixed deposit with SBI | 6,000 |  |
| Opening stock | 4,000 |  |
|  | $\mathbf{1 , 1 9 , 0 0 0}$ | $\mathbf{1 , 1 9 , 0 0 0}$ |

Illu. 3 : The following are the balances extracted from the books of Ramu on 31-12-2006. Prepare Trial Balance.

|  | Rs. |
| :--- | ---: |
| Capital | 30,000 |
| Drawings | 5,000 |
| Furniture | 2,600 |
| Bank Overdraft | 4,200 |
| Creditors | 11,000 |
| Premises | 20,000 |
| Stock | 22,000 |
| Debtors | 18,000 |
| Rent (Cr.) | 1,000 |
| Discount (Dr.) | 1,600 |

### 10.4 QUESTIONS

1. What is Trial balance?
2. What are the advantages in the preparation of Trial Balance?
3. What are various methods in the preparation of trial balance?
4. "Trial balance is a statement prepared with the debit and credit balances of accounts to test the arithmetical accuracy of books." Discuss

### 10.5. EXERCISES

1. From the information given below, prepare a Gross Trial Balance as on $31^{\text {st }}$ December, 2006

| Account | Debit <br> Rs. | Credit <br> Rs. |
| :--- | ---: | ---: |
| Capital a/c |  | 25,000 |
| Drawings a/c of Proprietor | 5,000 |  |
| Purchases a/c | 85,000 |  |
| Sales a/c |  | $1,80,000$ |
| Purchase Returns a/c |  | 2,000 |

| Financial Accounting | 10.8 | Trial Balance |
| :--- | :--- | :--- |

| Sales returns a/c | 1,500 |  |
| :--- | ---: | ---: |
| Commission a/c | 700 | 200 |
| Interest a/c | 300 |  |
| Office Expenses a/c | 7,500 |  |
| Sundry debtors a/c | $1,35,000$ | $1,12,700$ |
| Sundry Creditors a/c | 50,000 | $1,25,000$ |
| Cash a/c | $2,00,000$ | 25,000 |
| Bank a/c | 85,000 | $1,00,000$ |

## [Ans.: Trial balance Total Rs.5,70,000]

2. Prepare Trial balance from the following balances extracted from the books of accounts of Jayashree Traders as on $31^{\text {st }}$ March, 2006

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| Capital | $1,50,000$ | Goodwill | $1,00,000$ |
| Sundry Debtors | 35,000 | Office Expenses | 10,000 |
| Sundry Creditors | 42,000 | Outstanding expenses | 15,000 |
| Machinery | 21,000 | Interest received | 3,200 |
| Furniture | 19,000 | Cash balance | 1,800 |
| Sales | $2,00,000$ |  |  |
| Purchases | $1,16,000$ |  |  |
| Opening stock (1-4-2005) | $1,07,400$ |  |  |

[Ans.: Trail balance Total Rs.4,10,200]
3. From the following balances given below extracted from the books of Randhir, prepare a Trial balance as on $31^{\text {st }}$ December, 2006

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| Cash in hand | 200 | Rent and Rates | 2,000 |
| Cash at Bank | 2,500 | Purchase returns | 200 |
| Capital account | 50,000 | Sales returns | 300 |
| Drawings | 5,000 | Plant and Machinery | 15,000 |
| Sales | 35,000 | Loan (taken) | 20,000 |
| Purchases | 30,000 | Furniture | 5,000 |
| Sundry Debtors | 32,000 | Opening stock | 7,500 |
| Sundry Creditors | 15,000 | Travelling expenses | 7,000 |

## Chapter - 11

## Trading, Profit \& Loss Account

## Objectives :

After study of this unit we should be able to

- Understand the meaning of financial statements
- Know how to prepare trading and profit and loss account

## Structure :

### 11.1 Introduction

11.2 Trading Account
11.3 Profit and Loss account

### 11.4 Questions

### 11.5 Exercises

### 11.6 Suggested Readings

### 11.1 INTRODUCTION

It has been explained in a preceding Chapter that the accuracy of the books of accounts is determined by means of preparing a Trial balance. Having determined the accuracy of the books of accounts every businessman is interested in knowing about two more facts. They are : (I) Whether he has earned a profit or suffered a loss during the period covered by the Trial balance? (ii) Where does he stand now? In other words, what is his financial position?

The determination of the Profit or Loss is done by Preparing a Trading and Profit and Loss Account (or an Income Statement). While the financial position is judged by means of preparing a balance sheet of the business. The two financial statements together (i.e., Incomes Statement and the Balance sheet) are termed as Final Accounts. As term indicates, Final Accounts means accounts which are prepared at the final stage to give the financial position of the business.

## Financial Accounting $11.2 \quad$ Trading \& Profit \& Loss a/c

## Trading and Profit and Loss Account :

The Trading and Profit and Loss Account is a final summary of such accounts which affect the profit or loss position of the business. In other words, the accounts contain the items of Income and Expenses relating to a particular period. The account is prepared in two parts (I) Trading Account, and (ii) Profit and Loss account.

### 11.2 TRADING ACCOUNT

Trading Account gives the overall result of trading i.e., purchasing and selling of goods. In other words, it explains whether purchasing of goods and selling them has proved to be profitable for the business or not. It takes into account on the one hand the cost of goods sold and on the other the value for which they have been sold away. In case the sales value is higher than the cost of goods sold, there will be a profit, while in a reverse case, there will be a loss. The profit disclosed by the Trading Account is termed as gross Profit. Similarly the loss disclosed by the Trading Account is termed as Gross Loss.

### 11.2.1 Opening and Closing Stocks :

All goods purchased have been sold away by the trader. However, it does not normally happen. At the end of the accounting year, a trader may be left with certain unsold goods. Such stock of goods with a trader unsold at the end of the accounting period is termed as closing stock. Such a stock will become the opening stock for the next period. While calculating the amount of profit or loss on account of trading, a trader will have to take such Opening and closing Stocks into consideration.

### 11.2.2. Expenses on Purchases etc.

We have presumed that the trader has not incurred any expenses for purchase of goods and bringing them to his shop for sale. However, a trader has to incur various types of expenses for purchasing of goods as well as for bringing them to his shop for sale. Such expenses may include brokerage or commission paid to agents for purchase of goods, cartage or carriage charges for bringing the goods to the trader's shop, wages paid to coolies for transportation of goods etc. All such expenses increase the cost of the goods sold and hence they have also to be included in the cost of purchasing the goods. In other words, cost of goods sold will be calculated as follows.

## C.D.E. <br> 11.3 <br> Acharya Nagarjuna Univeristy

Cost of Goods sold = Opening Stock + Net purchases + Expenses on Purchasing Of goods - Closing stock

Cost of goods sold calculated above will then the compared with the net sales to find out the amount of profit or loss made by the business.

### 11.2.3 Equation for Preparing Trading Account :

The following equation can be derived for preparing Trading Account.

| Gross Profit | Sales - Cost of goods sold |
| :--- | :--- |
| Cost of goods sold | Opening stock + Purchases + Direct expenses - Closing <br> Stock |
| Therefore Gross Profit $=$ | Sales - (Opening stock + Purchases + Direct expenses - <br> closing stock) |
| Gross Profit | (Sales + Closing stock) - (Opening stock + Purchases + <br> Direct expenses) |

The term `Direct expenses' include those expenses which have been incurred in purchasing the goods, bringing them to the business premises and making them fit for sale. Examples of such expenses are carriage charges, octroi, import duty, expenses for seasoning the goods etc.

The Trading Account can be prepared in the following form on the basis of equation given above.
Trading Account
For the year ending ....
Dr.
Cr.

| Particulars | Rs. | Particulars | Rs. |
| :--- | :--- | :--- | :--- |
| To Opening Stock | $\mathrm{X} \times \mathrm{x}$ | By Sales Less Returns | $\mathrm{X} \times \mathrm{x}$ |
| To Purchases less returns | $\mathrm{X} \times \mathrm{x}$ | By Closing stock | $\mathrm{X} \times \mathrm{x}$ |
| To Direct expenses | $\mathrm{X} \times \mathrm{x}$ | By Gross Loss * | $\mathrm{X} \times \mathrm{x}$ |
| To Gross Profit ${ }^{*}$ | $\mathrm{X} \times \mathrm{x}$ |  |  |
|  | $\mathrm{X} \times \mathrm{x}$ |  | $\mathrm{X} \times \mathrm{x}$ |

- Only one figure will be appear

### 11.2.4 Important points regarding Trading Account

1. Stock: The term `stock' includes goods lying unsold on a particular date. The stock may be of two types. (I) Opening stock (ii) Closing stock.

The term `Opening stock' means goods lying unsold with the businessman in the beginning of the accounting year. This is shown on the debit side of the Trading account.

The term `Closing stock' includes goods lying unsold with the business at the end of the accounting year. It should be noted that stock at the end of the accounting year is taken after the books of accounts have been closed. The amount of closing stock is shown on the credit side of the Trading Account as an asset in the Balance Sheet. This has been explained later. The closing stock at the end of the accounting period will become the Opening stock the next year. The opening stock is therefore shown on the debit side of the Trial balance.

Valuation of Closing Stock : The closing stock is valued on the basis of " cost or market price whichever is less' principle. It is therefore, very necessary that the cost of the goods lying unsold should be carefully determined. The market value of such goods will also be found out on the Balance Sheet date. The closing stock will be valued at the lower of the two values. This valuation is done because of the accounting convention of 'conservatism' according to which expected losses are to be taken into account while not expected profits.
2. Purchases : The term `Purchases’ includes both cash and credit purchase of goods. The term"goods" as already explained in an earlier chapter means items purchased for resale. Assets purchased for permanent use in the business such as purpose of plant, furniture etc., are not included in the purchases of goods. Similarly, purchase of article such as stationery meant for using in the business will also not be included in the item of purchases. In case, a proprietor has himself used certain goods for his personal purposes., the value of such goods at cost will be deducted from the purchases and included in the drawings of the proprietor. Similarly, in case certain goods are given by way of free samples etc., the value of such goods should be charged to advertisement account and deducted from purchases. The amount of purchases will be the net purchases made by the proprietor. The term `net purchases' means total purchases of goods made by the businessman less the goods that he has returned back to the suppliers. In other words, purchases will be taken to the Trading Account after deducting purchases returns and goods as drawing from the gross purchases made during the accounting period.

3. Sales: The term `Sales' includes both cash and credit sales. Gross sales will be shown in the inner column of the Trading account out of which sales returns will be deducted. The net sales will then be shown in the outer column of the Trading Account. Proper care should be taken in records sale of those goods which have been sold at the end of the financial year but have not yet been delivered. The sale value of such goods should be included in the sales, but care should be taken that they are not included in the closing stock at the end of the accounting period. Sales of assets like plant and machinery, land and buildings or similar other articles which were purchased for using in the business, and not for sale, should not be included in the figure of ‘sales' to be taken to the Trading Account. 4. Wages : The amount of wages is taken as a direct expenses and, therefore, is debited to the Trading Account. Difficulty arises in those cases when the Trial balance includes a single amount for wages and salaries. In such a case, the amount is taken to the Trading Account.. However, if the Trial balance shows salaries and wages, the amount is taken to the Profit and Loss Account. In actual practice such difficulties do not arise because the businessman knows for which purpose he has incurred the expenditure by way of wages or salaries. However, in an examination problem, it will be useful for the students to follow the principle given above i.e., 'Wages ad salaries' to be charged to trading account while `salaries and wages' to be charged to the profit and loss account. Wages paid for purchases of an asset for long term use in the business e.g., wages paid for plant and machinery or wages paid for construction of a building should not be charged to the Wages Account. They should be charged to the concerned Asset account.
5. Customs and Import Duty : In case the goods have been imported from outside the country, customs and import duty may have to be paid. The amount of such duty should be charged to the Trading Account.
6. Freight, Carriage and Cartage : Freight, carriage and Cartage are taken as direct expenses incurred on purchasing of the goods. They are, therefore, taken to the debit side of the Trading Account. The terms "Freight in" "Cartage in" and "Cartage in" have also the same meaning. However, "Cartage out.", "Freight Out" and "Carriage out" are taken to be the expenses incurred on selling the goods. They are, therefore, charged to the Profit and Loss account. The term "inward" is also used for the term "IN". Similarly the term "outward" is also used for the term "out". In other words "Carriage" or "Carriage inward" or "Carriage in" are used as synonymous terms. Similarly carriage out or "Carriage outward" are also the synonymous terms. The same is true for other expenses like Freight or Cartage.

## Financial Accounting 11.6 Trading \& Profit \& Loss a/c

7. Royalty : Royalty is the amount paid to the owner for using his rights. For example, the royalty is paid by a 'Lessee', of a coal mine to its owner for taking out the coal from the coal mine. Similarly, royalty is paid to the owner of a patent for using his right. It is generally taken as a direct expenses and, therefore, is charged to the Trading Account. However, where royalty is based on sales, for example in case of the book publishing trade, it may be charged to profit and loss account.
8. Gas, Electricity, Water, Fuel etc. : All these expenses are direct expenses and, therefore, they are charged to the Trading Account.
9. Packing Materials : Packing Materials used for packing the goods purchased for bringing them to the shop or convert them into a saleable state are direct expenses and, therefore, they are charged to the Trading Account. However, packing expenses incurred for making the product look attractive or packing expenses incurred after the product has been sold away are charged to the Profit and Loss account.

### 11.2.5 Closing Entries :

Closing entries are entries passed at the end of the accounting year to close different accounts. These entries are passed to close the accounts relating to incomes, expenses, gains and losses. In other words, these entries are passed to close the different accounts which pertain to Trading and Profit and Loss account. The accounts relating to assets and liabilities are not closed but they are carried forward to the next year. Hence, no closing entries are to be passed regarding these accounts which relate to the Balance sheet.

The principle of passing a closing entry is very simple. In case an account shows a debit balance, it has to be credited in order to close it. For example, if the purchases account is to be closed, the purchases account will have to be credited so that it may be closed because it has a debt balance. The Trading Account will have to be debited.

The closing entries are passed in the Journal Proper. The different closing entries to be passed by the Accountant for preparing a Trading Account are being explained below.

### 11.2.6 Importance of the Trading Account :

Trading Account provides the following information to a businessman regarding business.

1. Gross profit disclosed by the Trading Account tells him the upper limit within which he should keep the operating expenses of the business besides saving something for himself.
C.D.E.
11.7
Acharya Nagarjuna Univeristy

The cost of purchasing and the price at which he can sell the goods are governed largely by market factors over which he has no control. He can control only his operating expenses.
2. He can calculate his Gross profit ratio and compare his performance year after year. A fall in the Gross Profit Ratio means increase in the cost of purchasing the goods or decrease in the selling price of the goods or both. In order to maintain at least same figure of gross profit in absolute terms, he will have to push up the sales or make all out efforts to obtain goods at cheaper prices. Thus, he can prevent at least fall in the figure of his gross profit if can not bring any increase in it.
3. Comparison of stock figures of one period from another will help him in preventing unnecessary lock up of funds in inventories.
4. In case of new products, the businessman can easily fix up the selling price of the products by adding to the cost of purchases, the percentage gross profit that he would like to maintain.

Illu. 1 : From the following information take the appropriate items relating to trading account and prepare trading account for the year ending 31-12-2002.

|  | Rs. |
| :--- | :--- |
| Stock 1-1- 2002 | 2,000 |
| Purchases | 7,000 |
| Productive wages | 1,500 |
| Freight | 750 |
| Marine Insurance | 250 |
| Customs duty | 400 |
| Salaries | 1,500 |
| Power | 120 |
| Carriage inwards | 75 |
| Carriage outwards | 100 |
| Sales | 15,000 |
| Packing material | 200 |
| Sales returns | 400 |
| Purchase returns | 300 |
| Office lighting | 250 |
| Office rent | 1,200 |
| Stock 31-12-2002 | 3,000 |

## Solution :

Trading a/c for the year ended 31-12-2002

|  | Rs. | Rs. |  | Rs. | Rs. |
| :--- | :--- | :--- | :--- | :--- | :--- |

| :--- | :--- | :--- | :--- | :--- |
|  | $4,17,500$ |  |  |  |

### 11.3 PROFIT AND LOSS ACCOUNT

The Trading Account simply tells about the gross profit or loss made by a businessman on purchasing and selling of goods. It does not take into account the other operating expenses incurred by him during the course of running the business. All such expenses are charged to the Profit and Loss account. Besides this, a businessman may have other sources of income. For example, he may receive rent from some of his business properties. He may have invested surplus funds of the business in some securities. He might be getting interest or dividends from such investments. In order to ascertain the true profit or loss which the business has made during a particular period, it is necessary that all such expenses and incomes should be considered. Profit and loss Account considers all such expenses and incomes and gives the net profit made or loss suffered by a business during a particular period. It is generally prepared in the following form.

## Profit and Loss Account

## For the year ending ....

Dr.
Cr.

| Particulars | Rs. | Particulars | Rs. |
| :--- | :--- | :--- | :--- |
| To Gross Loss b/d * | $\mathrm{X} \times \mathrm{x}$ | By Gross Profit b/d* | $\mathrm{X} \times \mathrm{x}$ |
| To Salaries | $\mathrm{X} \times \mathrm{x}$ | By Discount received | $\mathrm{X} \times \mathrm{x}$ |
| To Rent | Xxx | By Net loss transferred to <br> Capital a/c | Xxx |

| To Discount | Xxx |  |  |
| To Net profit transferred to <br> Capital Account | Xxx |  |  |

## Financial Accounting $11.14 \quad$ Trading \& Profit \& Loss a/c

- Only one figure will appear

### 11.3.1 Important points regarding Profit and Loss Account :

1. Gross profit or Gross Loss: The figure of gross profit or gross loss is brought down from the Trading Account. Of course, there will be only one figure i.e., either of gross profit or gross loss.
2. Salaries: Salaries payable to the employees for the services rendered by them in running the business being of indirect nature are charged to the profit and loss account. In case of a partnership firm, salaries may be allowed to the partners. Such salaries will also be charged to the Profit and Loss Account.
3. Salaries less Tax : In case of employees earning salaries beyond a certain limit, the employer has to deduct at source income tax from the salaries of such employees. In such a case, the amount of gross salaries should be charged to the Profit and Loss Account, while the tax deducted by the employer will be shown as a liability in the balance sheet of the business till it is deposited with the Tax Authorities.
4. Interest : Interest on loans whether short term or long term is an expenses of an indirect nature and, therefore, is charged tot he Profit and Loss Account. However, interest on loans advanced by a firm to third parties is an item of income and therefore, will be credited to the Profit and Loss account.
5. Commission : Commission may be both an item of income as well as an item of expense. Commission on business brought by agents is an item of expenses while commission earned by the business for giving business to others is an item of income. Commission to agents is, therefore, debited to the Profit and Loss account while commission received is credited to the Profit and Loss account.
6. Trade expenses : Trade expenses are expenses of a miscellaneous nature. They are of small amounts and varied in nature and, therefore, it is not considered worthwhile to open separate accounts for each of such types of expenses. The term " Sundry Expenses", "Miscellaneous Expenses" or "Petty Expenses" have also the same meaning. They are charged to the Profit and Loss Account.
7. Printing and Stationery : This item of expenses includes expenses on printing of bills, invoices, registers, files, letter heads, ink, pencil, paper and other items of stationery etc. It is of an indirect nature and, therefore, charged to the Profit and Loss Account.

## C.D.E. <br> 11. 15 <br> Acharya Nagarjuna Univeristy

8. Advertisement : Advertisement expenses are incurred for attracting the customers to the shop and therefore, they are taken as selling expenses. They are debited to the Profit and Loss Account. However, advertisements expenses incurred for purchasing of goods should be charged to the Trading account, while advertisement expenses incurred for purchase of a capital asset (e.g. cost of insertion in a newspaper for purchase of car) should be taken as capital expenditure and debited to the concerned asset account. Similarly, advertisements expenditure incurred for sale of a capital asset should be deducted out of the sale proceeds of the asset concerned.
9. Bad debts : Bad debts denotes the amount lost from debtors to whom the goods were sold on credit. It is a loss, and therefore, should be debited to the Profit and Loss account.
10. Depreciation : Depreciation denotes decrease in the value of an asset due to wear and tear, lapse of time, obsolescence, exhaustion and accident. For example, a motor car purchased gets depreciated on account of its constant use. A property purchased on lease for Rs.12,000 for 12 years will depreciate at the rate of Rs.1,000 per year. On account of new inventions old assets become obsolete and they have to be replaced. Mines, etc., get exhausted after the minerals are completely taken out of them. An asset may meet an accident and may lose its value. It is necessary that depreciation on account of all these factors is charged to the Profit and Loss account to ascertain the true profit or loss made by the business.

In case the total of the credit side of the Profit and Loss Account is greater than the debit side of the Profit and Loss account, the difference is termed as Net profit. In a reverse case, it will be termed as Net Loss. The amount of Net profit or Net loss shown by the Profit and Loss account will be transferred to capital account in case of sole proprietary form. In case of a partnership firm, the amount of net profit or net loss will be transferred to the partners' `capital accounts in the agreed ratio. In the absence of any agreement, the partners will share profits and losses equally.

### 11.3.2 Importance of Profit and Loss Account :

The profit and loss account provides information regarding the following manner.

1. It provides information about the net profit or net loss earned or suffered by the business during a particular period. Thus, it is an index of the profitability or otherwise of the business.
2. The profit figure disclosed by the profit and loss account for a particular period can be compared with that of the other period. Thus, it helps in ascertaining whether the business is being run efficiently or not.
3. An analysis of the various expenses included in the Profit and Loss Account and their comparison with the expenses of the previous period or periods helps in taking steps for effective control of the various expenses.
4. Allocation of profit among the different periods or setting aside a part of the profit for future contingencies can be done. Moreover, on the basis of profit figures of the current and the previous period estimates about the profit in the year to come can be made. These projections will help the business in planning the future courses of action.

Illu. 5 : From the following ledger balances prepare Trading, Profit and Loss account for the year ending 31-12-2000.

|  | Debit Rs. | Credit Rs. |
| :--- | :--- | :--- |
| Opening Stock (1-1-2000) | 2,000 |  |
| Purchases | 18,000 |  |
| Sales |  | 21,000 |
| Wages | 300 |  |
| Carriage inwards | 100 |  |
| Carriage outwards | 150 |  |
| Sales returns | 2,000 |  |
| Purchase returns | 2,400 | 1,000 |
| Salaries | 600 |  |
| Rent | 50 |  |
| Discount | 500 |  |
| General expenses |  | 1,800 |
| Commission |  |  |

Closing stock as on 31-12-2000 for Rs.9,000.

## C.D.E.

## Chapter - 12

## Balance Sheet

## Objectives :

After study of this unit we should be able to

- Understand the meaning of balance sheet
- Know the methods in the preparation of balance sheet

## Structure :

### 12.1 Introduction

12.2 Arrangement of Assets and Liabilities
12.3 Important points regarding to Balance Sheet
12.4 Questions
12.5 Exercises
12.6 Suggested Readings

### 12.1 INTRODUCTION

Having prepared the Trading and profit and loss account, a businessman will like to know the financial position of his business. For this purpose, he prepares a statement of his assets and liabilities as on a particular date. Such a statement is termed as "Balance Sheet". Thus, Balance Sheet is not an account but only a statement containing the assets and liabilities of a business on a particular date. It is, as a matter of fact, a classified summary of the various remaining accounts after accounts relating to Incomes and Expenses have been closed off by Transfer to Manufacturing, Trading and Profit and Loss account.

Balance sheet has two sides. On the left hand side, the liabilities of the business are shown while on the right had side the assets of the business appear. These two terms have been explained later in the chapter.

It will be useful here to quote definitions of the Balance Sheet given by some prominent writers. According to Palmer, "The Balance sheet is a statement at a given date showing on
one side the trader's property and possessions and on the other hand his liabilities." According to Freeman, " A Balance Sheet is an itemised list of the asset, liabilities and proprietorship of a business of an individual at a certain date. The definition given by the American Institute of Certified Public Accountants makes the meaning of Balance Sheet more clear. According to it, Balance Sheet is "a list of balance in the assets and liability accounts. The list depicts the position of assets and liabilities of a specific business at a specific point of time.

### 12.2 ARRANGEMENT OF ASSETS AND LIABILITIES

There is no prescribed form of Balance Sheet for a sole proprietary and partnership concern. However, the assets and liabilities may be shown in any of the following order.

1. Liquidity Order
2. Permanency Order
3. Liquidity Order : In case a concern adopts liquidity order, the assets which are more readily convertible into cash come first and those which cannot be so readily converted come next and so on. Similarly, those liabilities which are payable first come first, and those payable later on come next and so on. A proforma of Balance Sheet according to liquidity order is given below.

## Balance Sheet as on.....

| Liabilities | Rs. | Assets | Rs. |
| :--- | :--- | :--- | :--- |
| Bank overdraft | Xxx | Cash in hand | $\mathrm{X} \times \mathrm{x}$ |
| Outstanding expenses | $\mathrm{X} \times \mathrm{x}$ | Cash at bank | $\mathrm{X} \times \mathrm{xx}$ |
| Bills payable | $\mathrm{X} \times \mathrm{x}$ | Prepaid expenses | $\mathrm{X} \times \mathrm{x}$ |
| Sundry Creditors | $\mathrm{X} \times \mathrm{x}$ | Bills receivable | $\mathrm{X} \times \mathrm{x}$ |
| Long term loans | $\mathrm{X} \times \mathrm{x}$ | Sundry Debtors | $\mathrm{X} \times \mathrm{x}$ |
| Capital | Xxx | Closing stock | Xxx |
|  |  | Furniture | Xxx |
|  |  | Plant and Machinery | Xxx |
|  |  | Buildings | Xxx |
|  |  | Land | Xxx |
|  |  | Goodwill | Xxx |
|  | $\mathbf{X x x}$ |  | Xxx |

2. Permanency order: In case of permanency order, assets which are more permanent come first, less permanent come next and so on. Similarly, liabilities which are more parmanent come first, less permanent come next and son. In other words, an asset will be sold in the last or a liability which will be paid the last come first and that order is followed both for all assets and liabilities In case a Balance Sheet is to be prepared according to permanency order, arrangement of assets and liabilities will be reversed than what has been shown above in case of liquidity order. Arrangement of assets according to any of these orders is also termed as `Marshalling of Assets and Liabilities.

### 12.3 IMPORTANT POINTS REGARDING BALANCE SHEET

1. Liabilities : The term ‘Liabilities' denote claims against the assets of a firm whether those of owners of the business or of the creditors. As a matter of fact, the term `Equity is more appropriate than the term liabilities. This is supported by the definition given by American Accounting Association. According to this association, liabilities are `Claims’ of the creditors against the enterprise arising out of past activities that are to be satisfied by the disbursement or utilisation of corporate resources. While the term `equity' stands both for owners equity (owners claims) as well as the outsiders equity (outsiders claims). However, for the sake of convenience, we are using the term ‘Liabilities’ for purpose of this book.

Liabilities can be classified in two categories.

1. Current Liabilities and
2. Long term or Fixed Liabilities.
(i) Current Liabilities : The term `Current liabilities' is used for such liabilities which are payable within a year from the date of the Balance Sheet either out of current assets or by creation of new current liabilities. The broad categories of current liabilities are as follows.
(a) Accounts payable i.e., bills payable and trade creditors
(b) Outstanding expenses i.e., expenses for which services have been received by the business but for which payment has not been made.
(c) Bank overdraft
(d) Short-term loans, i.e., loan from Bank which are payable within one year from the date of the Balance Sheet.

## $\begin{array}{lll}\text { Financial Accounting } & 12.4 \quad \text { Balance Sheet }\end{array}$

(e) Advance payments received by the business for the services to be rendered or goods to be supplied in future.
(ii) Fixed Liabilities : All liabilities other than current liabilities come within this category. In other words, these are liabilities which do not become due for payment in one year and which do not require current assets for their payment.
2. Assets : The term "Assets" denotes the resources required by the business from the funds made available either by the owners of the business or others. It thus includes all rights of properties which a business owns Cash, investments, bills receivable, debtors, stock of raw materials, work in progress and finished goods, land, buildings, machinery, trade marks, patents, rights etc., are some examples of assets. Assets may be classified into the following categories.
(a) Current assets: Current assets are those assets which are acquired with the intention of converting them into cash during the normal business operations of the company. According to Grady, "the term Current assets used to designate cash and other assets or resources commonly identified as those which are reasonably expected to be realised in cash or sold during the normal operating cycle of the business. Thus the term current assets include cash and bank balances, stocks of raw materials, work-inprogress and finished goods, debtors, bills receivable, short-term investments, prepaid expenses etc.
(b) Liquid Assets : Liquid assets are those assets which are immediately convertible into cash without much loss. Liquid assets are a part of current assets. In computing liquid assets, stocks of raw materials, work-in-progress and finished goods and prepaid expenses are excluded while all other current assets are taken.
(c) Fixed Assets : Fixed Assets are those assets which are acquired for relatively long periods for carrying on the business of the enterprise. They are not meant for resale. Land and buildings, machinery, furniture are some of the examples of Fixed assets. Sometimes, the words Block Capital is also used for them.
(d) Intangible assets : Intangible assets are those assets which cannot be seen and touched. Goodwill, patents, trade marks etc., are some examples of intangible assets.
(e) Fictitious Assets : These are assets not represented by tangible possession or property. Examples of such assets are : formation expenses incurred for establishing a business such as, registration charges paid to the registrar of a joint stock company for getting a company incorporated, discount on issue of shares, debit balance in the profit and loss account when shown on the assets side in case of a joint stock company etc.

## Chapter-13

## FINAL ACCOUNTS WITH ADJUSTMENTS

## Objectives :

After going through this unit, we should be able to

- Know the reasons for adjustments in final accounts
- Understand various types of adjustments and their adjustment in practice
- Prepare the final accounts after taking the adjustment into account.

## Structure :

### 13.1 Need for Adjustments in Final Accounts

### 13.2 Adjustments in Final Accounts

### 13.3 Questions

### 13.4 Exercises

13.5 Suggested Readings

### 13.1 NEED FOR ADJUSTMENTS IN FINAL ACCOUNTS

After ascertaining the arithmetical accuracy of the books of accounts by preparing a Trial balance, a trader has to ascertain the results of his business activities and the financial position of the organisation. For this purpose he has to prepare a Trading and profit and loss account and a balance sheet. Final accounts (i.e., the Trading and profit and loss account and balance sheet) are prepared on the basis of a trial balance. But the trial balance is not the complete tool for the purpose of preparation of final accounts. The trial balance contains only those items, which have been recorded in the books of accounts. It does not consider the items such as expenses payable, income receivable, expenses paid in advance and income received in advance, non cash items such as depreciation on asset, interest on capital, interest on drawings, anticipated loses such as reserve for bad debts, reserve for discount on debtors etc.
Financial Accounting $13.2 \quad$ Final Accounts with Adjustments

Unless these items are considered and given effect, the final accounts cannot disclose a true and fair view of the organisation. Hence, necessary adjustments about the above items should be made.

### 13.1.2. Meaning of Adjustments :

Adjustments in final accounts mean bringing into accounts the items which have not been included in the trial balance It means bringing into account the expenses incurred but not paid, income earned but not actually received, depreciation on assets, interest on capital, interest on drawings, reserve for bad debts, reserve for discount on debtors and anticipated gains like reserve for discount on creditors.

### 13.1.3. Adjustment Entries :

Various adjustments in Trading and profit and loss account and Balance sheet are made by means of journal entries. Journal entries passed for adjustments at the end of the year are called adjustment entries. All the adjustment entries are passed in the journal proper.

### 13.2 ADJUSTMENTS IN FINAL ACCOUNTS :

The following are usual items of adjustments which require adjustments while preparing Trading and Profit and Loss Account and Balance Sheet.

1. Outstanding expenses
2. Prepaid expenses
3. Outstanding income
4. Income received in advance
5. Depreciation on assets
6. Treatment of bad debt, provision for doubtful debts and provision for discount
7. Provision for bad debts
8. Provision for discount on debtors
9. Provision for discount on creditors
10. Interest on Drawings
11. Interest on capital
12. Closing Stock

| C.D.E. | 13.3 |
| :--- | :--- |

### 13.2. Outstanding Expenses:

Expenses which are incurred during the year but not paid, are called "outstanding or unpaid expenses". Such unpaid expenses must be considered, otherwise the profit will be overstated. Outstanding expenses must be duly accounted for because the parties who have given services have claim against the business and hence these become the liabilities at the end of the year.

For example, office rent due for the month of December is not paid in the same month, it will be outstanding rent for the month of December. Office rent outstanding is a liability and must be shown in the Balance sheet and the amount due for Office rent will be transferred to the Profit and Loss account. Next year, when this due amount will be paid off, office rent outstanding account will be debited and cash account credited.

### 13.3.1 Prepaid Expenses:

When an expenses is paid in advance, and the benefit of the amount paid will be available in the next year, it is called prepaid expenses. Such expenses are shown in the Balance Sheet as an asset. Such expenses are paid during the year but not incurred..

### 13.3.2. Outstanding Income :

The income which is earned but not yet received in cash during the year is called as an outstanding income. Such incomes, which are earned in the current year should be credited to the Profit and Loss Account and as the amount is yet to be received, it will be transferred to the Balance Sheet on the assets side. For example, the commission earned in the month of December, 2005, but received as yet, will be outstanding incomes for the year ending $31^{\text {st }}$ December, 2005. The original amount of commission shown in the Trial balance will be increased by the amount of commission receivable. Next year, when the amount due on commission will be received, it will be credited by debiting the cash account.

### 13.3.3. Income received in Advance :

Sometimes, a trader receives the amount of income in advance before rendering the full service. Such incomes should not be transferred to the credit side of the profit and loss account. The portion of such income is deducted from the income concerned and it is treated as liability. For example, during the year ended $31^{\text {st }}$ March, 2006, the total amount received as Rent is

## Financial Accounting $\quad 13.4 \quad$ Final Accounts with Adjustments

Rs.650, out of which Rs. 50 are related to the next months of April, 2006. In this case, Rent for the year ended $31^{\text {st }}$ march, 2006 will be only (Rs. $650-50$ ) = Rs. 600 and Rs. 50 will be shown in the Balance Sheet as liability. Next year, rent received in advance account will be transferred to Rent (received account).

### 13.3.4. Depreciation :

The assets become useless after some time by continuous usage. Every fixed asset has a definite period of utility to the business. The value of an asset goes on decreasing year by year. Such a loss in value is known as depreciation. It is an invisible loss, but must be shown in the profit and loss account each year as long as the asset is in use. And the asset must be shown in the Balance sheet at its reduced value. Generally, the depreciation is charged on the basis of the life of the asset. One thing should be noted that, depreciation is charged only on fixed assets, and not on floating assets, because floating assets are not held by the business for a long time.

### 13.3.5. Bad debts :

A businessman has to sell goods on credit also in order to increase sales. In credit sales, goods are delivered to the customers immediately and cash is received from the debtors after a certain period. Hence, there is a risk of loss due to bad debt. It is likely that some customers may not pay their dues for one or the other reason. Thus, the debt due from customers becomes bad for recovery. Bad debt is the irrecoverable debt from customers. Bad debt is a loss to business. It reduces profits. It is a nominal account. Hence, it is placed on debit side of Profit and Loss account.

Sundry Debtors : It represents the total debt due from various parties on account of sale of goods on credit.
Provision for Doubtful debts : The term `doubtful debts’ suggests that the debt may be recovered or may not be recovered. It is rather doubtful about recovery of such debt. Under such a circumstances, it cannot be considered as bad. At the same time, it cannot be considered good for recovery. If all such debtors are treated as good and shown in the balance sheet, it will amount to showing the assets at a higher value. The profit and loss account also will not show true position. The profit will be overstated. On other hand, if all such debts are shown as bad the profit will be understated and the balance sheet will not show true position as the debtors will be understated. Hence, it is necessary to show the position which is very close to the correct position. This can be done by providing for C.D.E. \(13.5 \quad\) Acharya Nagarjuna University doubtful debts. The amount of doubtful debt provision is estimated on the basis of past experience. A certain percentage of debt is treated as doubtful and accordingly provided for while preparing financial statement. The amount thus provided for is called "Provision for doubtful debts". There is a distinction between provision for doubtful debts and reserve for doubtful debts. A provision is interpreted as the amount retained by way of providing for a known liability. The amount of such provision cannot be determined with substantial accuracy. The term `reserve is interpreted as, the amount retained for known liability which is in excess of the necessary amount. The amount which is in excess of the required amount is referred to as a `reserve;. However, for the purpose of accounting the above distinction is ignored as the distinction does not materially affect accounting treatment.

### 13.3.6 Provision for Discount on Debtors :

In business, a proprietor may be required to allow discount to debtors if they pay their dues before the due dates. The discount allowed would be a loss to business and it is in connection with the debtors created during the year. Hence, it is quite advisable to make a provision for such discount by charging the profit and loss account. Such a provision is called as "Provision for discount on debtors."

### 13.3.7. Bad debts recovery :

After writing off bad debts, it is quite likely that some debtors may pay their dues which have been written off as bad. The amount received from debtor against such bad debts written off is called as "Bad debts Recovery" The amount received is credited to Bad debts Recovery Account.

### 11.3.8. Reserve or provision for discount on Creditors :

As the trader allows a cash discount to his debtors he may also receive a cash discount from him creditors if he makes the payment during the stipulated period. As such, the trader may receive the cash discount from his creditors which can be estimated. Thus, the cash discount likely to be received from creditors is estimated and a provision is made for discount on creditors. Such a provision is called as `Provision or Reserve for Discount on Creditors.".

A Discount received from creditors is a gain, and it is transferred to the credit of the Profit and Los Account. A reserve for discount on creditors is created by debiting such a Reserve Account and crediting the profit and loss account. The debit balance of Reserve for discount on creditors is shown in the Balance Sheet by subtracting it from sundry creditors.

| Financial Accounting | $\mathbf{1 3 . 6}$ | Final Accounts with Adjustments |
| :--- | :--- | :--- |

The actual amount of discount received is credited to the Discount Received Account and debited to the Creditors personal account. At the end of the year, the total amount of Discount received is transferred to the credit side of Reserve for Discount on Creditors Accounts. Then, a new estimate is made regarding the Discount receivable from Sundry Creditors by crediting the Profit and Loss Account.

### 11.3.9. Interest on Drawings :

Drawings denotes the money withdrawn by the proprietor from the business for his personal use. It is usual practice to charge interest on drawings in case interest is allowed to the proprietor on his capital. In case of a partnership firm, interest on drawings will be charged on the drawings made by each partner.

Computation of Interest on drawings : There is a difference between the method of computation of interest on capital and interest on drawings. In most cases interest on capital is charged on the opening balance in the capital account. However, in case of additional capital introduced during the year by the proprietor, interest may be charged from the date of introducing additional capital till the end of the accounting period. Since the interest is to be charged on the amount withdrawn by the proprietor from the date on which he withdrew the amount from the business till the end of the accounting period, it requires computation of interest on each with

### 13.3.10. Closing Stock :

Stock remaining unsold at the end of the accounting year is called "Closing stock". Closing stock has to be taken into account while preparing final accounts. Unless it is taken into account Trading and profit and loss account and balance sheet will not disclose a true and fair view of the state of affairs of the business concern. Closing stock is credited to Trading Account and shown in the Balance Sheet on the Assets side.

Illu.1: From following Trial Balance of Swaroop, prepare Trading and Loss account for the year ended $31^{\text {st }}$ March 2006 and a Balance sheet as on that date.

| Debit Balances | Rs. | Credit Balances | Rs. |
| :--- | :--- | :--- | :--- |
| Stock | 45,000 | Capital | 75,000 |

C.D.E. $\quad 13.7 \quad$ Acharya Nagarjuna University

| Plant and machinery | 75,000 | Sales | $4,20,750$ |
| :--- | ---: | :--- | ---: |

#### Abstract

C.D.E. 13.19 Acharya Nagarjuna University

|  |  | 88,000 |  | 88,000 |
| :--- | :--- | :--- | :--- | :--- | :--- |

Illu. 7 : From the following Trial Balance of Rahul, prepare Trading, profit and Loss Account for the year ending $\mathbf{3 1}^{\text {st }}$ March, 2006 and Balance Sheet as on that date.

|  | Debit Rs. | Credit Rs. |
| :--- | :--- | :--- |
| Factory Rent | 4,000 |  |
| Bills receivable | 5,300 |  |
| Bills payable | - | 4,200 |
| Insurance | 1,200 |  |
| Furniture | 10,000 |  |
| Machinery | 28,000 |  |
| Office Rent | 2,000 |  |
| Manufacturing Wages | 21,500 |  |
| Provisions for doubtful debts |  | 1,000 |
| Manufacturing expenses | 1,500 |  |
| General expenses | 5,400 |  |
| Capital | 7,200 | 60,000 |
| Drawings | 20,500 |  |
| Stock on 1 ${ }^{\text {st }}$ April, 2005 | 68,000 |  |
| Purchases | 1,500 |  |
| Carriage inwards | 23,500 |  |
| Sales | $1,40,500$ |  |
| Sundry Debtors | 500 | 14,300 |
| Sundry Creditors | 2,200 |  |
| Cash in hand | 1,700 |  |
| Cash at Bank | 16,000 |  |
| Carriage outwards | $2.20,000$ | $2,20,000$ |
| Salaries |  |  |
|  |  |  |

Adjustments:
i. Write off bad debts Rs. 500 and maintain the provision for doubtful debts at 5\% on Sundry debtors.
ii. Stock on $31^{\text {st }}$ March, 2006 Rs.27,000
iii. Unexpired Insurance Rs. 300
iv. Depreciate Machinery by 5\% and furniture by $10 \%$
v. On $24^{\text {th }}$ December, 2004 a fire broke out and destroyed the stock of the value of Rs.10,000 and the insurance company has admitted the claim to the extent of Rs.6,000

Solution :
Trading and Profit and Loss a/c
for the year ended $31^{\text {st }}$ March, 2006

Illu. 11 : From the following Trial balance of Venkata Krishna as at $31^{\text {st }}$ March, 2004. Prepare trading and profit and loss account for the year ended 31 ${ }^{\text {st }}$ March, 2004 and a Balance Sheet as on that date.

| Debit balances | Rs. | Credit balances | Rs. |
| :--- | :--- | :--- | :--- |
| Stock | 45,000 | Capital | 75,000 |
| Plant and Machinery | 75,000 | Sales | $4,20,750$ |
| Purchases | $2,25,000$ | Sundry Creditors | 15,000 |
| Trade charges | 10,000 | Bad debts provision | 200 |
| Carriage inwards | 2,500 | Bills payable | 2,000 |
| Carriage outwards | 1,500 |  |  |
| Factory rent | 1,500 |  |  |
| Discount | 350 |  |  |
| Insurance | 700 |  |  |
| Sundry debtors | 60,000 |  |  |
| Office rent | 3,000 |  |  |

| Financial Accounting | 13.28 | Final Accounts with Adjustments |
| :--- | :--- | :--- |

| Printing and Stationery | 600 |  |  |
| :--- | :--- | :--- | :--- |
| General expenses | 2,800 |  |  |
| Advertising | 15,000 |  |  |
| Bills receivable | 6,000 |  |  |
| Drawings | 6,000 |  |  |
| Salaries | 15,000 |  |  |
| Wages | 20,000 |  |  |
| Furniture | 7,500 |  | $5,12,950$ |
| Coal and Gas | 1,000 |  |  |
| Cash in hand | 2,000 |  |  |
| Cash at bank | 12,500 |  |  |
|  | $5,12,950$ |  |  |

## Adjustments :

1. Closing stock amounted to Rs. 35,000
2. Depreciate machinery $10 \%$ and furniture by $2 \%$
3. Raise the bad debts provision to $5 \%$ on debtors
4. Outstanding factory rent Rs. 300 and office rent Rs. 600
5. Insurance prepaid Rs. 100

### 13.3 QUESTIONS

1. Explain the need for adjustments in final accounts
2. Give five journal entries for adjustments in final accounts
3. How do you treat the following in final accounts?
(a) Outstanding expenses
(b) Prepaid expenses
(c) Outstanding income
(d) Income received in advance
(e) Depreciation on assets
(f) Treatment of bad debt, provision for doubtful debts and provision for discount
(g) Provision for bad debts
(h) Provision for discount on debtors
(i) Provision for discount on creditors
(j) Interest on Drawings
(k) Interest on capital
(l) Closing Stock

### 13.4 EXERCISES

1. From the following Trial Balance of $\mathrm{M} / \mathrm{s}$ Ram \& Sons, prepare trading and profit and loss account for the year ending on $31^{\text {st }}$ December, 2006 and the balance sheet as on that date.

| Particulars | Dr. Rs. | Cr. Rs. |
| :--- | :--- | :--- |
| Purchase | 21,750 |  |
| Discount allowed | 1,300 |  |
| Wages | 6,500 |  |
| Salaries | 2,000 |  |
| Sales |  | 35,000 |
| Travelling Expenses | 400 |  |
| Commission | 425 |  |
| Carriage Inward | 275 |  |
| Administration Expenses | 105 |  |
| Trade Expenses | 600 |  |
| Interest | 250 |  |
| Building | 5,000 |  |
| Furniture | 200 |  |
| Debtors | 4,250 |  |
| Capital |  | 13,000 |
| Creditors / Cash | 7,045 | 2,100 |
|  | 50,100 | 50,100 |

## C.D.E.

Stock on $31^{\text {st }}$ December, 2006 was Rs.6,000. Depreciate buildings by $20 \%$, create a provision for bad debts at $10 \%$ on debtors. Provide for outstanding wages Rs.475, salaries Rs. 500 and goods used by the proprietor Rs. 500.

## [Ans.: Gross profit Rs.12,500, Net Profit Rs.5,495, Balance Sheet Total Rs.21,070]

2. From the following ledger balances prepare Trading and profit and Loss Account for the year ended $30^{\text {th }}$ September, 2006 and a Balance Sheet as on that date.

| Particulars | Rs. | Particulars | Rs. |
| :--- | :--- | :--- | :--- |
| Rama's Capital a/c | $1,19,400$ | Cash | 530 |
| Rama's drawings a/c | 10,550 | Repairs \& Renewals | 3,370 |
| Bills Receivable | 9,500 | Bank | 18,970 |
| Plant and Machinery | 28,800 | Interest and Discount (Dr.) | 5,870 |
| Sundry debtors (including Madan's <br> dishonoured bill Rs.1,000) | 62,000 | Bad Debts | 3,620 |
| Loan a/c (Cr.) at 6\% | 20,000 | Sundry Creditors | 39,630 |
| Wages (Manufacturing) | 40,970 | Fixtures \& Fittings | 8,970 |
| Returns Inwards | 2,780 |  |  |
| Purchases | $2,56,590$ |  |  |
| Sales | $3,56,430$ |  |  |
| Commission received | 5,640 |  |  |
| Rent and Taxes | 5,620 |  |  |
| Stock on 1st October, 2006 | 89,680 |  |  |
| Salaries | 11,000 |  |  |
| Travelling Expenses | 1,880 |  |  |
| Insurance (including Rs.300 <br> paid up 31 ${ }^{\text {st }}$ March 2006) | 400 |  |  |

Stock in hand on $30^{\text {th }}$ September, 2006 was Rs. $1,28,960$. Write off half of Madan's dishonoured bill. Depreciate Plant and Machinery by 5\% and Fixtures and Fittings by 10\%.
[Ans.: Gross Profit Rs.95,370; Net Profit Rs.66,563 and Balance Sheet Total Rs.2,55,043].
3. From the following Trial Balance of Mr. A, Prepare Trading and Profit \& Loss Account for the year ending $31^{\text {st }}$ December, 2006 and a Balance Sheet as on that date :

| Debit Balances | Rs. | Credit Balances | Rs. |
| :--- | :--- | :--- | :--- |
| Drawings | 5,275 | Capital | 59,700 |
| Bills Receivable | 4,750 | Loan at 8\% on (1-1-88) | 10,000 |
| Machinery | 14,400 | Commission received | 2,820 |
| Debtors (including X for Dishnoured <br> Bill of Rs.1,000) | 30,000 | Creditors | 29,815 |
| Wages | 20,485 | Sales |  |
| Returns inwards | 2,390 |  | $1,78,215$ |
| Purchases | $1,28,295$ |  |  |
| Rent | 2,810 |  |  |
| Stock (1-1-06) | 44,840 |  |  |
| Salaries | 5,500 |  |  |
| Travelling Expenses | 945 |  |  |
| Insurance | 200 |  |  |
| Cash | 9,750 |  |  |
| Repairs | 1,685 |  |  |
| Interest on Loan | 500 |  |  |
| Discount Allowed | 2,435 |  |  |
| Bad Debts | $\mathbf{2 , 8 0 , 5 5 0}$ |  |  |
| Furniture |  |  |  |
|  |  |  |  |

The following adjustments are to be made:
(i) Stock in the shop on $31^{\text {st }}$ December, 2006 was Rs.64,480.
(ii) Half the amount of $X$ 's bill is irrecoverable.
(iii) Create a provision of $5 \%$ on other debtors.
(iv) Wages include Rs. 600 for erection of new machinery.

#### Abstract

C.D.E. $13.33 \quad$ Acharya Nagarjuna University

(v) Depreciate Machinery by $5 \%$ and Furniture by $10 \%$.
(vi) Commission include Rs. 300 being Commission received in advance.]
[Ans.: Gross profit Rs.47,285, Net Profit Rs.30,472, Balance Sheet Total Rs.1,25,312].
4. The following are the balances of Messers Gupta \& Co. as on June, 2006.

| Debit Balances | Rs. | Credit Balances | Rs. |
| :--- | :--- | :--- | :--- |
| Cash in hand | 540 | Sales a/c | 98,780 |
| Cash at Bank | 2,630 | Returns outward | 500 |
| Purchases a/c | 40,675 | Capital Account | 62,000 |
| Returns Inwards | 680 | Sundry creditors | 6,300 |
| Wages Account | 8,480 | Rent | 9,000 |
| Fuel \& power | 4,730 |  |  |
| Carriage on Sales | 3,200 |  |  |
| Carriage on Purchases | 2,040 |  |  |
| Stock (1-7-06) | 5,760 |  |  |
| Building a/c | 32,000 |  |  |
| Freehold Land | 10,000 |  |  |
| Machinery | 20,000 |  |  |
| Patents | 7,500 |  |  |
| Salaries | 15,000 |  |  |
| General expenses | 3,000 |  | $\mathbf{1 , 7 6 , 5 8 0}$ |
| Insurance | 600 |  |  |
| Drawings | 5,245 |  |  |
| Sundry debtors | 14,500 |  | $\mathbf{1 , 7 6 , 5 8 0}$ |
|  |  |  |  |
|  |  |  |  |

Prepare Trading and Profit \& Loss a/c and a Balance Sheet as on $30^{\text {th }}$ June, 2006 after taking into account the following adjustments:
(i) Stock on hand as on $30^{\text {th }}$ June, 2006 is Rs.6,800.
(ii) Machinery is to be depreciated at $10 \%$ and Patents at $20 \%$.
(iii) Salaries for the month of June, 2006 amounting to Rs. 1,500 were unpaid.
(iv) Insurance, includes a premium of Rs. 170 on a policy expiring on $31^{\text {st }}$ December, 2006.
(v) Further Bad Debts are Rs.725.
(vi) Rent Receivable Rs.1,000.
[Ans.: Gross profit Rs.43,715, Net profit Rs.26,275, Balance Sheet Total Rs.90,830].
5. The following is the Trial Balance of Amrit Raj as on $31^{\text {st }}$ December, 2006:

| Particulars | Dr. Rs. | Cr. Rs. |
| :--- | :--- | :--- |
| Capital |  | 25,000 |
| Building | 30,000 |  |
| Furniture | 2,640 |  |
| Scooter | 4,000 |  |
| Returns inward and outward | 2,300 |  |
| Stock on 1 ${ }^{\text {tt }}$ January, 2006 | 8,000 |  |
| Purchases and sales | 33,800 | 56,040 |
| Bad debts | 400 |  |
| Carriage Inward | 600 |  |
| General Expenses | 1,200 |  |
| Bad Debts Provision |  | 700 |
| Bank Loan | 300 | 5,000 |
| Interest on Bank Loan | 2,000 |  |
| Commission | 2,600 | 900 |
| Insurance and Taxes | 4,400 |  |
| Scooter Expenses | 2,000 |  |
| Salaries | 3,000 | 8,000 |
| Cash in hand |  |  |
| Debtors and Creditors |  |  |

## C.D.E. <br> 13.35 <br> Acharya Nagarjuna University

You are required to prepare the final accounts for the year ending $31^{\text {st }}$ December, 2006 taking into account the following adjustments:
(a) Closing Stock on 31-12-06 was valued at Rs.4,340.
(b) Insurance is prepaid to the extent of Rs. 200 and carriage inward is unpaid Rs. 100.
(c) Salaries have been paid for 11 months.
(d) Bank Loan has been taken at 10\% p.a. interest.
(e) Depreciate building by $5 \%$ and Scooter by $15 \%$.
(f) Write off Rs. 200 as further bad debts and increase bad debts provision by $5 \%$ on book debts.
(g) Scooter is used for business as well as for private purposes equally.

## [Ans.: Gross Profit Rs.17,180, Net Profit Rs.6,640, Balance Sheet Total Rs.43,740]

6. From the following Trial Balance of C.C. Lakadwala as at $31^{\text {st }}$ March, 2006, you are required to prepare the Trading and Profit and Loss Account for the year ended 31 ${ }^{\text {st }}$ March, 2006 and Balance Sheet as at that date :

| Debit Balances | Rs. | Credit Balances | Rs. |
| :--- | :--- | :--- | :--- |
| Stock | 45,000 | Capital | 75,000 |
| Purchases | $2,25,000$ | Sales | $4,20,750$ |
| Plant \& Machinery | 75,000 | Sundry Creditors | 15,000 |
| Trade charges | 10,000 | Bad debts provision | 200 |
| Carriage Inwards | 2,500 | Bills Payable | 2,000 |
| Carriage outwards | 1,500 |  |  |
| Factory Rent | 1,500 |  |  |
| Discount | 350 |  |  |
| Insurance | 700 |  |  |
| Sundry Debtors | 60,000 |  |  |
| Office Rent | 3,000 |  |  |
| Printing and Stationery | 600 |  |  |
| General Expenses | 2,800 |  |  |
| Advertising | 15,000 |  |  |
| Bills Receivable | 3,000 |  |  |

| Financial Accounting | $\mathbf{1 3 . 3 6}$ | Final Accounts with Adjustments |
| :--- | :--- | :--- |

| Drawings | 6,000 |  |  |
| :--- | :--- | :--- | :--- |
| Salaries | 18,000 |  |  |
| Manufacturing wages | 20,000 |  |  |
| Furniture and Fixtures | 7,500 |  |  |
| Coal, gas and Water | 1,000 |  |  |
| Cash in hand | 2,000 |  |  |
| Cash at Bank | 12,500 |  | $\mathbf{5 , 1 2 , 9 5 0}$ |
|  | $\mathbf{5 , 1 2 , 9 5 0}$ |  |  |

The following adjustments are to be taken into consideration:
(a) Closing stock amounted to Rs. 35,000
(b) Plant and Machinery and Furniture to be depreciated by $5 \%$ and $10 \%$ respectively.
(c) Bad debts provision to be raised to $21 \%$ on debtors.
(d) Provided for outstanding liabilities for Factory Rent Rs. 300 and Office Rent Rs. 600.
(e) Insurance include Rs. 100 in respect of 2006-07.
[Ans.: Gross Profit Rs.1,56,700, Net Profit Rs.91,100, Total of Balance Sheet Rs.1,78,000].

## Chapter-14

## ACCOUNTS FROM INCOMPLETE RECORD SYSTEM

## Objectives:

To make acquaintance with

- Single Entry System
- Statement of affairs method
- Conversion of Single entry into double entry system

## Structure:

14.1 Introduction
14.2 Definition
14.3 Features of Single Entry System
14.4 Distinction between Single entry and Double entry system
14.5 Advantages of Single Entry System
14.6 Disadvantages of Single Entry System
14.7 Preparation of Accounts
14.8 Profit ascertaining methods
14.9 Conversion of Single Entry into Double Entry
14.10 Distinction between statement of affairs and balance sheet
14.11 Questions
14.12 Exercises
14.13 Suggested Readings

### 14.1 INTRODUCTION

This system is also known as Single Entry System. There is no proper definition for single entry system of Book-Keeping. Any system, which doesn't follow the principles of double entry system is called single entry system. Under double entry system every transaction is recorded in two-fold aspect.

## Financial Accounting 14.2 Accounts from Incomplete Record...

Under the single entry system cash account and personal accounts of Debtors, Creditors are kept. Nominal and real accounts are not maintained. It is, therefore, found that cash transactions are recorded with double aspect. The cash or personal transactions with real or nominal accounts should be recorded with only one aspect. Transactions between two nominal accounts or between two real accounts or between real and nominal accounts are not at all recorded under single entry system. Therefore, single entry system is a mixture of double entry, single entry and no entry.

### 14.2. DEFINITION

Carter. " Single entry is a method or a variety of methods employed for recording of transactions, which ignores the two-fold aspect, and consequently fails to provide the businessman with the information necessary for him to be able to ascertain the position."

## 14.3 .FEATURES OF SINGLE ENTRY SYSTEM

14.3.1. Incomplete system: This is an incomplete system due to the partial recording of transactions in the books of accounts. Tax authorities don't accept this method for the computation of tax.
14.3.2 Limited use: Sole trader and partnership who have a few transactions use this method. The company form of organisation cannot use this method for recording the transactions.
14.3.3 Only personal accounts are prepared: Cash book and personal accounts are only prepared under this method. Real and Nominal accounts are not prepared.
14.3.4 Improper maintenance of cash book: Under this system, cash and credit transactions are recorded in the cash book. Sometimes private transactions of the businessman are also recorded in the cash book.
14.3.5 Estimated profit only: The ascertained profit under this method is only an estimate but not real.
14.3.6 True financial position: Balance sheet is not prepared under this method. Hence it is difficult to know the true financial position of the firm.

## 14.4 . DISTINCTION BETWEEN SINGLE ENTRY AND DOUBLE ENTRY SYSTEM

| Points of <br> difference | Single entry system | Double entry system |
| :---: | :---: | :---: |
| 1. Recording | Double entry principle is not | For each debit there will be an |

| C.D.E. | 14.3 | Acharya Nagarjuna University |
| :---: | :---: | :---: |
|  | followed to record each and every transaction. | opposite credit and vice-versa. |
| 2. Ledger accounts | Ledger accounts are not prepared in a systematic manner. | Ledger accounts are prepared in a systematic manner. |
|  |  | Cash book is maintained. |
| 3. Cash book | Transactions are recorded in a diary. Cash book is not maintained in a proper form. |  |
| 4. Trail balance | Trial balance is not prepared. | Trial balance is prepared before the preparation of final accounts. |
| 5. Profit determination | Profit or loss for a period is ascertained by comparing the closing capital with the opening capital. | By preparing the profit and loss account profit for a period is ascertained. |
| 6. Balance sheet | To know the financial position statement of affairs is prepared. | Balance sheet is prepared to know the financial position. |
| 7. Acceptability | Income tax authorities are not accepting the system. | All authorities are legally accepting the system. |
| 8. Usefulness | Small traders are using the system. | All types of traders are using the system. |

## Financial Accounting 14.4 Accounts from Incomplete Record...

### 14.5.ADVANTAGES OF SINGLE ENTRY SYSTEM

14.5.1. Easy system: It is the system useful for those who have no knowledge in accounting.
14.5.2. Low Cost: Cash book and some ledger books are sufficient to record the transactions. Staff required to maintain these books is also very limited. Hence maintenance of accounts is economical.
14.5.3. Secrecy: It is a very easy system to record the business transactions. If the proprietor maintains the business accounts the secrecy of the business is more.
14.5.4 Useful for small firms: This method is suitable to the small business firms due to less maintenance cost. This method is mostly suited to the firms where the cash transactions and personal accounts are more.
14.5.5. Economy of time: Due to the limited transactions less time is required to maintain the account books.

### 14.6. DISADVANTAGES OF SINGLE ENTRY SYSTEM

1. Incomplete : All the transactions are not recorded in the books of accounts under this system. Hence it is treated as incomplete system.
2. Unscientific: There are no rules and regulations to record the transactions of the business. So it is not the scientific method.
3. No trial balance: Complete records are not maintained under this system. Trial balance can not be prepared due to the non-availability of complete books of accounts.
4. Balance sheet cannot be prepared: Due to non maintenance of real accounts balance sheet cannot be prepared.

## C.D.E. 14.5 Acharya Nagarjuna University

5. Trading and profit and loss account cannot be prepared: As the nominal accounts are not prepared it is not possible to prepare the trading and profit and loss account at the end of the year.
6. Difficulty in preparing the financial statements: It is very difficult to ascertain the profit or loss because profit and loss account is not prepared. It is also difficult to find the financial position of the firm due to non preparation of balance sheet.
7. Not acceptable by law: Companies are not permitted to prepare their accounts under the single entry system.
8. Frauds cannot be detected: Under this system frauds cannot be detected easily.
9. Not efficient: Due to the incomplete recording of transactions business cannot be maintained efficiently.
10. Arithmetical accuracy: Transactions are not recorded under the double entry system, which fails in verifying the arithmetical accuracy of the accounting.

### 14.7 PREPARATION OF ACCOUNTS

Preparation of final accounts becomes difficult if the books are maintained under this system. It is mainly due to the partial recording of transactions. To ascertain correct profit we have to find missing information.

### 14.7.1 Steps to be taken before starting the accounting process:

1. After verification of cash book balance with physical cash, cash balance is taken.
2. Amounts due by debtors and due to the creditors are taken from the balances of debtors and creditors respectively.
3. Unsold stock are to be counted or weighed and valued.
4. Valuation of assets like building, furniture, machinery etc. is to be done.
5. Values of bill receivable whose dates have not yet expired and those of bills payable are to be ascertained.

## Financial Accounting 14.6 Accounts from Incomplete Record...

6. Amounts of outstanding expenses and incomes, incomes received in advance etc., are to be ascertained.

### 14.8. PROFIT ASCERTAINING METHODS

Generally two methods are adopted to ascertain the profit under this system.

1. Statement of affairs method: This method is also known as network method. Under this method, profit can be ascertained by comparing the closing capital with opening capital. This method is suitable when the available information is too limited.
2. Conversion method: Debtors and creditors ledgers are usually maintained along with the cash book. Even though the records are incomplete, they provide sufficient information for the preparation of trading and profit account. After working out the missing information by applying the conversion method, the final accounts are prepared.

### 14.8.1 Steps used to ascertain profit under statement of affairs method:

1. Find the opening capital by preparing opening statement of affairs.
2. Find the closing capital by preparing closing statement of affairs.
3. Drawings made by the proprietor during the year should be added to the closing capital.
4. From the closing capital deduct the additional capital introduced during the year. The ascertained figure is known as adjusted capital.
5. Deduct opening capital from the adjusted capital. The difference is known as either profit or loss.

### 14.8.2 Proforma of Statement of affairs:

Statement of affairs is nothing but the balance sheet. Liabilities should be recorded on the left hand side and assets on the right hand side. Opening statement of affairs is prepared with the help of opening assets and liabilities. Closing statement of affairs is prepared with the help of closing assets and liabilities.

Opening statement of affairs is prepared to know the opening capital. Closing statement of affairs is prepared know the closing capital.

## C.D.E. 14.15 Acharya Nagarjuna University

Notes:

1. Insurance Premium: Whenever the Insurance Premium paid the Journal entry is:

| Date | Particulars | L.F. | Debit <br> Rs. | Credit <br> Rs. |
| :---: | :---: | :---: | :---: | :---: |
|  | Insurance a/c Dr. <br> To Bank |  | 500 | 500 |

This Insurance Premium was already adjusted to closing balance of bank. Hence the other aspect of the Insurance need not be recorded.
2. A policy was matured and Rs. 800 was received by the Proprietor. The transaction was recorded in the firm's books. Hence, it is treated as additional capital.

### 14.9. CONVERSION OF SINGLE ENTRY INTO DOUBLE ENTRY

Conversion method is used to know the correct profit and financial position of a firm. Under this method profit is calculated by preparing the profit and loss account and financial position is ascertained by preparing Balance Sheet. Certain information may be missing at the time of preparing Final accounts. The preparation of the following ledger accounts help to get the missing information, which in turn helps the preparation of Final accounts of the business firm.

### 14.9.1 Bills receivable account:

This account always shows debit balance. Hence opening bills receivable is shown on the debit side and closing bills receivable is shown on the credit side of the account. Whenever the bills are received, the transaction amount should be recorded on the debit side of the bills receivable account (To Debtors $\mathrm{a} / \mathrm{c}$ ). Whenever the bills are honoured, the transaction amount should be recorded on the credit side of the bills receivable account (By Cash a/c).

If the bills receivable amount increases by any transaction, it should be recorded on the debit side of the bills receivable account. If any transaction reduces the bills receivable amount that may have place on the credit side of bills receivable account. The following is the proforma of bills receivable account

## Financial Accounting <br> 14.16 Accounts from Incomplete Record...

Dr.
Bills Receivable Account
Cr.

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | :--- |
| To Balance b/d | $x x x$ | By Cash a/c | $x x x$ |
| To Debtors a/c | $\underline{x x x}$ | By Balance c/d | $\underline{x x x}$ |
|  | $\underline{x x x}$ |  | $\underline{x x x}$ |

After preparing the bills receivable account if the balancing figure is available on the debit side, the missing information may be either opening balance of bills receivable or the bills receivable from debtors. If the balancing figure is available on the credit side of bills receivable account it may be cash received from bills or closing balance of bills receivable.

### 14.9.2 Debtors account:

Debtors account always shows debit balance. Hence the opening balance of the debtors appears on the debit side and closing balance on the credit side of the debtors account. The transactions which increases the debtors value should be recorded on the debit side. The transactions which decrease the debtors value should appear on the credit side. Generally the debtors may increase due to credit sales. The debtors may decrease due to the sales returns, bad debts, whenever the bills are received, discount and when cash is received from debtors.

## Dr.

Debtors Account
Cr.

|  | Rs. |  | Rs. |
| :---: | :---: | :---: | :---: |
| To Balance b/d | xxx | By Sales returns | xxx |
| " Credit sales | xxx | " Bad debts | xxx |
|  |  | " Bills Receivable a/c | xxx |
|  |  | " Discount allowed | xxx |
|  |  | " Cash a/c | xxx |
|  |  | " Balance c/d | $\underline{x x x}$ |
|  | x xx |  | xxx |

After preparing this account, the balancing figure may be either from debit side or credit side. If it is on the debit side, it may be opening balance of debtors or credit sales. If it is on the

## C.D.E. <br> 14. 17 Acharya Nagarjuna University

credit side, it may be cash received from debtors or sales returns or bad debts or discount, which reduces the debtors balance or closing balance of debtors.

### 14.9.3 Bills payable:

This account shows the credit balance. Hence opening balance of bills payable appears on credit side and closing balance on debit side. The transactions which increases the bills payable amount should have place on the credit side and which reduces should have place on the debit side. Transactions that increase the bills payable amount is bills accepted during the year. Transactions that reduce the bills payable amount is bills payable honoured.

## Dr.

Bills Payable Account
Cr.

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| To Cash a/c | xxx | By Balance b/d | xxx |
| To Balance c/d | $\underline{x x x}$ | By Creditors a/c | $\underline{x x x}$ |
|  | $\underline{x x x}$ |  | $\underline{x x x}$ |

If the balancing figure is available on the credit side of the account, it may be the opening balance of bills payable or bills accepted during the year. If the balancing figure is available on the debit side, it may be cash received from bills payable or the closing balance of the bills payable.

### 14.9.4 Creditors account:

It always shows credit balance. So, opening balance of the creditors is recorded on the credit side and closing balance on the debit side of the account. The transactions which increase the creditors value should have posting on the credit side and the transactions which decrease the creditors value are recorded on the debit side. Transactions which increase the creditors value is credit purchases and transactions which decrease the creditors value is purchase returns, bills payable, discount received, cash paid to creditors etc.

| Dr. | Creditors Account |  | Cr. <br> Rs. |
| :---: | :---: | :---: | :---: |
|  | Rs. |  |  |
| To Purchase returns " Bills payable a/c | $\begin{aligned} & \mathrm{xxx} \\ & \mathrm{xxx} \end{aligned}$ | By Balance b/d <br> " Credit purchases | XXX XXX |

## Financial Accounting 14.18 Accounts from Incomplete Record...

| $"$ Discount received | $x x x$ |  |
| :--- | :--- | :--- |
| $"$ Cash a/c | $x x x$ |  |
| $"$ Balance c/d | $\underline{x x x}$ |  |
|  | $\underline{x x x}$ | $\underline{x x x}$ |

If the balancing figure is available on the credit side, it may be either opening balance or credit purchases. If the balancing figure is available on the debit side, it may be purchase returns, bills payable, discount received, cash paid to creditors or closing balance of the creditors.

### 14.9.5 If the opening capital is missing:

Prepare opening statement of affairs with the help of opening assets and liabilities. The difference between opening assets and opening liabilities is known as opening capital (assetsliabilities = capital).

### 14.9.6 Cash book:

Cash book always shows debit balance. Therefore opening cash balance should have place on the debit side and closing cash balance on the credit side. All cash receipts should be recorded on the debit side and payments on the credit side.

If the balancing figure is on the debit side, it may be opening balance of cash or any cash receipt. If the balancing figure is on the credit side, it should be either cash payment or closing balance of cash.

### 14.10. Distinction between statement of affairs and balance sheet

| Statement of affairs | Balance Sheet |
| :---: | :---: |
| 1. It is prepared on the basis of some ledger accounts and estimates. <br> 2. It shows only the estimated financial position. <br> 3. Omission of an asset or liability can not be easily traced. <br> 4. The balancing figure is known as capital. | 1. It is prepared on the basis of ledger accounts. <br> 2. It shows the true financial position. <br> 3. If the balance sheet is not equal, omission of an asset or liability can be easily traced. <br> 4. Capital account balance is taken from ledger. |

|  |  | 56,420 |  |  | 56,420 |

Note: Bank Account opening balance shows overdraft. Hence opening balance was recorded on the credit side of the bank $a / c$. Bank closing balance is favourable balance. So the balance should be recorded on the credit side of the Bank a/c. The balancing figure in the cash $\mathrm{a} / \mathrm{c}$ is treated as cash deposited in the bank.

## C.D.E. 14.31 Acharya Nagarjuna University

Note: When furniture opening and closing balances are given along with the additions in the adjustments, we have to prepare Furniture a/c. The Balancing figure of such account is the depreciation to be provided on furniture.

## 14. 11. QUESTIONS

1. What is Single Entry System? What are the advantages and limitations?
2. Distinguish between single entry system and Double entry system?
3. Explain the method of converting single entry system into double entry system?
4. Distinguish between statement of affairs and balance sheet?

### 14.12. EXERCISES

1. From the following particulars calculate the profit.

|  | Rs. |
| :--- | ---: |
| Capital as on 31-12-2005 | 90,000 |
| Capital as on 1-1-2005 | 80,000 |
| Capital introduced during the year | 5,000 |
| Drawings during the year 2005 | 3,000 |

(Ans: Profit Rs.8,000)
2. Find out the profit from the following data:

|  | Rs. |
| :--- | ---: |
| Capital at the beginning of the year | 60,000 |
| Drawings during the year | 7,500 |
| Capital at the end of the year | 67,500 |
| Additional capital introduced during the year | 3,750 |

(Ans: Profit Rs.11,250)
3. Find out the profit from the following data:

|  | Rs. |
| :--- | ---: |
| Capital at the beginning of the year | 75,000 |
| Drawings during the year | 6,000 |
| Capital at the end of the year | 24,000 |
| Additional capital introduced during the year | 9,000 |

(Ans: Rs.48,000)
4.. Calculate the missing figure:

|  | Rs. |
| :--- | ---: |
| Capital at the end | 18,200 |
| Capital introduced | 4,700 |
| Drawings | 2,800 |
| Loss | 1,400 |
| Capital in the beginning | $?$ |

(Ans: Capital at the beginning Rs. 17,000 )
5. Calculate profit earned by a trader from the following particulars. The trader follows single entry system:

|  | $1-1-2004$ | $31-12-2005$ |
| :--- | ---: | ---: |
|  | Rs. | Rs. |
| Creditors | $1,50,000$ | $1,60,000$ |
| B.P. | 40,000 | 30,000 |
| Plant | $1,00,000$ | $1,50,000$ |
| Machinery | $3,00,000$ | $2,80,000$ |
| Stock | $1,00,000$ | $1,10,000$ |
| Debtors | $1,60,000$ | $1,50,000$ |
| Cash | 10,000 | 15,000 |

Provide depreciation on fixed assets at $5 \%$ and on stock at $10 \%$ and bad debts on debtors at $10 \%$.
C.D.E. $14.33 \quad$ Acharya Nagarjuna University
(Ans: Opening capital Rs.4,70,000; Closing capital Rs.4,58,500; Net loss Rs.11,500)
6. Sekhar maintains his books of accounts under single entry system. Prepare a statement showing the profit earned by Sekhar in the year 2003 from the following:

|  | $31-12-2002$ | $31-12-2003$ |
| :--- | ---: | ---: |
|  | Rs. | Rs. |
| Stock | 19,600 | 75,600 |
| Creditors | 31,000 | 14,500 |
| Debtors | 85,000 | $1,42,000$ |
| Premises | 90,000 | 90,000 |
| Furniture | 11,000 | 11,500 |
| Cash at Bank | 9,300 | 8,600 |
| Drawings | 4,700 | 7,200 |
| Additional capital introduced |  | 3,500 |

(Ans: Capital at the beginning Rs.1,88,600; Capital at the end Rs.3,13,200; Net profit Rs.1,28,300)
7. From the following details available from the books of a merchant, you are required to ascertain the result for the year ending $31^{\text {st }}$ October, 2005:

Balances as on 1-11-2004 were as under:
Cash in hand Rs.200; Cash at Bank Rs.1,800; Stock in Trade Rs.6,000; Accounts receivable Rs.11,200; Trade fixtures Rs.2,800; Machinery Rs.18,000; Accounts payable Rs.6,000; and Loan from a friend Rs.4,000.

Position on 31-10-2005:
Cash in hand Rs.500; Cash at Bank Rs.2,500; Stock in Trade Rs.5,000; Accounts receivable Rs.12,000; Trade fixtures Rs.2,800; Machinery Rs.17,200; Accounts payable Rs.4,000.
During the year he had introduced Rs.5,000 as additional capital and had withdrawn at the rate of Rs. 500 per month for domestic purposes. He states that interest on loan from the friend was unpaid which was Rs.120. A provision for doubtful debts is needed at 10\%.
(Ans: Opening capital Rs.30,000; Closing capital Rs.34,680; Profit during the year Rs.5,680)

## Financial Accounting <br> 14.34 Accounts from Incomplete Record...

8. Sanjay keeps his books by the single entry method. His position on $31{ }^{\text {st }}$ March, 2004 was as follows:

Cash in hand Rs.200; Cash at Bank Rs.25,500; Debtors Rs.18,400; Stock on hand Rs.28,600; Furniture Rs.5,000; Creditors Rs.18,700; Expenses outstanding Rs.2,000.

On $1^{\text {st }}$ October, 2004 Sanjay introduced Rs.10,000 as further capital and withdrew on the same date Rs.7,000. Out of which he spent Rs.5,000 on the purchase of machine for the business. On $31^{\text {st }}$ March 2005 his position was as follows:

Cash in hand Rs.2,100; Cash at Bank Rs.27,500; Stock Rs.31,500; Debtors Rs.24,200; Furniture Rs.6,000; Creditors Rs.25,200 and prepaid insurance Rs.200.

Find out the Profit or Loss made by Sanjay after providing depreciation on machine at $10 \%$ and on furniture $20 \%$.
(Ans: Opening capital Rs.57,000; Closing capital Rs.69,850; Net profit Rs.4,850)
9. Manoj who keeps his books of account under single entry system gives you below some of the balances as per his records as on $1^{\text {st }}$ January, 2005 and $31^{\text {st }}$ December, 2005.

|  | January 1, 2005 | December 31, 2005 |
| :--- | ---: | ---: |
| Rs. | Rs. |  |
| Cash and bank balance | 4,500 | 4,100 |
| Sundry debtors | $?$ | 37,800 |
| Sundry creditors | 19,600 | 21,700 |
| Stock in trade | 11,000 | 13,400 |
| Furniture and fixtures | 16,000 | $?$ |
| Salaries and expenses outstanding | 4,100 | 5,300 |

He also informs you that he always sells goods at a profit of $25 \%$ on sales. The cash book summary for 1995 showed the following items:

| Receipts | Rs. | Payments | Rs. |
| :--- | ---: | :--- | ---: |

## PARTNERSHIP ACCOUNTS

## Objectives: <br> This lesson tells

- About the partnership business
- Accounting treatment of Partnership Business

## Structure:

### 15.1 Introduction

15.2 Definition
15.3 Essentials of Partnership
15.4 Partnership deed
15.5 Rules applicable in the absence of an agreement
15.6 Implied authority of a partner
15.7 Special aspects of Partnership accounts
15.8 Maintenance of partnership accounts
15.9 Final accounts
15.10 Questions
15.11 Exercises
15.12 Suggested Readings

### 15.1. INTRODUCTION

An agreement between two or more persons is known as Partnership. Partnership firm may be formed with the contribution of capital, skill and administrative ability. There is an agreement between the partners to share profits and losses of the business.

### 15.2 DEFINITION

Sec. 4 of Partnership Act, 1932 defined Partnership as "The relation between persons, who have agreed to share the profits of the business carried on by all or anyone of them acting for all".

The members in a firm are individually called as partners and collectively known as firm.

## Financial Accounting $15.2 \quad$ Partnership Accounts

### 15.3. ESSENTIALS OF PARTNERSHIP

1. Agreement between partners: Partnership arises due to the agreement between partners. The agreement may be oral or in written.
2. Existence of lawful business: The partners should establish lawful business. If business established by the partners is unlawful, it should not be treated as a partnership business.
3. Number of partners: The minimum number to start a partnership is two. The Partnership Act does not say anything about the maximum number of partners. However, Sec. 11 of the Companies Act fixes the maximum number at 10 for partnership carrying on banking business. If it is carrying on any other type of business, the maximum number is 20.
4. Registration of firm: Registration is not compulsory to the partnership firm. If it is not registered, firm suffers from a number of disabilities.
5. Profit sharing: Profits and losses of the firm should be shared according to the agreement. In the absence of agreement, all the partners should share the profits and losses equally.
6. Partners' Liability: The liability of partners is unlimited, joint and several.
7. Non-transferability of interest: Without obtaining the prior permission from the remaining partners, the partners are not allowed to transfer their share.
8. Mutual agency: The partnership firm may be carried on by all or anyone of them acting for all. Hence, the partners are liable for the acts of the others.

### 15.4 PARTNERSHIP DEED

Partnership is the result of agreement. It is the agreement, which sets out the terms of the business by the partners. It must be in writing or by words of mouth. To avoid future disputes it is desirable to have the partnership agreement in written. In the absence of the agreement, the partnership deed mentioned in the Partnership Act came into force. A partnership deed has the following contents:
a. Name of the firm
b. Nature of the partnership business
c. Capital brought by the partners.
d. Profit \& loss sharing ratio.
e. Interest on capital allowed to the partners.
f. Interest charged on the drawings.
C.D.E. 15.3 Acharya Nagarjuna University
g. Amount of withdrawals from the firm by each partner.
h. Amount of allowances and salaries payable to the working partners.
i. Commencement and duration of partnership.
j. Valuation of goodwill at the time of retirement or death of a partner.
k. Keeping and preparation of proper books of accounts by the firm.
I. Appointment of the auditor to the firm and the procedure to be followed for auditing the accounts of the firm.
m . Whether the capital accounts are fixed or fluctuating.
n . Rights and duties of the partners.
o. About the settlement of disputes among the partners.
p. Procedure to be adopted for the payment of retiring partners or to the legal heirs of the deceased partners.

### 15.5 RULES APPLICABLE IN THE ABSENCE OF AN AGREEMENT

In the absence of an agreement the following rules are applicable.
a. The partners shall share the profits and losses equally.
b. If the partner provides the loan to the firm, he is entitled to receive interest at the rate of $6 \%$ p.a.
c. The firm will charge no interest on drawings.
d. If any partner is participating in the daily activities of business, he is not entitled to get salary or commission.
e. No partner is entitled to get interest on capital.

### 15.6 IMPLIED AUTHORITY OF A PARTNER

The authority of the partners to bind the firm is known as implied authority. Every partner within the scope of his implied authority may bind the firm by the following acts:
a. Buying and selling goods.
b. Receiving payments of the debts due to the firm and issuing receipts for the same.
c. Drawing cheques and endorsing bills of exchange and promissory notes in the name of the firm.
d. Engaging servants to perform the business of the firm.
e. Borrowing money for the purpose of business on the credit of the firm.

The implied authority of a partner does not extend the following acts:
a. Submitting the business dispute to arbitration.
b. Opening bank account on behalf of the firm in his own name.

## Financial Accounting <br> 15.4 <br> Partnership Accounts

c. Admission of a liability in a suit or a proceeding against the firm.
d. Acquisition of immovable property of the firm.
e. Transfer of immovable property of the firm.
f. Entering partnership on behalf of the firm.
g. Withdrawal of suit or proceeding file on behalf of the firm.
h. Compromising any claim or a portion of claim by the firm.

Sec. 20 lays down that the implied authority of any partner may be extended or restricted by an agreement between all partners.

### 15.7. SPECIAL ASPECTS OF PARTNERSHIP ACCOUNTS

The partner may contribute his capital in the form of cash or stock. On behalf of the partners, the firm maintains the capital account of each partner. The contribution of capital by the partners should be credited to the partners' capital accounts. The amounts paid by the firm to the partners should be credited to the capital accounts. Generally the amounts paid by the firm to the partners are salary, commission, bonus, interest on capital etc. The amount of drawings and interest on drawings etc., is debited to the capital accounts.

## For bringing capital by the partners to the firm:

a. Capital brought in cash

| Date | Particulars | L.F. | Debit | Credit |  |
| :--- | :--- | :--- | :--- | ---: | ---: |
|  | Casha/c <br> To partners' capital a/c <br> (Being capital brought) | Dr. |  | xxx |  |
| xxx |  |  |  |  |  |

b. Capital brought in cash and other assets

| Date | Particulars | L.F. | Debit | Credit |  |
| :--- | :--- | ---: | :--- | ---: | ---: |

|  | To partners' capital a/c |  |  |  | xxx |
|  | (Being capital brought) |  |  |  |  |

### 15.8 MAINTENANCE OF PARTNERSHIP ACCOUNTS

### 15.8.1. Capital Accounts:

Partners' capital accounts are maintained under two methods. They are:

1. Fixed capital method and 2 . Fluctuating capital method.

## 1. Fixed capital method:

## a. Preparation of capital account:

Whatever the capital contributed by the partners should remain fixed in the capital accounts. Whenever the additional capital is introduced, that entry should also be recorded in the capital account. The other transactions related to the partners' capital accounts should be recorded in the partners' current accounts.
Dr.
Capital a/c

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | :--- |
| To Balance c/d | xxx | By Cash/assets a/c (initial <br> investment) <br> By Cash/assets <br> (Additional capital) | xxx |
|  | $\underline{\mathrm{xxx}}$ | $\underline{\mathrm{xxx}}$ |  |

## b. Preparation of current account:

In the current account, we should record the entries related to the share of profit, interest on capital, salary, commission, etc. have place on the credit side. Drawings, interest on drawings, share of loss etc. should be recorded on the debit side. The difference between the debit and credit amounts is known as closing balance of the current account. The closing balance may be either debit or credit. If it is debit balance, it should be represented on the assets side of the balance sheet. If it is credit balance, it should be represented on the liabilities side of the balance sheet.

Dr.

|  |  |  | $\underline{x x x}$ |
|  | $\underline{x x}$ |  | $\underline{x x x}$ |

*Only one figure is available.

## 2. Fluctuating capital method:

There is no need to open current account separately under this method. All the transactions should have place only in the capital accounts. Under this method, the balance of capital accounts may change year by year.

Dr.

### 15.8.2 Profit and loss appropriation account:

The net profit is transferred to the capital accounts of the proprietor in case of sole traders concern. In case of partnership, it is transferred to profit and loss appropriation account. After transferring, from the profit and loss account, the following items should be deducted. Those items are interest on capital, partners' salaries and interest on drawings. These items are not charged against trading profit. The proforma of profit and loss appropriation account is given below:
C.D.E.

### 15.8.3 Drawings:

If the partners withdrew the amount from the business cash, it is known as drawings. Such an amount is debited to each partner's drawings account. The amount of drawings taken by the partners may vary from time to time. Sometimes, the partners may withdraw same amount in every month. The following entries are necessary for partners' drawings.

| Date | Particulars | L.F. | Debit | Credit |

|  |  |  |  |  |
|  |  |  |  |  |

## Financial Accounting $15.8 \quad$ Partnership Accounts

### 15.8.4 Interest on capital:

No partner is entitled to get the interest on his capital. He will get the interest on capital if it was mentioned in the partnership deed. Interest on capital is always calculated on the opening balance of the capital. The interest on capital is calculated with reference to the time factor. The following entries are to be recorded for interest on capital.

| Date | Particulars | L.F. | Debit | Credit |
| :--- | :--- | :--- | ---: | ---: |
|  | Interest on capital a/c <br> To Partners capital/current a/c <br> (Being interest credited to capital a/c) <br> P \& L appropriation a/c <br> To Interest on capital a/c <br> (Being the transfer of interest on capital) | Dr. | xxx |  |
| xxx |  |  |  |  |

### 15.8.5 Interest on drawings:

While calculating the interest on drawings the following rules shall be followed:
Interest on drawings shall be charged from the partners whenever it was mentioned in the partnership deed.

1. Interest on drawings is to be calculated as per the date of the withdrawal made by partners. If the dates of withdrawals are not mentioned, the interest will be charged at the given rate for 6 months on the whole amount.
2. Whenever the partners withdraw equal amounts at the beginning of each month the interest on the whole amount will be charged for $61 / 2$ months.
3. Whenever the partners withdraw equal amounts at the end of each month the interest on the whole amount will be charged for $51 / 2$ months.
4. When the drawings are made at different dates, interest on drawings as per given rate may be calculated by products method. The formula for that is Interest on drawings $=$ Total of products $\times \underline{\text { Rate of interest }} \times \underline{1}$
C.D.E. 15.9 Acharya Nagarjuna University

| xxx |  |  |  |  |

### 15.8.6. Salaries allowed to partners:

The active partners may receive an extra remuneration, which is called salary. It should be definitely mentioned in the deed. This amount should be credited to the capital amounts. The following journal entry is necessary

| Date | Particulars | L.F. | Debit | Credit |
| :--- | :--- | ---: | ---: | ---: |
|  | Partners salaries a/c <br> To Partners capital/current a/c <br> (Being salary paid) |  | xxx |  |
| xxx |  |  |  |  |

### 15.8.7 Partners loan:

If the partner advances an amount to the firm, partner's loan account is opened. Even though the rate of interest is not mentioned in the partnership deed, the partner is entitled to get 6\% interest p.a.

### 15.8.8 Losses:

Profits and losses should be distributed according to the agreement. There may be possibility to have separate ratio for profits as well as losses. If the profits and losses sharing ratio is not mentioned in the deed, they should be distributed equally.

In case of profits, the share of profit should be credited to the capital accounts and in case of loss the share is debited to the capital accounts and credited to profit and loss account.

Illus 1:
$X, Y, Z$ are partners sharing profits and losses in the ratio of 5:3:2. They are maintaining capital accounts under fixed and fluctuating capital system.

Their capitals on 1-1-1991 were Rs.5,000; Rs.3,000; Rs.1,000. Y received a salary of Rs. 75 p.m. and $Z$ received a salary of Rs. 600 p.a. Interest on Capital is at $6 \%$. Rs.3,900 profit was earned on 31-12-1991 before charging interest on Capital and after charging salary. Drawings of the partners were Rs.600; Rs.500; Rs. 400 respectively. Prepare partners capital accounts and current accounts.

## Solution:

A. Fixed capital system:

Dr.
Profit \& Loss Appropriation Accounts
Cr.

|  |  | Rs. |  | Rs. |
| :---: | ---: | ---: | :--- | ---: |
| To Capital a/c (Interest on Capital): |  |  | By Balance b/d | 3,900 |

### 15.9. FINAL ACCOUNTS

Just like in the sole trading concerns at the end of the year, the partnership firm should also prepare the final accounts. The profit or loss earned by the partnership firm should be credited or debited to their capital accounts. Separate capital accounts are maintained to each partner in the books of accounts. After adjusting profits or losses, interest on capital, drawings, interest on drawings, salaries and commission, the final capital accounts balances should be shown on the liabilities side of the balance sheet.

## Illus 2:

From the following Trial Balance given as on 31-3-1999. Prepare Trading and Profit and Loss account and Balance Sheet as on that date.

Trail Balance

| Dr. | Rs. | Cr. | Rs. |
| :--- | ---: | :--- | ---: |
| X's Drawings | 12,000 | X's Capital | 60,000 |
| Y,s Drawings | 10,000 | Y's Capital | 40,000 |

C.D.E. 15.13 Acharya Nagarjuna University

| Sundry Debtors | 45,000 | Sundry Creditors | 45,000 |
| :--- | ---: | :--- | ---: |
| Plant, Machinery | 50,000 | Bills payable | 10,000 |
| Fixtures, Fittings | 10,000 | Purchase returns | 1,000 |
| Opening stock | 30,000 | Sales | $1,15,000$ |
| Cash in hand | 350 |  |  |
| Cash at bank | 10,000 |  |  |
| Purchases | 55,000 |  |  |
| Wages | 16,000 |  |  |
| Salaries | 12,000 |  |  |

### 15.10 QUESTIONS

1. Define partnership? What are the essentials of a partnership?
2. What is a partnership deed? Mention the important clauses in it.
3. What do you understand by fixed and fluctuating capitals of partnership?

### 15.11.EXERCISES

1. $X$ and $Y$ are sharing profits and losses equally. ' $Z$ ' is admitted for $1 / 4^{\text {th }}$ share in future profits. What will be their new profit sharing ratio?
(Ans: 3:3:2)

## Financial Accounting $15.16 \quad$ Partnership Accounts

2. $X$ and $Y$ were partners sharing profits in the ratio of $3: 2$. ' $Z$ ' was admitted with $1 / 5^{\text {th }}$ share in profits. Calculate the new profit sharing ration. What will be the new ratio if ' $Z$ ' takes $1 / 4^{\text {th }}$ share in profits?
(Ans: (a) 12:8:5; (b) 9:6:5)
3. $X$ and $Y$ are partners, sharing profits in the ratio of $5: 3 . Z$ is admitted and is given $1 / 4^{\text {th }}$ share in the profits. What will be the new profit sharing ratio of $\mathrm{X}, \mathrm{Y}$ and Z ?
(Ans: 15:9:8)
4. Ravi and Kiran are sharing profits and losses in the ratio of $5 / 8: 3 / 8$. They admit Rahul on $3 / 7^{\text {th }}$ share in the firm, which he takes $2 / 7^{\text {th }}$ from Ravi and $1 / 7^{\text {th }}$ from Kiran. Calculate new profit sharing ratio of Ravi, Kiran and Rahul.
(Ans: 19:13:24)
5. Bhavya and Kavya share profits in the ratio of $5: 3$. They admit Sravya as a partner. Their new profit sharing ratio is 7:5:4. Calculate the sacrificing ratio.
(Ans: Sacrificing ratio 3:1)
6. Tom and Tim are partners sharing profits and losses in 3:2 ratio. They admit Jim as a partner who has to contribute Rs.5,000 as his capital and premium for goodwill for the $1 / 5^{\text {th }}$ share. He being unable to bring any cash for capital, requested Tom to grant Rs.3,000 as loan and Tim Rs.2,000 as loan. Since he couldn't bring his share of goodwill also, it was raised in the books at Rs.15,000. Tom and Tim had capitals of Rs. 18,000 and Rs. 12,000 respectively. Pass necessary journal entries in the books of the firm and show the balance sheet of the new firm, assuming that the firm's total capital is in the profit sharing ratio, partners either bringing in or taking out.
(Ans: Cash withdrawn by Tom Rs.10,200; Cash withdrawn by Tim Rs.6,800; Cash brought by Jim Rs.2,000; Balance sheet total Rs.50,000; Other Assets balance Rs.35,000)
7. $A$ and $B$ are partners in a firm sharing profits in the ratio $3: 2$ with capitals of Rs.12,000 and Rs. 5,400 respectively. They advised ' $X$ ' as a partner with Rs. 7,500 for $1 / 3^{\text {rd }}$ share in the profits of the firm. Adjust the capitals of the partners according to the profit sharing ratio and show the amount of each partner. (No entries are required)
C.D.E.
8. 17

Acharya Nagarjuna University
(Ans: Capital accounts: A Rs.9,000; B Rs.6,000)
8. $M$ is admitted for $1 / 5^{\text {th }}$ share in a firm and he is required to bring his share of goodwill. The goodwill is to be determined on the basis of 3 years purchase price of the average profits of the business for the last five years. Particulars of profit were

| 1997 | Rs.20,000 (Profit) |
| :--- | :--- |
| 1998 | Rs. 10,000 (Loss) |
| 1999 | Rs.20,000 (Profit) |
| 2000 | Rs.25,000 (Profit) |
| 2001 | Rs.30,000 (Profit) |

Ascertain the amount of goodwill to be brought in by M

## (Ans: Rs.51,000)

9. Squeeze and Wriggle share profits in the ratio of $2: 1$. As on $30^{\text {th }}$ June, 2005 their books showed the following balances. You are required to prepare Trading and Profit \& Loss Account for the year ending $30^{\text {th }}$ June, 2005 and their Balance Sheet as on that date:

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| Squeeze's capital | 40,000 | Buildings | 36,870 |
| Squeeze's Drawings | 2,125 | Interest a/c (Dr.) | 1,060 |
| Wriggle's capital | 30,000 | Advertising | 1,075 |
| Wriggle's Drawings | 1,500 | General charges | 2,670 |
| Office salaries | 4,965 | Discount (Cr.) | 200 |
| Plant and machinery | 32,100 | Reserve for bad debts | 625 |
| Purchases | 80,155 | Taxes and Insurance | 1,235 |
| Purchase returns | 1,070 | Furniture | 1,000 |
| Sales | $1,43,035$ | Repairs | 1,245 |
| Sale returns | 800 | Manufacturing expenses | 1,175 |
| Wages | 25,785 | Bad debts | 555 |
| Opening stock: |  | Sundry debtors | 15,710 |
| Raw materials | 8,995 | Sundry creditors | 4,300 |

Financial Accounting $15.18 \quad$ Partnership Accounts

| Finished goods | 10,000 | Bills receivable | 4,465 |
| :--- | ---: | :--- | ---: |
| Cash in hand | 815 |  |  |
| Cash at bank | 5,680 |  |  |
| Donation to cyclone relief fund | 500 |  |  |
| Loss on mortgage | 21,250 |  |  |

Adjustments:
(a) Closing stock:

Raw materials Rs.13,000
Finished goods Rs.23,000
(b) Partners are entitled to interest on capital at 6\% per annum
(c) Write off depreciation on plant and machinery at $10 \%$, on buildings at $5 \%$ and on furniture at $10 \%$.
(d) Bad debts reserve is to be raised to Rs.1,000
(e) Rs. 800 for wages and Rs.1,000 for salaries are outstanding.
(Ans: Gross profit Rs.52,395; Net profit Rs.28,562; Balance Sheet Rs.1,26,487)

## Chapter - 16

## ADMISSION OF A PARTNER

## Objectives:

The lesson gives information about the:

1. Admission of the partner
2. Accounting treatment in the books of the firm at the time of admission

## Structure:

16.1 Introduction
16.2 Accounting Treatment
16.2.1. Capital brought by the new partner

### 16.2.2. Goodwill treatment

### 16.2.3. Revaluation of Assets and Liabilities

16.2.4. Distribution of undistributed profits to the old partners

### 16.2.5. Adjustment of partners capital accounts

16.2.6. Calculation of new profit sharing ratio and sacrificing ratio

### 16.3 Questions

16.4 Exercises
16.5 Suggested Readings

### 16.1 INTRODUCTION:

Whenever a partner is admitted in the partnership firm, the firm has to close the books of accounts in the middle of the year. The admission of a partner may be due to the following reasons. It may be due to the requirement of additional capital or because of technological or managerial reasons. The admission of a partner requires the following adjustments in the books of the firm:

1. Capital brought by the new partner
2. Goodwill treatment
3. Revaluation of assets and liabilities
4. Distribution of undistributed profits to the old partners

## Financial Accounting <br> 16.2 <br> Admission of a Partner

5. Adjustment of partners capital accounts
6. Calculation of new profit sharing ratio

### 16.2 ACCOUNTING TREATMENT :

16.2.1 Capital brought by the new partner: When a partner is admitted into the partnership firm, he has to bring capital into the firm. The capital may be brought in the form of cash or assets. The following journal entries are required for the capital brought by the new partner:

16.2.2 Goodwill treatment: Goodwill is the amount paid by the new partner to the old partners to get his share of profit in the new firm. Hence the goodwill amount is owned by old partners. It should be distributed among the old partners according to their sacrificing ratio. Sacrificing ratio is nothing but the difference between the old profit sharing ratio and the new profit sharing ratio. Goodwill value is calculated under four methods. They are: 1) Average profit method 2) Super profits method 3) Capitalisation method. The following procedure is adopted to record the goodwill in the books of the firm at the time of admitting a partner.

## C.D.E $16.3 \quad$ Acharya Nagarjuna University

16.2.2.1 Average Profit Method: Under this method goodwill is calculated on the basis of the average profits of the previous year multiplied by the number of years purchase.

```
Average profit \(=\underline{\text { Profit of the last years }}\)
    No. of years
Goodwill = Average profit X No. of years purchase
```

16.2.2.2 Super profits method: The difference between the actual or average profit and the normal profit is known as super profit. Calculate the actual or average profit. Then calculate normal profits on capital employed.

```
Normal profit = Capital employed X Normal Rate
    100
Goodwill = Super profits X No of years purchase
```

16.2.2.3 Capitalisation method: Under this method the goodwill is valued in two methods. 1 . Capitalisation of average profits and 2. Capitalisation of super profits.
a. Capitalisation of Average Profits: Calculate average profit for the past specified period and second calculate the value of the business. Value of Business = Average profit /Normal rate of return X100. Calculate the capital employed by deducting the outsiders liabilities from the total assets (other than goodwill). Net assets = Total assets (excluding fictitious assets)- Outsiders liabilities. Now goodwill can be arrived by deducting net assets from the value of business.
b. Capitalisation of Super Profits: By capitalising super profits goodwill can be calculated under this method.
16.2.2.4 Accounting Treatment of Goodwill: The new partner can bring goodwill in four ways. The accounting treatment for goodwill is:
a. When the goodwill is brought in the form of cash and retained in the business:

Whenever the new partner brings the goodwill in the form of cash the accounting treatment is:
Financial Accounting $16.4 \quad$ Admission of a Partner

| Date | Particulars | L.F. | Debit | Credit |
| :--- | :--- | :--- | ---: | ---: |
|  | For bringing the goodwill in cash: <br> Cash a/c <br> To Goodwill a/c <br> (Being goodwill brought) | Dr. |  |  |
| xxx |  |  |  |  |

|  | For distributing the goodwill to the old <br> partners: <br> Goodwill a/c <br> To Old partner's capital a/c <br> (Being goodwill distributed) | Dr. |  |  |  |
| :--- | :--- | :--- | :--- | :--- | :--- |

Illus 3: ABC share profits and losses in the ratio of 5:3:2. They admit Das a Partner by giving him $1 / 5$ share in future profits. He brings Rs. 20,000 as his share of Goodwill. Old partners retain their share of goodwill in the firm. Draft Journal Entries.

## Solution:

| Date | Particulars | L.F. | Debit | Credit |  |
| :--- | :--- | :--- | :--- | ---: | ---: |
|  | For bringing the goodwill in cash: | Dr. |  | 20,000 |  |
|  | Cash a/c |  |  |  | 20,000 |
|  | To Goodwill a/c |  |  |  |  |
|  | (Being goodwill brought) |  |  |  |  |
|  | For distributing the goodwill to the old |  |  | 20,000 |  |

|  | To B capital a/c | To C capital a/c |  |  |  |
|  | (Being goodwill distributed) |  |  |  |  |

## C.D.E 16.5 Acharya Nagarjuna University

b. When the goodwill is brought in the form of cash and withdrawn by the partners partially or as a whole:

Whenever the new partner brings the goodwill in the form of cash and if the shared goodwill amount is withdrawn partially or wholly by the old partners the accounting treatment is:

| Date | Particulars | L.F. | Debit | Credit |
| :---: | :---: | :---: | :---: | :---: |
|  | For bringing the goodwill in cash: <br> Cash a/c <br> To Goodwill a/c <br> (Being goodwill brought) <br> For distributing the goodwill to the old partners: <br> Goodwill a/c <br> To Old partners' capital a/c <br> (Being goodwill distributed) <br> For withdrawing the shared amount partially or as a whole by the old partners': <br> Old partners' capital a/cs <br> To cash a/c <br> (Being cash withdrawn by the partners) |  | XXX | xXX <br> xxx <br> XXX |

Illus 4: ABC share profits and losses in the ratio of 5:3:2. They admit Das a Partner by giving him $1 / 5$ share in future profits. He brings Rs.20,000 as his share of Goodwill and also brings Rs.50,000 as his capital. Old partners withdrew their share of goodwill. Draft Journal Entries.

## Financial Accounting <br> 16.6 <br> Admission of a Partner

## Solution:

| Date | Particulars | Debit | Credit |
| :---: | :---: | :---: | :---: |
|  | Cash a/c Dr. <br> To D's Capital a/c  <br> (Being Capital introduced)  | 50,000 | 50,000 |
|  | Cash a/c Dr. <br> $\quad$ To Goodwill a/c  <br> (Being goodwill brought)  | 20,000 | 20,000 |
|  | Goodwill a/c Dr. <br> To A's Capital a/c  <br> To B's Capital a/c  <br> To C's Capital a/c  <br> (Being goodwill distributed)  | 20,000 | 20,000 |
|  | A's Capital a/c Dr. <br> B's Capital a/c Dr. <br> C's Capital a/c Dr. <br> $\quad$ To Cash a/c  <br> (Being the goodwill withdrawn by the old partners)  | $\begin{array}{r} \hline 10,000 \\ 6,000 \\ 4,000 \end{array}$ | 20,000 |

c. If the goodwill raised in the firm's books:

If there is an agreement between new and old partners' to raise the goodwill in the firm's books the accounting treatment is:

| Date | Particulars | L.F. | Debit | Credit |
| :--- | :--- | ---: | ---: | ---: |
|  | For raising the goodwill in the books of the <br> firm: <br> Goodwill a/c <br> Dr. <br> To Old partners' capital a/c <br> (Being goodwill raised) |  | $x x x$ |  |

In this case the goodwill amount appears on the assets side of the new balance sheet.

## C.D.E

Illus 5: ABC share profits and losses in the ratio of 5:3:2. They admit Das a Partner by giving him $1 / 5$ share in future profits. They agreed to raise the goodwill Rs.20,000 in the books of the firm. Draft Journal Entries.

## Solution:

| Date | Particulars | Debit <br> Rs. | Credit <br> Rs. |
| :---: | :---: | ---: | ---: |
|  | Goodwill a/c | Dr. | 20,000 |
|  | To A's Capital a/c |  |  |
|  | To B's Capital a/c |  | 10,000 |
|  | To C's Capital a/c |  |  |
|  | (Being goodwill distributed) |  | 4,000 |
|  |  |  |  |

d. If the goodwill raised and then written off in the firm's books:

If the goodwill is raised and then written of in the firm's books at the time of admission of a partner the accounting treatment is:

Financial Accounting $\quad 16.8 \quad$ Admission of a Partner

|  |  |  |  |  |  |

## e. When agreement made privately:

When the amount of goodwill is paid privately by the new partner to the old partners no journal entry is required in the firms books of accounts. This is due to their private agreement, which is not related to the firm.
16.2.2 Revaluation of Assets and Liabilities: The new partner requests the old partners to re-value the assets and liabilities of the old firm. At the time of revaluation of assets and liabilities the related entries should be recorded in the "Profit and Loss Adjustment $\mathrm{a} / \mathrm{c}$; or Revaluation $\mathrm{a} / \mathrm{c}$ ". Losses are recorded on the debit side and profits on the credit side of the revaluation account.

Whenever the assets are reduced and liabilities are increased the loss arise, may shown on the debit side of the revaluation $\mathrm{a} / \mathrm{c}$. If the assets are increased and liabilities are decreased the profit arise, may shown on the credit side of the revaluation $a / c$. The difference in the revaluation account may be either profit or loss on revaluation, which should be distributed to the old partners.

Dr.

| To B capital a/c* | $\underline{x x x}$ | $\underline{x x}$ |  | - |
|  |  | x xx |  | x xx |

* In case of revaluation loss reverse the above entry
16.2.3 Distribution of undistributed profits to the old partners: The past profits which are not distributed are known as undistributed profits. These profits are to be distributed to the old partners. If the general reserve, or profit and loss account appears on the liabilities side of the given balance sheet, then we may conclude that the firm has undistributed profits. These amounts should be distributed to the old partners according to the profit sharing ratio. The journal entry for that is:

| Date | Particulars | L.F. | Debit | Credit |  |
| :--- | :--- | :--- | ---: | ---: | ---: |
|  | General Reserve a/c or P \& L a/c <br> To Old partners' capital a/c <br> (Being undistributed profit distributed) | Dr. |  | xxx |  |

16.2.4 Adjustment of partners capital accounts: If there is an agreement among the partners on the adjustment of capital accounts, these accounts are to be adjusted on the basis of new partner capital amount. After the adjustment, if the old partners' capital accounts have more balance the amount is going to be withdrawn by the old partners. If the old partners' capital accounts have less balance the partners may bring cash for adjustment of capital.

| C.D.E | 16.11 | Acharya Nagarjuna University |

### 16.2.5 Calculation of new profit sharing ratio and sacrificing ratio:

16.6 New profit sharing ratio: Whenever the new partner is admitted into the firm, the future profit sharing ratio may change. The calculation of future profit sharing ratio related to the partners is known as new profit sharing ratio.
16.7 Sacrificing ratio: Sacrificing ratio is nothing but the difference between the old ratio and the new ratio. Generally sacrificing ratio is used for the distribution of goodwill. Sacrificing ratio should be calculated only for old partners.

## First Model:

## Illus 7:

$X, Y$ and $Z$ are sharing profits and losses in the ratio of $4: 3: 3$. They admitted $A$ into partnership for $1 / 5^{\text {th }}$ share. What will be the new profit sharing ratio and sacrificing ratio?

## Solution:

a. New profit sharing ratio:

Total profits of the new firm assumed as 1 . In that A's share $=1 / 5^{\text {th }}$.
Remaining share $=1-1 / 5^{\text {th }}=4 / 5^{\text {th }}$
X's new share = Remaining share X His old share

$$
=4 / 5^{\text {th }} \times 4 / 10=16 / 50
$$

### 16.12

Admission of a Partner
Y's new share $=$ Remaining share $X$ His old share

$$
=4 / 5^{\text {th }} \times 3 / 10=12 / 50
$$

Z's new share $=$ Remaining share $X$ His old share

$$
=4 / 5^{\text {th }} \times 3 / 10=12 / 50
$$

A's share $=1 / 5^{\text {th }}$ or $10 / 50$
$\therefore$ New profit sharing ratio $=16: 12: 12: 10$ (or) $8: 6: 6: 5$
b. Sacrificing ratio:

Sacrificing ratio of $X=$ Old share - New share $=4 / 10-8 / 25=4 / 50$
Sacrificing ratio of $Y=$ Old share - New share $=3 / 10-6 / 25=3 / 50$
Sacrificing ratio of $Z=$ Old share - New share $=3 / 10-6 / 25=3 / 50$
$\therefore$ Sacrificing ratio $=4: 3: 3$

## Second Model:

## Illus.8:

$A$ and $B$ share profits and losses in the ratio of $7: 5 . C$ is admitted as a partner and $A$ surrendered $1 / 7^{\text {th }}$ of his share and $B 1 / 3^{\text {rd }}$ of his share in favour of $C$. Find out the new ratio.

## Solution:

A's new share $=$ Old share - Surrendered share $=7 / 12-1 / 7=37 / 84$
B's new share $=$ Old share - Surrendered share $=5 / 12-1 / 3=1 / 12$ or $7 / 84$
C's share $=1 / 7+1 / 3=10 / 21$ or $40 / 84$
$\therefore$ New profit sharing ratio $=37: 7: 40$

## Illus 9:

$X, Y$ are partners in the firm. They share profits and losses in the ratio of 5:3. Their positions on 31-3-2002 was as under.

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Capital Accounts: |  | Plant, Machinery | 40,000 |
| X | 40,000 | Stock | 40,000 |
| Y | 30,000 | Debtors | 30,000 |

C.D.E $16.13 \quad$ Acharya Nagarjuna University

| Creditors | 15,000 | Bills receivable | 10,000 |
| :--- | ---: | :--- | ---: |
| Bank Overdraft | $\underline{42,500}$ | Cash at bank | $\underline{7,500}$ |
|  | $\underline{1,27,500}$ |  | $\underline{1,27,500}$ |

They want to join $\mathbf{Z}$ as a partner:
a. $Z$ will get $1 / 4$ share
b. Z will bring Rs. 40,000 as capital
c. $Z$ also brings Rs. 4,000 as premium which will retain in the business.
d. Depreciate plant by $10 \%$.
e. Provide 5\% Reserve for Bad debts on Debtors
f. Increase stock by 10\%.

Prepare Journal Entries and also prepare Balance Sheet.

## SOLUTION:

Journal Entries

|  | $\underline{1,70,000.00}$ |  |  | $1,70,000.00$ |

## Illus.10:

$A$ and $B$ are partners in a firm sharing profits and losses as 5:3. The position of the firm as on $31^{\text {st }}$ March, 2002 is as follows:

| Capital \& Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Capital: |  | Plant | 40,000 |
| A | 30,000 | Stock | 30,000 |
| B | 20,000 | Debtors | 20,000 |
| Sundry creditors | 15,000 | Bills Receivable | 10,000 |
| Bank overdraft | $\underline{42,500}$ | Cash at Bank | $\underline{7,500}$ |
|  | $\underline{1,07,500}$ |  | $1,07,500$ |

C now joins them on condition that he will share $3 / 4$ of future profits, the balance of profits being shared by A and B as 5:3. He introduces Rs.40,000 by way of capital in cash and pay off the overdraft. He also pays Rs. 4,000 by way of premium for goodwill of the

## Financial Accounting <br> 16.16 <br> Admission of a Partner

business and this amount is to remain in the business. The partners agree to depreciate plant by $\mathbf{1 0 \%}$ and raise a reserve against Sundry debtors by $5 \%$.

You are asked to journalise the entries in the books of the firm and show the resultant Balance Sheet. How will the partners share future profits?

## SOLUTION :

## Calculation of future Profit Sharing Ratio:

| Total profits of the new firm | $=1$ |
| :---: | :---: |
| C's share | $=3 / 4$ |
| Remaining share | $=1-3 / 4=1 / 4$ |
| A's new share | $=$ Old share X Remaining share |
|  | $=5 / 8 \times 1 / 4=5 / 32$ |
| B's new share | $=3 / 8 \times 1 / 4=3 / 32$ |
| C's share | $=3 / 4=24 / 32$ |
| New profit sharing ratio | $=5: 3: 24$ |

| L's Capital | $\underline{14,550}$ | Goodwill | 5,250 |
|  | $\underline{1,15,500}$ |  | $1,15,500$ |

## C.D.E $16.19 \quad$ Acharya Nagarjuna University

They agreed to take $A$ into partnership and give him $1 / 8^{\text {th }}$ share on the following terms:
a. The furniture to be depreciated by Rs. 920
b. The stock to be depreciated by $10 \%$.
c. That a provision of Rs. 1,320 be made for outstanding repair bills.
d. That the value of the land and buildings be brought up to Rs.59,850
e. That the value of Goodwill be brought upto Rs. 14,070 .
f. That A should bring in 14,700 as his capital
g. That after making the above adjustments, the capital amounts of the old partners be adjusted in the proportion of A's capital to his share in the business.

Pass necessary journal entries and prepare the Balance Sheet of New Firm.

Calculation of New Profit Sharing Ratio:

| Financial Accounting |  | $\mathbf{1 6 . 2 2}$ | Admission of a Partner |
| :--- | :--- | :--- | :--- |
| Total profits of the new firm | $=$ | 1 |  |
| A's capital | $=$ | $1 / 8$ |  |
| Remaining share | $=$ | $7 / 8 \times 6 / 14=42 / 112$ |  |
| J's new share | $=$ | $7 / 8 \times 5 / 14=35 / 112$ |  |
| K's new share | $=$ | $7 / 8 \times 3 / 14=21 / 112$ |  |
| L's new share | $=$ | $1 / 8=14 / 112$ |  |
| A's share | $=$ | $42: 35: 21: 14$ |  |
| New profit sharing ratio | $=$ | $6: 5: 3: 2$ |  |

Capital Adjustments: (on the basis of New Partner A)

| A's share | $2-14,700$ Capital |
| :--- | :--- |
| J For | $6-?$ |
|  | $6 / 2 \times 14,700=44,100$ |
| K For | $5-?$ |
|  | $5 / 2 \times 14,700=36,750$ |
| L For | $3-?$ |
|  | $3 / 2 \times 14,700=22,050$ |

Balance Sheet of J, K \& L as on

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Creditors | 18,900 | Cash a/c | 16,590 |
| Bills payable | 6,300 | Debtors | 26,460 |
| J's Capital | 44,100 | Stock | 26,460 |
| K's Capital | 36,750 | Furniture | 6,430 |
| L's Capital | 22,050 | Land \& Buildings | 59,850 |
| A's Capital | 14,700 | Goodwill | 14,070 |
| Provision for Repairs Bills | 1,320 | L's current a/c | 1,320 |
| J's current a/c | 3,660 |  |  |
| K's current a/c | $\underline{3,400}$ |  | $\underline{1,51,180}$ |

C.D.E $16.23 \quad$ Acharya Nagarjuna University

## Illus.12:

$R$ and $S$ partners in a business share profits and losses in the ratio of $3: 1$. Their Balance sheet as on 31-12-2001 was as under:

|  | Rs. | Rs. |  | Rs. |
| :--- | ---: | ---: | :--- | ---: |
| Creditors |  | 37,500 | Bank | 22,500 |
| General Reserve |  | 4,000 | Bills receivable | 3,000 |
| Capitals: |  |  | Debtors | 16,000 |
| R | 30,000 |  | Stock | 20,000 |
| S | 16,000 | 46,000 | Furniture | 1,000 |
|  |  |  | Buildings | $\underline{25,000}$ |
|  |  | $\underline{87,500}$ |  | $\underline{87,500}$ |

On 1-1-2002, they admit T on the following terms:
a. That T pays Rs. 10,000 as his capital for $1 / 5$ share of profits
b. That goodwill account be raised to Rs. 20,000 .
c. That stock and furniture be reduced by $\mathbf{1 0 \%}$ and provision of $5 \%$ be made for doubtful debts.
d. That the value of Buildings be appreciated by $\mathbf{2 0 \%}$
e. That the capital accounts of all the partners be readjusted on the basis of their profit sharing arrangements and any additional amount to be credited to their current accounts.

Prepare Revaluation account and capital accounts and the opening Balance Sheet of the firm.

Illus. 13 :
$A$ and $B$ are partners in a firm sharing profits and losses in the ratio of $4: 3$. Their Balance Sheet was as follows on $1^{\text {st }}$ April 2002:

## Balance Sheet

|  |  | Rs. |  | Rs. |
| :--- | ---: | ---: | :--- | ---: |
| Capitals: |  |  | Goodwill | 10,000 |
| A | 21,000 |  | Plant \& machinery | 15,000 |
| B | $\underline{14,000}$ | 35,000 | Patents | 5,000 |
| General Reserve |  | 14,000 | Sundry debtors | 12,000 |
| Profit and Loss a/c |  | 7,000 | Stock | 18,000 |
| Sundry creditors |  | $\underline{14,000}$ | Cash | $\underline{10,000}$ |
|  |  | $\underline{70,000}$ |  | $\underline{70,000}$ |

C is admitted as partner on the above date on the following terms:
a. He is to be given $2 / 9^{\text {th }}$ share in profits
C.D.E 16.27 Acharya Nagarjuna University
b. He cannot bring his share of goodwill. The total goodwill of the firm is valued at Rs.24,000.
c. The assets are to be revalued as under:

Plant and machinery at 20\% less than book value at Rs.4,000 stock at 16,500
d. A provision for doubtful debts is to be made at 5\% of Sundry debtors
e. A liability of Rs.1,000 is not likely to arise. The firm has to pay an amount of Rs.1,900 as compensation to a worker.
f. C has to contribute sufficient cash to make his capital $2 / 9^{\text {th }}$ of the total capital of the firm.
g. The capitals of the other partners are to be adjusted in the profit sharing proportions. Any difference being withdrawn or brought in cash.

Give Revaluation account, Capital accounts and Balance Sheet of the new firm.

## SOLUTION :

Dr.

|  | Revaluation a/c |  |  |  |
| :--- | ---: | :--- | ---: | ---: |
|  | Rs. |  | Rs. |  |
| To Machinery a/c | 3,000 | By Creditors |  | 1,000 |
| $"$ Patents | 1,000 | $"$ A's capital a/c | 4,000 |  |
| $"$ Stock | 1,500 | $"$ B's capital a/c | $\underline{3,000}$ | 7,000 |
| $"$ Reserve for Bad debts | 600 |  |  |  |
| $"$ Workers Compensation fund | $\underline{1,900}$ |  |  | $\underline{8,000}$ |

Note: Calculation of C's goodwill:
Total firm's goodwill $=24,000$
In that C's goodwill $=\quad 24,000 \times 2 / 9=5,333$

| Workers compensation fund | 1,900 | debts |  | 16,500 |
|  |  | Stock |  | 25,525 |
|  | $\underline{84,758}$ | Cash a/c | Goodwill | $\underline{15,333}$ |
|  |  |  | $\underline{84,758}$ |  |

Illus.14:
On $1^{\text {st }}$ January, 2000, Abhinav and Bhairav who were in partnership sharing 7/12 and $5 / 12$ respectively, take in Vaishnav giving him $1 / 6$ share. Abhinav and Bhairav were to share future profits in the ratio of 13/24 and 7/24.

Over and above his capital, Vaishnav brings in Rs. 96,000 as his goodwill for the $1 / 6^{\text {th }}$ share. The cash brought in by Vaishnav as his capital and his goodwill in credit to one separate account in his personal name. On 31 ${ }^{\text {st }}$ December, 2000, the Trial Balance of the firm stood as follows.

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| Machinery | $6,00,000$ | Abhinav's capital | $3,36,000$ |
| Furniture | 40,000 | Bhairav's capital | $2,40,000$ |
| Stock | $1,20,000$ | Vaishnav's personal | $2,24,000$ |
| Abhinav's Drawings | 32,000 | account | 48,000 |
| Bhairav's Drawings | 52,000 | Creditors | $2,32,000$ |
| Vaishnav's Drawings | 8,000 | Current Year's Profit |  |
| Cash on hand | $\underline{28,000}$ |  | $\overline{10,80,000}$ |

Interest on drawings is to be ignored but interest on capital accounts is to be allowed at $5 \%$ per annum after the necessary adjustments therein consequent on Vaishnav's admission.

## C.D.E $16.31 \quad$ Acharya Nagarjuna University

Prepare the Balance Sheet of the firm as on December 31 ${ }^{\text {st }} 2000$.

## SOLUTION:

## Sharing of goodwill:

In this problem we have difference in old profit sharing ratio and new profit sharing ratio. Hence the goodwill should be distributed according to the sacrificing ratio.

## Calculation of Sacrificing Ratio:

| Sacrificing ratio | $=$ | Old ratio - New ratio |
| :--- | :--- | :--- |
| Abhinav's sacrificing ratio | $=$ | $\frac{7}{12}-\underline{13}=\frac{14-13}{24}=\frac{1}{24}$ |

Bhairav's sacrificing ratio $=\underline{5}-\underline{7}=\underline{10-7}=\underline{3}$

$$
\begin{array}{llll}
12 & 24 & 24 & 24
\end{array}
$$

Sacrificing ratio $=1: 3$
Goodwill amount $=96,000$
Abhinav's share in goodwill $=96,000 \times 1 / 4=24,000$
Bhairav's share in goodwill $=96,000 \times 3 / 4=72,000$

## Calculation of Interest on Capital:

| Abhinav's capital | $=3,36,000+24,000=3,60,000$ |
| :--- | :--- |
| Bhairav's capital | $=2,40,000+72,000=3,12,000$ |
| Vaishnav's capital | $=2,24,000-96,000=1,28,000$ |
| Interest on Abhinav's capital | $=3,60,000 \times 5 / 100=18,000$ |
| Interest on Bhairav's capital | $=3,12,000 \times 5 / 100=15,600$ |
| Interest on Vaishnav's capital | $=1,28,000 \times 5 / 100=\underline{6,400}$ |
| Total Interest |  |

Distribution of current year Net profit:
Current year total profit 2,32,000
Less: Interest on capital $\underline{42,000}$
Current year Net profit $\quad 1,92,000$

## Illus.15:

The following is the Balance Sheet of Anita, Sunita who share profits in the ratio of 3 :
2.

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Anita's capital | 10,000 | Debtors | 11,000 |
| Sunita's capital | 8,000 | Buildings | 8,000 |
| Creditors | 12,000 | Plant | 10,000 |
| General Reserve | 16,000 | Stock | 12,000 |
| Workmen's compensation | $\underline{4,000}$ | Cash | $\underline{9,000}$ |
| fund | $\underline{50,000}$ |  | $\underline{50,000}$ |

## C.D.E 16.33 Acharya Nagarjuna University

They agreed to admit Vinita on the following terms:
a. The value of buildings to be increased to Rs.18,000.
b. The value of stock to be increased to Rs.16,000.
c. The liability on workmen's compensation fund was determined at Rs.2,000.
d. Vinita contributes Rs. 10,000 in cash towards goodwill.
e. Vinita has to bring further cash as would make her capital equal to $20 \%$ of the combined capital of Anita and Sunita after all adjustments.
Show the necessary ledger accounts in the books of the frim and prepare new balance sheet after Vinita's admission

### 16.3 QUESTIONS:

1. What are the adjustments acquire in the books of the firm when a new partner is admitted?
2. Define goodwill? State the methods of valuation of goodwill.
3. Explain the accounting treatment of goodwill in partnership business?

### 16.4 EXERCISES

1. The Balance Sheet of $X$ and $Y$ as on $31^{\text {st }}$ December 2004 is set below. They share profits and losses in the ratio of 2:1.

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| X's Capital | 40,000 | Freehold property | 20,000 |
| Y's Capital | 30,000 | Furniture | 6,000 |
| General reserve | 24,000 | Stock | 12,000 |
| Creditors | 16,000 | Debtors | 60,000 |
|  |  | Cash | $\underline{12,000}$ |
|  | $\underline{1,10,000}$ |  | $1,10,000$ |

They agree to admit $Z$ into the firm subjected to the following terms and conditions:
(a) Z will bring in Rs.12,000 as capital and Rs. 9,000 as premium for goodwill for $1 / 4^{\text {th }}$ share.
(b) Depreciation is to be provided on furniture at $5 \%$.
(c) Stock is to be revalued at Rs. 10,500.

#### Abstract

Financial Accounting $16.36 \quad$ Admission of a Partner

Prepare ledger accounts and Balance Sheet of the new firm.
(Ans: Revaluation loss Rs.1,800; Capital accounts: X Rs.60,800; Y Rs.40,400; Z Rs.12,000; Balance Sheet Rs.1,29,200)
2. $A$ and $B$ are partners in a firm sharing profits and losses in the ratio of $3: 1$. The Balance Sheet of the firm as on 31-12-2005 was as follows:

Balance Sheet

|  | Rs. |  | Rs. | Rs. |
| :--- | ---: | :--- | ---: | ---: |
| Creditors | 9,000 | Cash |  | 5,000 |
| Workmen compensation fund | 6,000 | Bills receivable |  | 12,500 |
| General reserve | 10,500 | Debtors | 20,000 |  |
| Capital: A | 30,000 | Less provision | $\underline{2,500}$ | 17,500 |
| B | 24,500 | Stock |  | 20,000 |
|  | $\underline{20,000}$ |  |  |  |
|  | $\underline{25,000}$ |  |  |  |
|  | $\underline{80,000}$ |  |  |  |

On the above data C is admitted for $2 / 5$ share and the following adjustments are made:
(a) Accrued income not appearing in the books Rs. 500
(b) Market value of the investments is Rs. 22,500
(c) Claim on account of workmen compensation is estimated at Rs. 750 .
(d) X, an old customer who account was written off as bad, has promised to pay Rs. 350 in full settlement of his debt.
(e) C is required to bring Rs. 40,000 as capital and Rs. 10,000 as goodwill.

You are required to prepare Revaluation account, Partners Capital account and the Balance Sheet of the new firm.
(Ans: Revaluation loss Rs.2,000; Capital accounts: A Rs.47,813; B Rs.30,437; C Rs.40,000; Balance Sheet total Rs.1,28,000)
3. $A$ and $B$ are partners sharing profits in the ratio of $3: 2$. $C$ is admitted and the new profit sharing ratio is $2: 2: 1$. C brings in cash Rs. 8,000 for capital and Rs.2,000 for goodwill. The balance sheet of $A$ and $B$ is as follows:

| C.D.E | 16.37 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Capital Accounts: A | 8,000 | Goodwill | 2,500 |
| B | 8,000 | Other Assets | 17,500 |
| Reserve account | $\underline{4,000}$ |  | $-20,000$ |

Partners decide that goodwill accounts should appear in the new firm's books at Rs.6,000. Give journal entries and prepare Balance sheet of the new firm.

## (Ans: Capital accounts: A Rs.15,900; B Rs.9,600; C Rs.8,000; Balance Sheet total

 Rs.33,500)4. The following was the balance sheet of $A, B$ and $C$ who share profits and losses in the proportions of $6 / 14,5 / 14,3 / 14$ respectively.

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Creditors | 28,350 | Land and Buildings | 72,550 |
| Bills payable | 9,900 | Furniture | 11,500 |
| Reserve | 7,000 | Stock | 45,000 |
| Capitals: A | 60,000 | Debtors | 40,000 |
| B | 52,000 | Cash at bank | 13,200 |
| C | $\underline{25,000}$ |  | $\underline{1,82,250}$ |

They agreed to take D into partnership and give him $1 / 8$ share of profits on the following terms:
(a) That D brings in Rs.24,000 as his capital
(b) That furniture be written down by Rs.1,400 and stock be depreciated by Rs.2,800.
(c) That a reserve of Rs. 700 be made for outstanding repairs bills.
(d) That the value of Land and Buildings be appreciated by Rs.9,800
(e) That goodwill be created at Rs.16,800
(f) That the capitals A, B and C be adjusted on the basis of D's capital by opening the necessary current accounts.

Prepare Revaluation account, Capital and Current accounts and also the Balance Sheet of the new firm.
Financial Accounting $16.38 \quad$ Admission of a Partner
(Ans: Revaluation Profit Rs.4,900; Capital accounts: A Rs.72,000; B Rs.60,000; C Rs.36,000; D Rs.24,000; Current Accounts: A Rs. 300; B Rs.2,250; C Debit Balance Rs.4,850; Balance Sheet total Rs.2,33,500)
5. The Balance sheet of Ram and Shyam as on 31-12-2005 is given below who share profits and losses in the ratio of 2:1.

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Ram's Capital | 45,000 | Furniture | 20,000 |
| Shyam's Capital | 25,000 | Freehold property | 6,000 |
| General reserve | 24,000 | Stock | 12,000 |
| Creditors | 16,000 | Debtors | 60,000 |
|  |  | Cash | $\underline{12,000}$ |
|  | $\underline{1,10,000}$ |  | $\underline{1,10,000}$ |

They agreed to admit Karan into the firm subject to the following conditions:
(a) Karan will bring Rs. 21,000 of which Rs. 9,000 will be treated as his share of goodwill to be retained in the business.
(b) $50 \%$ of the general reserve is to remain as provision for doubtful debts.
(c) Depreciation is to be provided on furniture @ $0 \%$.
(d) Closing stock is to be valued at Rs. 10,500.
(e) Karan is entitled to one fifth share of the profits.

Give journal entries to give effect to these arrangements and prepare the Balance Sheet of the new firm.
(Ans: Revaluation loss Rs.1,800; Capital accounts: Ram Rs.57,800; Shyam Rs.31,400; Karan Rs.12,000; Balance Sheet total Rs.1,17,200)
6. The following is the balance sheet of Partnership firm of Surjit and Baljit on 31-12-2004. They share profits and losses as to 3:2

| C.D.E | 16.39 | Acharya Nagarjuna University |
| :--- | :--- | :--- |

|  | Rs. | Rs. |  | Rs. |
| :--- | ---: | ---: | :--- | ---: |
| Creditors |  | 31,000 | Cash in hand | 2,500 |
| Capital Accounts: |  |  | Debtors | 22,500 |
| Surjit | 17,500 |  | Stock | 10,250 |
| Baljit | $\underline{17,500}$ | 35,000 | Furniture | 750 |
|  |  |  | Machinery | 17,500 |
|  |  | $\underline{66,000}$ | Buildings | $\underline{12,500}$ |
|  |  | $\underline{66,000}$ |  |  |

They admit Mr.Prabujit into partnership on 1-1-2005, the terms being that he has to pay Rs.2,500 as his share of goodwill, the amount to be retained in the business and that he shall bring in cash Rs.7,500 as capital for a fourth share in the future profits. The new profit sharing ratio shall be 2:1:1.

For the purpose of Prabujit's admission, the following revaluation were made:
Buildings to be taken at Rs.15,000; Machinery and Furniture to be reduced by $10 \%$ and a Provision of $5 \%$ to be made for doubtful debts, Stock to be taken at Rs.12,500.

The excess of capital accounts of Surjit and Baljit over their due proportion of the sharing of profits in the new firm is to be transferred to their respective loan accounts.

Prepare necessary accounts and balance sheet of the new firm.
(Ans: Revaluation Profit Rs.1,800; Capital accounts: Surjit Rs.19,560; Baljit Rs.19,720; Prabujit Rs.7,500; Balance Sheet total Rs.77,800)
7. The following was the balance sheet of $A, B$ and $C$ who share profits and losses in the proportions of $6 / 14,5 / 14,3 / 14$ respectively.

| Liabilities | Rs. | Rs. | Assets | Rs. |
| :--- | ---: | ---: | :--- | ---: |
| Creditors |  | 18,900 | Land and Buildings | 50,400 |
| Bills payable |  | 6,300 | Furniture | 7,350 |
| Reserve | 7,000 | Stock | 29,400 |  |
| Capitals: A | 39,900 |  | Debtors | 26,460 |
| 20,000 as capital | 33,600 |  | Cash at bank | 8,890 |
| C | $\underline{16,800}$ | $\underline{90,300}$ |  | $\overline{1,22,500}$ |

Financial Accounting $16.40 \quad$ Admission of a Partner

They agreed to take $D$ into partnership and give him $1 / 8$ share of profits on the following terms:
a) That D brings in Rs. 16,000 as his capital
b) That furniture be written down by Rs. 920 and stock be depreciated by $10 \%$.
c) That provision of Rs. 1,320 be made for outstanding repairs bills.
d) That the value of Land and Buildings be written upto Rs. 65,100
e) That the value of goodwill be fixed at Rs. 8,820
f) That the capita
g) Is A, B and C be adjusted on the basis of D's capital by opening the necessary current accounts.

Show the accounts giving effect to these arrangements as also the Balance Sheet of the new firm.
(Ans: Revaluation Profit Rs.9,520; Capital accounts: A Rs.48,000; B Rs.40,000; C Rs.24,000; D Rs.16,000; Current Accounts: A Rs.2,760; B Rs.2,650; C Rs.1,770; Balance Sheet total Rs.1,59,930)
8. Srikanth and Sasikanth are equal partners and their Balance Sheet as on 31-3-2005 is as follows:

| Liabilities | Rs. | Rs. | Assets | Rs. |
| :--- | ---: | ---: | :--- | ---: |
| Sundry Creditors |  | 15,000 | Stock in trade | 10,500 |
| Bank overdraft |  | 4,500 | Sundry Debtors | 18,300 |
| Capital Accounts: |  |  | Furniture \& fittings | 750 |
| Srikanth | 6,300 |  | Cash in hand | 150 |
| Sasikanth | $\underline{4,800}$ | $\underline{11,100}$ | Investments | $\underline{900}$ |
|  |  | $\underline{30,600}$ |  | $\underline{30,600}$ |

Partners have agreed to admit Ramakanth into partnership. It is agreed (as between Srikanth and Sasikanth only) to make the following adjustments in the above balance sheet.
(a) To write off Bad debts of Rs. 4,500
(b) To bring down the value of Furniture \& Fittings to Rs. 300
(c) To depreciate the stock in trade by $15 \%$
(d) To write off investments by $25 \%$ and
(e) To create Goodwill for Rs.3,000
C.D.E $16.41 \quad$ Acharya Nagarjuna University

Ramakanth then introduces Rs.3,000 as his share of capital to which amount the capital amounts of other partners be adjusted. Write journal entries and prepare the opening balance sheet of the new firm after the admission of Ramakanth.
(Ans: Revaluation loss Rs.6,750; Capital accounts: Srikanth Rs.4,425; Sasikanth Rs.2,925; Ramakanth Rs.3,000; Balance Sheet total Rs.29,850)
9. The Balance Sheet of Usha and Uma on 31-12-2001 was as under:

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Creditors | 10,000 | Cash | 5,000 |
| Loan from SFC | 20,000 | Debtors | 10,000 |
| Capital: Usha | 30,000 | Stock | 20,000 |
| Uma | $\underline{25,000}$ | Plant | $\underline{50,000}$ |
|  | $\underline{85,000}$ |  | $\underline{85,000}$ |

On 1-1-2002 Rama was admitted on to partnership with the following terms and conditions:
(a) The new profit and loss sharing ratio among Usha, Uma and Rama would be 5:3:2.
(b) Rama bring Rs. 20,000 as capital to her $2 / 10^{\text {th }}$ share profits. She also brings Rs. 5,000 towards goodwill.
(c) Plant was revalued at Rs.55,000 and Stock at Rs.18,000.
(d) Usha and Uma should also maintain Capitals proportionate to their share on future profits after the all above adjustments.

Write the necessary Journal entries and show the balance sheet after admission.
(Ans: Revaluation Profit Rs.3,000; Capital accounts: Usha Rs.50,000; Uma Rs.30,000; Rama Rs.20,000; Balance Sheet total Rs.1,30,000)

Note: (Uma sacrifices her future profit sharing ratio. Hence the goodwill brought by the new partner belongs to Uma only)

## Chapter - 17

## PARTNERSHIP RETIREMENT, DEATH AND DISSOLUTION

Objectives:
This lesson explores about:

- Retirement of a partner
- Accounting treatment when the partner retires from the firm
- Death of a partner
- Accounting treatment when the partner deceased
- Dissolution of the partnership
- Accounting treatment when the firm dissolved

## Structure:

A. Retirement:
17.1. Introduction
17.2. Accounting procedure for retirement of a partner
17.2.1. Treatment of goodwill
17.2.2. Revaluation of assets and liabilities
17.2.3. Distribution of undistributed profits
17.2.4. Calculation of new profit sharing ratio and gaining ratio
17. 2.5 Payment to the retiring partner and its mode of payment
B. Death of a Partner:
17.3. Settlement of Executor's Ioan account
17.4. Calculation of share of profits
17.5. Payment of loan by installment
17.6 Joint life policy
Financial Accounting $17.2 \quad$ Partnership Retirement.....

## C. Dissolution of Partnership:

### 17.6. Introduction

17.7. Methods of dissolution
17.8. Settlement of accounts
17.9. Accounting treatment
17.10. Ledger accounts
17.11. Insolvency of partners
17.12. When all partners are insolvent
17.13. Questions
17.14. Exercises
17.15. Suggested Readings

## A. RETIREMENT

### 17.1 INTRODUCTION :

A partner may retire due to ill health or for some personal reasons. The remaining partners may continue the business. The retired partner will be paid the due amount immediately. If the firm doesn't have sufficient cash to pay the due amount, it should be transferred to his loan account. The loan amount receives interest at an agreed rate.

The retiring partner's claim amount includes his capital plus his share of goodwill in the firm plus his share in the accumulated profits of the firm, less drawings, less his share of accumulated loss, plus/minus his share in the profit or loss on the revaluation of assets and liabilities of the firm.

### 17.2 ACCOUNTING PROCEDURE FOR RETIREMENT OF A PARTNER :

The share of the retiring partner will be taken over by the continuing partners on his retirement. Hence, new profit sharing ratio of continuing partners should be calculated. The continuing partners may change their future profit sharing ratio. At the time of retirement focus should be lighted on the following points:

1. Treatment of goodwill
2. Revaluation of assets and liabilities
3. Distribution of undistributed profits
4. Calculation of new profit sharing ratio and gaining ratio

## C.D.E.

17.3

Acharya Nagarjuna University
5. Payment to the retiring partner and its mode of payment

### 17.2.1 Treatment of goodwill:

If the partner retires from the firm, he is entitled to get his share in the firm's goodwill. Hence at the time of retirement, every firm should value its goodwill. In this value the retiring partner's share of goodwill will be worked out. The accounting treatment depends on the appearance of goodwill in the books. There are two possibilities for this: a) When goodwill doesn't appear in the books and b) When goodwill appears in the books.

## a) When goodwill doesn't appear in the books:

i) When the goodwill is raised at its full value and goodwill account is also maintained

| Date | Particulars | L.F | Debit <br> Rs. | Credit <br> Rs. |  |
| :--- | :--- | ---: | ---: | ---: | ---: |
|  | Goodwill a/c <br> To All partners' capital a/cs <br> (Being full value of the goodwill raised) <br> (in old ratio) | Dr. |  | xxx | xxx |

ii) When full value of goodwill is raised and then written off:

| Date | Particulars | L.F | Debit <br> Rs. | Credit <br> Rs. |
| :--- | :--- | :--- | ---: | ---: | ---: |
| Goodwill a/c <br> To All partners' capital a/cs <br> (Being full value of the goodwill raised) <br> (in the old ratio) | Dr. |  | xxx | xxx |

iii) If goodwill appears at more than full value

| Date | Particulars | L.F | Debit <br> Rs. | Credit <br> Rs. |
| :--- | :--- | ---: | ---: | ---: |
|  | All partners' capital a/cs <br> To Goodwill a/c <br> (Being goodwill adjusted) <br> Note: Difference between book value and full <br> value |  | xxx | xxx |

Note: The process for the valuation of goodwill is followed as in admission

### 17.2.2 Revaluation of assets and liabilities:

The firm's assets and liabilities should be revalued on the date of retirement of a partner. To record the revaluation of assets and liabilities "Revaluation account" is to be opened. The process we follow as in the case of admission should be followed here also. The profit or loss on the revaluation is to be transferred to all partners.

### 17.2.3 Distribution of undistributed profits:

Undistributed profits if any should appear on the liabilities side of the given balance sheet. The total amounts of undistributed profits are credited to all partners' capital accounts according to old profit sharing ratio.

| Date | Particulars | L.F | Debit <br> Rs. | Credit <br> Rs. |  |
| :--- | :--- | :---: | ---: | ---: | ---: |
|  | Profit \& Loss a/c | Dr. |  | xxx |  |
| General Reserve a/c <br> To Old partners' capital a/cs | Dr. |  | xxx |  |  |

| Financial Accounting 17.6 | Partnership Retirement..... |  |  |  |
| :--- | :--- | :--- | :--- | :--- |
|  | (Being undistributed profits distributed) <br> (in old ratio) <br> Note: P \& L a/c, General Reserve a/c should <br> not appear in the new balance sheet |  |  |  |

Alternatively only the retiring partner's share may be transferred to his capital account if the others continue at the same profit sharing ratio.

| Date | Particulars | L.F | Debit <br> Rs. | Credit <br> Rs. |
| :--- | :--- | ---: | ---: | ---: |
|  | Profit \& Loss a/c <br> General Reserve a/c <br> To Retiring partner's capital a/c <br> (only retiring partner's share) <br> (Being undistributed profits distributed) <br> Note: The remaining balances of P \& L a/c <br> and General Reserve a/c should appear in the <br> new balance sheet | xxx | xxx |  |$\quad$|  |
| :--- |

Note: If accumulated losses are there, reverse the above process

### 17.2.4 Calculation of new profit sharing ratio and gaining ratio:

New profit sharing ratio is also calculated in the case of retirement or death of partners. Whenever the partner retires, the remaining partners gain some portion of the retiring partner's share. Hence, in the retirement gaining ratio is calculated. Gaining ratio is calculated only for the remaining partners.
Gaining ratio = New ratio - Old ratio
Illus.1:
A, B and C are sharing profits and losses in the ratio of 5:3:2. B retired from the firm. Find out the new ratio and the gaining ratio.
C.D.E.
17.7
Acharya Nagarjuna University

## Solution

New Ratio = A - $5 / 7 ; C-2 / 7$
Old Ratio $=A-5 / 10 ; C-2 / 10$
Gaining Ratio $A=\underline{5}-\underline{5}=\underline{15} ; C=\underline{2}-\underline{2}=\underline{6}$
$\begin{array}{llllll}7 & 10 & 70 & 7 & 10 & 70\end{array}$
Gaining Ratio of A and $\mathrm{C}=15: 6$ (or) $5: 2$

## Illus.2:

R, S and T are partners in a firm sharing profits and losses in the ratio of $2: 2: \mathbf{1 .}$ R retired from the firm and he sold his share for Rs.6,000. S and T purchased this for Rs.4,800 and Rs.1,200 respectively. Find out the new profit sharing ratio.

## Solution:

Share of $S$ and $T$ in the purchase of R's share - Rs.4,800; Rs.1,200 (or) $4: 1$
S's New profit sharing ratio $=\underline{2}+(\underline{2} \times \underline{4})=\underline{2}+\underline{8}=\underline{18}$

| 5 | 5 | 5 | 5 | 25 | 25 |
| :--- | :--- | :--- | :--- | :--- | :--- |

T's New profit sharing ratio $=\underline{1}+(\underline{2} \times \underline{1})=\underline{1}+\underline{2}=\underline{7}$
$\begin{array}{llllll}5 & 5 & 5 & 5 & 25 & 25\end{array}$
$S$ and $T$ 's new profit sharing ratio $=\underline{18}: \underline{7}$ (or) $18: 7$
$25 \quad 25$

### 17.2.5 Payment to the retiring partner and its mode of payment:

The retiring partner's due amount may be paid in any one of the following ways:

1. Immediate cash payment: If the cash is available the due amount to the retiring partner should be paid immediately.
2. Payment in installments: If sufficient cash is not available the retiring partner's due amount is transferred to his loan account. It is paid in installments as per agreement along with interest. Agreed interest rate is applicable on the outstanding balance. If the interest rate is not mentioned $6 \%$ p.a. is to be charged.
3. Annuity method: Under this method, the retiring partner gets fixed annual payment as long as he lives. This payment may be in lieu of his capital or in addition to it. This payment is
Financial Accounting $\quad 17.8 \quad$ Partnership Retirement.....
known as annuity. The amount due to the outgoing partner is transferred to the credit of annuity account.

Illus.3:
Ram and Shyam are partners sharing profits and losses equally. On 31-12-2002 their Balance Sheet was as under:

Balance Sheet

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| Sundry Creditors | 39,800 | Freehold premises | 26,800 |
| Ram's Capital | 45,000 | Machinery | 42,000 |
| Shyam's Capital | 36,000 | Stock | 12,000 |
|  |  | Sundry debtors | 38,000 |
|  |  | Bank balance | $\underline{2,800}$ |
|  | $\underline{1,20,800}$ |  | $1,20,800$ |

It is agreed that Ram will retire from 31-12-2002 and that Shyam will take over the business on the following terms:
a. Goodwill of the firm to be valued at Rs.11,000.
b. Stock to be taken at worth Rs. 10,000
c. A provision for doubtful debts to be created at $2 \%$.
d. Ram on his retirement is to be paid as follows:

1) Rs. $\mathbf{3 0 , 0 0 0}$ as loan taken by business at $\mathbf{1 0 \%}$ per annum interest
2) Balance by way of Bill payable for six months.

Show journal entries to record the above and also the Balance Sheet of Shyam after Ram's retirement.

Illus.4:
The Balance Sheet of X, Y, Z sharing profits in proportion to their capital was as follows as on 31 ${ }^{\text {st }}$ December 2002:

| Liabilities |  | Rs. | Assets | Rs. | Rs. |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Sundry Creditors |  | 27,600 | Cash in Bank |  | 22,000 |
| Capital accounts: |  | 30,000 | Sundry Debtors | 20,000 |  |
| X | 90,000 | 29,120 | Less: Reserve for bad | $\underline{400}$ | 19,600 |
| Y | 60,000 |  | debts |  | 32,000 |
| Z | $\underline{30,000}$ | $1,80,000$ | Stock |  | 34,000 |
|  |  |  | Machinery |  | $\underline{1,00,000}$ |
|  |  | $\underline{2,07,600}$ | Buildings |  | $\underline{2,07,600}$ |

$Y$ retires and the following adjustments of the assets and liabilities have been agreed upon before the ascertainment of the amount payable by the firm to $Y$.
a. Insurance charged to profit and loss account includes unexpired insurance Rs. 300
b. Provision for bad debts to be raised to $5 \%$.
c. Land and Buildings to be appreciated by $20 \%$.
d. A bill of repairs for Rs.5,300 is due as on 31 ${ }^{\text {st }}$ December 2002.
e. Goodwill of the firm is fixed at Rs. 43,200 and Y's share of the same to be adjusted into the accounts of $X$ and $Z$ who are going to share in future in the proportion of $3 / 4$ and $1 / 4$ respectively without raising a goodwill account.
f. The entire capital of the firm as newly constituted is fixed at Rs. $1,12,000$ between $X$ and $\mathbf{Z}$ in proportion of $3 / 4$ and $1 / 4$ either withdrawing or contribution in cash by the continuing partners as the case may be.
g. The amount due to Y is to be treated as his loan account.

Show the capital accounts of all partners and also prepare the Balance Sheet of $X$ and $Z$.

Illus.6:

Ramesh, Nagesh and Suresh were equal partners. Suresh retires on $31^{\text {st }}$ March, 2001. The Balance Sheet of the firm as on $1^{\text {st }}$ April, 2000 as follows:

| Liabilities |  | Rs. | Assets | Rs. | Rs. |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Creditors |  | 12,900 | Cash in hand |  | 1,000 |
| Investment |  |  | Cash at bank |  | 4,000 |
| Fluctuation |  | 1,200 | Debtors | 10,000 |  |
| fund |  | Less: Provision for B.D | $\underline{800}$ | 9,200 |  |
| Partner's | 30,000 |  | Stock |  | 10,000 |
| Capital: | 20,000 |  | Investment (cost) |  | 5,000 |
| $\quad$ Ramesh | $\underline{20,000}$ | 70,000 | Land \& Buildings |  | 36,000 |
| Nagesh |  | $\underline{84,100}$ | Goodwill |  | $\underline{18,900}$ |
| Suresh |  | $\underline{84,100}$ |  |  |  |
|  |  |  |  |  |  |

In order to arrive at the balance due to Mr.Suresh it was mutually agreed that,
a. Land and buildings to be valued at Rs.50,000
b. Investment fluctuation fund be brought to Rs. 500
c. Debtors being all good; no reserve is required.
d. Stock be taken at Rs.9,400
e. Goodwill be valued at one year's purchase of the average profits of the last five years.
f. Suresh's share of profit to the date of retirement be calculated on the basis of average profits of the proceeding three years. The profits for the last five years were as follows: 1996 - Rs.11,500; 1997 - Rs.14,000; 1998-Rs.9,000; 1999 - Rs.8,000; 2000 - Rs.10,000.
Prepare Revaluation a/c, Partner's Capital Accounts and Balance Sheet of the new firm.
Financial Accounting $17.18 \quad$ Partnership Retirement.....

## Solution:

Dr. Revaluation a/c Cr.

|  |  | Rs. |  | Rs. |
| :--- | ---: | ---: | :--- | ---: |
| To Stock a/c |  | 600 | By Land \& Buildings | 14,000 |
| To Ramesh's capital a/c | 4,967 |  | By Investment fluctuation fund | 700 |
| To Nagesh's capital a/c | 4,967 |  | By reserve for Bad debts | 800 |
| To Suresh's capital a/c | $\underline{4,966}$ | $\underline{14,900}$ |  | $\overline{15,500}$ |

## Calculation of Goodwill:

| Profits for 5 years | Rs. |
| :---: | ---: |
| 1996 | 11,500 |
| 1997 | 14,000 |
| 1998 | 9,000 |
| 1999 | 8,000 |
| 2000 | 10,000 |
| Total profits for 5 years | 52,500 |

Average Profit $=52,500 / 5=10,500$
Suresh's share of goodwill $=10,500 \times 1 / 3=3,500$
Ramesh's share of goodwill $=3,500 \times 1 / 2=1,750$
Nagesh's share of goodwill $=3,500 \times 1 / 2=1,750$

## Calculation of Suresh share of Profit upto 31-3-2001

| Average Profits for 3 the last years | Rs. |
| :---: | ---: |
| 2000 | 10,000 |
| 1999 | 8,000 |
| 1998 | 9,000 |
| Total profits for 3 years | 27,000 |

Average profit $=27,000 / 3=9,000$
For 12 months - Profit 9,000
For 3 months - ? $9,000 \times 3 / 12=2,250$
Profit earned by the firm during 3 months $=$ Rs.2,250
Suresh share in that profit $=2,250 \times 1 / 3=$ Rs. 750

## B. DEATH OF A PARTNER

The partnership may dissolve due to the death of a partner. The remaining partners may continue the business by purchasing the deceased partner's share. In case of death of a partner, books of accounts of the firm are maintained in the same way as in the case of retirement of a partner with one exception. In case of retirement, the retired partner's due amount should be paid immediately or transferred to his loan account. But in the case of death, the due amount of the deceased should be transferred to his executor's loan account.

### 17.3 SETTLEMENT OF EXECUTOR'S LOAN ACCOUNT :

The deceased capital account should be credited with the following items:
a. Capital balance available in his capital $\mathrm{a} / \mathrm{c}$
b. Share of his goodwill
c. Interest on his capital
d. Share of his Profit/Loss on the revaluation of assets and liabilities
e. His share of reserve fund
f. Share of profit upto the date of his death
g. Share in additional profit and
h. Share in joint life policy.

The amounts due by the deceased partner are debited to his capital account. They are:

1. Drawings
2. Interest on drawings
3. Loss on revaluation of assets and liabilities
4. Business laws
5. Laws on revaluation of goodwill

The net balance in the deceased capital account is transferred to the executor's loan account. The executors are paid the due amount according to the negotiations between the firm and the executors.

### 17.4 CALCULATION OF SHARE OF PROFITS :

Upto the date of death of partner, the firm should decide the current year's profits on the basis of the last years' profits. The deceased share of profit for the current year should be calculated on time basis and on turn-over basis.

### 17.5 PAYMENT OF LOAN BY INSTALLMENT :

The total amount due to the deceased partner is not paid in a lump-sum. The amount is paid in installments to the legal heirs of the deceased partner. This process helps the firm to avoid the withdrawal of big sum at a time. Withdrawals of big sum at a time sometimes lead to losses also. Interest on the outstanding amount is paid, till the account is cleared.

Illus.7:
A, B and C sharing profits and losses in the proportion of 5:3:2 respectively had the following position as on 31-12-1997.

| Liabilities | Rs. | Assets | Rs. | Rs. |
| :--- | ---: | :--- | ---: | ---: |
| Capitals: |  | Freehold premises |  | 6,000 |
| A | 12,000 | Plant |  | 2,950 |
| B | 9,000 | Furniture |  | 750 |
| C | 6,000 | Motor lorry |  | 850 |
| Creditors | 15,000 | Stock |  | 12,500 |
| Bills payable | 1,950 | Debtors | 19,500 |  |
|  |  | Less: RDD | $\underline{1,000}$ | 18,500 |
|  |  | Bills receivable |  | 1,150 |
|  | $\underline{43,950}$ |  |  | $\underline{1,250}$ |
|  | $\underline{y y y y}$ |  | $\underline{43,950}$ |  |

C dies on 1-4-98, In order to arrive at the amount payable to C's executors' following was agreed:
Financial Accounting $17.22 \quad$ Partnership Retirement.....

1. Value of goodwill to be arrive on basis of twice the average of last three years' profits. The profits were Rs.17,500;Rs.15,600 and Rs.17,000 for 1995,1996 and 1997 respectively.
2. C's share in profit upto date of his death was to be based on previous year's profit.
3. Interest on capitals to be allowed at $5 \%$ p.a.
4. The assets were to be valued as under :

Freehold premises Rs.7,000; Plant Rs.2,800; Furniture Rs.700; Motor Iorry Rs.800; stock at a discount of $10 \%$ and Reserve for doubtful debts to be increased by Rs. 500. Prepare C's capital a/c and show balance sheet of A and B.

## Solution :

$$
\begin{array}{lll}
\text { Dr. } & \text { Revaluation a/c } & \mathrm{Cr}
\end{array}
$$

|  | Rs. |  |  | Rs. |
| :--- | ---: | :--- | ---: | ---: |
| To Plant a/c | 150 | By Freehold premises |  | 1,000 |
| To Furniture a/c | 50 | By A's capital a/c | 500 |  |
| To Motor Lorry a/c | 50 | By B's capital a/c | 300 |  |
| To Stock a/c | 1,250 | By C's capital | $\underline{200}$ |  |
| To Reserve for Bad | $\underline{500}$ |  |  | $\underline{1,000}$ |
| debts | $\underline{\mathbf{2 , 0 0 0}}$ |  |  | $\underline{\mathbf{2 , 0 0 0}}$ |
|  |  |  |  |  |

## Calculation of Goodwill:

Average Profit for 3 years $=\underline{17,500+15,600+17,000}=\underline{50,100}=16,700$

Goodwill $=$ Average Profit X 2 years purchase

$$
=16,700 \times 2=33,400
$$

C's share of goodwill $=33,400 \times 2 / 10=6,680$

## Calculation of Profit upto 1-4-1998

(Based on previous year profit)
For 12 months - 17,000
For 3 months - ? $17,000 \times 3 / 12=4,250$
Estimated profit for 3 months $=4,250$
C's share of profit $=4,250 \times 2 / 10=850$
C.D.E.
17. 23

Acharya Nagarjuna University

## Calculation of Interest on Capital:

Opening capital of $\mathrm{C}=6,000$
On that Interest on 3 months $=6,000 \times \underline{5} \times \underline{3}=75$
$100 \quad 12$

Financial Accounting $17.24 \quad$ Partnership Retirement.....

### 17.6 JOINT LIFE POLICY RESERVE :

Firms usually takes life policy on the lives of its partners to insure against the risk of dislocation of the business due to the death of one of its partners. The problem arises as to payment of the balance due to the deceased partner to his widow or legal representative. If firm pays to legal representative of the deceased partner out of the sale proceeds of an asset or cash, which will again put the business in difficulty. Therefore, the firm takes life policies on the lives of the partners.
17.6.1 Types of Policies: Policies can be of two types:

1. Joint Life Policy: Joint Life policy is one life policy on the lives of all the partners. In this case, the amount of the policy is paid to the firm, if only one partner dies.
2. Separate Life Policies: These can be separate life policies on the lives of each partner. In this case, if any partner dies, the amount of the policy of that individual is paid in full.
17.6.2. Accounting Treatment of Joint Life Policy: The premium paid by the firm on such Joint Life Policy may be treated in accounts in any one of the following three ways.
3. When premium paid is treated as business expense and charged to Profit and Loss account.
4. When premium paid is treated as an asset which is shown in the Balance Sheet as its present value.
5. When premium paid is treated as an asset which is represented by a reserve called Joint Life Policy Reserve.

## Illus.8:

A and B who shared profits in the ratio of $3: 2$ took a joint life policy on May 1, 2002 for Rs.30,000. The annual premium was Rs.1,300. The surrender value of the policy was 2002 - Nil; 2003 - Rs.400; 2004 - Rs. 900 and 2005 - Rs.1,450. B died on September 15, 2005 and the amount of the policy was received on 31-12-2005. The books are closed on $31^{\text {st }}$ December each year.

Give journal entries assuming that -
a. When premium paid is written off to Profit and Loss a/c each year.
b. When premium is treated as an asset.
c. When premium is treated as an asset and reserve is maintained.

## Solution:

1. When premium paid is written off to Profit and Loss a/c each year.

| Date | Particulars | L.F. | Debit Rs. | Credit Rs. |

## C. DISSOLUTION OF PARTNERSHIP

### 17.7 INTRODUCTION :

The discontinuation of partnership firm is known as dissolution. According to 1932 Partnership Act, the dissolution may be either for partnership or a firm.
17.7.1. Dissolution of partnership: If the relationship between the partners changes, the firm may continue its business under the same name, if the partners so decide. The partnership may be deemed to dissolve in anyone of the following situations:

1. Expiry of the period of partnership
2. Completion of the venture
3. Admission of a partner
4. Retirement of a partner
5. Death of a partner
6. Insolvency of a partner

In all the above mentioned causes, the old partnership comes to an end but the business may be carried in the same name. If the profit sharing ratio of the existing partners change, the old partnership is dissolved and a new one comes into existence.

### 17.7.2. Dissolution of a firm:

If the firm is completely closed, then the dissolution of a firm may happen. All the assets of the firm are disposed off and all the liabilities are discharged. Therefore, the dissolution of the firm, the partnership is automatically dissolved.
Financial Accounting $17.30 \quad$ Partnership Retirement.....

In addition to the dissolution of a partnership, there is also the dissolution of the firm under the following situations:

1. When all the partners agree that the firm be dissolved
2. When all the partners except one are insolvent
3. When the business becomes insolvent
4. When anyone of the partner gives notice of dissolution
5. When the court gives the order for dissolution

### 17.8. METHODS OF DISSOLUTION :

17.8.1. Dissolution by agreement: A partnership can be dissolved with the consent of all partners.
17.8.2. Compulsory dissolution: The firm may be dissolved under the following situations:
a. When all the partners except one become insolvent
b. When the carried business is unlawful.
c. When the business of the firm is opposed to public policy.
d. When the firm's business becomes illegal due to same legal provision.
17.8.3. Contingent dissolution: In the absence of agreement, if the firm dissolve it may be called as contingent dissolution.
a. On the death of a partner
b. If the firm is for a fixed period, it is automatically dissolved on the expiry of that period.
c. If the partner resigns from the firm
d. When the firm is established for a particular work, after the completion of that work the firm is automatically dissolved
17.8.4. Dissolution by notice: The firm can be dissolved at any time when a partner gives a written notice to all the partners of the firm. The firm will be dissolved from the date mentioned in the notice. If the date is not mentioned in the notice, it will be dissolved from the date of receipt of notice. The served dissolution notice cannot be withdrawn without the consent of all the partners.

## C.D.E. 17.31 Acharya Nagarjuna University

17.8.5. Dissolution through Court: Court may dissolve the partnership firm on any of the following grounds:
a. When the partner has become insane
b. When a partner, other than the partner filing a suit, has become permanently incapable of performing his duties as a partner.
c. When a partner, other than the partner who has filed the suit is guilty of misconduct, which may affect the carrying of the business. For example, if he is jailed for moral misconduct
d. When a partner, other than the partner filing a suit, willfully and persistently commits breach of agreement relating to the management of the affairs of the firm.
e. When a partner transfers all his share to a third party, then the other partners can move to the court of law for the dissolution of the firm.
f. When the firm is showing continuous losses for the last few years.
g. If there is a permanent dispute among the partners, the firm has to be dissolved as the partnership is based on mutual faith.

### 17.9 SETTLEMENT OF ACCOUNTS :

The partnership business comes to an end at the dissolution of partnership. In case of dissolution all the assets of the firm are realised and all the liabilities of the business are paid. If the liabilities of the business are more than the assets, the deficit will be contributed from the partners' private sources.

### 17.10 ACCOUNTING TREATMENT :

On dissolution of a firm, all assets are to be realised and the liabilities are to be paid off. A "Realisation Account" is opened for this purpose. The realisation account should have the following process.
17.10.1 Transfer of assets to realisation account: Except cash and bank accounts, all assets appear on the assets side of the balance sheet, should be transferred to the debit side of the realisation account. On the assets side of the balance sheet the accumulated losses are also available. These balances should not be transferred to realisation account. The book values of the assets are to be transferred to the realisation account.

### 17.10.6 Closing of the Realisation account:

The realisation profit or loss will be shown by closing the realisation account. If the debit side is more than the credit side, the difference is loss and vice-versa the difference is profit. The profit or loss in the realisation account will be transferred to partners' capital account in their profit sharing ratio.

### 17.11. LEDGER ACCOUNTS :

At the time of preparing ledger accounts prepare realisation, outsiders' liabilities, current , capital and cash/bank accounts.

The balance in the realisation account should be transferred to the partners' capital accounts. The balance in the outsiders' liabilities should be transferred to the bank account. The current account balances will be transferred to capital accounts. The capital account balances will be transferred to the bank account. Finally the bank account automatically gets closed.

Illus.1:
The following was the balance sheet of $A, B$ and $C$ on $31^{\text {st }}$ March, 2000
Financial Accounting 17.38 Partnership Retirement.....

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Sundry Creditors | 30,000 | Cash | 2,500 |
| Loan on Mortgage of |  | Debtors | 30,000 |
| Freehold property | 4,000 | Stock in Trade | 23,100 |
| A's Capital | 25,000 | Furniture | 5,000 |
| B's Capital | 15,000 | Freehold property | 10,000 |
| A's Current Account | 1,000 | B's $\quad$ Current | 4,900 |
| B's Current Account | $\underline{500}$ | Account | $\underline{75,500}$ |

They shared profits and losses in the proportion of 6: 4: 6. It was decided to dissolve the partnership on the date of the Balance Sheet. The assets realised are as under:

|  | Rs. |
| :--- | ---: |
| Freehold property | 5,000 |
| Furniture | 1,000 |
| Stock in Trade | 10,000 |
| Debtors | 10,000 |

The expenses of realisation amounted to Rs.2,000. The Sundry Creditors agreed to take 75 paise in the rupee in full satisfaction.
It was ascertained that $B$ had incurred a heavy loss in speculation business he was carrying on, on his own and he had become insolvent. A dividend of 50 P . in the rupee was received from the Court Receiver.

Write up the realisation account, capital and current accounts of the partners and the cash account.

### 17.12 INSOLVENCY OF PARTNERS:

If at the time of dissolution, a partner owes a sum of money to the firm, he has to pay is to the firm. But if he is insolvent, he will not be able to do so, at least not fully. The sum which is irrecoverable from an insolvent partner is, therefore a loss. The question arises whether this loss is like the ordinary loss to be shared by the solvent partners in the profit sharing ratio or whether it is

## C.D.E.

17.41

Acharya Nagarjuna University
an extraordinary loss. Before the decision in Garner Vs. Murray was made, such a loss was treated as an ordinary loss.
17.12.1. Garner Vs. Murray Case: In the famous historic Garner Vs. Murray case the issue of settlement of partners' claims was resolved in a situation wherein the partners maintain their capital accounts under Fluctuating Capital Method and an insolvent partner was unable to make good the loss in his capital accounts.
17.12.2. Details of this case are: Garner, Murray and Wilkens were in a partnership under an agreement that capital was to be contributed by them in unequal shares whereas profit was to be divided equally. On the dissolution of the partnership, after payment of creditors and of advances made by two of the partners, there was a deficiency of assets to the extent of $£ 635$. In addition to that Wilken's Capital account was overdrawn by $£ 263$, which he was unable to pay.

There was thus total deficiency of $£ 898$. It was claimed that this deficiency of $£ 898$ was to be borne by Garner and Murray in profit sharing ratio, i.e., 1:1. Mr. Justice Joyee gave the historic verdict that each of the three partners was liable to make good his share of realisation loss of $£ 635$ and thereafter the available assets should be applied rateably in repaying each partner what was due to him on account of capital. Since one of the assets, i.e., debit balance of Wilken's Capital Account, was value less, the remaining assets would be applied in paying Garner and Murray, rateably what was due to them in respect of capital with the result that Wilken's deficiency was born by them in proportion of capital.
17.12.3. Consequences of Garner Vs. Murray Case: If a partner's capital account shows a debit balance on the dissolution of the firm, he is to pay the debit balance to the firm, then his deficiency which he is not able to bring will be borne by the other solvent partners in accordance with the decision in Garner Vs. Murray.

In this case it was ruled that in absence of any agreement to the contrary, the deficiency on the insolvent partner's capital account must be borne by other solvent partners in proportion to their capitals which stood before the dissolution of the firm. The effect of his ruling is to make a distinction between an ordinary loss due to trading or realisation of assets and loss on account of insolvency of a partner. The loss on account of the insolvency of a partner is a capital loss and as such should be borne by other solvent partners in proportion to their capitals.
Financial Accounting 17.42 Partnership Retirement.....

Second clause in the ruling is that the solvent partners should bring in cash equal to their share of loss on realisation. This ruling has been given to bring the capital accounts of the solvent partners to the figures they stood before transferring the loss on realisation. Therefore, the implications of the above case are two.

1. Solvent partners to bring cash equal to their respective share of loss on realisation. However, in practice, only entries are made and no cash is brought actually; notional adjustment is sufficient.
2. Deficiency on the capital account of the insolvent partners to be shard by solvent partners in their capital ratio.

The practical effect of this is that the loss due to the insolvency of a partner has to be borne by the solvent partners in the ratio of their capitals standing just prior to dissolution.
17.12.4. Fixed and Fluctuating Capitals: The partners are free to have their fixed or fluctuating capitals in the firm. If they are maintaining capitals at fixed amounts then all adjustments regarding their share profits, interest on capitals, drawings, interest on drawings, salary etc., are done through current accounts, which may have debit or credit balances and insolvency loss is distributed in the ratio of fixed capitals.

But if capitals are not fixed and all transactions relating to drawings, profits, interest etc., are passed through capital accounts, then the Balance Sheet of the business shall not exhibit Current Accounts of the Partners and capitals ratio will be determined after adjusting all the reserves and accumulated profits, all drawings, all interest on capitals and drawings to the date of dissolution but before adjusting profit and loss on Realisation Account.

Thus in case of insolvency of a partner, the following procedure is to be followed.
a. First prepare a Realisation a/c and transfer its profit or loss to the capital accounts of all the partners in the profit sharing ratio.
b. If anything is received from the estate of the insolvent partner, it should be credited to his capital account.
c. The balance (debit) in the capital account of the insolvent partner should be transferred to the capital accounts of solvent partner in the ratio of capitals as they stand just before dissolution for in the ratio of fixed capitals, if capitals are fixed.
d. The solvent partners will then draw out cash according to their claims.

## Illus.2:

$M, N$ and $O$ sharing profits in $1 / 2,1 / 3$ and $1 / 6$ respectively decided to dissolve the firm from 1-1-2001 when their Balance Sheet was as follows:

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Creditors | 40,000 | Land and buildings | 57,000 |
| Bills payable | 7,000 | Stock | 50,000 |
| M's Loan | 10,000 | Sundry Debtors | 50,000 |
| M's Capital | 90,000 | Bank | 3,000 |
| N's Capital | 10,000 | N's Current Account O's | 2,000 |
| O's Capital | 10,000 | Current Account | 5,000 |
| M's Current Account | 1,500 | P \& L a/c | 1,500 |
|  | $\underline{1,68,500}$ |  | $1,68,500$ |

Land and Buildings were sold for Rs.40,000 and stock and debtors realised Rs.30,000 and Rs 42,000 respectively. Goodwill was sold for Rs. 600 .The expenses of realisation came to Rs.1,200 . $\mathbf{Z}$ is insolvent and dividend of 50 paise in the rupee is received from his estate.

Pass journal entries to close the books of the firm applying the ruling in Garner Vs. Murray.

### 17.13 . WHEN ALL PARTNERS ARE INSOLVENT :

When the partners are insolvent and are not able to bring the amount due from them then the creditors of the firm cannot be paid in full. In such case, the creditors of the firm will be paid all
the cash available, together with whatever can be received from the private properties of the partners, after the expenses of realisation are made. The capital accounts will be closed according to Garner Vs. Murray's rule.

Alternatively, creditors will not be transferred to realisation account but their separate accounts may be prepared. If this is done, unpaid amount of creditors is transferred to the deficiency account or unpaid account to which account are also transferred the balances of partners capital accounts. The deficiency account shall be automatically closed and the books of a firm should also be closed.

## Illus.6:

The following is the balance sheet of $\mathrm{M}, \mathrm{N}$ and O as on 31-12-2003:

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Sundry creditors | 80,000 | Cash | 2,000 |
| M's loan | 20,000 | Stock | 48,000 |
| Capitals: |  | Debtors | 40,000 |
| M | 10,000 | Furniture | 6,000 |
| N | $\underline{6,000}$ | O's Capital (Dr.) | $\underline{20,000}$ |
|  | $\underline{1,16,000}$ |  | $\underline{1,16,000}$ |

Due to inability to pay creditors the firm was dissolved. N and O cannot pay anything. M can contribute only Rs. 3,000 from his private estate. Stock realised Rs.30,000, debtors realise Rs.32,000 and furniture was sold for Rs.2,000. Realisation expenses amounted to Rs.6,000. Prepare necessary accounts to close the books of the firm.

### 17.14. QUESTIONS :

1. Discuss the different modes, in which goodwill is treated in the books of accounts in case of retirement of a partner.
2. How will you calculate the amount payable to retiring partner?
3. Mention the different ways in which the amount due to the retiring partner is paid to him.
4. Explain in detail the adjustment of accounts on the death of a partner
5. Generally partners' undertake joint life policy. Explain why?
6. Explain the dissolution of partnership and partnership firm.
7. What is insolvency? Explain Garner Vs. Murray case.
8. Bring out the salient features of the decision of Garner Vs. Murray case

### 17.15 EXERCISES:

## Retirement and Death:

1. Ram, Laxman and Bharat are partners in a firm sharing profits equally. Their Balance sheet stood as follows on 1-1-2004.

Balance sheet as on 1-1-2004

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Sundry Creditors | 10,000 | Land \& Buildings | 60,000 |
| Bills payable | 20,000 | Plant \& Machinery | 40,000 |
| Reserve fund | 30,000 | Stock | 30,000 |
| Capital: Ram | 40,000 | Debtors | 20,000 |
| Laxman | 50,000 | Cash | 10,000 |
| Bharat | $\underline{60,000}$ | Bank balance | $\underline{50,000}$ |
|  | $\underline{2,10,000}$ |  | $\underline{2,10,000}$ |

Ram contemplate to retire. Partners agree for the following:

Draw up profit and loss adjustment account, capital accounts of the partners and opening balance sheet of the continuing partners.
(Ans: Revaluation Profit Rs.5,500; Capital Accounts X Rs.73,833; Z Rs.55,834; Y Loan a/c Rs.97,833; Balance Sheet total Rs.2,43,500)
6. A, B and C have been partners in a firm. On 31-12-2004 their Balance Sheet was as follows:

| Liabilities | Rs. | Assets |  | Rs. |
| :--- | ---: | :--- | ---: | ---: |
| Creditors | 8,000 | Bank balance |  | 5,000 |
| Reserve fund | 6,000 | Plant \& Machinery |  | 20,000 |
| Capitals: |  | Furniture |  | 4,000 |
| A | 15,000 | Debtors | 25,000 |  |
| B | 15,000 | Less: Reserve for bad debts | $\underline{2,000}$ | 23,000 |
| C | 15,000 | Goodwill |  | 6,000 |
|  | $\underline{59,000}$ | Patents |  | $\underline{1,000}$ |
|  | $\underline{59,000}$ |  |  |  |

A retired on the above date and the following adjustments were agreed upon:
(a) The reserve for bad debts was to be reduced to Rs.500.
(b) Patents were worthless
(c) Value of furniture should be increased to Rs.5,000
(d) Goodwill should be written off from the books
(e) Necessary cash should be brought in by B and C to pay off ' $A$ '.

Show necessary accounts and the new Balance Sheet.
(Ans: Revaluation loss Rs.4,500; Capital Accounts B Rs.23,250; C Rs.23,250; Payment to A Rs.15,500; Balance Sheet total Rs.54,500)
7. A, B and C were partners sharing profits in proportions of $1 / 2,1 / 3$ and $1 / 6$ respectively. The balance sheet of the firm on $31^{\text {st }}$ December 2005 was as follows:

| Liabilities | Rs. | Rs. | Assets | Rs. | Rs. |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Sundry Creditors |  | 19,000 | Cash at bank |  | 2,500 |
| Bills payable |  | 5,000 | Debtors | 16,000 |  |
| Reserve fund |  | 12,000 | Less: Reserve | $\boxed{500}$ | 15,500 |
| Capital: | 40,000 |  | Stock |  | 25,000 |
| A | 30,000 |  | Motor can | 8,000 |  |
| B | $\underline{25,000}$ | 95,000 | Plant \& Machinery |  | 35,000 |
| C |  | $\underline{1,31,000}$ | Buildings |  | $\underline{45,000}$ |
|  |  | $\underline{1,31,000}$ |  |  |  |

$B$ retires on that date subject to the following adjustments:
(a) The goodwill of the firm to be valued at Rs.18,000
(b) Plant to be depreciated by $10 \%$ and motor van by $15 \%$.
(c) Stock to be appreciated by $20 \%$ and buildings by $10 \%$
(d) The reserve for doubtful debts to be increased to Rs.1,950.

Show the necessary accounts in the books of firm and the balance sheet after B's retirement.
(Ans: Revaluation Profit Rs.2,850; Capital Accounts A Rs.55,600; C Rs.30,200; B Ioan a/c Rs.40,400; Balance Sheet total Rs.1,51,850)
8. $P, Q$ and $R$ are partners sharing profits and losses in the ratio of 5:3:2. Their Balance sheet as on 31-12-2004 is as follows:

| Liabilities | Rs. | Assets | Rs. |
| :--- | :--- | :--- | :---: |
| P | 50,000 | Machinery | 80,000 |
| R | 30,000 | Stock | 24,000 |
|  | 20,000 | Debtors | 16,600 |

Financial Accounting $\quad 17.58 \quad$ Partnership Retirement.....

| Reserve | 8,000 | Cash | 9,800 |
| :--- | ---: | :--- | ---: |
| P \& L a/c | 10,000 | Prepaid insurance | 200 |
| Creditors | $\underline{12,600}$ |  |  |
|  | $\underline{1,30,600}$ |  | $\underline{1,30,600}$ |

On 1-4-2005 Q retired. His share of goodwill is valued on that date at Rs. 8,000 and share of $Q$ in profits to the date of retirement is Rs.2,000.
It was decided to revalue Machinery at Rs.76,000 and stock Rs.22,000, write off bad debts Rs. 600 and create provision for doubtful debts at $5 \%$. Partners decided to take retiring partner's share equally. Goodwill is to be written off. Partners bring cash required for payment to $Q$ equally. Show necessary ledger accounts and treatment of goodwill in the books of partners.
(Ans: Revaluation loss Rs.7,400; Capital Accounts P Rs.72,890; R Rs.39,710; Payment to Q Rs.43,180; Balance Sheet total Rs.1,25,200)

Note: Assumed for Q's payment cash was brought equally by P \& R.

## Dissolution:

9. $X, Y$ and $Z$ are partners sharing profits and losses in the proportion of 5:3:2. They decide to dissolve the partnership from 1-1-1999 when the Balance Sheet is as noted below:

| Liabilities |  | Rs. | Assets | Rs. |
| :--- | ---: | ---: | :--- | ---: |
| Sundry |  | $1,82,000$ | Cash at Bank | 18,000 |
| Creditors |  |  | Sundry Debtors | $1,52,000$ |
| Capital | $3,30,000$ |  | Stock-in-trade | 60,000 |
| Accounts | $\underline{1,30,000}$ |  | Fixtures and fittings | 10,000 |
| X | 60,000 | Plant \& Machinery | $2,90,000$ |  |
| Y |  |  | Land \& Buildings | 80,000 |
|  |  | $\underline{6,42,000}$ |  | $\underline{\underline{32,000}}$ |
|  |  |  | $\underline{6,42,000}$ |  |

The assets realise Land and Buildings Rs.1,00,000, Plant and Machinery Rs.2,50,000, Sundry Debtors Rs.1,21,000, Stock Rs.47,000, Fixtures and fittings Rs.9,200, Expenses of Dissolution Rs.3,600

Close the books of the firm
(Ans: Realisation loss Rs.68,400; Capital Accounts X Rs.2,95,800; Y Rs.1,09,480; Z (Dr.) Rs.45,680; Cash a/c total Rs.5,90,880)
10. A, B and C sharing profits in the ratio of 3:2:1 agreed upon the dissolution of the firm. A was appointed to realise the assets and pay off the liabilities for which he was entitled to a remuneration of Rs. 1,000 . The Balance Sheet of the firm on $31-3-2005$ which is the date of dissolution is as follows:

Balance Sheet

|  | Rs. |  |  | Rs. |
| :--- | ---: | :--- | ---: | ---: |
| Capitals: |  | Machinery |  | 40,500 |
| A | 50,000 | Stock |  | 7,500 |
| B | 20,000 | Investments |  | 20,000 |
| Creditors | 18,500 | Debtors | 9,300 |  |
| General Reserve | 6,00 | Less: Provision | $\underline{600}$ | 8,700 |
|  |  | C's Capital |  | 11,500 |
|  | $\underline{94,500}$ |  |  | $\underline{6,300}$ |
|  | $\underline{94,500}$ |  |  |  |

The Investments are taken over by A for Rs.18,000. B takes over the stock and debtors for Rs.13,650. Machinery is sold for Rs.55,000.

Prepare Ledger accounts to close the Books of the firm.
(Ans: Realisation Profit Rs.8,950; Capital Accounts A Rs.40,475; B Rs.11,333; C (Dr.) Rs.9,008; Cash a/c total Rs.70,308)
11. The position of a firm on 31-12-2004 was as under:

| Liabilities |  | Rs. | Assets |  | Rs. |
| :--- | :--- | :--- | :--- | :--- | :--- |

Financial Accounting $17.60 \quad$ Partnership Retirement.....

| Reserve |  | 5,000 | Bank |  | 5,000 |
| :--- | ---: | ---: | :--- | ---: | ---: |
| Creditors |  | 10,000 | Debtors | 10,000 |  |
| Bills payable |  | 5,000 | Less: Reserve | $\underline{1,000}$ | 9,000 |
| Capitals: A | 10,000 |  | Stock |  | 17,000 |
| B | $\underline{5,000}$ | $\underline{15,000}$ | Furniture |  | $\underline{4,000}$ |
|  |  | $\underline{35,000}$ |  |  | $\underline{35,000}$ |

On the above date the partners decided to dissolve. The Assets realised Rs.25,000 and creditors were paid Rs.9,000 in full settlement. Expenses of realisation came to Rs.1,000. Prepare realisation account.
(Ans: Realisation loss Rs.5,000)
12. The partnership of $P, Q, R$ who are sharing profits and losses in the proportion of $4 / 9,2 / 9$ and $1 / 3$ is dissolved on 31-3-2004. Their Balance Sheet on 1-3-2004 was as follows:

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Sundry Creditors | 4,500 | Cash at Bank | 3,750 |
| Bills payable | 2,050 | Bills receivable | 2,800 |
| P's loan | 2,000 | Investments | 12,000 |
| Capitals: P | 34,000 | Debtors | 15,500 |
| Q | 23,000 | Stock | 9,700 |
| R | 1,500 | Furniture | 1,850 |
| Reserve fund | 6,300 | Buildings | 30,000 |
| Profit \& Loss a/c | $\underline{2,250}$ |  | $\underline{75,600}$ |

Assets realised - Investments 15\% less; Bill receivable and debtors Rs.14,100; Stock 25\% less; Furniture Rs.1,025, Buildings Rs.17,500.

The cost of realisation was Rs.300. R becomes insolvent and he pays only Rs. 512 to the firm. Prepare necessary accounts to close the books.
(Ans: Realisation loss Rs.22,050; When fixed capitals are maintained bank account total Rs.69,062; When fluctuating capital accounts are maintained bank account total Rs.69,062*; Capital accounts balances under fixed capital system: P Rs.36,316; Q Rs.23,896; R Rs.2,488; Capital account balances under fluctuating capital system: $\mathbf{P}$ Rs.36,300; Q Rs.23,912; R Rs.2,488)
13. Sravan and Pavan were in partnership. Their Balance Sheet as on $31^{\text {st }}$ December., 2001 showed the following state of affairs:

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Creditors | 5,000 | Cash | 1,500 |
| Sravan - Capital A/c | 3,500 | Debtors | 4,700 |
| Current A/c | 300 | Stock | 2,300 |
| Pavan - Capital A/c | 2,750 | Furniture | 50 |
|  |  | Pavan - Current A/c | 1,000 |
|  |  | Property | $\underline{2,000}$ |
|  | $\underline{11,550}$ |  | $\underline{11,550}$ |

The partners shared profits and losses in the ratio of $9: 7$. It was decided to dissolve the partnership as on the date of the balance sheet. Property realised Rs.1,500. Bad debts and discounts amounted to Rs.500. Stock realised Rs.2,500. Furniture was taken over by Pavan at mutually agreed price of Rs.25. Creditors allowed a discount of Rs. 105.
Give the journal entries and show cash account and partners' capital accounts.
(Ans: Capital Accounts: Sravan Rs.3,395; Pavan Rs.1,450; Cash a/c total Rs.9,700)
14. The following is the balance sheet of $X, Y$ and $Z$ as on 31-12-2003:

| Liabilities | Rs. | Assets | Rs. |
| :--- | ---: | :--- | ---: |
| Sundry Creditors | 80,000 | Cash | 2,000 |
| X's loan | 20,000 | Stock | 48,000 |
| Capitals: |  | Debtors | 40,000 |
| X | 10,000 | Furniture | 6,000 |

| Financial Accounting | $\mathbf{1 7 . 6 2}$ |  | Partnership Retirement..... |  |
| :---: | ---: | ---: | ---: | :---: |
| Y | $\frac{6,000}{20,000}$ |  |  |  |
|  | $\underline{1,16,000}$ |  | $\underline{1,16,000}$ |  |

Due to inability to pay creditors the firm was dissolved. $Y$ and $Z$ cannot pay anything. $X$ can contribute only Rs.3,000 from his private estate. Stock realised Rs.30,000, debtors realise Rs.32,000 and furniture was sold for Rs.2,000. Realisation expenses amounted to Rs.6,000. Prepare necessary accounts to close the books of the firm.
(Ans: Realisation loss Rs.36,000; Cash a/c total Rs.69,000; Deficiency a/c total Rs.38,000)
15. The following is the balance sheet of M and N as on $31^{\text {st }}$ December, 2001.

| Liabilities | Rs. | Rs. | Assets | Rs. |
| :---: | :---: | :---: | :--- | :---: |
| Sundry Creditors |  | 16,000 | Cash at bank | 1,000 |
| Capital Account: |  |  | Sundry assets | 95,000 |
| M | 40,000 |  |  |  |
| N | $\underline{40,000}$ | $\underline{80,000}$ |  | $\underline{96,000}$ |

On this date they agreed to sell their business to XY Co. Ltd. The company took over all the assets except cash at bank for Rs.1,00,000. The purchase price was paid but issue of 7,000 shares of Rs. 10 each at a premium of Rs. 2 per share fully paid up and the balance in cash. Creditors were paid by the firm Rs. 15,000 in settlement of their claims. Prepare realisation account in the books of M and N and pass necessary journal entries in the books of XY Co. Ltd.
(Ans: Realisation Profit Rs.15,000; Balance Sheet Total Rs.95,000)

| :--- | :--- |

### 18.1. INTRODUCTION

### 18.1.1. Meaning of a company:

A joint stock company is an artificial person, created by law. It has a fixed capital. Capital is divided into transferable shares. It has perpetual succession and common seal. The company has a separate legal entity. It must be compulsorily registered. The capital of a company is divided into small units called shares. Any one who holds or buys share in a company is called shareholder.

### 18.2. DEFINITION OF A COMPANY

According to Section 3(1)(i) of Indian Companies Act,1956 ,"Company means a company formed and registered under the Companies Act or an existing company formed and registered under any previous, Indian Companies Act".

### 18.3. CHARACTERISTICS OR FEATURES OF A COMPANY

a. Incorporation: A company comes into existence only after registration under the Companies Act.
b. Artificial legal person: A company is a corporate body. It is an artificial body created by law.
c. Distant legal entity: A company is regarded as a separate entity from its members.
d. Common seal: A company is not a natural person. It cannot sign documents. So the common seal is used as a substitute for signature.
e. Perpetuity: A company has perpetual or continuous existence.
f. Limited liability: The liability of a shareholder is limited. If a shareholder pays the face value of the shares in full to the company, he need not pay even a single paisa.
g. Number of members: In a public limited company, the minimum number of members is seven and there is no limit to maximum number. In case of Private limited company, minimum is two and maximum is fifty.
h. Separation of ownership and management: A company is owned by the shareholders. It is managed by a separate body called 'Board of Directors'.
i. Rigidity of objects: The scope of the business of a company cannot be charged. It cannot do any business which is not included in the 'Objects Clause' of its Memorandum of Association.
j. Transferability of shares: Shares can be easily transferred from one person to another. A shareholder can sell hi shares easily and quickly whenever he wants money.
k. Financial Resources: A company can secure large capital compared to sole trader or partnership.
I. Statutory regulations: A company is governed by the Companies Act. It has to follow the various provisions of the Act.

### 18.4. VARIOUS KINDS OF COMPANIES

There are three main classes of Joint Stock Companies.

1. Chartered Companies: These are the companies formed by the grant of a Royal Charter. They are prevalent in England. This kind of companies are not there in India. Ex. British East India Company.
2. Statutory Companies: These are the companies formed by the enactment of special Act of Parliament or State Assembly. The Reserve Bank of India, the State Bank of India, Life Insurance Corporation of India etc., are the examples of Statutory companies.
3. Registered Companies: These are the companies formed and registered under the Companies Act, 1956. This is the common way of forming companies. Ex. Tata Iron and Steel Co., HMT Ltd. etc.
The registered companies are further classified into four groups:
a) Companies limited by shares: In these companies the liability of the members is limited to the extent of the value of shares held by them.
b) Companies limited by Guarantee: In these companies the members liability is not only upto the face value of the shares but also extended to the amount guaranteed by them.
c) Unlimited companies: In these companies the liability of the members is unlimited. The members are fully liable for all the debts of the company.
d) Government Companies: In these companies the government share is more than 51\%. Further a registered company may be a Private Limited Company or a Public Limited Company.

## Financial Accounting <br> 18.4 <br> Issue of Shares

### 18.5 THE SHARE

The capital of a company is divided into units of small denominations. Each such unit into which the capital of the company is divided, is called a share. For Eg: in one company the total capital of Rs. 10,00,000 is divided into 1,00,000 units of Rs. 10 each. Thus each unit of Rs. 10 is called a share of Rs. 10 each. The company is said to have $1,00,000$ shares of Rs. 10 each. Thus share means a part of companies capital divided in Rs.10, Rs.50, Rs. 100 each.

### 18.5.1 Types of Shares:

A company can issue two types of shares. They are (1) Equity shares and (2) Preference shares. Equity shareholders are the owners of the business. They have the right to vote and hence they elect Board of Director of their choice. The dividend on equity shares is not fixed. It will be changing according to the amount of profit available for distribution in the firm of dividends. The equity shareholders will not be paid back during the lifetime of the company. In case of winding up of the equity shareholders are paid back only after all other claimants are paid the amount due to them.

### 18.5.1 Features of Equity Shares:

The features of Equity Shares are:

1. Dividend is payable on these shares only after payment of dividend on preference shares.
2. At the time of liquidation, equity capital is returnable only after repayment of preference capital.
3. These shares are always non-cumulative.
4. Dividend is not a fixed amount.
5. Equity shareholders are entitled to vote on all resolutions.

### 18.5.2. Preference Shares:

Preference shares are those shares, which enjoy preferential rights both with respect to dividend and with respect to repayments of capital either during the lifetime or on winding up of the company. They will have the first change on the distributable amount of net profits.

## 18. 5.3 Kinds of preference shares:

The preference shares may be of the following types.
a. Cumulative Preference Shares: The dividend payable on these shares goes on accumulating till it is fully paid off. A cumulative preference shareholder has a right to claim the fixed dividend of the current year out of future profit. Company is bound to pay dividend only if it has sufficient profits available for distribution.
b. Non-cumulative Preference Shares: In the case of non-cumulative preference shares, the dividend shall be payable only out of the profits of the current year. If it is not paid in a particular year, it is lost and the arrears of dividend cannot be carried forward. In other words, the unpaid dividends cannot accumulate.
c. Participating Preference Shares: Participating preference shares are not only entitled to a fixed rate of dividend, but also to a share in the surplus profits which remain after the claims of the equity shareholders have been met.
d. Non-participating Preference Shares: Non-participating preference shares entitled to only a fixed rate of dividend. They do not share in the surplus which belong to the equity share holders.
e. Convertible Preference Shares: The holders of these shares have a right to convert them into equity shares within a certain period of time.
f. Non-convertible Preference Shares: The preference shares without a right of conversion into equity shares are known as non-convertible preference shares.
g. Redeemable Preference Shares: These are the shares to be repayable after certain specified period by the company.
h. Non-Redeemable Preference Shares: Non-redeemable preference shares constitute permanent capital of the company. These shares cannot be refunded before the winding up of the company.

## 18. 6. CATEGORIES OF SHARE CAPITAL

### 18.6.1. Authorised capital:

The company is authorised to raise the capital to the maximum extent of this capital. A company can not issue shares for more than this amount. This amount is stated in Memorandum of Association of the company. This capital is also known as Nominal or Registered capital.

### 18.6.2. Issued capital:

It is the part of authorised capital. The company has issued to the public for cash or for consideration other than cash. For example, Shares to vendors or promoters.

The part of the capital which is not issued by the company is called unissued capital. This capital can be issued later or when needed.

| Financial Accounting | 18.6 |
| :--- | :--- |
| Issue of Shares |  |

### 18.6.3. Subscribed capital:

It is that part of the issued capital, which is actually subscribed by the public known as subscribed capital. A company can allot only that number of shares which are issued. If the applications for the purchase of shares issued are not received in full, such unissued part of capital is called unsubscribed capital.

### 18.6.4. Called-up capital:

The shares, which are offered to the public for subscription is known as called-up capital.

### 18.6.5. Paid-up capital:

The part of called-up capital, which is actually paid by the shareholders is known as paid-up capital. If the called-up amount is paid in full by the shareholders, the paid-up and called-up capital would be the same.

If the shareholders fail to make the payment of their due amounts till the last date, such part is known as calls-in-arrears. A few shareholders make the payment of calls in advance. That advance received amount is known as calls-in-advance.

### 18.6.7. Reserve capital:

By passing a special resolution, a portion of uncalled amount shall not be called up by the company except in case of winding up or liquidation. This is known as reserve capital. This can be shown in the balance sheet of a company by way of a note.

### 18.6.8 Working capital:

This is the capital used in purchasing fixed assets for long-term. The balance of cash is used for running the business. This later part of the capital is called working capital (or) the capital which is going to be used to transact the business is working capital.

### 18.7 PROCEDURE FOR ISSUING SHARES

The procedure for the issue of shares of the company involves the following steps:

1) Issue of Prospectus
2) Receipt of Applications for Shares
3) Allotment of Shares to applicants
4) Issue of Share certificate
5) Receipt of call money

### 18.7.1 Issue of Prospectus

At the time of issue of debentures or shares to the public, the company issues prospectus. Normally favourable and strong points of the company are pressed upon to attract the investors.

### 18.7.2 Receipt of Applications for Shares

In response to the invitation given through the prospectus, applications on prescribed form for purchase of shares are received through a scheduled bank at least 4 days after the issue of prospectus. The filled application forms are deposited with the Company's bankers along with the application money. The applications received directly in company's office are also sent to the company's Bankers along with the required application fee.

### 18.7.3. Allotment of Shares to applicants

Allotment of shares means distribution of shares amongst the applicants. After the closure of subscription list the bankers would forward all applications to the company. The Board of Directors then make the allotment of shares. All the applications are properly scrutinised and classified in different groups. Normally applications for small number of shares are rejected. The shares have to be allotted within 60 days of the issue of prospectus, subject to the following restrictions:
a. The company making the issue has to follow the provisions of the Companies Act, 1956, as well as guidelines of the Securities and Exchange Board of India (SEBI)
b. No allotment may be made of any shares of the company offered to the public for subscription unless the minimum subscription which is $90 \%$ of the issued capital has been received.
c. Minimum Subscription (Section 69) is the minimum amount, which in the opinion of the directors must be raised in cash by the issue of shares for providing:

1) the purchase price of any property acquired or to be acquired;
2) the preliminary expenses payable by the company and any commission payable in connection with the issue of shares;
3) the repayment of money borrowed for the aforesaid expenditure;
4) the working capital and
5) any other expenditure stating the nature and purpose thereof and the estimated amount in each case.
d. The amount payable on application shall not be less than $5 \%$ of the nominal amount (face value) of the share.
e. All money received from applicants of shares shall be deposited in a scheduled bank and shall be kept till certificate of commencement of business is obtained by the company.
f. As per the latest amendment in Companies Act a company can remain open the issue for the maximum period of 30 days. If the amount of minimum subscription is not received in these 30 days then the company will refund the amount to applicants within

| Financial Accounting | 18.8 | Issue of Shares |
| :--- | :---: | :--- |

next 30 days. If the company delays in the refund then the directors and officers of the company will be liable to pay interest @ $15 \%$ p.a. for delayed period.
g. A company cannot issue more number of shares than those mentioned in the prospectus.
h. Shares issued for consideration other than cash be separately mentioned in the Balance Sheet.

### 18.7.4. Despatch of Allotment letters:

Letters of allotment are sent to successful applicants. The number of shares allotted are mentioned in the letter and the allotment money is demanded (if whole amount is not received with applications) to be paid upto a specified date. The agreement for the purchase of shares is deemed to be completed as soon as the allotment letters are issued.

### 18.7.5. Filing Allotment Return to Registrar:

After the allotment of shares is over the company is required to file a return to the Registrar of companies within 30 days from the date of allotment or extended date by the Registrar. It is the information of allotment furnished by the company to the Registrar in which a declaration is given that all legal formalities were followed by the company in this connection.

The unsuccessful applicants are issued letters to regret together with refund of application money.

### 18.7.6 Issue of Share certificate

After allotment of shares, a contract comes into being between the company and the allottees. Then all transactions relating to the shares are regulated by the terms and conditions of issue of the shares as well as by the provisions of Articles of Association. The allottees are issued necessary share certificates. The procedure for the issue is the same whether shares are issued at par, at premium or at discount.

### 18.7.7 Receipt of call money

In case the full amount of shares is not called with application and allotment, the balance may be called in one or more installments. Such installments after allotment are known as "Calls on shares". The following points are mentioned in the articles of association of the company in this connection:
(1) The right to demand the balance of amount on shares issued lies with the directors. They may pass a resolution in directors meeting for the amount to be called and the place of deposit.
(2) The amount called on a call shall not exceed $25 \%$ of the nominal value of shares.

$$
\begin{array}{lll}
\text { C.D.E. } & 18.9 & \text { Acharya Nagarjuna University }
\end{array}
$$

(3) Each shareholder shall be informed at least 14 days before the last day of the call.
(4) There shall be a gap of at least one month between two consecutive calls.
(5) The rate of interest to be charged by the company on calls in arrears or interest to be allowed by it on calls in advance shall be mentioned in its articles of association. If the company adopts Table-A of companies act the rate of interest on call in arrears is $5 \%$ per annum and on calls in advance $6 \%$ per annum.

### 18.7.8 Register of Members:

Every company is required to keep a register to maintain complete particular for each member.

### 18.7.9 Index of Member:

Every company having 50 or more members shall maintain a list of members in the form of an index.

### 18.7.10 Books of Accounts:

Under the companies act every company has to maintain books of accounts compulsorily on double entry system.

### 18.7.11. Preliminary Expenses:

All such expenses incurred in connection with the formation of the company are called preliminary expenses or promotion expenses or formation or organisation expenses. The following are the examples of such expenses:
(1) Expenses incurred in getting prepared the legal documents;
(2) The fee for filling of necessary documents with the register, registration fee, duty payable on authorised capital;
(3) Expenses for printing of prospectus and advertisement;
(4) Printing charges of application forms and other necessary forms;
(5) Expenses for company's seal;
(6) Commission on first issue of shares and debentures

Preliminary expenses are of capital nature to be shown in company's balance sheet as fictitious asset.

### 18.8. ISSUE OF SHARES

A company can issue its shares in two types: 1) for cash, and 2) for consideration other than cash. These shares may be issued at par or at premium or at discount. Issue
price may be payable either in lump sum along with application, or in installments at different stages, it means, partly on application, partly on allotment and the balance on call or calls.

### 18.9.2 Issue of Shares at a Premium:

## A. Use of Amount of Premium:

Amount called on shares in the form of premium is credited in Share Premium Account. According to Section 78 of the Companies Act, 1956, the amount of premium may be used for the following purposes:
a. to issue fully paid bonus shares to the members;
b. to write off preliminary expenses of the company;
c. to write off the expenses or the commission paid or discount allowed on the issue of shares or debentures of the company;
d. to provide premium on redemption of preference shares or premium on redemption of debentures of the company.

Share premium cannot be used for the purpose of dividends. The use of Share Premium for the purpose other than mentioned above shall mean reduction of share capital.

## B. Accounting for Share Premium:

The premium on issue of shares is a capital receipt. As such it shall be credited to a separate account called "Share Premium Account". Premium may be called with share application or allotment. The share application or allotment account is debited with the amount of premium and Share Premium account is credited with the amount of premium only. Generally amount of premium is due with allotment.
C. Share Premium to be shown in the Balance Sheet:
"Share Premium Account" is to be shown on the liabilities side of the Balance Sheet under the heading "Reserves and Surpluses".

### 18.9.3 Over-subscription of Shares

Shares are said to be over-subscribed when the number of shares applied for is more than the shares offered for the issue. It happens in case of public issue of reputed and popular companies. The board of directors may make the allotment of shares as under in case of over-subscription.
a. Pro-rata or proportional allotment to all the applicants. For example, 2000 shares are issued for which applications for the purchase of 6000 shares are received. If all the applicants are made pro-rata allotment, it means 200 shares will be allotted for every 600 shares applied or two shares for every 6 shares applied. Excess money received is not refunded but retained and adjusted towards sums due for allotment.
b. Some of the applications may be rejected fully while remaining applicants be allotted shares in full. In such case, the application money to non-allottees is refunded along with a letter of regret.

## Illus.3:

A company issued Rs.5,00,000 new capital divided into Rs. 10 shares at premium of Rs. 4 per share, payable as under:

On Application Rs. 1 per share; on allotment Rs. 4 per share and Rs. 2 premium; on final payment Rs. 5 per share and Rs. 2 premium.

Over-payments on application were to be applied towards sums due on allotment. Where no allotment was made money was to be returned in full. The issue
was over-subscribed to the extent of 13,000 shares. Applicants for 12,000 shares were allotted only 1,000 and applicants for 2,000 were sent letters of regret. All money due on allotment and final call was duly received. Make the necessary entries in company's books.

## Solution:

Less: Adjustment towards allotment money for 1,000 shares x Rs. 6 6,000
Balance amount adjusted towards 5,000 first \& final call money

### 18.9.4 Under subscription

Shares are said to be under-subscribed when the number of shares applied for is less than the number of shares offered. Foe example, in case a company has offered 10,000 shares to public but the public applied for 9,000 shares only, it is case of under-subscription. In such a case, it must be ensured whether the company has received the minimum subscription after which allotments will be made to all the applicants. No adjustment is needed in such a case.

## Illus.4:

Sruthi Ltd., invited application for 5,00,000 Equity shares of Rs. 10 each payable as follows.

With application Rs.2; on allotment Rs.3; on first call Rs.2.50; on second and final call Rs.2.50.

Applications totalled 4,70,000 share were received. The Board of Directors accepted all the applications. Both the calls were made. You are required to pass necessary Journal Entries in the books of Sruthi Ltd.

### 18.9.5 Issue of Shares at a Discount:

## A. Conditions for issue of shares at discount:

According to Section 70 of Companies Act, 1956 a company may issue its shares at discount only if the following conditions are fulfilled:
a. The share must belong to a class already issued;
b. The issue must be authorized by an ordinary resolution of the company;
c. The sanction of the Company Law Board must be obtained;
d. The resolution must specify the maximum rate of discount at which the shares are to be issued. No resolution shall be sanctioned by the Company Law Board if the maximum rate of discount specified in the resolution exceeds $10 \%$ unless it is of the opinion that a higher percentage of discount may be allowed in the special circumstance of the case;
e. At least one year must have elapsed since the date on which the company was entitled to commence business and
f. The issue must be made within two months from the date receiving the sanction of the Company Law Board or within such extended time as the Company Law Board may allow.

## B. To write off discount on issue of shares:

Discount on issue of shares is a capital loss of the company. It may be written off either out of capital profits of the company or out of the profits prior to incorporation. In case there is no Capital Reserve or capital profit in a company, the discount on issue of shares may be written off out of Profit \& Loss Account. Discount on issue of shares is a fictitious asset to be shown on Assets side of the balance sheet till it is written off.

### 18.9.6 Calls in Arrears and Calls in Advances:

## A. Calls in Arrear:

It often happens that some shareholders fail to pay the amount due on allotment and/or calls on the shares held by them. The total of unpaid amount on account of one or more installments is called Calls in Arrear or Unpaid calls.

## (i) Interest on Calls in Arrear:

The directors may charge interest on calls in arrear at a stipulated rate mentioned in the articles of association of the Company. If the company adopts Table-A of Companies Act, 1956 (which is a model of articles of association), interest at the rate not exceeding $5 \%$ per annum shall be charged for the period from the date fixed for payment to the date of actual payment. The directors may waive the application of this rule at their discretion.

## (ii) Accounting for Calls in Arrear:

It is not mandatory to maintain a separate account for calls in arrear. The debit balance of allotment and/or call accounts will be shown in the Balance Sheet not as an asset but by way of deduction from the called-up capital.

## B. Calls in Advance:

A shareholder may sometimes pay a part or whole of the amount not yet called up on his shares in order to save himself of the trouble of paying several calls on various dates. Any amount received from a shareholder in excess of the amount due is called "Calls-inAdvance". The following entry is to be passed:

Bank a/c
Dr. (With the amount received
To Calls in Advance a/c in advance)
(Amount received on ..... shares @ Rs......
per share in anticipation of future calls)
Note: No dividend is payable by the company on calls-in-advance as it is not a part of Share Capital. As such "Calls in Advance" is shown under the 'Current Liabilities' on liabilities side of the Balance Sheet.

## (i) Interest on Calls in Advance:

Interest on calls in advance may be allowed by the company at a specified rate mentioned in the articles of association of the company. If the company adopts 'Table-A' of Companies Act, 1956, interest at the rate of $6 \%$ per annum may be allowed to the shareholders.

## (ii) Adjustment of Calls in Advance:

The amount received in respect of future calls shall be adjusted when the call received in advance is made due.

### 18.9.7 Forfeiture of Shares:

When a shareholder fails to pay one or more installments (viz,. allotment and/or call or calls) due on the shares held by him, the company has the authority to forfeit such shares. Forfeiture of shares means the cancellation of allotment to defaulting shareholders and to treat the amount already received in such shares as forfeited. In this case a shareholder ceases to be a member of the company.

## A. Procedure for forfeiture of shares:

There is no specific procedure laid down in Indian Companies Act in respect of forfeiture of shares. The right of forfeiture should be contained in the articles of association of the company for non-payment of installment or installments. If procedure for forfeiture of shares has not been laid down in the articles of the company, the provision of Table-A' shall apply. Accordingly, (1) the Board of Directors shall serve a notice to the defaulting shareholder to make the payment of such calls in arrear with interest, if any, on a further date (not being earlier than the expiry of 14 days from the date of serving notice); (2) it shall be stated therein that in the event of non-payment upto the specified date, his shares shall be liable for forfeiture.

Despite the receipt of such notice, if the shareholder fails to make payment of his dues, by stipulated date, his shares be forfeited by passing a resolution by the Board of Directors to this effect and the member be informed accordingly.

The forfeiture of shares under the provisions of the articles may be made only for non-payment of installments and not for any other reasons. In case the shares are forfeited for non-payment of business debts, the forfeiture shall be treated as illegal and invalid.

The articles may provide that even after forfeiture of shares the member may remain liable for payment of his arrears. It is not treated as suitable in practice and therefore, the companies generally reissue the shares forfeited immediately so that the past member's liability is automatically finished.

### 18.9.8 Re-issue of Forfeited shares:

The forfeited shares become the property of the company. A company can reissue the forfeited shares in accordance with the provisions contained in the articles of the company as and when it is convenient. These shares may be reissued at par, at premium or at discount. The provisions of Section 79 (For issue of shares at discount) do not apply on reissue of forfeited shares at discount. But the maximum amount of discount which may be allowed on reissue is as under:

| Case | Maximum permissible discount |
| :--- | :--- | :---: |
| 1. When shares were originally | 1. the amount credited for forfeited shares |
| issued at par or at premium |  |
| 2. When shares were originally | 2. amount credited to forfeited shares account |

| issued at discount | plus the amount of original discount. |

A. When bonus is utilised for making partly paid shares into fully paid shares:

B. When bonus is utilised for issuing free fully paid shares:

Illus.14:
The Balance Sheet of A Co. Ltd. On 31 ${ }^{\text {st }}$ December 2005 is as follows:

|  | Rs. |  | Rs. |
| :--- | ---: | :--- | ---: |
| Share Capital: |  | Sundry Assets | $4,75,000$ |
| 2,000 shares of Rs.100 | $2,00,000$ |  |  |
| each | 50,000 |  |  |
| Share Premium | $1,00,000$ |  |  |

Financial Accounting $18.38 \quad$ Issue of Shares

| Reserve Fund | 80,000 |  |  |
| :--- | ---: | ---: | ---: |
| P \& L Account | $\underline{45,000}$ |  | $\underline{4,75,000}$ |
| Creditors | $\underline{4,75,000}$ |  | $\underline{4}$ |

The company decided to issue bonus shares at the rate of three shares for every four shares held and decided, for this purpose, to utilize share premium Rs.60,000 out of reserve and the balance out of $P \& L a / c$. Give Journal entries.

## Solution:

Working Notes: No. of Bonus Shares issued:
For every 4 shares in A Co. Ltd. ...... 3 Bonus shares will be issued
For 2,000 shares in A Co. Ltd. ...... ? $=2,000 \times 3 / 4=1,500$ shares
= 1,500 Bonus shares @ Rs. 100 each = Rs.1,50,000

## Illus.19:

Meenakshi and Co. Ltd. issued 2,000 shares of Rs. 10 each at a premium of Rs. 2 per share. The share amount is to be received as follows:

On application Rs. 2
On allotment Rs. 5 (including premium)
On first call Rs. 3
On second call Rs. 2

Applications were received for 3,000 shares. The total shares were allotted to the applications of 2,400 shares pro-rata. Raju to whom 40 shares were allotted did not pay the allotment money. His shares were forfeited after first call. Mohan to whom 60 shares were allotted did not pay the calls. His shares were also forfeited after the second call. Then 80 of such shares were reissued at Rs. 9 per share to Mr. Rao. These shares included the shares of Raju. Show Journal, Cash book entries and Balance Sheet.

## Working Notes:

* Since total number of shares offered to public were only 2,000, the allotment in no case should exceed 2,000 shares. This allotment has been made to those who applied for 2,400 shares, others apply for 600 shares were not allotted any shares. Hence the refund amount is Rs.1,200 i.e. 600 shares @ Rs. 2 per share.
** Calculation of the amount received on allotment:

|  |  |  | Rs. |
| :--- | ---: | ---: | ---: |
| Total amount due on allotment of 2,000 shares @ Rs.5 |  |  | 10,000 |
| Less: Excess application money of 400 shares adjusted on |  |  |  |
| allotment (400 x $2=800$ ) |  |  | 9,200 |
| Less: Amount not received on 40 shares of Raju: |  |  |  |
| $\quad$ Allotment due on 40 shares of Raju = 40 shares @ Rs.5 |  | 200 |  |
| Less: Advance money received from Raju on application |  |  |  |
| adjusted towards allotment: | 96 |  |  |
| Amount received on application: 48 shares @ Rs.2 | $\underline{80}$ | $\underline{16}$ | $\underline{184}$ |
| Amount adjusted on application : 40shares @ Rs.2 | $\underline{9,016}$ |  |  |
| Amount received on allotment |  |  |  |

## Shares applied by Raju:

If allotted 2,000 shares ... applied 2,400
If Raju allotted 40 shares $\quad . . \quad$ applied $?=\underline{2,400} \times 40=49$ shares 2,000
$=$ Shares applied by Raju $=48$; Shares allotted to Raju $=40$

## Calculation of amount transferred to Capital Reserve:

|  |  | Rs. |
| :--- | ---: | ---: |
| Balance in forfeited shares account <br> Less: Discount allowed on re-issued <br> Less: Amount to be retained in respect of 20 <br> shares not yet re-issued i.e. $(20 \times 5)$ | 80 | 396 |

## Amount to be transferred to Capital Reserve

 $\underline{216}$Illus.20:
A company issued 50,000 equity shares of Rs. 10 each as par on the following terms of payment.

On application
On allotment
On first call
On second \& final call

Rs. 3
Rs. 4
Rs. 2
Rs. 1

Applications were received for 60,000 shares. Allotments were made on the following basis.
a) To applications for 10,000 shares in full
b) To applications for $\mathbf{2 0 , 0 0 0}$ shares $-15,000$ shares
c) To applications for $\mathbf{3 0 , 0 0 0}$ shares $-\mathbf{2 5 , 0 0 0}$ shares

All excess amounts paid on application to be adjusted against amounts due on allotment.

The shares were fully called and paid except amounts of allotment, first and second calls not paid by those who allotted 2,000 shares out of the group applying for $\mathbf{2 0 , 0 0 0}$ shares. All the shares on which calls were not paid were forfeited by the Board of Directors.

1,000 forfeited shares were reissued as fully paid on receipt of Rs. 8 per share.
Show the Journal entries and also show how share capital, capital reserve and forfeited shares amount appear in the balance sheet.

18.10. QUESTIONS

1. Define a company? Explain the features of a company.
2. Explain different kinds of share capital.
3. Discuss the provisions relating to the issue and allotment of shares as per the Companies Act,1956.
4. What is forfeiture of shares? Explain the provisions relating to re-issue of forfeited shares.

### 18.11. EXERCISES

1. Samsun Ltd., made an issue of 10,000 equity shares of Rs. 100 each, payable Rs. 20 on application, Rs. 40 on call. All the shares are subscribed and amounts duly received. Pass journal entries to give effect to these.
2. The authorised capital of a company is $1,00,000$ shares of Rs. 10 each. On April 10, 2005 it issued 50,000 shares to the public at par. All the shares were subscribed. The company called Rs. 2 on application, Rs. 3 on allotment and Rs. 2 on first call. Presuming that all moneys are received. Show these items in the balance sheet.
3. A Limited Company was incorporated with a capital of Rs. $4,00,000$ consisting of 20,000 equity shares of Rs. 10 each and 10,000 preference shares of Rs. 20 each. It offered to the public 10,000 equity 5,000 preference shares payable as follows:

|  | Equity shares <br> Rs. | Preference shares <br> Rs. |
| :--- | :---: | :---: |
| On application | 2 | 4 |
| On allotment | 3 | 6 |
| On first call | 2 | 4 |
| On second and final call | 3 | 6 |
| 年 |  |  |

The company received applications for just 10,000 Equity and 5,000 Preference shares. The shares were duly allotted and all money duly received. Show how the above transactions would appear in journal.
4. Crane Ltd. offered 2,00,000 equity shares of Rs. 10 each at a premium of $40 \%$ payable as follows:

Rs. 4 (including 50\% of premium) on application
Rs. 4 (including the balance premium) on allotment

Rs. 5 on first and final call.
The company received applications for 2,00,000 shares which it duly allotted. All the moneys including premium were received on due date.
Pass the Journal entries.
5. Mr. Kiran holds 100 shares of Rs. 20 each on which he has paid Rs. 2 as application money and Rs. 4 as allotment. Vamsi holds 200 shares of Rs. 20 each on which he has paid Rs. 2 on application, Rs. 4 on allotment and Rs. 6 as first call. They all fail to pay the final call of Rs.8. The directors forfeit their shares and reissued them at Rs.18. Journalise the transactions to record the forfeiture and reissue.
6. Sandhya Ltd. allotted shares of Rs. 10 each to Mrs. Jeevika who paid Rs. 2 per share on application, Rs. 3 per share on allotment but failed to pay Rs. 5 per share on the call. Consequently her shares were forfeited and reissued to Mrs. Chandra at Rs. 8 per share. Give journal entries relating to forfeiture and reissue in the books of Sandhya Ltd.
7. Rajesh Tyres Ltd., issued equity shares of Rs. 10 each payable $25 \%$ on application, $50 \%$ on allotment an d $25 \%$ on call. All the 1 lakh were subscribed and paid for except Mehta who failed to pay the call money on his 300 shares, which were later forfeited and reissued to Ganesh @ Rs. 8 per share. Pass necessary journal entries for forfeiture \& resissue and prepare the Balance Sheet of the company
(Ans: Balance Sheet total Rs.10,01,650)
8. Visala Company Ltd., having an authorized capital of Rs. $2,00,00,000$ in shares of Rs. 10 each, invited applications for $10,00,000$ share payable as follows:

On application Rs.2.50; on allotment Rs.3.50; on first call Rs. 2 and second \& final call Rs. 2

The company received applications for $9,00,000$ shares. All the applications were accepted. All moneys due as stated above were received with exception of the second \& final call on 2,000 shares; these were forfeited and reissued as fully paid @ Rs. 9 per share.

Write the necessary journal entries in the books of the company also show the balance sheet of the company.
(Ans: Amount transferred to Capital reserve Rs.14,000; Balance Sheet total Rs.90,14,000)
9. A Ltd. invited applications for 10,000 shares of Rs. 100 each at a discount of $6 \%$ payable as follows:

On application
On allotment
Rs. 25
Rs. 34

On first and final call
Rs. 35
The applications received were for 9,000 shares and all of these were accepted. All moneys due were received except the first and final call on 100 shares, which were forfeited. 50 shares were reissued @ Rs. 90 fully paid. Assuming that all requirements of the Law were compiled with, pass entries in the cash book and journal of the company. Also show how the transactions will be reflected in the company's balance sheet.
(Ans: Amount transferred to capital reserve Rs.2,750; Cash book balance Rs.8,47,000; Balance Sheet total Rs.9,00,700)
10. Manoj \& Co. made an offer of $1,00,000$ equity shares of Rs. 10 each payable as follows:

On application Rs.2; on allotment Rs.3; on first call Rs.2.50; and on second call Rs.2.50

Applications were received for $1,60,000$ shares and allotments were made on pro rata to the applicants of $1,20,000$ shares, the remaining applications being rejected and money refunded. Application money paid in excess by the allottees was adjusted with the money due on allotment.

Ravi the holder of 200 shares failed to pay the allotment money and on his failure to pay the first call, his shares were forfeited. Sohan another shareholder to whom 500 shares were allotted, failed to pay the first and second call amount and his shares were also forfeited after making the second call.

Out of the forfeited shares 600 shares were reissued to Ranjit as fully paid on payment of Rs. 9 per share. Record the above transactions in the journal of Manoj \& Co.
(Ans: Amount transferred to capital reserve Rs.1,800)
11. Keerthi Co. Limited issued 60,000 equity shares of Rs. 10 each at a premium of Rs. 2.50 per share payable on application. The amount payable on allotment was fixed at Rs. 4 per share and an equivalent sum was due on a call to be made.
Total applications received were for $1,00,000$ shares and after consulting Stock Exchange, the following scheme of allotments was decided upon.

| Category | A | B | C |
| :--- | :---: | :---: | :---: |
| Grouping of Shares | $1-100$ | $101-500$ | Over 500 |
| No. of applications received | 1,200 | 175 | 5 |
| No. of shares applied for | 70,000 | 35,000 | 5,000 |

## Financial Accounting

| No. of shares allotted | 42,000 | 14,000 | 4,000 |
| :--- | :---: | :---: | :---: |

It was decided that the excess amount received on applications would be utilized in payment of allotment money and surplus, if any, would be refunded to the applicants.

All the dues were received except a shareholder belonging to category A who had applied for 100 shares defaulted in payment of Allotment money. His shares were forfeited.

Show the necessary journal entries in the books of the company to record the above transactions.
(Ans: Amount transferred to capital reserve Rs.300)
12. Nikhita Ltd. acquired land costing Rs.2,00,000 and in payment allotted 20,000 equity shares of Rs. 10 each as fully paid. Further the company issued 80,000 equity shares to the public payable as follows:
On application Rs.3; on allotment Rs. 3 and on first and final call Rs. 4
The public applied for all the shares which were allotted. All moneys were received except the call on 400 shares. After due notice these shares were forfeited and Reissued for Rs. 9 each as fully paid. Write necessary Journal entries and prepare Balance Sheet.
(Ans: Amount transferred to capital reserve Rs.2,000; Balance Sheet Total Rs.10,02,000)
13. Sahiti Co. Ltd., has the following items in the Balance Sheet.
a. 1,00,000 Equity shares of Rs. 50 each, Rs. 40 paid up.
b. General reserve Rs. $11,00,000$
c. Share premium Rs.5,00,000
d. Capital reserve Rs.7,00,000

The company decided:
5. To capitalize its general reserve
6. To convert the existing shares into fully paid up
7. To issue 20,000 bonus shares of Rs. 50 each at a premium of Rs. 10 per share out of share premium and capital reserve.
Pass Journal entries.
14. The extracts are given from the draft balance sheet of Zinda Ltd. as on $31^{\text {st }}$ December, 2002:
C.D.E.
18.63 Acharya Nagarjuna University

|  | Rs. |
| :--- | ---: |
| Authorised capital: |  |
| 20,000 equity shares of Rs.10 each | $2,00,000$ |
| Issued and subscribed capital: |  |
| 7,000 equity shares of Rs. 10 each fully paid up | 30,000 |
| Reserve fund | 36,000 |
| Profit and Loss account | 29,000 |

The Board of Directors pass a resolution to capitalize a part of existing reserves and profits by issuing bonus shares. One bonus share is being issued for every 4 equity shares held at present. For this purpose, Rs.10,000 are to be provided out of Reserve fund and the balance out of Profit and Loss account.

## Chapter - 19

## ISSUE OF DEBENTURES

## Objectives:

The objectives of learning the lesson is :

- To know about the debentures
- Issue of debentures
- Accounting treatment of debentures at the time of issue

## Structure:

19.1 Introduction
19.2. Features or characteristics of debentures
19.3. Types of Debentures
19.4. Issue of Debentures
19.5. Issue of Debentures for consideration other than cash
19.6. Issue of Debentures as collateral security
19.7. Issue of Debenture according to the condition of Redemption
19.8. Writing off Discount on Issue of Debentures
19.9. Interest on Debentures
19.10. Questions
19.11. Exercises
19.12. Suggested Readings

### 19.1 INTRODUCTION :

There are two types of capital of a company: (1) Share Capital and (2) Loan Capital. Share capital includes equity shares and preference shares. Loan Capital includes debenture and long-term loan. According to Section 2(12) of Indian Companies Act, 1956, the bonds are also included in debentures.

A debenture is a written acknowledgement of debt by a company under its common seal, generally secured by floating charge on company's assets. Interest is paid to debenture holders at a fixed rate at regular intervals. Company retains the amount of debentures as and
Financial Accounting $19.2 \quad$ Issue of Debentures
when its requirement is over or after a specified period, this is known as "redemption of debentures".

The term debenture is derived from the Latin word "debere" which means "to owe a debt". A debenture may be defined as document issued by the company as an evidence of debt. It is the acknowledgement or the company's indebtedness to its holders.

### 19.2 FEATURES OR CHARACTERISTICS OF DEBENTURES :

The following are the features of debentures.
19.2.1 Debenture-holders are entitled to periodical payment of interest at an agreed rate.
19.2.2 They are also entitled to redemption of their capital as per the agreed terms.
19.2.3 They have no voting rights.
19.2.4 Usually debentures are secured by charge on or mortgage of the assets of the company.
19.2.5 Debenture holders have the right to use the company for any unpaid dues.
19.2.6 They can enforce the security by sale in case of default.
19.2.7 They can apply for winding up of the company to safeguard their interests.

### 19.3 TYPES OF DEBENTURES :

A company may issue various kinds of debentures with different rights are given below:

### 19.3.1 On the basis of ownership:

(a) Registered Debentures: The debentures which are transferable only by transfer deed. Names, addresses and particulars of the debentures possessed by them are entered in the register of debenture holders. Interest is paid to one whose name appears in the register of debenture holders on the due date of interest.
(b) Bearer Debentures: Debentures which are transferred by mere delivery and the company does not keep the record of debenture holders' names, addresses etc. Payment of interest is made on production of coupons attached with the debenture certificate.

### 19.3.2 On the basis of Redemption:

(a) Redeemable Debentures: The debentures which are redeemed or the payment of which is made during the life time of company, generally after specified period of time.
C.D.E 19.3 Acharya Nagarjuna University
(b) Irredeemable Debentures: In this case the issuing company does not fix any date by which they should be redeemed and the debenture holders cannot demand payment so long as it is a going concern. Usually such debentures are payable after a long period of time (not pre decided) or on winding up of the company.

### 19.3.3 On the basis of conversion:

(a) Convertible Debentures: The holders of such debentures are given the option to convert the debentures into share or new debentures after a specified time. Those, which are fully convertible are called "Fully Convertible Debentures" or simply FCDS'. Those, which are partly convertible are called "Partly Convertible Debentures" or simply PCDS'.

According to SEBI's guidelines the debentures must be converted within 36 months of issue.
(b) Non-Convertible Debentures: The holders of such debentures have no right to convert them into shares or new debentures. These are called NCDS'. If NCDS' are issued by the company and later on company wishes to convert the debentures then it would be an option to debenture holders.

### 19.3.4 On the basis of Security:

(a) Secured or Mortgage Debentures: The debentures which are secured either on a particular asset or on general assets of the company. When a particular asset is put or pledged is known as fixed charge and when no specific asset is put called floating charge.
(b) Unsecured or Naked Debentures: The debentures which are not secured. In other words, no assets are pledged by the company to the debenture holders. Companies of very good standing are able to issue such debentures.
19.3.5 On the basis of interest rate: There was restriction of the Government on the rate of interest upto 31-7-1991, now company is free to decide rate of interest on debentures. On the basis of interest rate the debentures may be:
(a) Fixed rate of interest: The rate of interest on the debenture is generally fixed and remains same upto redemption. Market rate of interest does not effect the interest rate of debentures.

## Financial Accounting <br> 19.4 <br> Issue of Debentures

(b) Zero interest Debentures: The debentures on which no interest is paid by the company's called zero interest debentures. Such debentures are either issued at heavy discount or such debentures converted into equity shares offered at low rate i.e., below market price.

### 19.4 ISSUE OF DEBENTURES:

According to Section 292 of Indian Companies Act, 1956 the Board of Directors have the power to raise the capital by issue of debentures. But if total value of debentures issued so far and offered is more than by the aggregate amount of paid up share capital and free reserves then the directors have to take permission of the shareholders in their meeting (Section 293).

Section 78 and 79 of Companies Act (rules related to premium and discount respectively) will not be applied on issue of debentures. In other words, there will be no restriction on issue of debentures at premium or discount.

If the debentures are issued at discount then such discount will be a capital loss and company has to write off such capital loss from any capital profits or revenue profits during the life time of debentures. Till the discount is not written off fully, it will be appeared in the Balance Sheet on assets side under the head "Miscellaneous Expenditure". At the time of redemption of debentures, there should not be any balance in "Discount on issue of debentures account".

According for issue of debentures for cash is the same as the accounting for issue of shares with one change, i.e., the word 'shares' shall be replaced by 'debentures' and 'shares capital' by 'debentures'. The terms used for the issued of shares will be changed as follows at the time of issue of debentures:

| Terms of issue of Shares | Terms of issue of Debentures |
| :--- | :--- |
| 1. Share Application/Allotment/ I call/ II | Debenture Application/Allotment/ I call/ II |
| call .....etc. | call .....etc. |
| 2. Share Capital | Debentures |
| 3.Discount on issue of Shares | Discount on issue of Debentures |

Note: There is no difference between the premium on issue of shares and debentures. Both are now known as "Securities Premium".

Illus. 1: Make necessary entries in the books of Sona Ltd., in following cases:
(a) 5,000, 13\% Debentures of Rs. 100 each were issued. The whole amount is payable on application. The issue was fully subscribed for and was fully paid up.
(b) 5,000, 13\% Debentures of Rs. 100 each were issued at a premium of Rs. 10 per debenture, payable as : Rs. 25 on application; Rs. 35 on allotment (including premium) and the balance on call. A holder of 100 debentures did not pay the allotment and call money. Rest of the amount was duly received.
(c) 5,000, 13\% Debentures of Rs. 1000 each were issued at Rs. 950 per debenture, payable as: Rs. 300 on application, Rs. 500 on allotment and the balance on call. Sohan, holding 10 debentures, did not pay the call money and Mohan, holding 200 debentures, paid the whole amount due along with the allotment money.

## Solution :

Journal of Sona Ltd.

| Date | Particulars | L. F. | Rs. | Rs. |
| :---: | :---: | :---: | :---: | :---: |
| (a) | Bank a/c <br> To Debenture Application a/c <br> (Being application money received) |  | 5,00,000 | 5,00,000 |

C.D.E 19.7 Acharya Nagarjuna University

### 19.5 ISSUE OF DEBENTURES FOR CONSIDERATION OTHER THAN CASH :

When debentures are allotted by the company to the vendor of business to discharge the purchase consideration or to the vendor of asset to discharge the value of assets are called "Issue of debentures for consideration other than cash". The accounting entries are as follows:

|  |  | Rs. | Rs. |
| :---: | :---: | :---: | :---: |
| (b) | On Purchase of Assets or business: <br> Assets a/c <br> To Vendor a/c <br> (Being assets purchased) | xxx | XxX |
|  | Sundry assets a/c (individually) <br> To Sundry liabilities a/c (individually) <br> To Vendors a/c (purchase consideration) <br> (Being assets and liabilities acquired) | xXX | $\begin{aligned} & x x x \\ & x x x \end{aligned}$ |
|  | Issue of debentures to discharge vendors balance: <br> Vendor a/c <br> To Debentures a/c <br> (Being debentures issued) | Xxx | XXX |

Note: The debentures may be issued at par, premium or discount. In case debentures are issued at premium, then the "Securities premium account" will be credited and the "Discount on issue of debentures account" will be debited if it is issued at discount.

## Illus.2: Rahul Ltd., acquired machine of Rs.6,60,000 from Madhu Ltd. Rahul Ltd.,

 discharged the consideration by issuing $\mathbf{1 2 \%}$ debentures of Rs. 100 each at a premium of 10\%. Give journal entries in the books of Rahul Ltd.
## Solution:

Journal of Rahul Ltd.

| Date | Particulars | L. F. | Rs. | Rs. |  |
| :--- | :--- | ---: | ---: | :--- | :--- |
|  | Machinery a/c <br> To Madhu Ltd. <br> (Being asset purchased) |  | $6,60,000$ | 6,60,000 |  |
|  | Madhu Ltd. a/c <br> To Debentures a/c <br> To Debenture premium a/c <br> (Being debentures issued at 10\% premium) |  |  | $6,60,000$ | $6,00,000$ |

Note: No. of debentures $=6,60,000 / 110=6,000$

### 19.6 ISSUE OF DEBENTURES AS COLLATERAL SECURITY :

A collateral security is an additional or secondary but contingent security for the performance of an obligation. Sometimes, a company deposits its debentures as additional security to secure loan from the bank. Hence, the debentures are deposited to provide security for the loan taken to the lender. Generally, there will be no entry on issue of debentures as collateral security. In such a case, the loan would appear as a liability, the debentures issued will be shown only within brackets below the particulars of the loan to indicate the facts that they have been issued only as a security and the amount would not be shown in the outer column. A memorandum of such an issue would also be kept in the debentures ledger. They carry no interest. After repayment of loan, debentures deposited are returned to the company and are cancelled by the company.

Alternatively, a debenture suspense account may be debited with the amount of debentures issued as additional security and the amount is credited to the debentures account. The reverse entry may be passed on payment of loan. If company is interested to pass journal entry on issue the following entries are passed.
C.D.E 19.9 Acharya Nagarjuna University

|  |  |  | Rs. | Rs. |
| :--- | :--- | :--- | :--- | :--- |
| (a) | Issue of debentures as collateral security: <br> Debenture suspense a/c <br> To Debentures a/c <br> (b) <br> (Being ....Debenture of Rs......each issued <br> as collateral security against a loan of Rs....) <br> On repayment of loan: <br> Debentures a/c <br> To Debentures suspense a/c <br> (Being debentures issued as collateral <br> security withdrawn) | $5,00,000$ | $5,00,000$ |  |

Note: Debenture suspense a/c will be shown in the balance sheet on the assets side, debentures $\mathrm{a} / \mathrm{c}$ will be shown on the liabilities side along with other debentures.

Illus.3: Bajaj Ltd., took loan on 5-1-2006 from UTI of Rs.50,00,000 and alloted Rs.60,00,000, 15\% debentures as collateral security.

## Solution:

These will be appeared in the Balance Sheet as follows:

| Liabilities | Rs. | Assets | Rs. |
| :--- | :--- | :--- | :--- |
| Secured Loan: <br> Loan from UTI (issued <br> Rs.60,00,000,15\% debentures as <br> collateral security) | $50,00,000$ | Bank | $50,00,000$ |

## Alternatively:

If accounting entries are passed, the entries will be:
Journal

| Date | Particulars |  | L.F. | Rs. | Rs. |
| :---: | :---: | :---: | :---: | :---: | :---: |
|  | Bank a/c <br> To UTI Loan a/c <br> (Being loan taken from UTI) | Dr. |  | 50,00,000 | 50,00,000 |
|  | Debentures suspense a/c | Dr. |  | 60,00,000 |  |

| Financial Accounting | $\mathbf{1 9 . 1 0}$ | Issue of Debentures |
| :--- | :--- | :--- | :--- |
| To $15 \%$ Debentures a/c <br> (Being issue of $15 \%$ debentures as <br> collateral security)    |  |  |

Balance Sheet of Bajaj Ltd as on 31 ${ }^{\text {st }}$ March, 2006

| Liabilities | Rs. | Assets | Rs. |
| :--- | :--- | :--- | :--- |
| $15 \%$ Debentures (issued as <br> Collateral Security) <br> UTI Loan | $60,00,000$ | Debenture <br> account <br> (issued as collateral security) <br> Bank | $50,00,000$ |
|  | $50,00,000$ | 60,000 |  |

Illus.4: X Ltd., issued 2,000,14 debentures of Rs. 100 each to the public at a discount of $10 \%$. The company also took a loan of Rs. $4,00,000$ from the Central Bank and deposited $5,000,14 \%$ debentures with the bank as a collateral security. How will you deal with the issues of debentures in the books of the company and show them in Balance Sheet?

## Solution:

When no entry is to pass for the debentures issued as collateral security:

Note: (a) When debentures are issued on lump sum payment then the debentures are issued directly without putting the amount in "Debenture application account".
(b) No entry is passed for the issue of debentures as collateral security.

Above will be shown in the balance sheet as follows:

Balance Sheet of XLtd as on $\qquad$

| Liabilities | Rs. | Assets | Rs. |
| :--- | :--- | :--- | :--- |
| Share Capital <br> Secured Loans: <br> $14 \%, \quad 2,000$ debentures of | $2,00,0 . .$. | Cash at bank <br> Rs.100 each | Discount on issue of <br> Debentures |
| Bank Loans: <br> $(5,000,14 \%$ Debentures of <br> Rs.100 each deposited as <br> collateral security $)$ | $4,00,000$ |  | 20,000 |
|  | $\mathbf{6 , 0 0 , 0 0 0}$ |  |  |

When accounting entry is to pass for the debentures issued as Collateral Security:

| Date | Particulars | L.F. | Rs. | Rs. |
| :--- | :--- | :---: | :--- | :--- | :--- |
| (c) | Debenture Suspense a/c <br> To $14 \%$ Debentures a/c <br> (Being 5,000, 14\% debentures of |  | $5,00,000$ | $5,00,000$ |
| Rs. 100 each deposited as collateral <br> security to secure the bank loan <br> of Rs.4 lakhs) |  |  |  |  |

Balance Sheet of X Ltd as on

| Liabilities | Rs. | Assets | Rs. |
| :--- | :--- | :--- | :--- |
| Share Capital | $\ldots \ldots \ldots .$. | Cash at bank | $5,80,000$ |
| Secured Loans: |  | Debenture suspense | $5,00,000$ |
| $14 \%, 2,000$ debentures of | $2,00,000$ | account | 20,000 |
| Rs. 100 each |  | Discount on issue of |  |

| $14 \%, 5,000$ debentures of | $5,00,000$ | Debentures |  |
| :--- | :--- | :--- | :--- |
| Rs. 100 each issued as |  |  |  |
| collateral security |  |  |  |
| Bank Loans: |  |  |  |
| $5,000,14 \%$ Debentures of <br> Rs.100 each deposited as <br> collateral security $)$ | $4,00,000$ |  | $\mathbf{1 1 , 0 0 , 0 0 0}$ |

### 19.7 ISSUE OF DEBENTURE ACCORDING TO THE CONDITION OF REDEMPTION :

Generally company declares on issue of debentures regarding the redemption of debentures. The debentures may be redeemed either at par or at premium. When the debentures are to be redeemed at a premium(declared on issue) then the premium payable on redemption will be a capital loss and it is known by the company at the time of issue of such debentures. The accounting entries in different situations are as follows:

\begin{tabular}{|c|c|c|c|c|}
\hline Date \& Particulars \& L.F. \& Rs. \& Rs. <br>
\hline (a)

(b) \& | Debentures issued at par and to be redeemed at premium: |
| :--- |
| (i)On receipt of application: |
| Bank a/c |
| To Debenture application a/c |
| (Being application money received) |
| (ii) On allotment of debentures: | \& \& At par value \& At par value <br>

\hline \& | Debenture application a/c |
| :--- |
| Loss on issue of debentures a/c |
| To Debentures a/c |
| To Premium on redemption |

Debentures issued at discount and redeemable at premium

| Date | Particulars | L.F. | Rs. | Rs. |
| :---: | :---: | :---: | :---: | :---: |
| (a) | On receipt of application: |  |  |  |
|  | Bank a/c Dr. |  | Amount |  |
|  | To Debenture application a/c |  | received | Amount |
|  | (Being debentures application received) |  |  | received |
|  | On allotment: |  |  |  |
|  | Debenture application a/c Dr. |  |  |  |
|  | Discount on issue of debentures a/c Dr. |  |  |  |
|  | Loss on issue of Debentures a/c |  |  |  |
|  | To Debentures a/c |  | Amount |  |
|  | To Premium on redemption of Deb.a/c |  | received |  |
|  | (Being debentures allotted at discount |  | Discount |  |
|  | and provided for premium on redemption) |  | provided | Par value |
|  |  |  | Premium payable on | Premium payable on |

Note: The "Loss on Issue of Debentures a/c" and "Discount on issue of Debentures a/c" are capital losses and appears in the balance sheet on assets side. However, it is a fictitious assets which must be written off as soon as possible. The losses can be written off from any capital profit including securities premium or revenue profit. The entry for writing off of the losses will as follows:

| Date | Particulars | L.F. | Rs. | Rs. |
| :--- | :--- | :--- | :--- | :--- |
|  | Capital Reserve/ Revenue profits a/c Dr. <br> To Loss on issue of Debentures a/c <br> To Discount on issue of Debentures a/c |  |  |  |
|  |  |  |  |  |

It is to be noted that writing off of above losses is not a legal necessity. However, sound financial principles require that such losses should be written off at earlier but in any case before
the redemption of debentures. In other words, "till the above losses are not written off completely, the redemption procedure cannot be started".

Illus. 5 Journalise the following transactions in the books of the company:
(a) Debenture issued at Rs. 1000 and redeemable at Rs.1100;
(b) Debenture issued at Rs. 1100 and redeemable at Rs.1050/1100/1150;
(c) Debenture issued at Rs. 950 and redeemable at Rs. 1100.

Note: Face value of each debenture is Rs. 1000

## Solution:

#### Abstract

* When "loss on issue" is Rs.50, then it will completely be written off from "securities premium" and there will be balance of Rs. 50 in the "Securities Premium a/c". In second condition whole "loss on issue" will be set off from "Securities Premium a/c" and there will be no balance but in the third situation only Rs. 100 of "loss on issue" will be written off and balance of Rs. 50 will be shown in the Balance Sheet at assets side as "Miscellaneous Expenditure" and must be written off during the life time of debentures.

### 19.8 WRITING OFF DISOCUNT AND ISSUE OF DEBENTURES :

When debentures are issued at discount, it is prudent to write off the loss during the life of debentures. When the directors of the company decide to write it off, it can be done in two ways:

## First method:

Under this method the total discount is spread over the life of debentures equally. Thus, if debentures are issued for 15 years, the total discount is divided by 15 and the amount so arrived at is taken to the profit and loss account every year for 15 years. This method is suitable only in one respect, that is, it spreads the burden of discount equally over the years. Thus it is good only when debentures are redeemed at the expiry of the period.

## Second method:

If the debentures are redeemed every year by serving a notice and by drawing a lot, the first method fails in as much as the burden of discount is not in the proportion of benefit received out of money collected by issuing debentures. Under these circumstances the second method is
adopted. Under this method the discount is written off in the proportion of debentures outstanding during the year.

Illus.6: Mahindra Ltd. issued 10,000 14\% debentures of Rs. 100 each at a discount of $12 \%$. How much discount on issue of debentures be written off each year, if (a) Debentures are issued for 5 years; or (b) Rs.2,00,000 debentures are redeemable annually.

## Solution:

(a) If debentures are issued for five years:

The discount on issue of debentures Rs.1,20,000 (12\% of Rs.10,00,000) will be written off in five equal installments of Rs.24,000 (1,20,000/5) each. This amount will be transferred every year to Profit and Loss Account till written off fully.
(b) When debentures are redeemable in five equal installments:

| Year | Unpaid amount <br> Rs. | Ratio to unpaid <br> amount | Amount of Discount to be written off <br> Rs. |
| :--- | :--- | :--- | :--- |
| 1 | $10,00,000$ | 5 | $1,20,000 \times 5 / 15=40,000$ |
| 2 | $8,00,000$ | 4 | $1,20,000 \times 4 / 15=32,000$ |
| 3 | $6,00,000$ | 3 | $1,20,000 \times 3 / 15=24,000$ |
| 4 | $4,00,000$ | 2 | $1,20,000 \times 2 / 15=16,000$ |
| 5 | $2,00,000$ | 1 | $1,20,000 \times 1 / 15=8,000$ |
|  |  |  | Total $=\underline{1,20,000}$ |

## C.D.E <br> 19.17 <br> Acharya Nagarjuna University

Illus.7: On $1^{\text {st }}$ January, 2000 a company issued debentures of the face value of Rs. $1,00,000$ at a discount of $6 \%$. The debentures were payable by annual drawings of Rs.2,00,000 made on $31^{\text {st }}$ December each year. Discount on issue of debentures be written off in the ratio of debentures outstanding each year. Show discount on Issue of debentures account for first three years.

## Solution:

Computation of amount of discount to be written off every year:

| Year | Amount used <br> Rs. | Ratio | Amount to be written off <br> Rs. |
| :--- | :--- | :--- | :--- |
| 2000 | $10,00,000$ | 5 | $60,000 \times 5 / 15=20,000$ |
| 2001 | $8,00,000$ | 4 | $60,000 \times 4 / 15=16,000$ |
| 2002 | $6,00,000$ | 3 | $60,000 \times 3 / 15=12,000$ |
| 2003 | $4,00,000$ | 2 | $60,000 \times 2 / 15=8,000$ |
| 2004 | $2,00,000$ | 1 | $60,000 \times 1 / 15=\underline{4,000}$ |
|  |  |  | Total $=\underline{1,20,000}$ |

Discount on Issue of Debentures Account

|  |  | Rs. |  |  | Rs. |
| :--- | :--- | :--- | :--- | :--- | :--- |
| 2000 |  |  | 2000 |  |  |
| Jan.1 | To Debentures a/c | 60,000 | Dec.31 | By P \& L a/c | 20,000 |
|  |  | $\underline{60,000}$ |  | Dec.31 | By Balance c/d |
| 2001 |  | $\underline{40,000}$ |  |  |  |
| Jan.1 | To Balance b/d | 40,000 | Dec.31 | By P \& L a/c | $\underline{16,000}$ |
|  |  | $\underline{40,000}$ | Dec.31 | By Balance c/d | $\underline{\underline{24,000}}$ |
| 2002 |  |  | 2000 |  | $\underline{40,000}$ |

| Jan.1 | To Balance b/d | $\underline{24,000}$ | Dec.31 | By P \& L a/c |
| :--- | :--- | :--- | :--- | :--- | :--- |
| Dec.31 | By Balance c/d | $\underline{12,000}$ |  |  |
|  | $\underline{\underline{24,000}}$ |  |  | $\underline{24,000}$ |

Illus.8: Kedar Company Ltd. issued debentures of Rs.6,00,000 on $1^{\text {st }}$ July, 2002 at a discount of $5 \%$. The debentures are repayable in three equal instalments of Rs.2,00,000 each on $30^{\text {th }}$ June every year. Calculate the amount of discount to be written off at the end of each year, assuming that the books are closed on $31^{\text {st }}$ March every year.

## Solution:

Calculation of Amount of Discount to be written off

| Year <br> $31^{\text {st }}$ <br> March | Amount used (Rs.) | Months for which amount is used | Total product | Ratio | Amount to be written off |
| :---: | :---: | :---: | :---: | :---: | :---: |
| 2002 | 6,00,000 | 9 months | 54,00,000 | 9 | 1,250 $\times 9=11,250$ |
| 2003 | 6,00,000 | 3 months | 18,00,000 \} | 9 | $1,250 \times 9=11,250$ |
|  | 4,00,000 | 9 months | $36,00,000$ |  |  |
| 2004 | 4,00,000 | 3 months | 12,00,000 | 5 | $1,250 \times 5=6,250$ |
|  | 2,00,000 | 9 months | 18,00,000 |  |  |
| 2005 | 2,00,000 | 3 months | 6,00,000 | 1 | $1,250 \times 1=1,250$ |
|  |  |  | Total | 24 | 30,000 |

Note: Total Discount $=$ Rs. $30,000 / 24=$ Rs. 1,250
Amount to be written off in proportion of outstanding amount of debentures at the end of every year after given the weightage to the period for which it was outstanding.

Accordingly Rs.11,250; Rs.11,250; Rs.6,250 and Rs.1,250 has been written off at the end of $31^{\text {st }}$ March, 2002, 2003, 2004, 2005 respectively.

### 19.9 INTEREST ON DEBENTURES :

As discussed earlier the debenture is a loan capital. So, the company has to pay the interest on debentures by pre-decided rate. Debenture interest is the cost of using funds borrowed by the company. Therefore, the amount of debenture interest is charged to profit and
C.D.E $19.19 \quad$ Acharya Nagarjuna University
loss account. The company has to keep in mind the following important rules at the time of payment of interest:-
(1) The interest is always payable on face value of debentures not on issue price.
(2) The interest will be paid on due dates only but, if the debentures are redeemed then it will be redeemed after paying the interest upto the date of redemption.
(3) One who is registered holder on the due date of interest will get the interest.

Example: 12\%, Rs. 100 Debentures are issued at Rs. 80 per debenture by a company. The interest is payable on $30^{\text {th }}$ June and $31^{\text {st }}$ December every year. Mr. Ramesh purchased 500 debentures from Mr. Shyam on $30^{\text {th }}$ November. In this example:
a. Company will always pay the interest on Rs. 100
b. Company will pay the interest on $30^{\text {th }}$ June and $31^{\text {st }}$ December only
c. One who is register holder of security on the due date of interest will get interest. Ramesh acquired the debentures on $30^{\text {th }}$ November and the interest will be due on $31^{\text {st }}$ December then he will get the interest of last 6 months (from $1^{\text {st }}$ July). Although Shyam held the debentures for 4 months but he will not receive any amount of interest.

### 19.9.1 Other important points of interest on debenture:

a. The interest is a charge on the profit of the company therefore, the company has to pay the interest whether there is profit or not.
b. According to Schedule VI, Part A of Companies Act, 1956, the debenture interest should be shown separately in the Profit and Loss Account. It should not be merged with general interest.
c. The company has to deduct the income tax from the amount of interest by the rate prescribed under the Income-Tax Act and such deducted amount must be deposited with the Central Government by the $7^{\text {th }}$ of next month. This will be deposited in the name of the recipient of interest or debenture holder. The debenture holder will adjust this amount with the personal income tax or may get refund from the Government. Such amount deducted by the company is termed as "Tax deducted at source".
The following journal entries will be passed by the company related to debenture interest:

Financial Accounting $19.20 \quad$ Issue of Debentures

|  | (Debenture interest due) |  |
| :---: | :---: | :---: |
| (ii) On Payment | Debenture-holders <br> Dr. <br> To Bank a/c <br> To Tax deducted at source <br> (Being debenture interest paid and <br> tax is deducted at source) | Gross interest Net payment Income Tax |
| (iii) Tax deposited with Government | Tax deducted at Source a/c Dr. <br> To Bank a/c <br> (Being tax deducted, deposited) | Income Tax |
| (iv) Transfer of Interest | Profit \& Loss a/c Dr. $\quad$ To Debenture Interest a/c (Being debenture interest transferred) | Gross Interest |

Note: (i) When the tax is not to be deducted at source then in above (ii) entry, the gross interest will be paid to the debenture holders and (iii) entry will not be passed.

|  | Debenture Interest a/c <br> To bank a/c <br> (Being debenture interest paid) | Dr. | By total interest amount |
| :--- | :--- | :--- | :--- |

Illus.9: On $1^{\text {st }}$ January, 2004 Sahiti Ltd. issued 5,000 12\%debentures of Rs. 100 each at a discount of $5 \%$ payable in full on application on or before $1^{\text {st }}$ Feb., 2002. Interest on the debentures would be paid on $30^{\text {th }}$ June and $31^{\text {st }}$ December every year. In response to these, public subscribed for 5,000 debentures. On the same date Sahiti Ltd. borrowed Rs. $1,50,000$ from the Bank of Rajasthan Ltd. and deposited debentures of Rs.3,00,000 as collateral security.

Pass necessary Journal entries regarding the issue of debentures, raising of bank loan and payment of debenture interest for 2004. Also show the item of debentures in the Balance Sheet of the Company on $31^{\text {st }}$ December, 2004.

## C.D.E

### 19.10 QUESTIONS :

1. What are Debentures? Explain their features.
2. State the provisions relating to the issue of debentures.
3. How do you treat issue of debentures at discount from accounting point of view?
4. Explain the accounting treatment of debentures issued at discount.
5. Explain the accounting treatment of Issue of debentures as collateral security.

### 19.11 EXERCISES :

1. B Ltd. made the following issues of debentures:
a. For cash, 6,000, 7\% Debentures of Rs. 100 each at $5 \%$ premium.
b. To a creditor, from whom machinery worth Rs. $1,00,000$ was purchased: 1,100, 7\% Debentures of Rs. 100 each.

Record the above transactions in the Journal of the company.
2. A company issued $1,000,14 \%$ debentures of Rs. 100 each at Rs. 95 payable - Rs. 30 on application, Rs. 50 on allotment and the balance of cal. Anand holding 50 debentures did not pay the money. Rest of the amount was duly received in time. Prepare $14 \%$ Debentures Account in the books of the company.
(Ans: Total of 14\% Debentures a/c Rs.1,00,000)
3. The Rajasthan Timber Ltd. issued on $1^{\text {st }}$ January, 2005-10,000, 14\% Debentures of Rs. 100 each at rs.95. The debenture money is payable as: Rs. 50 on application and the balance on
allotment. Applications for 15,000 debentures along with the deposits required were received. Allotment was made proportionately. Over-subscription being applied in payment on the balance due on allotment. Allotments were made on $15^{\text {th }}$ January. Interest was payable on $30^{\text {th }}$ June and $31^{\text {st }}$ December each year, the first payment being due for the period from $1^{\text {st }}$ February to $30^{\text {th }}$ June, 2005. Pass necessary Journal entries in the books of the company.
(Ans: Cash on allotment 2,00,000; Interest Rs.61,250)
4. On $1^{\text {st }}$ January, 2004, the Sasikant Ltd. issued Rs.20,00,000, $12 \%$ Debentures of Rs. 1,000 each as under:
a. 950 Debentures at a premium of $20 \%$ on cash
b. 400 Debentures to a Vendor who sold Land \& Buildings costing Rs. $4,40,000$
c. 600 Debentures to Rajasthan Bank Ltd. for a loan of Rs.4,00,000 as a collateral security Interest on Debentures is payable on $30^{\text {th }}$ June and $31^{\text {st }}$ December @ $12 \%$ per annum. Journalise the above transactions for the year 2004 and show the Bank Loan in the Balance Sheet of the company when no entry is passed in the books of the company for debentures deposited as a collateral security.
(Ans: a. Bank Rs.13,24,000, b. Discount on Issue of Debenture Rs.10,000; Debentures Interest Rs.84,000 + Rs.84,000; Interest on bank Loan Rs.48,000)
5. Manasa Ltd. issued 200, 15\% Debentures of Rs. 100 each. Give Journal entries in each of the following cases in the books of the company:
a. Issued at Rs.93, repayable at Rs. 100
b. Issued at Rs.94, repayable at Rs. 106
c. Issued at Rs.100, repayable at Rs. 110
d. Issued at Rs.110, repayable at Rs. 110
6. On $1^{\text {st }}$ January, 2003 Rajsekhar Ltd. issued 1,000, $14 \%$ Debentures of Rs. 200 each at a discount of $6 \%$. The debentures were repayable by annual installments of Rs.40,000 each, from $31^{\text {st }}$ December, 2003 each year. The directors decided to write off discount on issue over the period of debentures in such a way as to charge each year with an amount proportionate to debentures outstanding in that year. Show the Discount on Issue of Debentures Account for three years in the Ledger of Rajsekhar Ltd.

## Financial Accounting 19.24

Issue of Debentures
(Ans: Discount to be w/o Rs.4,000; Rs.3,200; Rs.2,400 in 2003, 2004, 2005 respectively)
